Belfius voted 'Best Trade Finance Provider 2021 in Belgium'

International magazine, Global Finance, votes Belfius 'Best Trade Finance Provider 2021 in Belgium'. Great recognition for the talented people at Belfius.

Supporting businesses and the people who own and run them is one of the key points of the Belfius strategy. As a Belgian bank and insurance company with strong local roots, Belfius aims to do everything it can to assist them in their growth and activities, including in other countries. Being awarded the accolade of 'Best Trade Finance Provider 2021 in Belgium' is recognition of the efforts made by Belfius in the past year to help and guide Belgian businesses on a day-to-day basis in their import and export activities. The jury praised the international expertise of Belfius's talented staff, along with the company's tailored solutions and its outstanding, local end-to-end services.

Dirk Gyselincx, member of the Management Board at Belfius Bank: *"In all circumstances, in both good times and in bad, Belfius does everything it can to offer businesspeople genuine added value. Despite the challenges, such as homeworking and documents and goods getting blocked in transit by lockdowns abroad, last year we were a permanent presence by the side of the people who own and run our businesses. We are delighted with this recognition of our expertise and over the years ahead we will continue to work fully on supporting Belgian companies in their business endeavours, both at home and abroad. This prestigious award is a clear confirmation of our approach."*
