

## Managing cookies in Google Chrome

### Remark

Depending on your browser's version, this procedure may not fully correspond to what you see on your device.

### Blocking or allowing cookies

1. Click on the Chrome menu in the browser toolbar and select **Settings**.
2. At the bottom, click on **Show advanced settings...**
3. In the Privacy section, click on **Content settings....**
4. In the Cookies section, you can then define the cookie settings to suit your preferences.

### Blocking or allowing cookies at specific websites

1. Click on the Chrome menu in the browser toolbar and select **Settings**.
2. At the bottom, click on **Show advanced settings...**
3. In the Privacy section, click on **Content settings....**
4. In the Cookies section, you can then define the cookie settings to suit your preferences.
5. In the **Hostname pattern** field enter the address of the website and select **Allow**, **Clear on exit** or **Block**.

To allow the cookies of Belfius websites, you need to enter `[*].belfius.be` and `[*].belfius.com` like this. Then select **Allow**.

6. Then click on **Done**.

## Deleting cookies

1. Click on the Chrome menu in the browser toolbar and select **Settings**
2. At the bottom, click on **Show advanced settings...**
3. In the Privacy section, click on **Content settings....**
4. In the Cookies section, select **All cookies and site data...**
5. Click on **Remove all** if you wish to delete all cookies. If you only want to delete specific cookies, select them in the list and click on **Remove**.
6. Then click on **Done**.

## Managing cookies in Chrome on mobile devices

NB: the procedure below may differ, depending on your device or version of Chrome version.

1. Click on the Chrome menu in the browser toolbar and select **Settings**.
2. Select **Site settings**.
3. In the Cookies section, you can then define the cookie settings to suit your preferences.
