

## Managing cookies in Mozilla Firefox

### Remark

Depending on your browser's version, this procedure may not fully correspond to what you see on your device.

### Blocking or allowing cookies

1. Click on  or **Tools** (in the menu) and select **Options**.
2. Select **Privacy**.
3. Set **Firefox will:** at **Use custom settings for history**.
4. In **Accept cookies from sites** you can define the general cookie settings to suit your preferences.

### Blocking or allowing cookies at specific websites

1. Go to the website for which you want to block the setting of cookies in Firefox.
2. Right-click in the page and select **View Page Info**
3. In this window, select **Permissions**.
4. Under **Set Cookies**, untick **Use Default** and select **Allow**, **Allow for Session** or **Block**.

To allow cookies from the Belfius website, you will need to follow the procedure above from a page at belfius.be or belfius.com and then select **Allow**.

5. Then close this window.

## Deleting cookies

1. Click on  or **Tools** (in the menu) and select **Options**.
2. Select **Privacy**.
3. Click on **Remove individual cookies**.

To delete all cookies, click on **Remove All Cookies**. If you wish to delete individual cookies, select the site you want from the list and click on **Remove Cookie**.
