NOTES ISSUANCE PROGRAMME

EUR 20,000,000,000

Under the Notes Issuance Programme (the “**Programme**”) described in this base prospectus (the “**Base Prospectus**”), Belfius Bank SA/NV (with legal entity identifier (“**LEI**”) A5GWLFH3KM7YV2SFQL84) (also named Belfius Banque SA/Belfius Bank NV, “**Belfius Bank**”) and Belfius Financing Company (with LEI 222100XN1KG7XBC16R52) (“**Belfius Financing Company**”), together the “**Issuers**” and each, individually, an “**Issuer**”, may from time to time, issue notes (in the case of notes issued by Belfius Bank referred to as the “**Belfius Bank Notes**”, in the case of notes issued by Belfius Financing Company as the “**Belfius Financing Company Notes**”, together referred to as the “**Notes**” and individually as a “**Note**”), which may be linked to various underlyings (the “**Underlying**”), that rank as senior preferred obligations of the Issuers (the “**Notes**”). Notes issued by Belfius Financing Company will be guaranteed by Belfius Bank (the “**Guarantor**”) pursuant to a senior preferred unsecured guarantee (the “**Guarantee**”).

The aggregate principal amount of Notes outstanding will not at any time exceed EUR 20,000,000,000 (or the equivalent in other currencies).

Each Tranche of Notes will be documented by final terms (the “**Final Terms**”). Copies of the Final Terms will be made available on Belfius’ website (<https://www.belfius.be/retail/nl/producten/sparen-beleggen/beleggen/obligaties-gestructureerde-uitgifte/index.aspx> / <https://www.belfius.be/retail/fr/produits/epargner-investir/investir/obligations-emissions-structurees/index.aspx>).

This Base Prospectus is to be read in conjunction with all documents which are incorporated herein by reference (see Section 5 of this Base Prospectus). This Base Prospectus should be read and construed together with any amendments or supplements hereto and, in relation to any Tranche of Notes, should be read and construed in conjunction with each applicable Final Terms.

This Base Prospectus (as amended or supplemented from time to time and including all documents incorporated by reference therein) and the applicable Final Terms together constitute the prospectus for each Tranche of Notes. Any decision to invest in Notes should be based on a consideration of this Base Prospectus as a whole and the applicable Final Terms.

The Notes shall be Debt Securities or Derivative Securities as referred to in the Commission Delegated Regulation (EU) 2019/980 of 14 March 2019 supplementing Regulation (EU) 2017/1129 of the European Parliament and of the Council as regards the format, content, scrutiny and approval of the prospectus to be published when securities are offered to the public or admitted to trading on a regulated market, and repealing Commission Regulation (EC) No 809/2004, as amended (herein referred to as “**Commission Delegated Regulation (EU) 2019/980**”). Debt Securities are debt instruments for which the Issuer commits itself to redeem the principal invested at maturity. Derivative Securities are securities of which the value is dependent on the value of an underlying.

The Belfius Bank Notes will be issued in dematerialised form in accordance with Articles 7:35 et seq. of the Belgian Code of Companies and Associations, and will be represented by a book-entry in the records of the clearing system operated by the National Bank of Belgium (the “NBB”) or any successor thereto (the “**Securities Settlement System**”). The Belfius Financing Company Notes will be issued in dematerialised form, in registered form (*obligations nominatives/obligaties op naam*) or in bearer form and will be governed by Belgian law. The Belfius Financing Company Notes which are issued in dematerialised form will be represented by a book-entry in the records of the Securities Settlement System. The Belfius Financing Company Notes which are issued in registered form (*obligations nominatives/obligaties op naam*) will be issued pursuant to the applicable provisions of Articles 7:27 to 7:34 of the Belgian Code of Companies and Associations to the extent not deviated from by the Terms and Conditions of the Belfius Financing Company Notes. The Belfius Financing Company Notes which are issued in bearer form will be represented by a Permanent Global Note, deposited with the common depository for Euroclear and Clearstream Banking S.A. and will not be exchangeable for definitive notes.

Notes issued under this Programme constitute unsecured debt instruments. In case of insolvency or default by an Issuer or the Guarantor (as applicable), investors may not recover all amounts they are entitled to and risk losing all or a part of their investment. Investing in Notes issued under the Programme involves certain risks and may not be a suitable investment for all investors. Each prospective investor must carefully consider whether it is suitable for that investor to invest in the Notes in light of its knowledge and financial experience and should, if required, obtain professional advice. Prospective investors should read this Base Prospectus in its entirety and, in particular, the risk factors described under Section 2 (*Risk Factors*) before making an investment decision in order to fully understand the potential risks and rewards associated with the decision to invest in the Notes. In case of an issue of Green Notes or Social Notes, investors should in particular read the risk factor entitled “*Risks related to Notes which qualify as “Green Notes” or “Social Notes” which have a particular use of proceeds identified in the applicable Final Terms*” including the sub-risk factors thereunder entitled “*Notes issued as Green Notes or Social Notes may not meet investor expectations or requirements*”, “*No assurance of suitability or reliability of any Second Party Opinion*”, “*No Event of Default or breach of contract*” and “*Notes issued as Green Notes or Social Notes are not linked to the performance of the Eligible Green Assets or Eligible Social Assets, as applicable, do not benefit from any arrangements to enhance the performance of the Green Notes or Social Notes or any contractual rights derived solely from the intended use of proceeds of such Green Notes or Social Notes*”.

In particular, each potential investor may wish to consider, either on its own or with the help of its financial and other professional advisers, whether it:

- (i) has sufficient knowledge and experience to make a meaningful evaluation of the Notes, the merits and risks of investing in the Notes and the information contained or incorporated by reference into this Base Prospectus or any applicable supplement;
- (ii) has access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Notes and the impact the Notes will have on its overall investment portfolio;
- (iii) has sufficient financial resources and liquidity to bear all of the risks of an investment in the Notes, including Notes where the currency for principal or interest payments is different from the potential investor’s currency;
- (iv) understands thoroughly the terms of the Notes and is familiar with the behaviour of any relevant financial markets; and
- (v) is able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

Legal investment considerations may restrict certain investments. The investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent (i) Notes are legal investments for it, (ii) Notes can be used as collateral for various types of borrowing and (iii) other restrictions apply to its purchase or pledge of any Notes. Financial institutions should consult their legal advisors or the appropriate regulators to determine the appropriate treatment of Notes under any applicable risk-based capital or similar rules.

Belfius Financing Company is a fully owned subsidiary of Belfius Bank. This means that, for Notes issued by Belfius Financing Company, the credit risks of the Issuer and the Guarantor are closely linked. Such credit risks imply that the Noteholders may lose all or part of their investment in the Notes in case the Issuer and/or the Guarantor become insolvent or are unable to fulfil their obligations under the Notes and/or the Guarantee, respectively.

This Base Prospectus was approved by the Belgian Financial Services and Markets Authority (“**FSMA**”) on 19 May 2025 as competent authority under the Regulation (EU) 2017/1129 of the European Parliament and of the Council of 14 June 2017 on the prospectus to be published when securities are offered to the public or admitted to trading on a regulated market, and repealing Directive 2003/71/EC, as amended (the “**Prospectus Regulation**”) and is valid for a period of twelve months from that date, provided that this Base Prospectus may be updated by any supplements in accordance with Article 23 of the Prospectus Regulation. This Base Prospectus replaces and supersedes the base prospectus of Belfius Financing Company and of Belfius Bank dated 21 May 2024 (except with respect to any Notes offered to the public under the base prospectus dated 21 May 2024 and which offer continues after the expiration of such previous base prospectus under which it was commenced). This Base Prospectus shall be valid for a period of twelve months from its date of approval, being until 19 May 2026. The obligation to supplement this Base Prospectus in the event of a significant new factor, material mistake or material inaccuracy does not apply when this Base Prospectus is no longer valid.

Where this Base Prospectus contains hyperlinks to websites, the information on the websites does not form part of, and is not incorporated by reference into, this Base Prospectus and has not been scrutinised or approved by the FSMA, except for information that is expressly incorporated by reference into this Base Prospectus, in accordance with Section 5 of this Base Prospectus.

The long-term ratings of Belfius Bank as at the date of this Base Prospectus are A1 (Moody’s), A (Standard & Poor’s) and A- (Fitch). A security rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, reduction or withdrawal at any time by the assigning rating agency. An outlook is not necessarily a precursor of a rating change or future credit watch action. In case of any rating action by any of the rating agencies, the most recent credit ratings of Belfius Bank are always published on Belfius’¹ website, at the following address: <https://www.belfius.be/about-us/en/investors/ratings>. Investors should note that Belfius Financing Company is not rated as at the date of this Base Prospectus and that Notes issued under the Programme will not be rated.

Each of Moody’s, Standard & Poor’s and Fitch is established in the European Union and is, on the date of this Base Prospectus, included in the updated list of credit rating agencies registered in accordance with Regulation (EC) No 1060/2009 of the European Parliament and of the Council of 16 September 2009 on credit rating agencies, as amended (the “**CRA Regulation**”) published on the European Securities and Markets Authority (“**ESMA**”)’s website (<https://www.esma.europa.eu/supervision/credit-rating-agencies/risk>). The information on this website does not form part of, and is not incorporated by reference into, this Base Prospectus and has not been scrutinised or approved by the FSMA.

This Base Prospectus and the Final Terms (including the summary thereto, if applicable) of each Tranche of Notes that is not made within an exemption from the requirement to publish a prospectus under the Prospectus Regulation (a “**Public Offer**”) and any supplement to this Base Prospectus will be made available on Belfius’ website in Dutch (<https://www.belfius.be/retail/nl/producten/sparen-beleggen/beleggen/obligaties-gestructureerde-uitgifte/index.aspx>) and in French (<https://www.belfius.be/retail/fr/produits/epargner-investir/investir/obligations-emissions-structures/index.aspx>) and a copy will be able to be obtained free of charge in the offices of the Guarantor.

Pursuant to Article 8.8 of the Prospectus Regulation, in case of a Public Offer and to the extent required in accordance with Article 7 of the Prospectus Regulation, a summary shall be drawn up once the Final Terms are included in this Base Prospectus or in a supplement to this Base Prospectus or are prepared separately, and that summary shall be specific to the individual issue.

MIFID II product governance / target market – The Final Terms in respect of any Notes will include a legend entitled “**MiFID II Product Governance**” which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a “**distributor**”) should take into consideration the target market assessment. A distributor subject to Directive 2014/65/EU of the European Parliament and of the Council of 15 May 2014 on markets in financial instruments and amending Directive 2002/92/EC and Directive 2011/61/EU (recast), as amended (“**MiFID II**”) is, however, responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels. A determination will be made in relation to each issue about whether, for the purpose of the MiFID II Product Governance rules under Commission Delegated Directive (EU) 2017/593 of 7 April 2016, as amended, any distributor subscribing for any Notes is a manufacturer in respect of such Notes.

EU Benchmarks Regulation – Interest and/or other amounts payable under the Notes may be calculated by reference to certain reference rates. Any such reference rate may constitute a benchmark for the purposes of Regulation (EU) 2016/1011, as amended (the “**EU Benchmarks Regulation**”). If any such reference rate does

¹ Belfius Bank and its consolidated subsidiaries are referred to herein as “**Belfius**”.

constitute such a benchmark, the applicable Final Terms will indicate whether or not the benchmark is provided by an administrator included in the register of administrators and benchmarks established and maintained by the ESMA pursuant to Article 36 of the EU Benchmarks Regulation. Not every reference rate will fall within the scope of the EU Benchmarks Regulation. Transitional provisions in the EU Benchmarks Regulation may have the result that the administrator of a particular benchmark is not required to appear in the register of administrators and benchmarks at the date of the applicable Final Terms (or, if located outside the European Union, recognition, endorsement or equivalence). The status of any administrator under the EU Benchmarks Regulation is a matter of public record and, save where required by applicable law, the relevant Issuer does not intend to update the applicable Final Terms to reflect any change in the status of the administrator.

Amounts payable under the Notes may be calculated by reference to EURIBOR, SONIA, €STR, SOFR or the OLO Reference Rate, as specified in the applicable Final Terms (or such other benchmark as may be specified in the applicable Final Terms). As at the date of this Base Prospectus, the European Money Markets Institute (as administrator of EURIBOR) is included in ESMA's register of administrators under Article 36 of the EU Benchmarks Regulation. As at the date of this Base Prospectus, the Bank of England (as administrator of SONIA), the European Central Bank (as administrator of €STR) and the Federal Reserve Bank of New York (as administrator of SOFR) do not appear in ESMA's register of administrators under the EU Benchmarks Regulation. As far as the Issuer is aware, SONIA, €STR, SOFR and the OLO Reference Rate do not fall within the scope of the EU Benchmarks Regulation by virtue of Article 2 of the EU Benchmarks Regulation.

The Notes issued in dematerialised form within the Securities Settlement System where the Reference Rate (as defined in "Terms and Conditions of the Notes") is SONIA, SOFR, €STR or the OLO Reference Rate may only be held by, and may only be transferred to, eligible investors referred to in Article 4 of the Belgian Royal Decree of 26 May 1994, as amended, holding their Notes in an exempt securities accounts ("**X-Account**") that has been opened with a financial institution that is a direct or indirect participant in the Securities Settlement System operated by the National Bank of Belgium.

Notes issued as Green Notes or Social Notes – None of the Issuers nor the Guarantor accepts any responsibility for any social, environmental or sustainability assessment of any Notes issued as Green Notes or Social Notes by any third party or makes any representation or warranty or assurance whether such Notes will meet any investor expectations or requirements regarding such "green", "social", "sustainability" or similar labels. No representation or assurance is given by the Issuers or the Guarantor as to the suitability or reliability of any opinion or certification of any third party made available in connection with an issue of Notes issued as Green Notes or Social Notes, nor is any such opinion or certification a recommendation by the Issuers or the Guarantor to buy, sell or hold any such Notes issued as Green Notes or Social Notes. Any information on, or accessible through, Belfius' website relating to Belfius' Green Bond Framework (as defined in the section headed "*Green Bond Framework*") or Belfius' Social Bond Framework (as defined in the section headed "*Social Bond Framework*") and the information in the Green Bond Framework, the Social Bond Framework and any second party opinion is not part of, nor is it incorporated in, this Base Prospectus. In addition, no assurance or representation is given by the Issuers, the Guarantor or any other person as to the suitability or reliability for any purpose whatsoever of any opinion, report or certification of any third party in connection with the offering of the Notes issued as Green Notes or Social Notes. Any such opinion, report or certification and any other document related thereto is not, nor shall it be deemed to be, incorporated in and/or form part of this Base Prospectus. Any such opinion is only current as of the date that opinion was initially issued. Prospective investors must determine for themselves the relevance of any such opinion and/or the information contained therein and/or the provider of such opinion for the purpose of any investment in the Notes issued as Green Notes or Social Notes. For the avoidance of doubt, this is without prejudice to the responsibility of the Issuers for the information contained in this Base Prospectus as set out in the section headed "*Responsibility Statement*" and for the information contained in the applicable Final Terms as indicated therein.

No person is or has been authorised to give any information or to make any representation other than those contained in this Base Prospectus in connection with the issue or sale of the Notes and, if given or made, such information or representation must not be relied upon as having been authorised by the Issuers or the Guarantor. Neither the delivery of this Base Prospectus nor any sale made in connection herewith shall, under any circumstances, create any implication that there has been no change in the affairs of the Issuers or the Guarantor since the date hereof or the date upon which this Base Prospectus has been most recently amended or supplemented, or that there has been no adverse change in the financial position of the Issuers or the Guarantor since the date hereof or the date upon which this Base Prospectus has been most recently amended or supplemented, or that any other information supplied in connection with the Programme is correct as of any time subsequent to the date on which it is supplied or, if different, the date indicated in the document containing the same. If at any time during the life of the Programme the Issuers and the Guarantor shall be required, in the event of a significant new factor, material mistake or material inaccuracy relating to the information included in this

Base Prospectus, to prepare a supplement pursuant to Article 23 of the Prospectus Regulation, the Issuers and the Guarantor will prepare and make available an appropriate supplement to this Base Prospectus.

Forward-looking statements – This Base Prospectus contains or incorporates by reference certain statements that constitute forward-looking statements. Such forward-looking statements may include, without limitation, statements relating to the Issuers’ and Guarantor’s business strategies, trends in its business, competition and competitive advantage, regulatory changes, and restructuring plans. Words such as believes, expects, projects, anticipates, seeks, estimates, intends, plans or similar expressions are intended to identify forward-looking statements but are not the exclusive means of identifying such statements. The Issuers and the Guarantor do not intend to update these forward-looking statements except as may be required by applicable securities laws. By their very nature, forward-looking statements involve inherent risks and uncertainties, both general and specific, and risks exist that predictions, forecasts, projections and other outcomes described or implied in forward-looking statements will not be achieved. A number of important factors could cause actual results, performance or achievements to differ materially from the plans, objectives, expectations, estimates and intentions expressed in such forward-looking statements. These factors include: (i) the ability to maintain sufficient liquidity and access to capital markets; (ii) market and interest rate fluctuations; (iii) the strength of the global economy in general and the strength of the economies of the countries in which the Issuers and the Guarantor conduct operations; (iv) the potential impact of sovereign risk, particularly in certain European Union countries which have in the past come under market pressure; (v) adverse rating actions by credit rating agencies; (vi) the ability of counterparties to meet their obligations to the Issuers and the Guarantor; (vii) the effects of, and changes in, fiscal, monetary, trade and tax policies, and currency fluctuations; (viii) the possibility of the imposition of foreign exchange controls by government and monetary authorities; (ix) operational factors, such as systems failure, human error, or the failure to implement procedures properly; (x) actions taken by regulators with respect to the Issuers’ and the Guarantor’s business and practices in one or more of the countries in which the Issuers and the Guarantor conducts operations; (xi) the adverse resolution of litigation and other contingencies; (xii) the impact of events such as, or similar to, the Covid-19 pandemic and the conflict in Ukraine on the operations and financial position of the Issuers and the Guarantor; and (xiii) the Issuers’ and Guarantor’s success at managing the risks involved in the foregoing. The foregoing list of important factors is not exclusive. When evaluating forward-looking statements, investors should carefully consider the foregoing factors and other uncertainties and events, as well as the other risks identified in this Base Prospectus.

This Base Prospectus contains various amounts and percentages which have been rounded and, as a result, when those amounts and percentages are added up, they may not total.

The distribution of this Base Prospectus and the offer or sale of the Notes may be restricted by law in certain jurisdictions. Neither the Issuers nor the Guarantor represent that this Base Prospectus may be lawfully distributed, or that the Notes may be lawfully offered, in compliance with any applicable registration or other requirements in any such jurisdiction, or pursuant to an exemption available thereunder, or assume any responsibility for facilitating any such distribution or offering. Accordingly, the Notes may not be offered or sold, directly or indirectly, and neither this Base Prospectus nor any advertisement or other offering material may be distributed or published in any jurisdiction, except under circumstances that will result in compliance with any applicable laws and regulations. Persons into whose possession this Base Prospectus or the Notes may come are required by the Issuers and the Guarantor to inform themselves about, and to observe, any such restrictions on the distribution of this Base Prospectus and the offering and sale of the Notes. For a description of certain restrictions on offers and sales of Notes and on the distribution of this Base Prospectus, see “*Terms and Conditions of the Offer*”.

<p>This Base Prospectus was approved by the FSMA on 19 May 2025 as competent authority under the Prospectus Regulation in accordance with Article 20 of the Prospectus Regulation. This approval does not entail any appraisal of the appropriateness or the merits of any issue under the Programme nor of the situation of the Issuers or the Guarantor. The FSMA only approves this Base Prospectus as meeting the standards of completeness, comprehensibility and consistency imposed by the Prospectus Regulation and such approval should not be considered as an endorsement of this Base Prospectus.</p>

2. RISK FACTORS

(Annex 6.3 and 14.2 of Commission Delegated Regulation (EU) 2019/980)

The following section sets out certain aspects of the offering of the Notes of which prospective investors should be aware.

An investment in the Notes involves a degree of risk. Prospective investors should carefully consider the risks set forth below and the other information contained in this Base Prospectus (including information incorporated by reference herein) before making any investment decision in respect of the Notes.

In accordance with the requirements of the Prospectus Regulation, the most material risk factors within each category have been presented first according to an assessment made by the Issuers and the Guarantor based on the probability of their occurrence and the expected magnitude of their negative impact. The exact order in which the remaining risk factors are presented is not necessarily indicative of the probability of those risks actually occurring or of the scope of any potential negative impact thereof. Investors should note that the numbering of the risk factors is only included to enhance readability and does not reflect a specific order of the risk factors.

*The Issuers and the Guarantor have assessed the most material risks, taking into account the negative impact (including any relevant mitigation measures) of such risks on the Issuers and the Guarantor and the probability of their occurrence (“**Global Criticality**”). Each risk factor relating to the Issuers and the Guarantor is followed by the Issuers’ and the Guarantor’s assessment of whether such Global Criticality can be assessed as high, medium or low.*

The risks described below are risks which the Issuers and the Guarantor believe may have a material adverse effect on the relevant Issuer’s and/or the Guarantor’s (as applicable) financial condition and the results of its operations, the value of the Notes or the relevant Issuer’s ability to fulfil its obligations under the Notes or the Guarantor’s ability to fulfil its obligations under the Guarantee applicable to the Belfius Financing Company Notes. Factors which the Issuers and the Guarantor believe may be material for the purpose of assessing the market risks associated with the Notes issued under the Programme are also described below. All of these factors are contingencies which may or may not occur and the inability of the relevant Issuer to pay interest, principal or other amounts on or in connection with any Notes and the inability of the Guarantor to make payments in respect of the Guarantee applicable to the Belfius Financing Company Notes may occur for other reasons which are not known to the Issuers and the Guarantor or which the Issuers and the Guarantor deem immaterial at this time.

Prospective investors should carefully consider the risks set forth below and read the detailed information set out elsewhere in this Base Prospectus (including any documents deemed to be incorporated in it by reference) and reach their own views prior to making any investment decision.

In case of doubt in respect of the risks associated with the Notes and the Guarantee applicable to the Belfius Financing Company Notes and in order to assess their adequacy with their personal risk profile, investors should consult their own financial, legal, accounting and tax experts about the risks associated with an investment in these Notes, the appropriate tools to analyse that investment, and the suitability of that investment in each investor’s particular circumstances. No investor should purchase the Notes described in this Base Prospectus unless that investor understands and has sufficient financial resources to bear the price, market, liquidity, structure, redemption and other risks associated with an investment in these Notes. The market value of the Notes is expected to fluctuate over time, and investors should be prepared to assume the market risks associated with these Notes.

Capitalised terms used herein and not otherwise defined shall bear the meaning ascribed to them in the “Terms and Conditions of the Notes” or elsewhere in this Base Prospectus. Any reference to any code, law, decree, regulation, directive or any implementing or other legislative measure shall be construed as a reference to such

code, law, decree, regulation, directive or implementing or other legislative measure as the same may be amended, supplemented, restated and/or replaced from time to time.

2.1. Risks related to Belfius Bank

2.1.1. Belfius is exposed to risks in relation to its run-off portfolios (Global Criticality: Very High)

Belfius is exposed to risks related to its run-off portfolios, which originate from the period before its separation from the Dexia Group in 2011. These run-off portfolios are mainly comprised of (i) a portfolio of bonds issued by international issuers, particularly active in the public and regulated utilities sector (which includes UK inflation-linked bonds) and ABS/RMBS, the so-called ALM Yield bond portfolio (notional value of €2.8 billion as at 31 December 2024), (ii) a portfolio of credit guarantees, comprising credit default swaps and financial guarantees written on underlying bonds issued by international issuers, and partially hedged by Belfius with monoline insurers (mostly Assured Guaranty, notional value of €1.9 billion as at 31 December 2024) and (iii) a portfolio of IR derivatives with Dexia entities as counterparty and with other foreign counterparties (notional value of €6.0 billion as at 31 December 2024). More details on the characteristics of Belfius' run-off portfolios can be found in the section entitled "Group Center" starting on page 73 of Belfius' 2024 annual report.

There can be no assurance that the risk profile of the run-off portfolios will not deteriorate during the remainder of their lifetimes. Despite the underlying good creditworthiness of most exposures in these portfolios, their long-term maturity, their single-name and industry concentration and their liquidity profile result in a higher sensitivity of the fair value of these run-off portfolios to adverse macroeconomic conditions, for instance, compared to Belfius's core business portfolios. As an example, continued pressure in the UK water sector has resulted in the shift of several counterparties to the non-investment grade range in 2024. Given long maturity of the run-off portfolio, these concentrations are not expected to decline rapidly.

A deterioration of Assured Guaranty's credit quality would have a negative impact on risk-weighted assets and potentially the cost of risk ("CoR"). Furthermore, deteriorations or defaults within the run-off portfolios in general could lead to important losses, mainly in cases where the position is not guaranteed or in the event of a default by the guarantor. If Belfius is forced to sell those positions before the respective maturities, it could in some cases also lead to significant losses. Belfius is also exposed to concentration risks related to certain other counterparties which could lead to significant losses in the event of a default, particularly in cases where the CoR materially underestimates the potential losses that could occur if a default were to materialise. For inflation-linked bonds, for example, the impact in case of a default can be exacerbated by a rupture in the hedge relation between the bond and the inflation-linked swap used to cover the cash flows.

Although Belfius monitors its run-off portfolios closely and conducts annual stress tests, if these risks were to materialise or if Belfius were unable to manage its credit and market risks related to these portfolios effectively, its business, results of operations, financial condition and prospects could be materially adversely affected.

2.1.2. Changes in (future) profitability may have an adverse effect on Belfius (Global Criticality: High)

Changes in the profitability and expectations about the future profitability can influence the secondary market value of Belfius' liabilities, impact its reputation and affect the implementation of its strategy.

A large number of factors could trigger profitability issues for Belfius. The general economic and geopolitical environment, as well as the monetary policy, are among the most important factors determining the profitability of banks. An economic downturn or recession could create adverse effects on the financial performance of several of Belfius' segments, particularly in sectors that are currently more vulnerable, such as the commercial real estate and the public sector, as well as on the financial performance of certain individual files.

The intense competition in the banking market is causing a strain on the overall profitability. As such, loan production has increased towards the end of 2024. However, loans are being issued at low margins and commercial

funding has become more expensive. This is illustrated by the competition among financial institutions to attract the funds being released from the maturing 2023 State bond. This competition is resulting in financial institutions offering higher interest rates or returns to entice customers to deposit their funds in term deposits. The adverse effect of such competition could be exacerbated by potential changes in prudential regulations, all of which could have a negative impact on Belfius' business, results of operations, financial condition and prospects.

Yield curves have remained inverted for an exceptionally long period, but began to gradually flatten by the end of 2024 as inflation proved more persistent than anticipated, coupled with contagion effects from higher US interest rates.

Such interest rate environment affects the transformation margin. This margin, which the bank earns by borrowing on a short-term basis and issuing loans on a longer-term basis, is being squeezed, resulting in a negative impact on profitability, especially in highly competitive segments such as mortgages.

Additional information on the interest rate risk can be found in the section entitled "Asset-liability management (ALM)" starting on page 544 of Belfius' 2024 annual report.

In Belfius' business and general management activities (including the management of its liquidity and yield portfolios), interest rate risk arises from the different re-pricing characteristics of its assets and liabilities. Interest rates affect the cost and sources of funding available to Belfius, product margins, and, in turn, its net interest margin and revenue. Interest rates also affect Belfius' net interest income, impairment levels and customer affordability. In some activities, and in line with general financial market practices, Belfius has balance sheet hedges in place that are sensitive to an interest rate that is not fully and perfectly correlated to the interest rate risk that they are meant to hedge. This results in residual basis risk.

The uncertainty regarding the evolution of interest rates, fierce competition in pricing of loans and liabilities among peers, potential new competitors such as the future digital euro, and changes in clients' behaviours are all key risks that need to be considered in the interest rate risk management strategy and that can impact Belfius' performance and profitability.

Belfius may also be adversely impacted in case of changes in the expectations around its future profitability and growth opportunities. This could, for example, result from the requirement to pay out one or more extraordinary dividends which would significantly increase its dividend pay-out ratio above its current 40% dividend pay-out policy and may, in turn, require Belfius to issue further debt instruments the cost of which may impact its future profitability. In this respect, please also refer to the subsection "Other information – Recent events" within section "7. Belfius Bank SA/NV".

2.1.3. Belfius' activities are subject to non-financial risks, including operational, reputational, compliance and legal risks (Global Criticality NFR: High)

Non-financial risk ("NFR") must be understood as a broad umbrella covering all risks except financial risks (the latter encompassing market, ALM, liquidity, credit and insurance risks). NFR covers, among others, operational risks (including in relation to fraud, HR, IT, IT security, business continuity, outsourcing and data privacy) as well as reputational, compliance, legal and tax risks. If any of these risks materialise, they could have an adverse impact on Belfius' business, results of operations, financial condition and prospects.

Any disruptions to Belfius' operational processes or IT systems, including as a result of internal or external fraud, hacking or other cybercrime, or the adoption of or migration to new systems, could adversely affect the overall operational or financial performance of Belfius' business, as well as harm its reputation or attract increased regulatory scrutiny and intervention (including sanctions), any of which could have a material adverse effect on its business, results of operations, financial condition and prospects.

The following NFRs can be highlighted as the most relevant for Belfius:

- Information security and incidents: data and information face several threats, including the loss of integrity, the loss of confidentiality and unexpected unavailability;
- Data privacy: Belfius is subject to regulation regarding the processing (including disclosure and use) of personal data. Belfius processes significant volumes of personal data relating to customers (including names, addresses and bank account details) as part of its business, some of which may also be classified under legislation as sensitive personal data. Belfius must therefore comply with strict data protection and privacy laws and regulations (e.g. the GDPR);
- Fraud risk: internal, external and mixed fraud schemes could result in losses to Belfius;
- Outsourcing risk: Belfius is dependent on the performance of third-party service providers for critical aspects of its business. If any of its third-party service providers fails to provide the agreed level of service, or if Belfius is unable to renew its licences, maintenance agreements, outsourcing agreements or any other material third-party service agreements on acceptable terms, it could face a number of adverse outcomes, such as monetary damages, customer redress and/or litigation;
- Business continuity: this includes sudden and gradual business continuity issues;
- Compliance & anti-money laundering: this covers compliance with deontological and ethical standards, market integrity, rules of conduct and other compliance risks. Belfius is required to comply with a wide range of evolving laws and regulations, and if it fails to do so, it could become subject to regulatory actions, including monetary damages, fines or other penalties, regulatory restrictions, civil litigation, criminal prosecution and/or reputational damage. Additional information on provisions for litigations can be found in the section “Provisions and contingent liabilities” starting on page 481 of Belfius’ 2024 annual report.

If any of these risks occur, Belfius could be subject to investigative or enforcement actions by relevant regulatory authorities and could face liability under relevant laws and regulations or reputational damage. For example, on 4 September 2024, Belfius Bank reached a settlement (*minnelijke schikking/règlement transactionnel*) with the FSMA in relation to its offering of savings certificates. The settlement involved Belfius Bank paying EUR 1 million, committing to strengthen its legal risk management and a named publication on the website of the FSMA.

The abovementioned events could further result in the loss of goodwill from its customers and deter new customers, all of which could have a material adverse effect on Belfius’ business, results of operations, financial condition and prospects.

2.1.4. Belfius is subject to credit risk in respect of customers and counterparties, which may be amplified by a concentration risk (Global Criticality: Medium)

The credit risk arising from potential changes in credit quality and the potential non-recoverability of loans, amounts due in respect of bonds held by Belfius or other amounts due from customers and counterparties is inherent in a wide range of Belfius’ businesses. Such risk could materialise in case of variations in the creditworthiness of borrowers or issuers of financial instruments that Belfius holds, as well as other counterparties, resulting in the possible inability to recover amounts due from these borrowers, issuers or other counterparties. Belfius is also exposed to the risk of non-performance by third parties such as trading counterparties, counterparties under swaps and credit and other derivative contracts, issuers of securities held by Belfius, customers, clearing agents and clearing houses, exchanges, guarantors, insurers and reinsurers and other financial intermediaries.

Credit risk is highly correlated with the general economic situation. An economic downturn could lead to increased levels of credit risk and loan loss provisions in all Belfius’ business segments. In downturn periods, Belfius’ P&L can be negatively impacted by losses on its loan book due to increased loan loss provisions (with expected credit losses exceeding Belfius’ best estimates) and write-offs. Rating downgrades, rising capital charges for defaulted assets and a growing stock of non-performing loans could lead to higher capital consumption.

This economic uncertainty is translated in the credit quality indicators of Belfius' E&E (Enterprises & Entrepreneurs) loan portfolio, which amounted to EUR 65.3 billion at the end of 2024:

- production in Corporate Banking has remained dynamic with good credit quality, although interest rate-sensitive activities, such as real estate and leveraged transactions represent a smaller share;
- watchlist volumes have been expanding. This is the combined effect of worsening economic conditions along with the result of a tightened portfolio monitoring and investments made in early detection of potential weakening credit files;
- Belfius also noted an important increase in companies facing difficulties and bankruptcies within its E&E credit portfolio in 2024, resulting in an increase in impairments.

The overall credit risk at Belfius remains moderate, though the rising trend of bankruptcies in specific segments and individual cases is closely monitored in a highly uncertain macroeconomic and geopolitical environment. Anticipative provisions and de-risking measures have significantly reduced the P&L impacts of defaults in 2024, while the overall asset quality ratio remained below 2% at the end of 2024 (1.92%). However, certain categories of exposures are subject to higher credit risk than others. In 2024, Belfius conducted an in-depth analysis of the E&E portfolio from the perspective of risk concentrations and vulnerable sectors. This exercise led to a clear identification of sectors that require increased attention. Based on this analysis, four sectors were identified that will receive heightened attention in the future. These sectors are the construction, the automotive, the transport and the chemical sector.

Furthermore, the commercial real estate sector is facing significant challenges, triggered by low demand, high interest rates and an inflationary environment, which is leading to increased supply in construction and pressure on the funding capabilities of the commercial real estate participants.

The new U.S. import tariffs policy, introduced by the Trump administration, has resulted in volatile market conditions and significant economic and geopolitical uncertainty. This escalation in trade tensions is expected to slow economic growth. With the details of tariff measures on various goods and countries being frequently updated, conducting a clear impact analysis remains challenging.

The effects of these policies could range from direct impacts on companies exporting to the U.S. to indirect effects on those facing increased production costs or higher raw material prices, possibly as a result of EU counter-tariffs on U.S. imports. There are also broader economic consequences, such as inflation, rising interest rates, reduced consumer confidence, and fluctuations in the EUR-USD exchange rate. Additionally, knock-on effects can also be expected through competing trade flows from China being diverted to the EU (given the exceptionally high tariffs placed by the US on Chinese goods).

As at the date of this Base Prospectus, it is not yet possible to provide precise information on the impact on Belfius credit portfolios. However, potential effects are being closely monitored. Several sectors appear particularly vulnerable to trade disruptions, including manufacturing (e.g., automotive, technology, and steel), the pharmaceutical and chemical industries, and construction. The manufacturing sector is under particular scrutiny, as the Trump administration's emphasis on reindustrialisation continues to shape recent tariff measures.

As a result of the geographical concentration of its activities, Belfius is particularly exposed to the risk of adverse economic and political conditions emerging in Belgium. Any deterioration in the economic environment in Belgium could lead to an increase in Belfius' cost of risk and its impaired loan book, for example, as a result of an increase in unemployment rates and/or decreases in house prices. Furthermore, due to its significant long-dated exposures to Italian sovereign bonds, Belfius is also exposed to the risk of adverse economic and political conditions in Italy. Consequently, a material deterioration in Italy's financial situation could have a negative impact on Belfius' solvency and increase its income volatility.

Belfius may be particularly exposed to the risk of adverse economic conditions in specific Belgian geographic regions. For example, its lending to the public and social sector is more weighted towards Wallonia and Brussels

and could therefore be disproportionately affected by the emergence of adverse conditions in those regions and the financial impact of new political state reforms. In addition, Belfius has exposures to the Belgian state, the Flemish Community, the French Community, the Brussels Capital Region and the Service Public de Wallonie.

Changes in budgetary, subsidy and taxation policies may affect Belfius' lending to public and not-for-profit institutions, such as hospitals. Many hospitals have been investing considerable amounts over the past few years, specifically in large-scale new hospital buildings. These investment efforts have contributed to greater indebtedness. Furthermore, the financial situation of hospitals was affected by the Covid-pandemic and the industry remains confronted with important labour challenges. As hospitals have been able to generate sufficient cash flows, their overall financial structure has at this stage not been materially affected. However, their recurring results have been under pressure for several years and overall profitability of the sector remains low, which may lead to challenges regarding their indebtedness levels.

Current coverage of counterparty exposures provided by posted and/or covenanted collateral may prove insufficient or inadequate, or Belfius may be unable to enforce collateral due to factors such as inadequate documentation, legal uncertainty, unfavourable judgments, client fraud or economic deterioration that could significantly reduce the value of collateral. This risk is most prevalent in the businesses and operations of Belfius that rely on sufficiency of collateral, such as in collateralised derivatives, in mortgage and commercial real estate lending and, in general, investment loans. Bankruptcy, lack of liquidity, downturns in the economy or real estate values, operational failures or other factors may cause Belfius' counterparties to default on their obligations towards Belfius.

Belfius could also be exposed to financial risk stemming from the disruption of a client's operation as a result of environmental, social or governance ("ESG") concerns, which are becoming increasingly important in certain industries. If not managed properly, these could affect a client's ability to pursue its business activity and therefore meet its financial obligations, which could drive down the value of a client's collateral in the context of a transaction.

Additional information on credit risk exposures, quality of Belfius' portfolio and the cost of risk evolution can be found in the section entitled "Credit risk" starting on page 94 of Belfius' 2024 annual report.

If Belfius is unable to manage its credit risk effectively, its business, results of operations, financial condition and prospects could be materially adversely affected.

2.1.5. Belfius is subject to risks affecting its liquidity (Global Criticality: Medium)

Liquidity risk consists of the risk that Belfius will not be able to meet both expected and unexpected current and future cash-flows and collateral needs.

The liquidity risk of Belfius mainly stems from:

- commercial funding collected from customers and the way these funds are allocated to customers through different types of loans/products;
- the volatility of collateral to be deposited at counterparties as part of the CSA framework for derivatives and repo transactions (so-called cash & securities collateral);
- the value of the liquid reserves by virtue of which Belfius can collect funding on the repo market and/or from the ECB.
- the capacity to obtain interbank and institutional funding; and
- the concentration risk of funding sources, counterparties and maturities.

Conditions may arise that constrain Belfius' access to funding, including a loss of confidence by depositors, a "war on cash" by competitors or curtailed access to wholesale funding markets, and may result in Belfius being required

to seek alternative funding sources that could constrain funding or liquidity opportunities for Belfius over a longer period and/or in material amounts.

Liquidity risk is inherent in much of Belfius' business. Each asset purchased and liability sold has unique liquidity characteristics. Some assets have high liquidity, in that they can be converted into cash relatively quickly, while other assets, such as privately placed loans, mortgage loans, UK long-term bonds, property and unlisted equities, have comparatively low liquidity. Market downturns typically lead to even lower liquidity for these assets. These downturns may also reduce the liquidity of those assets which, in normal market circumstances are more liquid, as was the case following the financial crisis with the markets for asset-backed securities relating to real estate and mortgage loans, and other collateralised debt and loan obligations.

In periods of increasing illiquidity of assets in the financial markets, Belfius may be unable to sell or buy assets at market efficient prices and may therefore realise lower sale prices potentially leading to investment losses, or may have to pay higher acquisition prices potentially leading to opportunity losses. In addition, increasingly illiquid markets could result in Belfius being required to hold higher levels of liquid but lower-yielding assets in its liquidity buffer, or having to raise or hold additional funds for operational purposes through additional unprofitable financings.

The ALM Liquidity bond portfolio is part of Belfius Bank's total LCR liquidity buffer and is diversified in terms of credit and liquidity.

As at 31 December 2024, the ALM Liquidity bond portfolio stood at EUR 9.1 billion, up by EUR +1.3 billion or +17% compared to 31 December 2023. As at the end of 2024, the portfolio was composed of sovereign and public sector bonds (61%), covered bonds (34%), corporate bonds (5%) and asset-backed securities (<1%). Belgian and Italian government bonds in the ALM Liquidity bond portfolio amounted to EUR 1.6 billion and EUR 0.9 billion, respectively. Additional information on the ALM liquidity bond portfolio can be found on page 73 of Belfius' 2024 annual report.

In 2024, Belfius met various liquidity requirements, with an LCR ratio of 139% and an NSFR ratio of 133% at year-end. Additionally, Belfius fulfilled the new MREL requirements by year-end 2024. Expressed in Total Risk Exposure Amount (TREA), Belfius' MREL of EUR 22.8 billion amounted to 30.37%, compared with the binding target of 28.91% (including the Combined Buffer Requirement (CBR)). Similarly, MREL subordination of EUR 16.4 billion amounted to 21.77% of TREA, compared with the binding target of 18.95% (including CBR). MREL buffers remained robust due to new issuances (EUR 4.6 billion in MREL-eligible liabilities issued during 2024).

Despite the current liquidity buffer, if Belfius were to face difficulties in accessing funding, including, for example, as a result of competitive pressures on savings, or in meeting the aforementioned liquidity ratios, its business, results of operations, financial condition and prospects could be materially adversely affected.

Belfius' customers' assets under management could also be affected by increasing illiquidity in financial markets. In the event of serious stress, Belfius' customers may withdraw their funds from investments in mutual funds or other securities in material amounts and within short time frames. As a result, Belfius might be inclined to provide financial support in relation to its asset management business on reputational or commercial grounds, even if beyond or in the absence of any contractual obligations, which it refers to as the "step-in" risk. Any of the foregoing could have a material adverse effect on Belfius' business, results of operations, financial condition and prospects.

2.1.6. Belfius is subject to fluctuations caused by market risks (Global Criticality: Low)

Belfius is exposed to the risk that changes in market prices or rates, including changes in and increased volatility of interest rates, inflation rates, credit and basis spreads, foreign exchange rates, equity, commodity prices and prices for bonds and other instruments will adversely impact its business, results of operations, financial condition and prospects. Other risk factors, such as correlations or mean reversions related to the above-mentioned asset classes may also affect Belfius' trading portfolio.

Belfius also faces market risks stemming from credit spread evolutions, especially on its bonds and uncollateralised derivatives portfolios, since the fair value of these financial instruments could fall due to credit spread widening and cause Belfius to record mark-to-market losses at the time of sale or through fair value adjustments through its statement of income. In a distressed economic or market environment, the fair value of certain of Belfius' exposures may be volatile and more difficult to estimate because of market illiquidity. Proxy hedges in place may also prove inefficient in case of market stress or idiosyncratic issues. Valuations in future periods, reflecting prevailing market conditions, may result in significant negative changes in the fair value of these exposures, which could have a material adverse impact on Belfius' business, results of operations, financial condition and prospects.

The overall average VaR (Value-at-Risk) of financial markets activities decreased from EUR 11.5 million in 2023 to EUR 10.1 million in 2024. Additional information on the monitoring of market risks can be found in the section entitled "Market risk and ALM" starting on page 543 of Belfius' 2024 annual report.

The market dynamics during the first weeks of April 2025, influenced by the announcement of new U.S. import tariffs and retaliatory measures from its trading partners, could affect the results of financial markets activities. While uncertainty persists, stress scenarios suggest that Belfius is expected to face only limited effects from market risks, thanks to its existing hedging strategies and risk management frameworks. However, significant uncertainty remains and unforeseen scenarios, such as escalating trade disputes or additional protectionist measures, could result in substantial losses for Belfius' financial market activities.

2.2. Risks related to Belfius Financing Company

With regards to the risks related to Belfius Financing Company as individual entity (Global Criticality: Low)

Belfius Financing Company is a wholly-owned subsidiary of Belfius Bank, whose principal purpose is to raise funds to be on lent to Belfius Bank. This means that the capacity of Belfius Financing Company to pay interest amounts under the Notes issued by it and to repay the Notes issued by it, depends mainly on Belfius Bank. In other words, the risk is transferred to Belfius Bank being the Guarantor in this context, taking into account that any Notes issued by Belfius Financing Company under the Programme are guaranteed by Belfius Bank pursuant to the Guarantee. For any Notes issued by Belfius Financing Company, Noteholders should therefore also take note of the risk factors in respect of Belfius Bank. It implies that, if the Guarantor's financial condition was to deteriorate, Belfius Financing Company as the Issuer and, subsequently, the Noteholders may be impacted negatively. The Noteholders may lose all or part of their investment in the Notes in case Belfius Financing Company as the Issuer and/or Belfius Bank as the Guarantor become insolvent or are otherwise unable to satisfy their obligations under the Notes and the Guarantee, respectively.

2.3. Risks related to the Notes and the Guarantee

2.3.1. Risks related to the nature of the Notes

2.3.1.1. Risks related to the trading market and liquidity of the Notes

The Notes may have no established trading market or if a market does develop, it may not be liquid. Therefore, investors may not be able to sell their Notes easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. This is the case for Notes that are particularly sensitive to interest rate, exchange rates or market risks, are designed for specific investment objectives or strategies or have been structured to meet the investment requirements of limited categories of investors. These types of Notes generally would have a more limited secondary market and a higher price volatility than conventional debt securities.

The liquidity of the Notes may also be affected by a withdrawal or a downgrade of the credit ratings of Belfius Bank. Belfius Bank's credit ratings may be subject to withdrawal or change for a variety of factors, including where the relevant rating agency expects a deterioration in the (financial or other) condition of Belfius Bank. Any

such factors, including the payment of any extraordinary dividend above the existing dividend pay-out policy, may lead to a review by the rating agencies of the rating assigned by them to Belfius Bank. In this respect, please also refer to the subsection “Other information – Recent events” within section “7. Belfius Bank SA/NV”.

A decrease in liquidity may have an adverse effect on the market value of the Notes. In addition, where a Noteholder is seeking to achieve a sale of the Notes within a short timeframe, such lower liquidity will negatively impact the selling price of the Notes.

2.3.1.2. Risks related to the exercise of the bail-in resolution tool in respect of the Belfius Bank Notes and the Guarantee

Directive (EU) 2014/59/EU (as amended, the “**BRRD**”) aims to provide supervisory and resolution authorities with common tools and powers to address banking crises pre-emptively in order to safeguard financial stability and minimise taxpayers’ exposure to losses.

This means that Noteholders may lose some or all of their investment (including outstanding principal and accrued but unpaid interest) as a result of the exercise by the Relevant Resolution Authority of the “bail-in” resolution tool. This tool may be exercised in respect of Belfius Bank Notes. The designation of a tranche of Notes as Notes which have a particular use of proceeds identified in the applicable Final Terms does not confer any change in status, ranking or favourable treatment relative to the application of resolution tools. Furthermore, under the Guarantee Belfius Bank as the Guarantor guarantees the obligations owed by Belfius Financing Company to the holders of Belfius Financing Company Notes. The bail-in tool can also be applied to a guarantee obligation such as the Guarantee. As a result, the bail-in tool, if applied to liabilities of the Guarantor, could effectively limit the extent of a recovery under the Guarantee.

The “bail-in” resolution tool is exercised by the Relevant Resolution Authority that has the power to bail-in (i.e., write down or convert) liabilities more subordinated than the Belfius Bank Notes, if any (such as the claims of non-preferred creditors of Belfius Bank) and preferred senior debt (such as the Belfius Bank Notes and the Guarantee), after having written down or converted Tier 1 capital instruments and Tier 2 capital instruments. The bail-in power enables the Relevant Resolution Authority to recapitalise a failing institution by allocating losses to its shareholders and unsecured creditors (including the holders of Belfius Bank Notes or in relation to the Guarantee) in a manner which is consistent with the hierarchy of claims in an insolvency of a relevant financial institution. The bail-in power includes the power to cancel a liability or modify the terms of contracts for the purposes of deferring the liabilities of the relevant financial institution and the power to convert a liability from one form to another.

In summary (and subject to the implementing rules), the Relevant Resolution Authority is able to exercise its bail-in powers if the following (cumulative) conditions are met:

- (a) the determination that Belfius Bank is failing or is likely to fail has been made by the relevant regulator or the Relevant Resolution Authority (in each case, after consulting each other), which means that one or more of the following circumstances are present:
 - (i) Belfius Bank infringes or there are objective elements to support a determination that Belfius Bank will, in the near future, infringe the requirements for continuing authorisation in a way that would justify the withdrawal of the authorisation by the competent authority, including but not limited to because Belfius Bank has incurred or is likely to incur losses that will deplete all or a significant amount of its own funds;
 - (ii) the assets of Belfius Bank are or there are objective elements to support a determination that the assets of Belfius Bank will, in the near future, be less than its liabilities;
 - (iii) Belfius Bank is or there are objective elements to support a determination that Belfius Bank will, in the near future, be unable to pay its debts or other liabilities as they fall due;
 - (iv) Belfius Bank requests extraordinary public financial support;

- (b) having regard to timing and other relevant circumstances, there is no reasonable prospect that any alternative private sector measures or supervisory action taken in respect of Belfius Bank would prevent the failure of Belfius Bank within a reasonable timeframe; and
- (c) a resolution action is necessary in the public interest.

The BRRD specifies that governments will only be entitled to use public money to rescue credit institutions if a minimum of 8% of the own funds and total liabilities have been written down, converted or bailed in or, by way of derogation, if the contribution to loss absorption and recapitalisation is equal to an amount not less than 20% of risk-weighted assets and certain additional conditions are met.

The exercise by the Relevant Resolution Authority of its resolution powers (including the statutory loss absorption powers) in relation to the Belfius Bank Notes or the Guarantee, or the (perceived) prospect of such exercise, could have a material adverse effect on the value of such Belfius Bank Notes or the Belfius Financing Company Notes related to the Guarantee and could lead to the holders of such Notes losing some or all of their investment in their Notes.

Investors should furthermore note that, on 18 April 2023, the European Commission adopted a proposal to adjust and further strengthen the EU's existing bank crisis management and deposit insurance (the "CMDI") framework, with a focus on medium-sized and smaller banks. The proposal would enable authorities to organise the orderly market exit for a failing bank of any size and business model, with a broad range of tools. In particular, it would facilitate the use of industry-funded safety nets to shield depositors in banking crises, such as by transferring them from an ailing bank to a healthy one. Such use of safety nets must only be a complement to the banks' internal loss absorption capacity, which remains the first line of defence. Investors should note that a final reform may have an impact on the current supervisory and resolution powers applicable to credit institutions (such as Belfius Bank). If implemented as proposed, one element of the proposal would mean that the Belfius Bank Notes and the Guarantee will no longer rank *pari passu* with any deposits of Belfius Bank. Instead, the Belfius Bank Notes and the Guarantee would rank junior in right of payment to the claims of all depositors. As such, there may be an increased risk of an investor losing all or some of its investment. As at the date of this Base Prospectus, the European institutions have not yet reached a political agreement on the CMDI.

2.3.1.3. Ranking of the Notes and insolvency

In the event of an insolvency of an Issuer or the Guarantor, applicable insolvency laws may adversely affect a recovery by the holders of amounts payable under the Notes and the Guarantee. Pursuant to such insolvency laws, secured creditors of the relevant Issuer and the Guarantor will be paid out of the proceeds of the security they hold in priority to the holders of the Notes. In the event of an insolvency of a subsidiary of Belfius Bank, it is likely that, in accordance with applicable insolvency laws, the creditors of such subsidiary need to be repaid in full prior to any distribution being made to Belfius Bank as shareholder of such subsidiary. In addition, any provision in the Terms and Conditions providing for an event of default, an acceleration or an early termination of the Notes by reason of an Issuer or the Guarantor being subject to judicial reorganisation proceedings may not be enforceable under applicable insolvency law.

2.3.1.4. Risks related to non-capital-guaranteed Notes

Some Notes are not capital-guaranteed, meaning that the invested principal may not be repaid in full upon early redemption or at maturity, as the case may be. This means that Noteholders of a non-capital guaranteed Note could lose all or a substantial portion of the invested principal and, if such principal is lost completely, interest may cease to be payable on such Note.

2.3.1.5. A Noteholder's return on the Notes may be affected by inflation

The real return which an investor will receive on its Notes may be affected by inflation. Inflation risk is the risk that the future real value of an investment will be reduced by inflation over time, which could be caused by an increase in prices or a decrease in the value of money. Where inflation is high, as is the case in the current economic

climate, it is possible that the real return which an investor will receive on its Notes will be reduced or will even be negative.

2.3.1.6. The market value of an issue of Notes can be affected by various factors

The market value of an issue of Notes will be affected by a number of factors, including, but not limited to, market interest and yield rates, volatility in the market, the creditworthiness of the Issuers and the Guarantor (as applicable), the time remaining to any redemption date or maturity date, and economic, financial and political events in one or more jurisdictions. The price at which a Noteholder will be able to sell any Notes prior to maturity may be at a discount, which could be substantial, to the market value of such Notes on the issue date. Potential investors should consider reinvestment risk in light of other investments available at that time.

2.3.1.7. A Noteholder's actual yield on the Notes may be reduced from the stated yield by transaction costs

When Notes are purchased or sold, several types of incidental costs (including transaction fees and commissions) are incurred in addition to the current price of the security. These incidental costs may significantly reduce or even exclude the profit potential of the Notes. Certain fees and costs will be set out in the applicable Final Terms, but there may be other fees and costs which may impact the Noteholders' actual yield. For instance, credit institutions as a rule charge their clients for own commissions which are either fixed minimum commissions or pro rata commissions depending on the order value. To the extent that additional parties – domestic or foreign – are involved in the execution of an order, including, but not limited to, domestic dealers or brokers in foreign markets, Noteholders must take into account that they may also be charged for the brokerage fees, commissions and other fees and expenses of such parties (i.e., third party costs).

In addition to such costs directly related to the purchase of securities (direct costs), Noteholders must also take into account any other costs (such as custody fees). Investors should inform themselves about any additional costs which they may incur in connection with the purchase, custody or sale of the Notes before investing in the Notes.

2.3.1.8. Risks related to reinvesting risk

Noteholders are exposed to the reinvestment risk in several situations. For example, reinvestment risk arises in a declining interest rate environment because Noteholders will only be able to reinvest the principal and/or interest paid to them at lower interest rates compared to the interest rates prevailing at the time they subscribed the Notes. Reinvestment risk can be increased by the fact that Notes may include a redemption at the option of the relevant Issuer (Call Option). If a Call Option is provided to be applicable in the applicable Final Terms, the relevant Issuer may redeem all or, if so provided, some of the Notes on the date or dates so provided. The relevant Issuer may be expected to redeem Notes among others when its cost of borrowing is lower than the interest rate on the Notes. In this respect, please also refer to the risk factor entitled "*Risks related to early redemption of the Notes*".

2.3.1.9. Risks related to change of tax law

The Terms and Conditions of the Notes are, save to the extent referred to therein, based on legislation in effect as at the date of issue of the Notes. No assurance can be given as to the impact of any possible judicial decision or changes to the laws in Belgium, Luxembourg, other jurisdictions (such as FATCA under US law) or on a supranational level (e.g. the EU Financial Transaction Tax) or in the administrative practice after the date of issue of the Notes. Investors should note that the provisions of the Terms and Conditions contain certain provisions dealing with a change of law. Such provisions will be applied in accordance with the law in force at the relevant time.

In addition, any relevant tax law or practice applicable as at the date of this Base Prospectus and/or the date of purchase or subscription of the Notes may change at any time (including during any subscription period or the term of the Notes), possibly with retroactive effect. Any such change may have an adverse effect on a Noteholder, including that the Notes may be redeemed before their due date (as provided for in the applicable Final Terms), their liquidity may decrease and/or the tax treatment of amounts payable or receivable by or to an affected

Noteholder may be less than otherwise expected by such Noteholder. Without prejudice to the foregoing, investors should note that the new Belgian federal government has announced several tax measures in its governmental agreement which may potentially impact the tax assessment of the Notes. By way of example, but without being exhaustive, the governmental agreement mentions that changes would be made to the tax on stock exchange transactions and the tax on securities accounts. No final legislative texts are available as at the date of this Base Prospectus.

2.3.2. Risks related to the terms of the Notes

2.3.2.1. Risks related to Underlyings

Investors should note that Notes which are linked to an Underlying encompass both risks relating to the relevant Underlying and risks that are linked to the Note itself. Any adverse impact on such Underlying will therefore impact the return which an investor will receive on its investment in the Notes.

Such risks relating to the Underlying may be linked, depending on the characteristics of the relevant Notes, to the occurrence of a Potential Adjustment Event, an Extraordinary Event, a Market Disruption Event, a Commodity Index Event or an Event affecting the relevant Index, in which case the Calculation Agent may make adjustments or determinations as it, acting in good faith, deems appropriate, all as more fully described in the Terms and Conditions of the Notes.

2.3.2.2. Absence of covenants and other limitations on entering into, issuing or guaranteeing additional debt, which may rank *pari passu* with the Notes, which may be required because of regulatory requirements

There is no restriction in the Terms and Conditions of the Notes on the amount of debt which the Issuers and the Guarantor may enter into, issue or guarantee. The Issuers and the Guarantor may incur additional indebtedness or grant guarantees in respect of indebtedness or guarantees of third parties, including indebtedness and guarantees that rank *pari passu* with the Notes, which may have better terms than the Notes (e.g. in relation to events of default and covenants). If the financial condition of the Issuers or the Guarantor were to deteriorate, Noteholders could suffer direct and materially adverse consequences, including a reduction in interest and principal. Moreover, the entry into or issue of any such securities or the incurrence of any such other liabilities may reduce the amount (if any) recoverable by Noteholders in the event of default or upon liquidation, dissolution or winding-up of the relevant Issuer or the Guarantor.

The incurrence of additional indebtedness may be required based on regulatory requirements. In order to make the bail-in power under the BRRD effective, credit institutions (including Belfius Bank) must at all times meet a MREL so that there is sufficient capital and liabilities available to stabilise and recapitalise failing credit institutions. Belfius Bank may also need to undertake such further debt issuances to ensure it remains above the applicable regulatory buffers in case extraordinary dividends are required to be paid out. In this respect, please also refer to the subsection entitled “Other information – Recent events” within section “7. Belfius Bank SA/NV”.

In addition, the Notes do not require the Issuers or the Guarantor to comply with financial ratios or otherwise limit their ability or that of their respective subsidiaries to incur additional debt, nor do they limit the Issuers’ or the Guarantor’s ability to use cash to make investments or acquisitions, or the ability of the Issuers, the Guarantor or their respective subsidiaries to pay dividends, repurchase shares or otherwise distribute cash to shareholders. Such actions could potentially affect the Issuers’ and the Guarantor’s ability to service their respective debt obligations, including those of the Notes and the Guarantee.

2.3.2.4. No tax gross-up obligation

Investors should be aware that pursuant to the Terms and Conditions of the Notes there are no gross-up payments in respect of the Notes. This means that the Terms and Conditions of the Notes do not require the Issuers or the Guarantor to gross up the net payments received by a Noteholder in relation to the Notes with the amounts withheld or deducted for tax purposes. This may therefore have a significant impact on the net amounts the investors will

receive pursuant to the payments to be made under the Notes and could also materially adversely affect the value of such Notes.

2.3.2.5. Risks related to Notes which are linked to “benchmarks”; benchmark discontinuation

The regulation and reform of Benchmarks may adversely affect the value and liquidity of and return on certain Notes

Reference Rates and indices, including interest rate benchmarks, such as the Euro Interbank Offered Rate (“EURIBOR”), which are used to determine the amounts payable under financial instruments or the value of such financial instruments (“Benchmarks”) have, in recent years, been the subject of political and regulatory scrutiny as to how they are created and operated. This has resulted in regulatory reform and changes to existing Benchmarks, with further changes anticipated. These reforms and changes may cause a Benchmark to perform differently than it has done in the past or to be discontinued. Any change in the performance of a Benchmark or its discontinuation, could have a material adverse effect on any Notes referencing or linked to such Benchmark.

In particular, with respect to EURIBOR, the European Money Markets Institute (“EMMI”), as administrator, conducted in-depth reforms over the last few years to meet the requirements of the EU Benchmarks Regulation, strengthening its governance framework and developing a hybrid methodology for EURIBOR. On 2 July 2019, EMMI was granted an authorisation by the FSMA under the EU Benchmarks Regulation for the administration of EURIBOR. Other Benchmarks used in relation to the Notes may, as of the date of this Base Prospectus, not (yet) be authorised in the European Union or meet the requirements of the EU Benchmarks Regulation. The European Commission has therefore put in place, and has extended, transition periods. However, without valid authorisation after the end of such transition periods, the Issuers will have to refrain to use such unauthorised Benchmarks in relation to the Notes. There can be no guarantee that Benchmarks will not be discontinued to be used in respect of the Notes. Whether or not a Benchmark administrator has the required authorisations in the European Union will be indicated in the applicable Final Terms under “Relevant Benchmark(s)”.

Any changes to the administration of a Benchmark or the emergence of alternatives to a Benchmark as a result of these reforms, may cause such Benchmark to perform differently than in the past or to be discontinued, or there could be other consequences which cannot be predicted. The potential discontinuation of a Benchmark or changes to its administration could require changes to the way in which the rate of interest is calculated in respect of any Notes referencing or linked to such Benchmark. Uncertainty as to the nature of alternative reference rates and as to potential changes to a Benchmark may adversely affect such Benchmark during the term of the relevant Notes, the return on the relevant Notes and the trading market for securities based on the same Benchmark. The development of alternatives to a Benchmark may result in Notes linked to or referencing such Benchmark performing differently than would otherwise have been the case if such alternatives to such Benchmark had not developed. Any such consequence could have a material adverse effect on the value of, and return on, any Notes referencing or linked to a Benchmark.

Furthermore, even prior to the implementation of any changes, uncertainty as to the nature of successor or alternative reference rates and as to potential changes to a Benchmark may adversely affect Notes which reference such Benchmark, including the return on the relevant Notes and the trading market for them. In particular, with respect to EURIBOR, the European Money Markets Institute, as administrator of EURIBOR, having failed with an attempt to evolve the EURIBOR methodology to a fully transaction-based methodology, has developed a hybrid methodology for the determination of EURIBOR that takes into account current transaction data, historical transaction data and modelled data based on expert opinions and has obtained regulatory authorisation under the EU Benchmarks Regulation for the EURIBOR so calculated. However, since reference rates relying on expert opinion and modelled data are widely regarded as potentially less representative than reference rates determined in a fully transaction-based approach and because central banks, supervisory authorities, expert groups and relevant markets thus are developing towards preferred use of risk-free overnight interest rates with a broad and active underlying market as reference rates, there is a risk that the use or provision of EURIBOR may come to an end in the medium or long term. Finally, under the terms of the EU Benchmarks Regulation, the European Commission

was also granted powers to designate a replacement for certain critical benchmarks contained in contracts governed by the laws of an EU Member State (such as the Notes), where that contract does not already contain a suitable fallback. There can be no assurance, that the fallback provisions of the Notes would be considered suitable. Accordingly, there is a risk that any Notes linked to or referencing a benchmark would be transitioned to a replacement Benchmark selected by the European Commission. There is no certainty at this stage what any such replacement benchmark would be.

The market continues to develop in relation to SONIA as a reference rate for Notes

Investors should be aware that the market continues to develop in relation to the Sterling Overnight Index Average (“SONIA”) as a reference rate in the capital markets and its adoption as an alternative to Sterling LIBOR. In particular, market participants and relevant working groups are exploring alternative reference rates based on SONIA, including term SONIA reference rates (which seek to measure the market’s forward expectation of an average SONIA rate over a designated term). The market or a significant part thereof may adopt an application of SONIA that differs significantly from that set out in the Terms and Conditions and used in relation to Notes that reference a SONIA rate issued under this Base Prospectus. Interest on Notes which reference a SONIA rate is only capable of being determined at the end of the relevant Observation Period and immediately prior to the relevant Interest Payment Date. It may be difficult for investors in Notes which reference a SONIA rate to reliably estimate the amount of interest which will be payable on such Notes. Further, if the Notes become due and payable under Condition 8.11 (*Events of Default*), the Rate of Interest payable shall be determined on the date the Notes became due and payable and shall not be reset thereafter. Investors should consider these matters when making their investment decision with respect to any such Notes.

As the use of €STR as a reference rate for Notes develops, there is a risk that Notes that use €STR as reference rate may differ from other €STR products which were legacy IBOR-referenced (which could reduce liquidity, increase volatility or impact market prices) and mismatch with associated loan and derivative products

The market or a significant part thereof may adopt an application of risk free rates that differs significantly from that set out in the Terms and Conditions of the Notes and used in relation to Notes that reference a risk free rate issued under the Programme. The Issuers may in the future also issue Notes referencing the Euro Short-Term Rate (“€STR”) that differ materially in terms of interest determination when compared with any previous Compounded Daily €STR-referenced Notes issued by it under the Programme. Each of these eventualities could reduce liquidity, increase volatility or otherwise affect the market price of such Notes. The development of Compounded Daily €STR as interest reference rates for the Eurobond markets, as well as continued development of €STR-based rates for such markets and the market infrastructure for adopting such rates, could result in reduced liquidity or increased volatility or could otherwise affect the market price of any €STR-referenced Notes issued under the Programme from time to time.

In addition, the manner of adoption or application of €STR reference rates in the Eurobond markets may differ materially compared with the application and adoption of €STR in other markets, such as the derivatives and loan markets. There could be mismatches between the adoption of €STR reference rates across these markets which may impact any hedging or other financial arrangements which may be put in place in connection with any acquisition, holding or disposal of Notes referencing €STR.

Furthermore, interest on Notes which reference Compounded Daily €STR is only capable of being determined at the end of the relevant Observation Period or Interest Period (as applicable) and immediately prior to the relevant Interest Payment Date. In contrast to, for example, EURIBOR-based Notes, if Notes referencing Compounded Daily €STR become due and payable as a result of an event of default under the Terms and Conditions of the Notes, or are otherwise redeemed early on a date other than an Interest Payment Date, the rate of interest payable for the final Interest Period in respect of such Notes shall only be determined on the date on which the Notes become due and payable. Therefore, it may be difficult for investors in Notes which reference Compounded Daily €STR to estimate reliably the amount of interest which will be payable on such Notes, and some investors may be

unable or unwilling to trade such Notes without changes to their IT systems, both of which could adversely impact the liquidity of such Notes.

Since €STR is a relatively new market index, Notes which reference €STR may have no established trading market when issued, and an established trading market may never develop or may not be very liquid. Market terms for debt securities indexed to €STR such as the spread over the index reflected in interest rate provisions, may evolve over time, and trading prices of such Notes may be lower than those of later-issued indexed debt securities as a result. Further, if €STR does not prove to be widely used in securities like Notes which reference Compounded Daily €STR, the trading price of such Notes which reference Compounded Daily €STR may be lower than those of Notes linked to indices that are more widely used. Investors in such Notes may not be able to sell such Notes at all or may not be able to sell such Notes at prices that will provide them with a yield comparable to similar investments that have a developed secondary market, and may consequently suffer from increased pricing volatility and market risk. There can also be no guarantee that €STR will not be discontinued or fundamentally altered in a manner that is materially adverse to the interests of investors in Notes which reference Compounded Daily €STR. If the manner in which Compounded Daily €STR is calculated is changed, that change may result in a reduction of the amount of interest payable on such Notes and the trading prices of such Notes. Accordingly, an investment in Notes using €STR as a reference rate may entail significant risks not associated with similar investments in conventional debt securities.

As the use of SOFR as a reference rate for Notes develops, there is a risk that Notes that use SOFR as reference rate may differ from other SOFR products, which could reduce liquidity, increase volatility or otherwise affect the market price of such Notes

The market continues to develop in relation to the Secured Overnight Financing Rate (“**SOFR**”) as a reference rate in the capital markets and its adoption as an alternative to LIBOR. The selection of SOFR as the alternative reference rate currently presents certain market concerns, because a term structure for SOFR has not yet developed and there is not yet a generally accepted methodology for adjusting SOFR, which represents an overnight, risk-free rate, so that it will be comparable to LIBOR, which has various tenors and reflects a risk component. The market or a significant part thereof may adopt an application of SOFR that differs significantly from that set out in the Terms and Conditions of Notes referencing a SOFR rate that are issued pursuant to the Programme. Furthermore, the Issuers may in the future issue Notes referencing SOFR that differ materially in terms of interest determination when compared with any previous SOFR-referenced Notes issued by it under the Programme. Each of these eventualities could reduce liquidity, increase volatility or otherwise affect the market price of such Notes.

The continued development of SOFR-based rates for the U.S. market and the market infrastructure for adopting such rates, could result in reduced liquidity or increased volatility or could otherwise affect the market price of any SOFR-referenced Notes issued under the Programme from time to time. Because the Secured Overnight Financing Rate is published by the Federal Reserve Bank of New York (“**FRBNY**”) based on data received from other sources, the issuing entity has no control over its determination, calculation or publication. There can be no guarantee that SOFR will not be discontinued or fundamentally altered in a manner that is materially adverse to the interests of the investors in the Notes linked to SOFR. If the manner in which SOFR is calculated is changed, that change may result in a reduction of the amount of interest payable on the Notes and the trading prices of such Notes.

The FRBNY began to publish SOFR in April 2018. The FRBNY has also begun publishing historical indicative SOFR going back to 2014. Investors should not rely on any historical changes or trends in SOFR as an indicator of future changes in SOFR. Also, since SOFR is a relatively new market index, Notes using SOFR as reference rate will likely have no established trading market when issued, and an established trading market may never develop or may not be very liquid. Markets terms for debt securities indexed to SOFR, such as the spread over the index reflected in interest rate provisions, may evolve over time, and trading prices of the Notes may be lower than those of later-issued indexed debt securities as a result. Similarly, if SOFR does not prove to be widely used in securities like the Notes, the trading price of Notes linked to SOFR may be lower than those of Notes linked to indices that are more widely used. Investors in the Notes may not be able to sell such Notes at all or may not be

able to sell such Notes at prices that will provide them with a yield comparable to similar investments that have a developed secondary market, and may consequently suffer from increased pricing volatility and market risk.

2.3.2.6. No Noteholder may exercise or claim any right of set-off, netting, compensation or retention in respect of any amount owed to it by the Issuers arising under or in connection with the Notes

Subject to applicable law, no Noteholder may exercise or claim any right of set-off, netting, compensation or retention in respect of any amount owed to it by the Issuers arising under or in connection with the Notes and each Noteholder shall, by virtue of its subscription, purchase or holding of a Note, be deemed to have waived all such rights of set-off, netting, compensation and retention.

2.3.2.7. The Noteholders may be bound by amendments to (the Conditions of) the Notes to which they did not consent, which may result in less favourable terms of the Notes for all or certain Noteholders

The Terms and Conditions of the Notes contain provisions for calling meetings of Noteholders to consider matters affecting their interests generally, including modifications to the Terms and Conditions and/or a programme document and/or the substitution of the relevant Issuer. These provisions permit defined majorities to bind all Noteholders, including Noteholders who did not attend and vote at the relevant meeting and Noteholders who voted in a manner contrary to the majority.

In addition, pursuant to Condition 8.3.6 (*Benchmark Replacement*), if a Benchmark Event occurs, certain changes may be made to the interest calculation and related provisions when any Interest Rate (or the relevant component part thereof) remains to be determined by reference to such Reference Rate for any Notes, as well as to the Agency Agreement in the circumstances and as otherwise set out in such Condition, without the requirement for the consent of the Noteholders.

Furthermore, Condition 8.12 (*Modifications*) provides that the Issuers and, as applicable, the Guarantor may, without the consent of the Noteholders, make any modification to the Terms and Conditions of the Notes (including the terms set out in the Final Terms for any Tranche of Notes) which in the relevant Issuer's and, as applicable, the Guarantor's opinion is of a formal, minor or technical nature or is made to correct a manifest error, provided that such modification could not reasonably be expected to be materially prejudicial to the interests of the Noteholders.

Accordingly, there is a risk that the terms of the Notes may be modified, waived or varied in circumstances where a Noteholder does not agree to such modification, waiver or variation, which may adversely impact the rights of such Noteholder. Such decisions may for example relate to a reduction of the amount to be paid by the Issuer upon redemption of the Notes, which would then impact the return an investor may receive on its Notes.

2.3.2.8. Risks related to Fixed and Floating Interest Rates

Notes which are "Fixed to Floating Rate Notes" or "Floating to Fixed Rate Notes" may bear interest at a rate that may be converted from a fixed rate to a floating rate, or from a floating rate to a fixed rate on a date specified in the applicable Final Terms. The relevant Issuer's ability to convert the interest rate will affect the secondary market for, and the market value of, such Notes, since the relevant Issuer may be expected to convert the rate when it is likely to produce a lower overall cost of borrowing. If the relevant Issuer converts from a fixed rate to a floating rate, the spread on the Fixed to Floating Rate Notes may be less favourable than the prevailing spreads on comparable Floating Rate Notes tied to the same reference rate. In addition, the new floating rate at any time may be lower than the rates on other Notes. After conversion from a floating rate to a fixed rate, the fixed rate may be lower than the then prevailing rates on other Notes.

2.3.2.9. Risks related to Notes which qualify as “Green Notes” or “Social Notes” which have a particular use of proceeds identified in the applicable Final Terms

Notes issued as Green Notes or Social Notes may not meet investor expectations or requirements

As described in the sections “*Use of Proceeds*” and “*Green Bond Framework*”, Belfius has established a green bond framework (as amended and/or supplemented from time to time, the “**Green Bond Framework**”) and the Final Terms relating to a specific issue of Notes may provide that Belfius will apply an amount equivalent to the net proceeds of the issue of those Notes exclusively to finance and/or refinance, in whole or in part, loans and investments realised by any member of the Belfius group to finance projects and/or assets (“**Eligible Green Assets**”), as described in the applicable Final Terms and in Belfius’ Green Bond Framework (such Notes being referred to as “**Green Notes**”). In addition, as described in the sections “*Use of Proceeds*” and “*Social Bond Framework*”, Belfius has established a social bond framework (as amended and/or supplemented from time to time, the “**Social Bond Framework**”) and the Final Terms relating to a specific issue of Notes may provide that Belfius will apply an amount equivalent to the net proceeds of the issue of those Notes exclusively to finance and/or refinance, in whole or in part, loans and investments realised by any member of the Belfius group to finance projects and/or assets (“**Eligible Social Assets**”), as described in the applicable Final Terms and in Belfius’ Social Bond Framework (such Notes being referred to as “**Social Notes**”). Investors should in particular note that Belfius Financing Company’s principal purpose is to raise funds to be on-lent to Belfius Bank and that it will not itself have any Eligible Green Assets or Eligible Social Assets.

For the avoidance of doubt, payments of principal and interests on the relevant Green Notes or Social Notes shall not depend on the performance of the relevant projects nor have any preferred right against such assets.

While the applicable Final Terms may indicate that Belfius will apply an amount equivalent to the net proceeds of the Green Notes or Social Notes in the manner described in the sections “*Use of Proceeds*” and “*Green Bond Framework*” or “*Social Bond Framework*”, as applicable, and in the applicable Final Terms, the application may not be capable of being implemented in such manner and/or in accordance with any timeframe, and it is possible that such amount may not be totally or partially disbursed as planned, for reasons that are outside Belfius’ control or which Belfius is not able to anticipate. Nor can there be any assurance that such Green Notes or Social Notes or the activities or projects they finance and/or refinance will have the results or outcome (whether or not related to environmental, sustainability or other objectives) originally expected or anticipated by Belfius.

Notes issued as Green Notes or Social Notes may not be a suitable investment for all investors seeking exposure to green assets or social assets. Any failure to use the net proceeds of any Green Notes or Social Notes in connection with green or sustainable projects or social projects, as applicable, and/or any failure to meet, or to continue to meet, the investment requirements of certain environmentally focused investors with respect to such Green Notes or Social Notes, may affect the value and/or trading price of the Green Notes or Social Notes, and/or may have consequences for certain investors with portfolio mandates to invest in green or sustainable assets or social assets, as applicable.

In connection with each issue of Green Notes under the Programme, Belfius has requested Sustainalytics, a sustainability rating agency, to issue an independent opinion (the “**Green Bond Framework Second Party Opinion**”) confirming the sustainability of the Green Bond Framework and its alignment with the International Capital Market Association (“**ICMA**”) Green Bond Principles 2018 (the “**ICMA Green Bond Principles**”). The ICMA Green Bond Principles are a set of voluntary guidelines that recommend transparency and disclosure and promote integrity in the development of the green bond market, which may be updated from time to time.

In connection with each issue of Social Notes under the Programme, Belfius has requested Sustainalytics, a sustainability rating agency, to issue an independent opinion (the “**Social Bond Framework Second Party Opinion**”) and together with the Green Bond Framework Second Party Opinion, the “**Second Party Opinions**”) confirming the sustainability of the Social Bond Framework and its alignment with the International Capital Market Association (“**ICMA**”) Social Bond Principles 2023 (the “**ICMA Social Bond Principles**”). The ICMA

Social Bond Principles are a set of voluntary guidelines that recommend transparency and disclosure and promote integrity in the development of the green bond market, which may be updated from time to time.

Each Second Party Opinion is available on the website of Belfius (<https://www.belfius.be/about-us/en/investors/debt-issuance>). The Second Party Opinions and the contents of such websites do not form part of, and are not incorporated by reference into, this Base Prospectus.

No assurance is or can be given to investors by the Issuers or any other person that any projects or uses the subject of, or related to, any Green Notes or Social Notes will meet or continue to meet on an ongoing basis any or all investor expectations regarding “green”, “sustainable”, “social” or similar labels (including Regulation (EU) but not limited to 2020/852 on the establishment of a framework to facilitate sustainable investment (the “**EU Taxonomy Regulation**”) or Regulation (EU) 2020/852 as it forms part of domestic law in the United Kingdom by virtue of the EUWA) or that any adverse environmental, social and/or other impacts will not occur during the implementation of any projects or uses the subject of, or related to, Belfius’ Green Bond Framework or Social Bond Framework. It should be noted that there is currently no clearly defined definition (legal, regulatory or otherwise) of, nor market consensus as to what constitutes, a “green” or “sustainable” or an equivalently-labelled project or as to what precise attributes are required for a particular project to be defined as such. The EU Taxonomy Regulation is subject to further development through delegated regulations. The European Green Bond Standard has been introduced by Regulation (EU) 2023/2631 of the European Parliament and of the Council of 22 November 2023 on European Green Bonds and optional disclosures for bonds marketed as environmentally sustainable and for sustainability-linked bonds (the “**EU Green Bond Regulation**”), which became applicable on 21 December 2024. The EU Green Bond Regulation introduces a voluntary label for issuers of green use of proceeds bonds (such as Green Notes) where the proceeds will be invested in economic activities aligned with the EU Taxonomy. As at the date of this Base Prospectus, any Green Notes issued under this Programme are not issued in accordance with the requirements of the EU Green Bond Regulation and are not expected to be aligned with the European Green Bond Standard. Finally, Regulation (EU) 2024/2809 amending Regulations (EU) 2017/1129, (EU) No 596/2014 and (EU) No 600/2014 to make public capital markets in the Union more attractive for companies and to facilitate access to capital for small and medium-sized enterprises (forming part of the EU Listing Act) foresees additional disclosures to be made available to investors for Prospectus Regulation-compliant prospectuses under which bonds are issued which are marketed as taking into account ESG factors or pursuing ESG objectives. The details of these disclosure rules will be outlined in delegated acts, to be adopted by the European Commission by 5 June 2026 and have therefore not been considered in the development of this Base Prospectus.

The Green Notes are intended to comply with the criteria and processes set out in Belfius’ Green Bond Framework only, which predates the adoption of the European Green Bond Standard but may be updated in the future to take this into account. It is not clear at this stage which impact the European Green Bond Standard may have on investor demand for, and pricing of, green use of proceeds bonds (such as the Green Notes) that do not meet such standard. It could reduce demand and liquidity for the Green Notes and their price.

There can be no assurance by the Issuers or any other persons that the use of the net proceeds of Green Notes or Social Notes identified in the applicable Final Terms will satisfy, whether in whole or in part, any present or future legislative or regulatory requirements (including the EU Taxonomy Regulation, the European Green Bond Standard and the EU Listing Act, as applicable), or any present or future investor expectations or requirements with respect to investment criteria or guidelines with which any investor or its investments are required to comply under its own by-laws or other governing rules or investment portfolio mandates. Each prospective investor should have regard to the factors described in Belfius’ Green Bond Framework (see the section “*Green Bond Framework*”) or Belfius’ Social Bond Framework (see the section “*Social Bond Framework*”) and the applicable Final Terms and determine for itself the relevance of the information contained in this Base Prospectus and any applicable Final Terms regarding the use of proceeds and its purchase of the Green Notes or Social Notes, based upon such investigation as it deems necessary.

Further, although Belfius may agree at the Issue Date of any Green Notes or Social Notes to certain allocation and/or impact reporting and to use the proceeds for the financing and/or refinancing of green projects or social

projects (as specified in the applicable Final Terms), it would not (a) be an event of default under the Green Notes or Social Notes which would entitle the Noteholders to accelerate the Notes; (b) lead to an obligation of the Issuer to redeem such Notes or be a relevant factor for the Issuer in determining whether or not to exercise any optional redemption rights in respect of any Notes, or (c) impact the regulatory treatment of the Green Notes or Social Notes, including the qualification of the Green Notes or Social Notes as own funds or eligible liabilities of Belfius Bank (as applicable) (i) if Belfius were to fail to comply with such agreement or were to fail to use the proceeds in the manner specified in the applicable Final Terms or if the use is completed but leads to a result not originally anticipated; (ii) if the relevant Second Party Opinion were to be withdrawn or be no longer valid or renewed; (iii) in case of any failure by Belfius to comply with any ESG target or with regard to the expected performance of Eligible Green Assets or Eligible Social Assets; and/or (iv) if there would be a lack of Eligible Green Assets or Eligible Social Assets in which Belfius may invest. Any failure to use an amount equivalent to the net proceeds of any Series of Green Notes towards the financing and/or refinancing of the Eligible Green Assets or of any Series of Social Notes towards the financing and/or refinancing of the Eligible Social Assets, and/or any failure to meet, or to continue to meet, any investor expectations or requirements as to their “green”, “social” or equivalent characteristics, including the failure to provide, or the withdrawal of, the relevant Second Party Opinion or the failure by Belfius to report on the use of proceeds or the Eligible Green Assets or Eligible Social Assets as anticipated, may have a material adverse effect on the value and/or trading price of such Green Notes or Social Notes, and/or may have consequences for certain investors with portfolio mandates to invest in green or sustainable assets or social assets, as applicable (which consequences may include the need to sell the Green Notes or Social Notes as a result of the Green Notes or Social Notes not falling within the investor’s investment criteria or mandate).

Notwithstanding any use of the net proceeds of the Green Notes or Social Notes identified in the applicable Final Terms, investors should note that, in respect of Belfius Bank Notes, (i) such transactions will be fully subject to the eligibility criteria set out in Regulation (EU) 575/2013 (as amended, the “CRR”) and BRRD requirements for own funds and eligible liabilities instruments, as applicable, and, as such, proceeds from Green Notes or Social Notes qualifying as own funds or eligible liabilities should cover all losses in the balance sheet of the Issuer regardless of their green label, (ii) the Green Notes or Social Notes can be subject to bail-in and write-down or conversion powers and (iii) this will not affect the particular status of such Green Notes or Social Notes as identified in the applicable Final Terms, including, as applicable, in terms of subordination, loss absorbency features and regulatory treatment. In this respect, please also refer to the risk factor entitled “*Risks related to the bail-in of the Notes*”.

No assurance of suitability or reliability of any Second Party Opinion

No assurance or representation is given as to the suitability or reliability for any purpose whatsoever of any opinion or certification of any third party (whether or not solicited by Belfius) which may be made available in connection with each issue of any Green Notes or Social Notes and in particular as to whether or not any Eligible Green Assets or Eligible Social Assets fulfil any environmental, sustainability, social and/or other criteria. For the avoidance of doubt, any such opinion or certification (including the Second Party Opinions) (i) is not, nor shall be deemed to be, incorporated in and/or form part of this Base Prospectus, (ii) may not reflect the potential impact of all risks related to the structure, market, additional risk factors discussed in this section and other factors that may affect the value of any Green Notes or Social Notes, (iii) is not, nor should be deemed to be, a recommendation by the Issuers or any other person to buy, sell or hold Green Notes or Social Notes and (iv) would only be current as of the date that it was initially issued. Without prejudice to the Issuer’s responsibility for the information contained in this Base Prospectus (as indicated in the Section “*Responsibility Statement*”), prospective investors must determine for themselves the relevance of any such opinion or certification and/or the information contained therein and/or the provider of such opinion or certification for the purpose of any investment in the Green Notes or Social Notes (subject to any (limitation of) liability statement contained in such opinion, report or certification – the Green Bond Framework Second Party Opinion for example provides that “*Sustainalytics accepts no liability for damage arising from the use of the information, data or opinions contained herein, in any manner whatsoever, except where explicitly required by law*”). Currently, the providers of such opinions and certifications are not

subject to any specific regulatory or other regime or oversight, it being understood that the EU Green Bond Regulation will require issuers to appoint independent EU regulated external reviewers (in order to obtain the voluntary label). As set out above, however, as at the date of this Base Prospectus, any Green Bonds issued under this Programme are not issued in accordance with the requirements of the EU Green Bond Regulation and are not expected to be aligned with the European Green Bond Standard.

No Event of Default or breach of contract

While the applicable Final Terms may indicate that Belfius will apply an amount equal to the net proceeds of any Notes issued as Green Notes for Eligible Green Assets as described in the applicable Final Terms or of any Notes issued as Social Notes for Eligible Social Assets as described in the applicable Final Terms, there is no contractual obligation on it to do so or to report on the use of proceeds or Eligible Green Assets or Eligible Social Assets, as applicable.

There can be no assurance that any such Eligible Green Assets or Eligible Social Assets, as applicable, will be available or capable of being implemented in the manner anticipated and, accordingly, that Belfius will be able to use such amounts for such Eligible Green Assets or Eligible Social Assets, as applicable, as intended, for reasons that are outside Belfius' control or which Belfius is not able to anticipate. In addition, there can be no assurance that the Eligible Green Assets or Eligible Social Assets, as applicable, will be completed as expected or achieve the impacts or outcomes (environmental, social or otherwise) originally expected or anticipated, and any such failure will not constitute an Event of Default or breach of contract with respect to any Notes issued as Green Notes or Social Notes. For the avoidance of doubt, a failure by Belfius to allocate an amount equal to the proceeds of any Notes issued as Green Notes or Social Notes or to report on the use of such amounts or Eligible Green Assets or Eligible Social Assets as anticipated or a failure of a third party to issue (or to withdraw) an opinion or certification in connection with an issue of Green Notes or Social Notes or the failure of the Notes issued as Green Notes or Social Notes to meet investors' expectations requirements regarding any "green", "social" or similar labels or any failure by any Belfius entity to meet any ESG target or objective will not constitute an Event of Default or breach of contract with respect to any Notes issued as Green Notes or Social Notes.

Notes issued as Green Notes or Social Notes are not linked to the performance of the Eligible Green Assets or Eligible Social Assets, as applicable, do not benefit from any arrangements to enhance the performance of the Green Notes or Social Notes or any contractual rights derived solely from the intended use of proceeds of such Green Notes or Social Notes

The performance of the Green Notes or Social Notes is not linked to the performance of the Eligible Green Assets or Eligible Social Assets, as applicable, or the performance of the Issuer in respect of any environmental or similar targets. There will be no segregation of assets and liabilities in respect of the Green Notes or Social Notes and the Eligible Green Assets or Eligible Social Assets. Consequently, neither payments of principal and/or interest (if any) on the Green Notes or Social Notes nor any rights of Noteholders shall depend on the performance of the Eligible Green Assets or Eligible Social Assets or the performance of Belfius in respect of any such environmental or similar targets. Holders of any Green Notes or Social Notes shall have no preferential rights or priority against the assets of the Eligible Green Assets or Eligible Social Assets, as applicable, nor benefit from any arrangements to enhance the performance of the Notes.

2.3.2.10. Risks related to Foreign Currency Notes

As purchasers of foreign currency Notes, investors are exposed to the risk of changing foreign exchange rates. This risk is in addition to any performance risk that relates to each Issuer or the type of Note being issued.

The relevant Issuer will pay principal and interest on the Notes in the Specified Currency. This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the "**Investor's Currency**") other than the Specified Currency. These include the risk that exchange rates may significantly change (including changes due to devaluation of the Specified Currency or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency

or the Specified Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the Specified Currency would decrease (i) the equivalent yield on the Notes in the Investor's Currency, (ii) the equivalent value of the principal payable on the Notes in the Investor's Currency and (iii) the equivalent market value of the Notes in the Investor's Currency.

Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate. As a result, investors may receive less interest or principal than expected, or no interest or principal.

2.3.2.11. Risks related to Notes with a multiplier or other leverage factor

Notes with variable interest rates can be volatile investments. If they are structured to include multipliers or other leverage factors, or caps or floors, or any combination of those features or other similar related features, their market values may be even more volatile than those for securities that do not include such features. Moreover, the reference rate could be zero or even negative. Even if the relevant reference rate becomes negative, it will still remain the basis for the calculation of the interest rate, and a margin, if applicable, will be added to such negative interest rate. For the avoidance of doubt, the Noteholders will never be required to pay a coupon to the Issuer or the Guarantor.

2.3.2.12. Risks related to early redemption of the Notes

The Terms and Conditions of the Notes provide that Notes may be redeemed prior to their stated maturity if (i) Partial Redemption is provided to be applicable in the applicable Final Terms, (ii) Call Option is provided to be applicable in the applicable Final Terms, at the option of the Issuer and (iii) Mandatory Early Redemption is provided to be applicable in the applicable Final Terms and one or more Trigger Events (as will be defined in the applicable Final Terms) occur.

An early redemption of the Notes is likely to limit the market value of such Notes. Where the relevant Issuer has the option to redeem the Notes prior to their stated maturity or the market anticipates that redemption might occur, such as when the relevant Issuer's cost of borrowing is lower than the interest rate on the Notes, the market value of those Notes generally will not rise substantially above the price at which they can be redeemed during any period when the Issuer may elect to redeem such Notes.

If the relevant Issuer redeems the Notes prior to their maturity, there is a risk that the Notes may be redeemed at times when the redemption proceeds are less than the current market value of the Notes or when prevailing interest rates may be relatively low. Investors that choose to reinvest moneys they receive through an early redemption of Notes may be able to do so only in securities with a lower yield than the redeemed Notes. Potential investors should consider reinvestment risk in light of other investments available at that time. In this respect, please also refer to the risk factor entitled "*Risks related to reinvesting risk*".

2.3.2.13. Issuer substitution

Pursuant to Condition 8.16, in case of dissolution, liquidation, reconstruction, merger, amalgamation or any other kind of reorganisation, the relevant Issuer and, in the case of Belfius Financing Company Notes, the Guarantor may, without any further consent or cooperation from the Noteholders, at any time, procure that any affiliated or associated corporation of the relevant Issuer or, in the case of Belfius Financing Company Notes, the Guarantor is substituted for the relevant Issuer as the debtor under the Terms and Conditions to be offered by assigning all its rights and obligations to such other corporation, provided that certain preconditions are fulfilled. Notwithstanding each of these preconditions being satisfied prior to any such substitution, there can be no guarantee that any such substitution will not have an adverse effect on the price of the Notes and subsequently lead to losses for the Noteholders if they sell the Notes.

2.3.2.14. Investors will not be able to calculate in advance their rate of return on Floating Rate Notes

A key difference between Floating Rate Notes, on the one hand, and Fixed Rate Notes, on the other, is that interest income on Floating Rate Notes cannot be anticipated. Due to varying interest income, investors are not able to determine a definite yield for Floating Rate Notes at the time they purchase them, so that their return on investment cannot be compared with that of investments bearing fixed interest rate.

2.3.2.15. Zero Coupon Notes are subject to greater price fluctuations than non-discounted notes

Changes in market interest rates have a substantially stronger impact on the prices of Zero Coupon Notes than on the prices of interest-bearing Notes because the discounted issue prices can be substantially below par. If market interest rates increase, Zero Coupon Notes can suffer higher price losses than other Notes having the same maturity and credit rating. Due to their leverage effect, Zero Coupon Notes are a type of investment associated with a particularly high price risk.

2.3.2.16. The market value of Notes issued at a substantial discount or premium may fluctuate more than on conventional interest-bearing securities

The market values of Notes issued at a substantial discount or premium to their nominal amount tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing securities. Generally, the longer the remaining term of the securities, the greater the price volatility as compared to conventional interest-bearing securities with comparable maturities.

2.3.3. Risks in connection with the Guarantee

2.3.3.1. The Guarantor may not have the ability to pay all amounts due under the Belfius Financing Company Notes

The Guarantor may not be able to pay all amounts due under the Belfius Financing Company Notes in the event of a claim under the Guarantee. If the holders of the Belfius Financing Company Notes were to demand payment from the Guarantor under the Guarantee, it is uncertain that that it will be able to pay the required amount in full.

The Guarantor's ability to repay the Belfius Financing Company Notes will depend on its financial position at the time of the call under the Guarantee, and may be limited by law, by the terms of its indebtedness and by the agreements that it may have entered into on or before such date, which may replace, supplement or amend its existing or future indebtedness.

The Guarantor's failure to pay amounts due under the Belfius Financing Company Notes may result in an event of default under the terms of other outstanding indebtedness of the Issuers and the Guarantor, which could lead to their insolvency. In this respect, please also refer to the risk factor entitled "*Ranking of the Notes and insolvency*".

2.3.3.2. Each holder of Belfius Financing Company Notes must call upon the Guarantee at its own initiative

Each holder of Belfius Financing Company Notes will have to call the Guarantee at its own initiative. The amount that the holder of Belfius Financing Company Notes will be able to receive may depend on the moment the call under the Guarantee is made. Potential investors should also take into account that a call under the Guarantee may give rise to certain costs.

2.3.4. Operational risks

2.3.4.1. Reliance on the procedures of the Securities Settlement System and Participants or other clearing systems where the Notes are represented or deposited for transfer, payment and communication with the Issuers

The Belfius Bank Notes will be issued in dematerialised form in accordance with the Belgian Code of Companies and Associations and cannot be physically delivered. The Belfius Bank Notes will be represented by book entries

in the records of the Securities Settlement System. Access to the Securities Settlement System is available through the direct and indirect participants in the Securities Settlement System (the “**Participants**”) whose membership extends to securities such as the Belfius Bank Notes. The Participants include certain banks, stockbrokers (“*beursvennootschappen*”/“*sociétés de bourse*”), and Euroclear Bank SA/NV (“**Euroclear**”), Euroclear France S.A. (“**Euroclear France**”), Clearstream Banking AG, Frankfurt (“**Clearstream Banking Frankfurt**”), Clearstream Banking Luxembourg S.A. (“**Clearstream Banking S.A.**”), SIX SIS AG (“**SIX SIS**”), Monte Titoli S.p.A. (“**Euronext Securities Milan**”), Interbolsa S.A. (“**Euronext Securities Porto**”), LuxCSD S.A. (“**LuxCSD**”), Iberclear-ARCO (“**Iberclear**”) and OeKB CSD GmbH (“**OeKB**”).

Transfers of interests in the Belfius Bank Notes will be effected between the Participants in accordance with the rules and operating procedures of the Securities Settlement System. Transfers between investors will be effected in accordance with the respective rules and operating procedures of the Participants through which they hold their Belfius Bank Notes.

The Belfius Financing Company Notes will be issued in dematerialised form, in registered form (*obligations nominatives/obligaties op naam*) or in bearer form and will be governed by Belgian law. The Belfius Financing Company Notes which are issued in dematerialised form will be represented by a book-entry in the records of the Securities Settlement System. The Belfius Financing Company Notes which are issued in registered form (*obligations nominatives/obligaties op naam*) will be issued pursuant to the applicable provisions of Articles 7:27 to 7:34 of the Belgian Code of Companies and Associations to the extent not deviated from by the Terms and Conditions of the Belfius Financing Company Notes. The Belfius Financing Company Notes which are issued in bearer form will be represented by a Permanent Global Note, deposited with the common depository for Euroclear and Clearstream Banking S.A. and will not be exchangeable for definitive notes.

Neither the Issuers, nor the Guarantor, nor any Agent will have any responsibility for the proper performance by the Securities Settlement System or the Participants or any other clearing systems where the Notes are represented or deposited (as applicable) of their obligations under their respective rules and operating procedures.

A Noteholder must rely on the procedures of the Securities Settlement System, the Participants or such other clearing systems where the Notes are represented or deposited (as applicable) to receive payments under the Notes, make transfers and receive communications from the Issuers. The Issuers, the Guarantor nor any Agent will have any responsibility or liability for the records relating to, payments made in respect of, or delays of communication with regards to the Notes within the Securities Settlement System, the Participants or such other clearing systems where the Notes are represented or deposited (as applicable).

3. CHOICES MADE BY THE ISSUERS

According to Article 8 of the Prospectus Regulation, the Issuers have chosen to issue notes under a base prospectus. The specific terms of each Tranche of Notes will be set forth in the applicable Final Terms. In addition, the Issuers choose the Kingdom of Belgium as their home Member State for purposes of the Prospectus Regulation.

The Issuers have freely defined the order in the presentation of the required items included in the schedules and building blocks of the Commission Delegated Regulation (EU) 2019/980 according to which this Base Prospectus is drawn up. The chosen presentation is a consequence of the combination of Annex 6 and Annex 14 of Commission Delegated Regulation (EU) 2019/980. In order to enable the Noteholders to identify in the presentation below the corresponding provisions of the relevant Annexes of Commission Delegated Regulation (EU) 2019/980, cross-references will be made to the relevant Annexes of Commission Delegated Regulation (EU) 2019/980 and their subsections. Finally, any items which do not require, in their absence, an appropriate negative statement according to the relevant Annexes of Commission Delegated Regulation (EU) 2019/980, are not included in the presentation when the Issuers so determine.

4. RESPONSIBILITY STATEMENT

(Annex 6.1 and 14.1 of Commission Delegated Regulation (EU) 2019/980)

Belfius Financing Company as Issuer and Belfius Bank as Issuer or Guarantor, as applicable, accept responsibility for the information given in this Base Prospectus and the Final Terms for each Tranche of Notes issued under the Programme. The information contained in this Base Prospectus is, to the best of their knowledge, in accordance with the facts and contains no omission likely to affect its import.

In addition, in the context of any Public Offer, the Issuers also accept responsibility as set forth above for the content of this Base Prospectus in relation to any person (an “**Investor**”) to whom any offer of Notes is made by any financial intermediary or other person to whom the relevant Issuer has given its consent to use this Base Prospectus in connection with Public Offers of the Notes, subject to the conditions set out below (an “**Authorised Offeror**”). However, the relevant Issuer does not have any responsibility for any of the actions of any Authorised Offeror, including compliance by an Authorised Offeror with applicable conduct of business rules or other local regulatory requirements or other securities law requirements in relation to such Public Offer.

Pursuant to the paragraph above, and if so specified in the Final Terms in respect of any Tranche of Notes, the relevant Issuer consents to the use of this Base Prospectus in connection with a Public Offer of the relevant Notes by each Authorised Offeror on the following basis or as otherwise indicated in the Final Terms:

- (a) such consent is given only for the use of this Base Prospectus, as amended, supplemented and/or replaced from time to time, in relation to Public Offers of Notes occurring within 12 months from the date of this Base Prospectus;
- (b) such consent relates only to the offer period of the applicable Public Offer (the “**Offer Period**”) or such other period as specified in the Final Terms;
- (c) such consent only relates to Public Offers made in Belgium;
- (d) the relevant Authorised Offeror complies with the following (the “**Authorised Offeror Terms**”):
 - (i) it is authorised to make Public Offers under MiFID II and applicable legislation implementing MiFID II, provided, however, that if any Authorised Offeror ceases to be so authorised, then the consent of the Issuer shall be given only for so long as such Authorised Offeror is so authorised to make Public Offers under MiFID II and applicable legislation implementing MiFID II;
 - (ii) it accepts such offer by the relevant Issuer by publishing on its website the following statement (with the information in square brackets duly completed with the relevant information) (the “**Acceptance Statement**”):

“We, [specify name], refer to the offer of [specify title of Notes] (the “Notes”) described in the Final Terms dated [specify date] (the “Final Terms”) published by [specify name of issuer] (the “Issuer”). In consideration of the Issuer offering to grant its consent to our use of the Base Prospectus (as defined in the Final Terms) in connection with the offer of the Notes in Belgium during [the Offer Period][specify period] in accordance with the Authorised Offeror Terms (as specified in the Base Prospectus as completed by the Final Terms), we accept the offer by the Issuer. We confirm that we are authorised under Directive 2014/65/EU, as amended, to make, and are using the Base Prospectus in connection with, the offer of the Notes accordingly. Terms used herein and otherwise not defined shall have the same meaning as given to such terms in the Base Prospectus.”
 - (iii) it acts in accordance with, and will be solely responsible for complying with, all applicable laws, rules, regulations and guidance of any applicable regulatory bodies (the “**Rules**”) from time to time including, without limitation and in each case, Rules relating to both the appropriateness or suitability of any investment in the Notes by an Investor and disclosure to any potential Investor;

- (iv) it complies with the restrictions set out under “Terms and Conditions of the Offer” in this Base Prospectus which would apply as if it were a relevant Dealer;
- (v) it considers the relevant manufacturer’s target market assessment and distribution channels identified under the “MiFID II product governance” legend set out in the applicable Final Terms;
- (vi) it ensures that any fee, commission, benefits of any kind, rebate received or paid by that Authorised Offeror in relation to the offer or sale of the Notes does not violate the Rules and is fully and clearly disclosed to Investors or potential Investors;
- (vii) it holds all licences, consents, approvals and permissions required in connection with solicitation of interest in, or offers or sales of, the Notes under the Rules;
- (viii) it complies with, and takes appropriate steps in relation to, applicable anti-money laundering, anti-bribery, prevention of corruption and “know your client” Rules, and does not permit any application for Notes in circumstances where the Authorised Offeror has any suspicions as to the source of the application monies;
- (ix) it retains investor identification records for at least the minimum period required under applicable Rules, and shall, if so requested and to the extent permitted by the Rules, make such records available to the relevant Dealer and the relevant Issuer or directly to the appropriate authorities with jurisdiction over the relevant Issuer and/or the relevant Dealer in order to enable the relevant Issuer and/or the relevant Dealer to comply with anti-money laundering, anti-bribery, anti-corruption and “know your client” Rules applying to the relevant Issuer and/or the relevant Dealer;
- (x) it does not, directly or indirectly, cause the relevant Issuer or the relevant Dealer to breach any Rule or subject the relevant Issuer or the relevant Dealer to any requirement to obtain or make any filing, authorisation or consent in any jurisdiction;
- (xi) it immediately gives notice to the relevant Issuer and the relevant Dealer if at any time it becomes aware or suspects that it is or may be in violation of any Rules or the Authorised Offeror Terms, and takes all appropriate steps to remedy such violation and comply with such Rules and the Authorised Offeror Terms in all respects;
- (xii) it does not give any information other than that contained in this Base Prospectus (as may be amended, supplemented and/or replaced from time to time) or make any representation in connection with the offering or sale of, or the solicitation of interest in, the Notes;
- (xiii) it agrees that any communication in which it attaches or otherwise includes any announcement published by the relevant Issuer at the end of the Offer Period or the end of such other period as specified in the Final Terms will be consistent with this Base Prospectus (as may be amended, supplemented and/or replaced from time to time) and (in any case) must be fair, clear and not misleading and in compliance with the Rules and must state that such Authorised Offeror has provided it independently from the relevant Issuer and must expressly confirm that the relevant Issuer has not accepted any responsibility for the content of any such communication;
- (xiv) it does not use the legal or publicity names of the relevant Dealer, the relevant Issuer or any other name, brand or logo registered by any entity within their respective groups or any material over which any such entity retains a proprietary interest or in any statements (oral or written), marketing material or documentation in relation to the Notes;
- (xv) it agrees to any other conditions set out in the applicable Final Terms, including under the section “Distribution”;
- (xvi) it agrees and accepts that the Dealers will be entitled to enforce those provisions of the contract between the relevant Issuer and the Authorised Offeror, formed upon acceptance by the Authorised

Offeror of the relevant Issuer's offer to use of this Base Prospectus with its consent in connection with the relevant offer of Notes, which are, or are expressed to be, for their benefit, including the agreements, representations, warranties, undertakings and indemnity given by the Authorised Offeror pursuant to the Authorised Offeror Terms;

- (xvii) it will co-operate with the relevant Issuer and the relevant Dealer in providing relevant information and such further assistance as is reasonably requested upon written request from the relevant Issuer or the relevant Dealer in each case, as soon as is reasonably practicable and, in any event, within any time frame set by any such regulator or regulatory process. For this purpose, relevant information is information that is available to, or can be acquired by, the relevant Authorised Offeror:
 - (a) in connection with any request or investigation by any regulator in relation to the Notes, the relevant Issuer or the relevant Dealer; and/or
 - (b) in connection with any complaints received by the relevant Issuer and/or the relevant Dealer relating to the relevant Issuer and/or the relevant Dealer or another Authorised Offeror including, without limitation, complaints as defined in the Rules; and/or
 - (c) which the relevant Issuer or the relevant Dealer may reasonably require from time to time in relation to the Notes and/or to allow the relevant Issuer or the relevant Dealer fully to comply with its own legal, tax and regulatory requirements;
- (xviii) it will, during the period of the initial offering of the Notes (A) only sell the Notes at the Issue Price specified in the applicable Final Terms (unless otherwise agreed with the relevant Issuer and the relevant Dealer), (B) only sell the Notes for settlement on the Issue Date specified in the applicable Final Terms, (C) not appoint any sub-distributors (unless otherwise agreed with the relevant Issuer and the relevant Dealer), (D) not pay any fee or remuneration or commissions or benefits to any third parties in relation to the offering or sale of the Notes (unless otherwise agreed with the relevant Dealer) and (E) comply with such other rules of conduct as may be reasonably required and specified by the relevant Dealer; and
- (xix) it will either (A) obtain from each potential Investor an executed application for the Notes or (B) keep a record of all requests the relevant Authorised Offeror (x) makes for its discretionary management clients, (y) receives from its advisory clients and (z) receives from its execution-only clients, in each case prior to making any order for the Notes on their behalf, and in each case maintain the same on its files for so long as is required by any applicable Rules;
- (xx) it agrees and undertakes to each of the relevant Issuer and the relevant Dealer that if it or any of its respective directors, officers, employees, agents, affiliates and controlling persons (each a "**Relevant Party**") incurs any losses, liabilities, costs, claims, charges, expenses, actions or demands (including reasonable costs of investigation and any defence raised thereto and counsel's fees and disbursements associated with any such investigation or defence) (a "**Loss**") arising out of or in relation to, or in connection with, any breach of any of the foregoing agreements, representations, warranties or undertakings by the relevant Authorised Offeror, including (without limitation) any unauthorised action by the relevant Authorised Offeror or failure by it to observe any of the above restrictions or requirements or the making by it of any unauthorised representation or the giving or use by it of any information which has not been authorised for such purposes by the relevant Issuer or the relevant Dealer, the relevant Authorised Offeror shall pay to the Issuer or the relevant Dealer, as the case may be, an amount equal to the Loss. Neither the relevant Issuer, nor any Dealer shall have any duty or obligation, whether as fiduciary or trustee for any Relevant Party or otherwise, to recover any such payment or to account to any other person for any amounts paid to it under this provision;
- (xxi) it agrees and accepts that:

- (a) the contract between the relevant Issuer and the relevant Authorised Offeror formed upon acceptance by the relevant Authorised Offeror of the relevant Issuer's offer to use this Base Prospectus with its consent in connection with the relevant offer of Notes (the "**Authorised Offeror Contract**"), and any non-contractual obligations arising out of or in connection with the Authorised Offeror Contract, shall be governed by, and construed in accordance with, Belgian law;
 - (b) the Brussels courts have exclusive jurisdiction to settle any dispute arising out of or in connection with the Authorised Offeror Contract (including any dispute relating to any non-contractual obligations arising out of or in connection with the Authorised Offeror Contract) (a "**Dispute**") and the relevant Issuer and the relevant Authorised Offeror submit to the exclusive jurisdiction of the Brussels courts;
 - (c) for the purposes of (b), the relevant Issuer and the relevant Authorised Offeror waives any objection to the Brussels courts on the grounds that they are an inconvenient or inappropriate forum to settle any dispute; and
 - (d) each relevant Dealer will be entitled to enforce those provisions of the Authorised Offeror Contract which are, or are expressed to be, for their benefit, including the agreements, representations, warranties, undertakings and indemnity given by the Authorised Offeror pursuant to the Authorised Offeror Terms; and
- (e) any other conditions relating to the relevant Public Offer (as specified in the applicable Final Terms) are complied with.

Details of the Offer Period (or such other relevant period as specified in the Final Terms) and any other conditions relating to the Public Offer and the names of the Authorised Offeror(s) will be specified in the Final Terms relating to a Tranche of Notes.

The relevant Issuer may give its consent to additional financial intermediaries or other persons after the date of the applicable Final Terms and, if it does so, the relevant Issuer will publish the relevant information in relation to them on <http://www.belfius.be>.

Any Authorised Offeror wishing to use this Base Prospectus in connection with a Public Offer as set out above is required, for the duration of the relevant Offer Period (or such other relevant period as specified in the Final Terms), to publish on its website the Acceptance Statement.

The Issuers have not authorised the making of any Public Offer by any person in any circumstances and such person is not permitted to use this Base Prospectus in connection with its offer of any Notes unless (i) the offer is made by an Authorised Offeror as described above or (ii) the offer is otherwise made in circumstances falling within an exemption from the requirement to publish a prospectus under the Prospectus Regulation. Any such unauthorised offers are not made on behalf of the Issuers and the Issuers have no responsibility or liability for the actions of any person making such offers. If, in the context of a Public Offer, an Investor is offered Notes by a person which is not an Authorised Offeror, the Investor should check with that person whether anyone is responsible for this Base Prospectus for the purposes of the relevant Public Offer and, if so, who that person is. If an Investor is in any doubt about whether it can rely on this Base Prospectus and/or who is responsible for its contents it should take legal advice.

An Investor intending to acquire or acquiring any Notes from an Authorised Offeror will do so, and offers and sales of the Notes to an investor by an Authorised Offeror will be made, in accordance with any terms and other arrangements in place between such Authorised Offeror and such Investor including as to price, allocation and settlement arrangements (the "**Terms and Conditions of the Public Offer**"). The Issuer will not be a party to any such arrangements with Investors in connection with the offer or sale of the Notes and, accordingly, this Base Prospectus and any Final Terms will not contain such information. The Terms and Conditions of the Public Offer

shall be published by that Authorised Offeror on its website at the relevant time. None of the Issuers, the Guarantor nor any Dealer has any responsibility or liability for such information.

5. DOCUMENTS INCORPORATED BY REFERENCE

This Base Prospectus should be read and construed in conjunction with:

- (a) documents available on the date of this Base Prospectus:
 - (i) the annual reports and the audited consolidated financial statements of Belfius Bank for the years ended 31 December 2023² and 31 December 2024³, including the accounting policies, notes and reports of the statutory auditor in respect thereof;
 - (ii) the unaudited disclosure documents on alternative performance measures (“APMs”) of Belfius Bank for the years ended 31 December 2023⁴ and 31 December 2024⁵; and
- (b) documents to be made available after the date of this Base Prospectus (which will not be approved or scrutinised by the FSMA or any other competent authority):
 - (i) the future unaudited condensed consolidated and non-consolidated interim financial statements of Belfius Bank for the period ending 30 June 2025 and the future audited consolidated and non-consolidated financial statements of Belfius Bank for the year ending 31 December 2025, each time including the accounting policies, notes and reports of the statutory auditor in respect thereof, as and when published on <https://www.belfius.be/about-us/en/investors/results-reports/reports> by the end of August 2025 and mid-April 2026, respectively, in accordance with the requirements of the Prospectus Regulation; and
 - (ii) the future unaudited disclosure documents on APMs of Belfius Bank for the period ending 30 June 2025 and for the year ending 31 December 2025, as and when published on <https://www.belfius.be/about-us/en/investors/results-reports/reports> by the end of August 2025 and mid-April 2026, respectively, in accordance with the requirements of the Prospectus Regulation,

each of which are incorporated by reference into this Base Prospectus.

Such documents shall be incorporated in and form part of this Base Prospectus, save that any statement contained in a document which is incorporated by reference herein shall be modified or superseded for the purpose of this Base Prospectus to the extent that a statement contained herein modifies or supersedes such earlier statement (whether expressly, by implication or otherwise). Any statement so modified or superseded shall not, except as so modified or superseded, constitute a part of this Base Prospectus.

This Base Prospectus should also be read and construed in conjunction with the audited financial statements of Belfius Financing Company for the years ended 31 December 2023 and 31 December 2024, including the reports of the statutory auditor in respect thereof, each as included in Annex 5 of this Base Prospectus.

7. BELFIUS BANK SA/NV

(Annex 6.4 of Commission Delegated Regulation (EU) 2019/980)

7.1. Belfius Bank profile

Belfius Bank SA/NV (the “**Issuer**” or “**Belfius Bank**”) is a limited liability company (*naamloze vennootschap/ société anonyme*) established on 23 October 1962 for an unlimited duration and incorporated under Belgian law. The Issuer is licensed as a credit institution in accordance with the Belgian law of 25 April 2014 on the status and supervision of credit institutions (the “**Banking Law**”). It is registered with the Crossroads Bank for Enterprises under business identification number 0403.201.185 and has its registered office at 1210 Brussels, Place Charles Rogier 11, Belgium, telephone +32 22 22 11 11. Belfius Bank’s LEI code is A5GWLFFH3KM7YV2SFQL84. The commercial name of the Issuer is Belfius Bank in English, Belfius Bank in Dutch and Belfius Banque in French.

The share capital of Belfius Bank as at the date of this Base Prospectus is EUR 3,458,066,227.41 and is represented by 359,412,616 registered shares. The shareholding of Belfius Bank is as follows: 359,407,616 registered shares are held by the public limited company of public interest Federal Holding and Investment Company (“**FHIC**”), in its own name but on behalf of the Belgian State, and 5,000 registered shares are held by the public limited company Certi-Fed. Certi-Fed is a fully-owned subsidiary of FHIC. The extraordinary shareholders’ meeting of Belfius Bank held on 24 April 2024 authorised the Board of Directors to increase the share capital of Belfius Bank in one or more stages by a maximum of EUR 3,458,066,227.41. The authorisation is valid for a period of five years from the publication of the relevant resolution in the annexes to the Belgian State Gazette. No change was made to the share capital of Belfius Bank during the financial year 2024.

At the end of 2024, the total consolidated balance sheet amounted to EUR 187 billion.

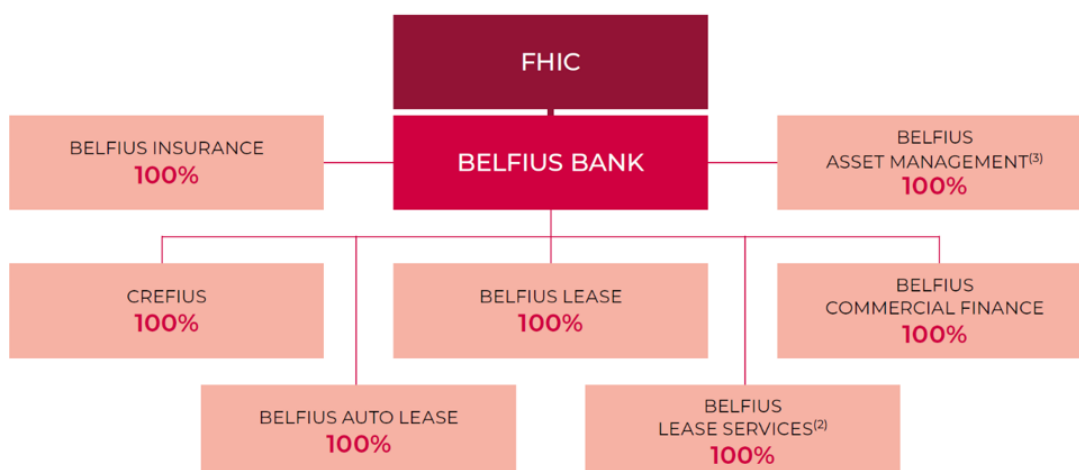

There are no material contracts entered into in the ordinary course of Belfius Bank’s business which could result in any member of the Belfius group being under an obligation or an entitlement that is material to Belfius Bank’s ability to meet its obligations to Noteholders.

The statutory auditor of Belfius Bank for the historical financial information covered by this Base Prospectus is KPMG Reviseurs d’Entreprises SCRL, Gateway building, Luchthaven Nationaal 1 K, 1930 Zaventem, Belgium, being a member of the Belgian *Instituut der Bedrijfsrevisoren/Institut des Réviseurs d’Entreprises*. In 2023, KPMG Reviseurs d’Entreprises SCRL was reappointed as statutory auditor of Belfius Bank for a term of three years, expiring after the annual shareholders’ meeting to be held in 2026. Deloitte Bedrijfsrevisoren BV was appointed by the annual shareholders’ meeting held on 30 April 2025 as statutory auditor of Belfius Bank for the subsequent three-year period, ending after the annual shareholders’ meeting to be held in 2029.

Furthermore, the extraordinary shareholders’ meeting of Belfius Bank held on 19 March 2025 decided to appoint KPMG Bedrijfsrevisoren BV as the auditor responsible for the assurance of sustainability information of Belfius Bank for the financial years ending 31 December 2024 and 31 December 2025 and to appoint Mr Olivier Macq as the permanent representative of KPMG Bedrijfsrevisoren BV for the duration of this mandate.

With an essentially Belgian balance sheet for its commercial activities and customers from all segments, Belfius Bank is in a position to act as a universal bank and to be “meaningful and inspiring for Belgian society”. Belfius Bank is committed to maximum customer satisfaction and added social value by offering products and providing services with added value through a modern distribution model. Thanks to a prudent investment policy and a carefully managed risk profile, Belfius Bank aspires to a sound financial profile that results in a solid liquidity and solvency position.

7.2. Simplified group structure as at the date of this Base Prospectus

⁽¹⁾ For more details, see the list of subsidiaries in the consolidated financial statements in the 2024 annual report.

⁽²⁾ Belfius Lease Services operates under the same brand (logo) as Belfius Lease.

⁽³⁾ Following the strategic partnership with Candriam, one share of Belfius Asset Management is held by Candriam.

Belfius Bank and its consolidated subsidiaries are referred to herein as “**Belfius**”.

7.3. Main commercial subsidiaries⁶

⁶ The figures in this section reflect the total IFRS balance sheet before consolidation adjustments.

Belfius Asset Management

Company for administration and management of investment funds. At the end of 2024, the total balance sheet of Belfius Asset Management amounted to EUR 190 million and assets under management amounted to EUR 34.7 billion.

7.4. Financial results

Results 2024

Belfius' consolidated net income reached EUR 1,127 million in 2024, driven by strong commercial dynamics and increasing income, within a persistently executed strategy supported by solid ALM management and disciplined cost management.

The total income amounted to EUR 4,241 million in 2024, up +5% or EUR +191 million compared to 2023 (EUR 4,050 million) thanks to:

- a decrease in Belfius Bank's net interest income by -6% (EUR 1,974 million in 2024 compared to EUR 2,108 million in 2023) in a lower interest rate environment, although benefiting from a positive reinvestment rate effect, due to (i) higher tariffs on non-maturing deposits, (ii) reduced interest income on decreasing volumes of non-maturing deposits, partly due to the 1 Year Government Bond, (iii) margin pressure on loans in a very competitive Belgian market and (iv) the absence of remuneration on the mandatory liquidity reserve held at the National Bank of Belgium;
- an increasing net fee and commission income for Belfius Bank from EUR 760 million in 2023 compared to EUR 809 million in 2024, mainly thanks to (i) increasing Asset Management service fees following strong organic growth and market effects, (ii) increasing Asset Management entry fees, resulting from higher production in mutual funds, as well as (iii) continuously growing fees from insurance activities through the banking network;
- a growing insurance pre-provision income contribution thanks to (i) higher insurance revenue in Non-Life & Health, (ii) higher financial income overall, leading to increased Life insurance income (EUR 503 million in 2024 compared to EUR 456 million in 2023) and (iii) growing Non-life & Health insurance income (EUR 923 million in 2024 compared to EUR 866 million in 2023), in line with a steady portfolio growth;
- positive other income at EUR +33 million in 2024 compared to EUR -140 million in 2023, mainly stemming from two exceptional items (realised capital gains on Isabel and Cyclis), as well as from lower bank levies in 2024 (EUR -218 million in 2024 compared to EUR -278 million in 2023).

Insurance Service Expenses adjusted⁷ for directly attributable costs for insurance contracts and reinsurance amounted to EUR -761 million in 2024, compared to EUR -708 million in 2023. This increase is attributable to the Non-Life segment.

Belfius continued to develop its strong footprint in operational, commercial and financial terms, by investing in human talent and digital capital. The year 2024 has been marked by further investments in technology, as well as in human capital. Costs⁸ went up by +5% at EUR 1,834 million in 2024, compared to EUR 1,740 million in 2023 due to these growth investments. However, thanks to the solid income evolution year-on-year, Belfius' C/I ratio⁹ remained at 43%, as per the ratio of 2023.

⁷ Insurance Service Expenses Adjusted equal Insurance Service Expenses, plus Net Reinsurance Result, minus Operating Expenses allocated to Insurance Service Expenses.

⁸ Including directly attributable costs for insurance contracts.

⁹ Representing Costs (including costs directly attributable to insurance services) divided by Income.

All in all, the combination of strong income dynamics, despite increasing insurance service expenses adjusted, as well as continuing investments in commercial activities, ESG, IT and digitalisation, led to an increase in pre-provision income¹⁰ by +3%, to EUR 1,646 million in 2024, compared to EUR 1,603 million in 2023.

In 2024, Belfius made again a detailed review of its credit risk portfolio and continued to calibrate its IFRS 9 provisions.

EUR -249 million of allowances have been made for exposures in default, which include a few names from the portfolio in run-off and some major individual files in the Belgian economy. Additionally, small and medium-sized businesses are increasingly contributing to specific provisions. These specific provisions are partially offset by EUR +116 million in reversals in stages 1 and 2. An important part of this reversal is due to the reduction of the overlay for economic uncertainty and vulnerable exposures in commercial activities, alongside other portfolio evolutions, including some important migrations from stage 2 to stage 3.

This led in 2024 to a negative cost of risk of EUR -133 million (net allowance), compared to EUR -109 million or a net allowance in 2023.

As a result, the net income before taxes amounted to EUR 1,513 million in 2024, compared to EUR 1,493 million in 2023.

The tax expenses amounted to EUR 384 million in 2024, compared to EUR 376 million in 2023, showing an effective tax rate (25%) in line with the statutory tax rate. The higher IFRS taxes in 2024 are mainly the result of a higher consolidated result before tax than in 2023 and the non-deductibility of the NTK¹¹ since early 2024, whereas 20% of the NTK was deductible in 2023.

As a consequence, consolidated net income reached EUR 1,127 million in 2024, compared to EUR 1,115 million in 2023. This is Belfius' highest net income since its origins, back in 2011.

In terms of financial robustness, Belfius continues to combine dynamic growth with sound solvency, liquidity and risk metrics:

- the CET 1 ratio stood at 15.4%, down 56 bps compared to the CET 1 ratio as at 31 December 2023. This decrease over 2024 is mainly the result of higher regulatory risk exposure (EUR +5.6 billion to EUR 75.1 billion), partially compensated by higher CET 1 capital (EUR +473 million);
- this strong and solid CET 1 level is net of a 40% dividend pay-out ratio, hence a potential 2024 dividend of EUR 444.5 million¹², thanks to which Belfius continued to support its commercial franchise development. Hence, the total cumulative amount of dividends since Belfius' origins back in 2011 amounts to EUR 3.0 billion;
- the leverage ratio remained at 6.5%, as per the ratio of 2023;
- insurance activities also displayed continued solid solvency metrics, with a Solvency II ratio of 196% as at 31 December 2024 (compared to 195% as at 31 December 2023);
- as at 31 December 2024, Belfius continued to show an excellent liquidity and funding profile with a LCR of 139% and a NSFR of 133%;
- total shareholders' equity (Net Asset Value) further improved to EUR 12.2 billion as at 31 December 2024 (compared to EUR 11.7 billion as at 31 December 2023), as a result of strong financial results and favourable financial markets;
- the CET1 pro forma, taking into account the implementation of Regulation (EU) 2024/1623 (CRR3), stood at 16% as at 1 January 2025, in line with the communication on the 2024 full-year results.

¹⁰ Pre-provision income is pre-provision income before impairments on financial instruments and provisions for credit commitments and impairments on tangible and intangible assets.

¹¹ Belgian tax on credit institutions.

¹² As decided by the Board of Directors of 20 March 2025 upon a proposal for dividend (as approved by the annual shareholders' meeting of 30 April 2025) over 2024 year-end results. Please also refer to the subsection "Other information – Recent events" for further information on potential additional extraordinary dividend pay-outs.

Prospects

Other than as set out in this Base Prospectus, there has been no material adverse change in the prospects of Belfius Bank since the date of its last published audited financial statements.

Significant changes in the financial performance or financial position

Other than as set out in this Base Prospectus, there has been no significant change in the financial performance or financial position of Belfius Bank since the end of the last financial period for which financial information has been published.

7.5. Minimum CET 1 requirements (SREP)

Following the annual “Supervisory Review and Evaluation Process” finalised at the end of 2023 and taking into account the sectoral systemic risk buffer for Belgian residential real estate exposures (notified by the NBB in May 2022), Belfius has to comply with a minimum CET 1 capital ratio for 2024 of 10.931% (before Pillar 2 Guidance).

The Pillar 2 Requirement (P2R) was set at 2.16% (compared to 2.14% in 2023) to be held in the form of 56.25% CET 1 capital and includes a prudential add-on for non-performing exposures of 16 bps.

The countercyclical buffer was set at 1.03% (compared to 0.13% in 2023), an increase of 90 bps mainly following the change in countercyclical buffer rate for Belgium in the second and fourth quarter of 2024.

In line with the resilience of Belfius in the EBA stress test, the Pillar 2 Guidance (P2G) is set at 1% on the CET 1 capital ratio. As a result, Belfius has to comply with a minimum CET 1 ratio of 11.931% for 2024 (compared to 10.849% in 2023). The consolidated CET 1 capital ratio of Belfius at the end of December 2024 stood at 15.39%, well above the 2024 applicable CET 1 capital ratio requirement of 10.931%.

Further to these regulatory requirements, Belfius stated in its Risk Appetite Framework that, in normal market circumstances and under stable regulations, it would strive to respect a minimum operational CET 1 ratio of 13.5%, on both solo and consolidated level.

7.6. Segment reporting

Analytically, Belfius splits its activities and accounts in three segments: Individuals (IND), Entrepreneurs, Enterprises and Public (E&E&P) and Group Center (GC).

- Individuals (IND), managing the commercial relationships with individual customers both at bank and insurance level. Within the Individuals segment, four subsegments are distinguished: Savers, Investors, Private and Wealth;
- Entrepreneurs, Enterprises and Public (E&E&P), managing the commercial relationships with public and social sector, business and corporate clients both at bank and insurance level;
- Group Center (GC), containing the residual results not allocated to the two commercial segments. This mainly consists of results from bonds and derivatives portfolio management.

Individuals (IND)

Business description

Belfius offers individuals a comprehensive range of retail, private banking, wealth management and insurance products and services. Belfius serves its 3.4 million customers through its integrated omni-channel distribution network, which includes 460 branches, digital channels, its modern interaction platform Belfius Connect and a large number of automatised self-banking machines. Through executing its digital strategy, Belfius became a leader in mobile banking with approximately 2.1 million active mobile users.

Belfius Insurance, a subsidiary of Belfius Bank, distributes its insurance products through the Belfius Bank branches and multi-channel distribution network, through the tied agent network of DVV Insurance, as well as

through Belfius Direct Insurance. Through its Elantis and DVV brands, Belfius also offers mortgage loans and consumer loans to its customers.

Individuals results in 2024

As at 31 December 2024, total savings and investments amounted to EUR 132.4 billion, a strong increase by EUR +11 billion or +9% compared to the end of 2023, thanks to the EUR 7.1 billion organic growth and EUR 3.9 billion market effect in 2024. The organic growth is boosted by strong activity in Asset Management Services, following Belfius Banks' for Investors Strategy, but mostly by the increased attractiveness of the maturing deposits thanks to increased interest rates.

Non-maturing deposits totalled EUR 57.2 billion as at 31 December 2024, up by +3% from the end of 2023. The payment and savings accounts outstanding reached EUR 13.1 billion (+4%) and EUR 44.1 billion (+2%), respectively, at the end of 2024.

Maturing deposits and Branch 21 amounted to EUR 24 billion, up by +31% compared to the end of 2023. This strong increase is mainly due to term deposits and, to a lesser extent, to bonds and saving certificates explained by the increased attractiveness due to the higher interest rates and amounted to EUR 6.9 billion (+66% compared to 2023), EUR 11.3 billion (+14% compared to 2023) and EUR 2 billion, respectively.

Asset Management Services and Equity investments volumes increased by +14% compared to the end of 2023, to EUR 46.8 billion, mainly explained by the positive market effect and to a lesser extent by the organic growth.

Total loans to customers increased by +3.8% to EUR 52.2 billion as at 31 December 2024. Mortgage loans, which account for 90% of all loans for Individuals, amounted to EUR 46.9 billion at the end of 2024 (+3.1%), while consumer loans and other loans to Individuals stood at EUR 1.9 billion and EUR 3.5 billion, respectively (compared to EUR 1.8 billion and EUR 3.0 billion in 2023)

New long-term loans granted to Individuals during 2024 amounted to EUR 7.0 billion, an increase of +6.1% compared to 2023. In 2024, the new production of mortgage loans increased by +5.3% to EUR 5.6 billion. During the same period, EUR 0.8 billion in consumer loans and EUR 0.6 billion in new long-term business loans were granted, stable compared to 2023.

Non-Life & Health Gross Written Premiums grew by +5.2% in 2024 compared to 2023, at EUR 708 million, thanks to growth in all distribution channels: Bank Insurance grew by +6% (or EUR 325 million), DVV Insurance by +5% (or EUR 310 million) and Belfius Direct Insurance by +4% (or EUR 73 million). Such growth is driven by increased production figures (especially in mobility), but also by premium indexation to compensate for inflation pressure on claims and costs (mainly in Property).

The mortgage loan intentional cross-sell ratio for credit balance insurance increased to 137% at the end of 2024. The intentional mortgage loan cross-sell ratio for property insurance increased to 89%.

Life insurance reserves increased strongly (+6.6%) since the end of 2023 to EUR 10.8 billion at the end of 2024. Unit-linked reserves (Branch 23) increased by +8.6%, mainly thanks to a positive market effect of EUR 0.3 billion and the reserves Life Invest Branch 21 increased by +16.0%.

Individuals' net income after tax decreased by -9.1% from EUR 524 million in 2023 to EUR 477 million in 2024.

Entrepreneurs, Enterprises & Public (E&E&P)

Business description

The Business Banking segment mainly comprises self-employed persons, liberal professions (e.g. lawyers, doctors, accountants and so on) and SMEs with a turnover of EUR 0 to EUR 10 million.

The Corporate Banking segment includes medium and large Belgian companies with a turnover of more than EUR 10 million and operating in Belgium in all sectors.

The Public and Social segment includes local public bodies (e.g. municipalities, provinces, police districts and public centres for social action), supralocal public bodies, regional and federal public bodies, mutual societies and trade unions, healthcare (hospitals, retirement homes), education (universities, schools) and housing, as well as foundations, social secretariats and pension funds.

Belfius provides these clients with a wide and integrated range of products and services, including credit lending, treasury management, insurance products, financial markets products and financial IT tools.

Belfius Insurance also sells insurance products to its public and social sector clients. Specific life insurance solutions are offered, especially pension insurance in the second and third pension pillars for civil servants and investment products in Branch 26 (life insurance with a capital guarantee and guaranteed minimum return, to which a variable profit participation feature may be added). The development of the insurance policies specifically dedicated to the “Business” segment is one of the strategic development areas for both Life and Non-Life segments and are distributed via the Belfius Bank branches and via the tied agent network of DVV Insurance.

E&E&P's results in 2024

As of 31 December 2024, total savings and investments amounted to EUR 65.1 billion, stable compared to the end of 2023. Non-maturing deposits (savings and payment accounts) decreased by EUR -1.9 billion to EUR 31.4 billion, explained by the product mix switch to maturing deposits. Asset Management Services and Equity investments increased by EUR +1.0 billion to EUR 11.4 billion, mainly explained by the positive market effect and the good organic growth. Other savings and investments decreased by EUR -0.5 billion to EUR 8.5 billion, mainly explained by the decrease in commercial paper.

Total outstanding loans increased to EUR 66.1 billion (+4.3%). Outstanding loans to Business customers reached EUR 15.6 billion, stable compared to 2023. Outstanding loans to Corporate customers has grown strongly by EUR +2.2 billion (or +9%). In Public & Social Banking, the outstanding loans increased compared to 2023 (+2.3%).

In 2024, Belfius granted EUR 16.8 billion (compared to the same amount in 2023) in new long-term loans in the Belgian economy to Business, Corporate and Public and Social sector clients.

In 2024, EUR 4 billion in new long-term loans to business clients was granted.

The production of long-term loans for Corporate customers amounted to EUR 9.4 billion (compared to EUR 9.6 billion in 2023), confirming Belfius' position as a leader in the corporate market, with a solid position and a market share of 21.6%.

In 2024, Belfius granted EUR 3.4 billion in new long-term financing to the public sector. Belfius remains the undisputed leader in this market and responds to financing tenders from public bodies, to which it offers sustainable financing conditions. Belfius manages the cash flow of virtually all local authorities and was awarded 57% (in volume on production) of the public sector financing files put out to tender in 2024.

Belfius also strengthened its leading position in the Debt Capital Markets (DCM) sector for (semi-)public and private companies: in 2024, Belfius Bank issued EUR 7.2 billion in innovative financing instruments in the form of short-term issues (average outstanding amount on commercial paper) and long-term issues (Medium Term Notes and bonds). The E&E&P segment's commercial results in insurance show opposite trends in terms of underwriting volumes:

- Non-Life & Health GWP E&E&P: increase compared to 2023 (+6%) to EUR 197 million thanks to growth in the Business segment of both Bancassurance and DVV (respectively by +14% and +5%), but also in the Wholesale segment (+2%);
- E&E&P Life reserves: increase compared to 2023 by EUR +0.1 billion to EUR 4.2 billion. Growth on outstanding Business and Wholesale Pension is only partly offset by a small decrease on outstanding on Wholesale Invest and Endowment contracts.

Net income after tax increased by +20.0% from EUR 577 million in 2023 to EUR 692 million in 2024.

Group Center (GC)

Group Center (GC) operates through two sub-segments:

- Run-off portfolios, inherited from the Dexia era, which mainly comprise:
 - a portfolio of bonds issued by international issuers, particularly active in the public and regulated utilities sector (which includes UK inflation-linked bonds) and ABS/RMBS, the so-called ALM Yield bond portfolio;
 - a portfolio of credit guarantees, comprising credit default swaps and financial guarantees written on underlying bonds issued by international issuers, and partially hedged by Belfius with monoline insurers (mostly Assured Guaranty); and
 - a portfolio of IR derivatives with Dexia entities as counterparty and with other foreign counterparties;
- ALM liquidity and rate management and other Group Center activities, composed of liquidity and rate management of Belfius (including its ALM Liquidity bond portfolio, derivatives used for ALM management and the management of central assets) and other activities not allocated to commercial activities, such as financial market support services (e.g. Treasury), the management of two former specific loan files inherited from the Dexia era (loans to Gemeentelijke Holding/Holding Communal and Arco entities), and the Group Center of Belfius Insurance.

These portfolios and activities are further described below^{13, 14}

ALM Liquidity bond portfolio

The ALM Liquidity bond portfolio is part of Belfius Bank's total LCR liquidity buffer and is well diversified with high credit and liquidity quality.

At the end of 2024, the ALM Liquidity bond portfolio stood at EUR 9.1 billion, up by EUR +1.3 billion or +17%, compared to 31 December 2023. At the end of 2024, the portfolio was composed of sovereign and public sector bonds (61%), covered bonds (34%), corporate bonds (5%) and asset-backed securities (<1%). Belgian and Italian government bonds in the ALM Liquidity bond portfolio amounted to EUR 1.6 billion and EUR 0.9 billion respectively.

At the end of 2024, the ALM Liquidity bond portfolio had an average life of 6.5 years, and an average rating of A (100% of the portfolio being investment grade), compared to the same rating at year-end 2023.

ALM Yield bond portfolio

The ALM Yield bond portfolio of Belfius Bank was used to manage excess liquidity (after optimal commercial use in the business lines) and consisted mainly of high-quality bonds from international issuers.

At the end of 2024, the ALM Yield bond portfolio stood at EUR 2.8 billion, down by -5% compared to 31 December 2023. At the end of 2024, the portfolio was composed of corporates (80%), sovereign and public sector (11%), asset-backed securities (5%), and financial institutions (4%). Almost 85% of corporate bonds, composed mainly of long-term inflation-linked bonds, are issued by highly regulated UK hospitals, infrastructure companies and utilities such as water and gas distribution companies. These bonds are of satisfactory credit quality and the majority of these bonds are covered by credit protection from a credit insurer (monoline insurer) that is independent from the bond issuer.

¹³ Nominal amount.

¹⁴ Since the first half of 2024, the average rating and expected average life are based on EAD instead of notional value (in line with the method already used before for IR derivatives). The statistics for the end of 2023 were recalculated accordingly.

At the end of 2024, the ALM Yield bond portfolio had an average life of 21.4 years. The average rating of the ALM Yield bond portfolio stood at BBB+¹⁵ and 92% of the portfolio was investment grade.

Derivatives with Dexia entities and foreign counterparties

During the period it was part of the Dexia Group, Dexia Bank Belgium (now Belfius Bank) served as the group's competence centre for derivatives (mainly interest rate swaps). This meant that all Dexia entities were able to cover their market risks with derivatives with Dexia Bank Belgium, mainly under standard contractual terms related to cash collateral. The former Dexia Bank Belgium systematically re-hedged these derivative positions externally, as a result of which these derivatives broadly appear twice in Belfius' accounts: once in relation to Dexia entities and once for hedging.

The total outstanding notional amount of derivatives with Dexia entities and interest rate derivatives with international counterparties amounted to EUR 6.0 billion at the end of 2024, down by EUR -1.0 billion or -15%, compared to the figure at the end of 2023.

Derivatives with Dexia entities decreased by -16% (or EUR -0.8 billion) to EUR 4.4 billion at the end of 2024. This decrease is due mainly to amortisations. Derivatives with international counterparties decreased by EUR -0.2 billion (or -10%) to EUR 1.6 billion at the end of 2024.

The fair value of Dexia and international counterparty derivatives amounted to EUR 0.8 billion at the end of 2024. After collateralisation, the Exposure At Default (EAD) remained stable at EUR 0.7 billion.

At the end of 2024, the average rating of the total portfolio stood at BBB+ and the average residual life of the portfolio stood at 9.3 years.

Credit guarantees

At the end of 2024, the credit guarantees portfolio amounted to EUR 1.9 billion, stable compared to 31 December 2023. It relates essentially to Financial Guarantees (booked in Amortised Cost) and Credit Default Swaps (booked in Fair Value through P&L) issued on corporate bonds (95%), public issuer bonds (2%) and ABS (3%). The good credit quality of the underlying reference bond portfolio, additional protection against credit risk incorporated in the bond itself and the protections purchased by Belfius, mainly from various monoline insurers (US reinsurance companies, essentially Assured Guaranty) resulted in a portfolio that is 97% investment grade in terms of credit risk profile. The most important risk is a credit default swap position on a Mexican RMBS which saw its credit quality significantly deteriorate following an earlier change in indexation.

At the end of 2024, the average rating of the portfolio stood at A. The average residual life of the portfolio stood at 8.5 years.

Other Group Center activities

Other activities allocated to Group Center include:

- the interest rate and liquidity transformation activity performed within ALM, after internal transfer pricing with commercial business lines, including the use of derivatives for global ALM management;
- the management of two legacy loan files inherited from the Dexia era, i.e. the investment loans to two groups in liquidation, namely Gemeentelijke Holding/Holding Communal and some Arco entities;
- the flow management, including hedge management, of internal and external interest rate derivative flows given that Group Center is the Belfius Competence Centre for interest rate derivatives;
- treasury activities (money market activities); and
- the results including revenue and costs on assets and liabilities not allocated to a specific business line.

¹⁵ Includes rating impact from bought credit protection for some ALM yield bonds. A one notch decrease in the average rating is linked to a downgrade of a few positions within the portfolio.

The Group Center of Belfius Insurance is also fully allocated to these other Group Center activities. The Belfius Insurance Group Center contains income from assets not allocated to a specific business line, the cost of Belfius Insurance's subordinated debt, the results of certain of its subsidiaries and costs that are not allocated to a specific business line.

GC net income after tax stood at EUR -40 million in 2024, compared to EUR 16 million in 2023.

7.7. Post-balance sheet events

Dividends

On 20 March 2025, the Board of Directors proposed an ordinary dividend of EUR 444.5 million for the 2024 accounting year at the annual shareholders' meeting set for 30 April 2025. This dividend is based on a 40% pay-out ratio of the consolidated 2024 net result, and the proposal was approved by the shareholders. Please also refer to the subsection "Other information – Recent events" for further information on potential additional extraordinary dividend pay-outs.

Capital and liquidity management

To optimise its capital structure and to support its liquidity diversification and MREL needs, Belfius:

- conducted private placements of Tier 2 instruments for an amount of EUR 40 million on 2 January 2025. This forms part of the refinancing related to the call of a previous (private placement) instrument, which was approved by the ECB;
- issued EUR 500 million Senior Preferred Notes in January 2025 with a 6-year maturity;
- called the full outstanding amount (EUR 104.6 million) of its Undated Deeply Subordinated Additional Tier 1 Fixed Rate Resettable Callable Securities issued on 1 February 2018 at their principal amount.

7.8. Risk Management

Fundamentals of credit risk in 2024

Individuals

Higher mortgage rates and expensive building materials have affected the residential housing market and mortgage production since interest rates started rising in June 2022. The impact on Belgian housing prices remained mild. After a slowdown in the first half of 2024, mortgage production started to pick up, especially beginning in the third quarter of 2024. In 2024, household consumption showed a robust expansion. Consumer confidence was high although it dropped slightly in the last quarter of 2024 due to uncertainty following the US elections and slowing job creation.

Mortgage production increased in 2024, surpassing 2023 levels but still falling short of the volumes recorded prior to the interest rate hikes, primarily due to higher house prices as well as larger borrowing costs. The portfolio grew by approximately 4% in 2024, with the FEAD rising from EUR 43.0 billion at the end of 2023 to EUR 44.8 billion by the end of 2024. Overall, despite macroeconomic challenges, the average PD level and AQR ratio were not significantly affected, increasing only slightly from 0.50% to 0.55% and from 0.29% to 0.33%, respectively.

In 2024, an improvement has been observed in the Net Available Income (NAI) and the Debt Service To Income (DSTI) of borrowers compared to 2023. This could be explained by a partial slowdown in the growth of house prices in the first half of 2024, strong wages and low unemployment rates, as well as pent-up demand in the housing market, possibly in anticipation of ECB rate cuts. The maturity of the new loans decreased slightly, primarily due to the slowdown in the number of transactions in the first half of 2024, consistent with lower pressure on DSTI. Nonetheless, over 50% of newly originated mortgage loans still have maturities exceeding 20 years. Belfius is carefully monitoring risk pockets related to high LTV and high maturity at origination, remaining largely compliant with the NBB expectations. Additionally, the share of new loans with a high 'Debt Service To Income' ratio is

closely monitored to avoid that clients become financially overextended. As is common in the Belgian residential real estate market, 99% of the newly originated loan amounts were borrowed at a fixed interest rate.

Belfius is committed to lowering its carbon footprint, greening its mortgage portfolio and managing the risks associated with climate change. To this end, it continues its effort to collect directly from borrowers data on the energy performance of the buildings held as collateral, achieving a real data coverage of 40% of its portfolio as of 31 December 2024. Belfius also continuously monitors the energy efficiency of its mortgage loan portfolio while stimulating energy renovations through sustainable finance products to gradually improve the climate risk resilience of its portfolio.

Belfius considers a combination of energy performance and loan-to-value criteria to identify exposures at material transition risk. Mortgage exposures with a high 'Loan-To-Value' ratio (LTV > 80) showing poor energy efficiency (>400 kWh/m²) are deemed to be the most sensitive assets. Consequently, only a very limited proportion of Belfius' mortgage loan portfolio (<4%) is considered risky. Furthermore, Belfius tracks the level of exposure of its mortgage loan portfolio to physical risks (specifically flood risk, which has been identified as the most relevant climate-related physical risk in Belgium). Exposures collateralised by real estate assets located in flood prone zones are considered to be at material physical risk and, as at the date of this Base Prospectus, represent less than 2% of the portfolio.

To further facilitate energy improvements, since 1 July 2024, Belfius offers loan maturities of up to 30 years when paired with an energy renovation loan. By lowering the monthly repayments, this policy aims to support (young) home buyers in renovating their homes to support the climate transition. Simultaneously, acceptance criteria for mortgage loans on properties with high EPC ratings have been tightened.

In recent years, the consumer loans portfolio increased by 2.7%, bringing the FEAD to EUR 5.9 billion. Similar to mortgages, the AQR ratio was slightly reduced in 2024 to 2.81% compared to 3.04% in 2023.

Entrepreneurs & Enterprises (E&E)

At the end of 2024, the Entrepreneurs & Enterprises (E&E) portfolio stood at EUR 65.3 billion. The portfolio kept a moderate risk profile, with a slightly increasing AQR ratio.

The general economic conditions remained challenging in the second half of 2024, with stable activity growth at a low level. This growth was led by an acceleration in private consumption expenditure and was enough to offset contractions in government expenditure and gross fixed capital formation. Several sectors including export, construction, automotive, transport and chemical continued to struggle due to high energy prices and increasing wage costs.

Belgium witnessed a sharp increase in bankruptcies, with over 11,000 companies going bankrupt, marking an 8% increase compared to 2023. This figure is nearly as high as the record set in 2013. Although this high number partly reflects intensified effort to combat fraud and shell companies, it remains notably elevated. Beyond the historically vulnerable sectors (hospitality, wholesale and retail trade, together accounting for 40% of all bankruptcies), there was a marked increase in bankruptcies in the construction (more than 20% of all bankruptcies) and the transportation sectors. Regional and sectoral differences were observed, with more pronounced growth in bankruptcies among SMEs in sectors such as construction, transportation (incl. car dealers), hospitality and catering industry. This increase has resulted in rising AQR levels, evolving from 2.95% at the end of 2023 to 3.30% at the end of 2024 for Corporate Banking and from 4.25% at the end of 2023 to 4.59% at the end of 2024 for Business Banking.

Job creation has sharply slowed, easing market tightness slightly, though finding qualified workers remains challenging. Companies are less reliant on temporary workforce, flexible roles, and consultancy contracts, but only a few have reduced their permanent staff in 2024 due to concerns about finding the right profiles when the market improves. The outlook for 2025 is less optimistic, with signs emerging that struggling sectors like manufacturing, automotive, and retail are preparing for layoffs and reorganisation plans.

Businesses within the E&E segment are concentrating on profitability by cutting expenses and enhancing operational efficiency, resulting in reduced investment plans despite external financing remaining accessible. Investments are primarily focused on digitalisation and automation to offset the significant rise in wage costs, and on the greening of the production process to meet regulatory requirements. Meanwhile, wage cost increases have moderated, and other input costs are declining.

Manufacturing fundamentals remain weak with little signs of improvement. Firms are struggling to return to pre-covid production levels, causing growing overcapacity. The wage-cost gap has widened (compared to neighbouring countries) and energy prices remain above pre-crisis levels driving production costs higher than global market prices. Although energy prices have dropped significantly, they remain twice as high as they were before the energy crisis and are a multiple of energy prices in other continents. For example, the average gas price per MWh in Europe is on average 4.2 times higher than in the United States. The contraction in construction activity contributes to a prolonged slump in the building industry.

Consumer-related industries, like retail, have exhausted their buffers to weather consecutive crises (covid, energy, inflation) and are showing increasing signs of financial stress, as evidenced by rising bankruptcies and judicial reorganisations.

Conditions are still better in the services industries, but sentiment has softened due to cost-cutting across the broader economy.

In the commercial real estate segment, exposure growth has stopped as demand and investment appetite have sharply decreased amid uncertainty surrounding interest rates. An in-depth analysis of the Belfius commercial real estate portfolio in 2024 confirmed its fundamental resilience and adequate provisioning levels. Key risk indicators, monitored continuously, show the solid character of the portfolio, although certain evolutions require close attention. The upward pressure on the non-performing loans and the costs of risks reflect concentrated risks among large developers and general defaults among small real estate and construction companies. Belfius has taken both specific and anticipative general provisions to cover for adverse risk evolutions in its commercial real estate portfolio and assesses these provisions quarterly for adequacy.

To manage risks during the current market cooldown, a number of measures have been taken, including increased scrutiny, close monitoring of clients' liquidity positions and refinancing risks targeting an early detection of cash-flow issues. Other measures include the update of the commercial real estate acceptance guidance and credit delegations, combined with an intensive awareness campaign for credit analysts and bankers.

Public sector clients

Exposure to Public & Social customers amounted to EUR 35.6 billion (FEAD) at the end of 2024, contributing to the robustness and diversification of Belfius' global loan portfolio. Overall, the Public & Social portfolio has maintained its historically low risk profile with an average PD level of 0.19% and an average AQR ratio of 0.01%.

The federal budget deficit is expected to increase to -5.5% in 2026 and to be accompanied by a steady rise in government debt to almost 110% of GDP by the same year. The incoming government will need to balance a return to fiscal prudence, in line with EU debt and deficit standards, with international calls for higher defence spending (estimated, as at the date of this Base Prospectus, at approximately 1.3% of GDP) and investments in healthcare and the climate transition.

Belfius has been a longtime partner of the Belgian regions and communities, supporting them, among other things, through its role as cashier. Some of the Belgian regions and communities are facing challenging budgetary positions while still having to maintain an adequate level of investments in healthcare and the climate transition. The costs are likely to increase due to the ageing population, increasingly expensive medical treatments and the

need to meet EU climate objectives and energy security. However, the inaugurations of new regional governments are offering the prospect of the required budgetary reforms.

Belfius has consistently supported cities and municipalities through challenging times, such as during the pandemic and the energy crisis. Overall, budgetary resilience and regional support have helped these public clients to weather these challenges. Nevertheless, a few points of concern remain for the future, including rising pension costs for retired statutory staff, the increasing contributions to police and rescue zones, as well as investments in climate adaptation plans and the energy transition. Although regional support has been secured to mitigate some of these issues (e.g. pension costs), it is still unclear how exactly this burden will be managed given that more and more responsibilities are being delegated to the local level while the regions strive to attain balanced budgets. Within this context, special scrutiny for the municipalities' financial metrics and budgetary balance is applied.

For the past 30 years, the Issuer has been closely monitoring the Belgian hospital sector through its annual MAHA analyses. Hospitals have again seen a strong rise in one-day admissions, reflecting a longer-term effort to curb cost increases. Nonetheless, the share of unprofitable hospitals has again risen, reaching 40% in 2023 and early 2024. This has been mainly due to an increase in personnel costs, which have climbed by 6.6% in 2023 and an additional increase over 2024, which is expected to amount to 5.3%. Alongside the need to maintain budgetary balance, Belgian hospitals are coping with personnel shortages and high degrees of absenteeism.

Belgian public utilities are facing significant investment demands in the coming years. Water companies are upgrading and expanding their water and sewage networks in order to comply with the EU Water Framework Directive. At the same time, grid operators are investing heavily in their networks to keep up with and prepare for the energy transition, which involves a shift in energy generation and usage from fossil fuels to renewables and electricity. The total costs associated with these upgrades are still difficult to predict accurately. Another outstanding question is how these future costs will be distributed (publicly, privately or through a hybrid scheme) and what their impact will be on other public sector entities' budgets (mainly those of municipalities and regions) and the taxpayer. Belfius remains committed to supporting public utilities in their efforts to contribute to a greener society in Belgium.

Overall, Belfius aims to continue being a trusted partner for its Public & Social clients.

Insurance

The management of the credit risk of Belfius Insurance is the responsibility of the Belfius Insurance risk management team, albeit in collaboration with the credit risk teams of Belfius Bank and in accordance with the risk management guidelines that are applicable for the whole Belfius group. As such, this implies that credit limits are defined on a consolidated basis (with dedicated limits for Belfius Bank and Belfius Insurance) and that transfers of limits between Belfius Bank and Belfius Insurance are permitted, on the condition that both entities agree. The Chief Risk Officers of Belfius Bank and Belfius Insurance coordinate the requests among each other.

Exposures to credit risk

The figures in the table below reflect the relevant figures after elimination of intra-group exposures, but with inclusion of credit exposure from trading activities and counterparty credit risk.

Exposures are allocated to the final counterparty. This means that if substitution is applied to a certain exposure to a borrower guaranteed by another party, the exposure is shifted to the region, type of exposure and rating of the guaranteeing party.

As at 31 December 2024, the total credit risk exposure within Belfius amounted to EUR 216.6 billion, an increase of EUR 8.9 billion or 4.27% compared to 31 December 2023.

This increase is almost entirely due to banking activities (increase of EUR 8.3 billion), with a small contribution from Belfius Insurance (increase of EUR 534 million).

The impact is stemming from the increase in credit risk exposures for all counterparties (except for Project Finance). The increase by EUR 3.5 billion observed for the segment ‘central governments’ is mostly due to the increase of liquidity reserves deposited at the NBB (EUR 1.8 billion). For government bonds, the exposure has increased on the bank side (by EUR 747 million) and for Belfius Insurance (by EUR 316 million) year-on-year. At group level, 39% of the government bonds portfolio is invested in Belgian government bonds, consistent at both the bank and insurance level.

The credit risk exposure on individuals, self-employed persons and SMEs (30% of the total) and corporates (26% of the total) constitute the two main categories. The exposure on those categories increased by EUR 1.9 billion and EUR 1.4 billion, respectively. This reflects Belfius’ strategy to support the Belgian economy.

The credit risk exposure on public sector entities and institutions that are guaranteed by these public sector entities increased in 2024 by EUR 673 million.

Belfius’ positions are mainly concentrated in the European Union: 95% or EUR 192.0 billion at Belfius Bank level and 95% or EUR 15 billion for Belfius Insurance. The total credit risk exposure is 85% in Belgium, 4.2% in France, 2.1% in the United Kingdom, 1.2% in the United States and Canada, 1.3% in Luxemburg, 0.9% in Spain, 0.8% in Germany and 0.6% in Italy.

The credit risk exposure to counterparties in the United Kingdom amounted to EUR 4.6 billion, marking a decrease of EUR 526 million from the previous year due to de-risking efforts. The majority of this credit risk exposure pertains to bonds, nearly two-thirds of which are inflation-linked, issued by utilities and infrastructure companies in the United Kingdom operating in regulated sectors, such as water, gas, and electricity distribution. These bonds are of good credit quality, and moreover most of the outstanding bonds are covered with a credit protection issued by a credit insurer with a sound rating that is independent from the bond issuer. The remainder concerns the bond portfolio of Belfius Insurance, a short-term credit portfolio for treasury management of Belfius Bank and receivables on clearing houses. The credit risks associated with these portfolios are also of high credit quality.

At the end of December 2024, 73% of the total credit risk exposure had an internal investment grade (IG) credit rating

Breakdown of credit risk by counterparty:

Asset quality

At the end of 2024, the amount of impaired loans on a consolidated basis amounted to EUR 2,528 million, reflecting an increase of +11.9% compared to the end of 2023. During the same period, the gross outstanding loans to customers & credit institutions increased by +3.6%, totalling EUR 125,413 million at the end of 2024. Consequently, the asset quality ratio stood at 1.92% at the end of 2024. The stage 3 impairments decreased slightly by 1.3%, amounting to EUR 1,249 million. The coverage ratio on impaired loans was 49.4%, compared to 56.0% at the end of 2023. The decrease is mainly explained by a number of new defaulted files with strong collateral and recovery perspectives, combined with reversals on existing defaulted files and accelerated write-off of files with a high coverage without material additional impairment.

Liquidity risk

During 2024, Belfius consolidated its diversified liquidity profile by:

- maintaining a funding surplus within the commercial balance sheet;
- increasing diversified long-term funding from institutional investors;
- collecting short and medium-term (CP/CD/EMTN) deposits from institutional investors;
- conducting an ECB eligible securitisation transaction based on a pool of SME loans.

The participation of Belfius Bank in the ECB TLTRO III funding programme came to an end in March 2024.

Belfius Bank closed the year 2024 with a 12-month average LCR of 139%, which remains stable compared to the LCR at the end of 2023 (138%¹⁸). This is mainly explained by the repayment of the TLTRO, a continued strong growth in commercial loans, compensated by continued growth in commercial funding and short and long term wholesale funding. The high quality liquid assets (HQLA) were, as at the end of 2024, composed of 66% Level 1 cash, 30% Level 1 bonds, 3% Level 2A bonds and 1% Level 2B bonds.

The Net Stable Funding Ratio (NSFR), which is based on the binding rules set by Regulation (EU) 2019/876 (CRR2) and calculated in accordance with EBA templates, stood at 133% at year-end 2024 (compared to 128% at year-end 2023). This increase is also explained by the increase in commercial deposits and short and long term wholesale funding.

Minimum requirement for own funds and eligible liabilities (MREL)

On 4 December 2024, the NBB notified Belfius that, moving forward, it had to adhere to the Single Resolution Board (SRB) MREL instruction regarding the minimum requirement for own funds and eligible liabilities at the consolidated level of Belfius Bank under BRRD2. For Belfius Bank, the MREL requirement on a consolidated basis was set at 23.69% of the Total Risk Exposure Amount (TREA) and 7.12% of the Leverage Ratio Exposure (LRE). Belfius Bank was required to meet both targets by 4 December 2024.

The SRB MREL instruction also defined a subordination requirement: Belfius Bank was required to meet at least 13.73% of TREA and 7.12% of LRE through subordinated MREL. Own funds used to meet the Combined Buffer Requirement (CBR), as set out in Directive 2013/36/EU (at 5.22% of TREA for Belfius, as at the date of this Base Prospectus), are not eligible to meet the requirements expressed in TREA. Belfius Bank also needed to comply with this subordination requirement starting from 4 December 2024.

By the end of 2024, Belfius had met the new MREL requirements. Expressed in TREA, Belfius' MREL (of EUR 22.8 billion) amounted to 30.37%, compared to the 28.91% requirement for 2024 (including CBR). In the same way, Belfius' MREL sub-capacity of EUR 16.4 billion amounted to 21.77% of TREA, to be compared to the requirement of 18.95% (including CBR). Expressed in LRE, Belfius' MREL sub-capacity of 8.8% exceeded the 7.12% MREL requirement.

¹⁸ Restated figure, pro forma due to refinement.

Liquidity reserves

At the end of 2024, Belfius Bank had available liquidity reserves of EUR 49.7 billion. These reserves consisted of EUR 22.0 billion in cash, EUR 10.2 billion in ECB eligible bonds and EUR 17.5 billion in other assets, also qualifying as ECB-eligible assets (of which EUR 7.5 billion in bank loans and EUR 10.0 billion in retained bonds).

These available liquidity reserves were 7.3 times Belfius Bank's outstanding institutional funding at the end of 2024, which had a remaining maturity of less than one year.

Encumbered assets

Encumbered assets represent the on- and off-balance sheet assets that are pledged or used as collateral for Belfius' liabilities. Belfius has encumbered a part of its loan portfolio for issuing covered bonds and residential mortgage-backed securities (RMBS). Furthermore, assets are encumbered for repurchase agreements and collateral swaps. Finally, a part of Belfius' encumbrance results from collateral posted to secure derivatives transactions.

Belfius is active on the covered bond market since the set-up of the first covered bond programme in 2012.

Belfius Bank also collects funding through repo markets for a limited amount and other collateralised deposits. A small part of the credit claims is pledged directly as collateral for intraday liquidity.

Since 2017, in the context of the management of its liquidity buffer, Belfius is also active in securities lending transactions under agreed Global Master Securities Lending Agreements (GMSLA).

The balance of encumbered assets is mainly linked to covered bonds and collateral pledged (gross of collateral received) for the derivatives exposures under the form of cash or securities. A significant part of collateral pledged is financed through collateral received from other counterparties with whom Belfius Bank concluded derivatives in the opposite direction.

At year-end 2024, the sources of asset encumbrance (matching liabilities) mainly consisted of:

- own covered bonds issued (EUR 7.0 billion);
- derivatives exposures (EUR 3.0 billion); and
- repurchase agreements (EUR 1.6 billion).

7.9. Ratings

Between 1 January 2024 and 20 March 2025, the rating agencies took the following decisions:

- on 30 October 2024, S&P affirmed Belfius Bank's long-term rating at A with stable outlook;
- on 28 June 2024, Moody's affirmed Belfius Bank's long-term rating at A1 and upgraded Belfius Bank's standalone rating (Baseline Credit Assessment or BCA under Moody's terminology) from baa1 to a3. The latter also resulted in an upgrade of the Non-Preferred Senior, the Tier 2 and the Additional Tier 1 rating with one notch. The outlook was subsequently changed to stable from positive;
- on 27 June 2024, Fitch affirmed Belfius Bank's long-term rating at A- with stable outlook.

As at the date of this Base Prospectus, Belfius Bank has the following ratings:

	Stand-alone rating (*)	Long-term rating	Outlook	Short-term rating
Fitch	a-	A-	Stable	F1
Moody's	a3	A1	Stable	Prime-1
Standard and Poor's	a-	A	Stable	A-1

(*) *Intrinsic creditworthiness*

These rating agencies, Standard & Poor's, Moody's and Fitch Ratings, or other rating agencies if applicable, use ratings to assess whether a potential borrower will be able in the future to meet its credit commitments as agreed. A major element in the rating for this purpose is an appraisal of the company's net assets, financial position and earnings performance. In addition, Belfius Bank is wholly owned by the Belgian federal state through the Federal Holding and Investment Company, and it is possible that, if the ratings assigned to the Belgian federal state were downgraded, this could result in the ratings assigned to Belfius Bank being negatively affected. Moreover, as the ownership of a bank is one of the factors considered in determining a bank's rating, a change of ownership of Belfius Bank could have a potential impact on the ratings assigned to Belfius Bank. A bank's rating is an important comparative element in its competition with other banks and has a significant influence on the individual ratings of a bank's important subsidiaries. A downgrading or the mere possibility of a downgrading of the rating of Belfius Bank or one of its subsidiaries, could adversely affect the relationship with customers and the sales of the products and services of the company in question. As such, new business could suffer, Belfius Bank's competitiveness in the market might be reduced, and its funding costs could increase substantially. A downgrading of the rating would also have adverse effects on the costs to Belfius Bank of raising equity and borrowed funds and might lead to new liabilities arising or to existing liabilities being called that are dependent upon a given rating being maintained. Additionally, after a downgrading, Belfius Bank might have to provide additional collateral for derivative transactions in connection with rating-based collateral arrangements. If the rating of Belfius Bank were to fall within reach of the non-investment grade category, it would suffer considerably, adversely impacting Belfius Bank's ability to be active in certain business areas.

7.10. Other information

Dependency of the Issuer

The Issuer is not dependent on any of its subsidiaries, save for Belfius Insurance. Belfius Insurance holds the licenses required for insurance undertakings, and Belfius Bank consequently relies on it for the insurance activities it carries out.

Arrangements resulting in a change of control

As at the date of this Base Prospectus, there are no arrangements known to Belfius Bank, the operation of which could at a subsequent date result in a change of control of Belfius Bank.

Recent events

The Belgian State, as sole shareholder of Belfius Bank through the Federal Holding and Investment Company and Certi-Fed, has indicated its intention to require Belfius Bank to pay out an extraordinary dividend of EUR 500 million in the second half of 2025 (in addition to the EUR 444.5 million dividend approved by Belfius Bank's annual shareholders' meeting of 30 April 2025 over the 2024 year-end results). If formally requested, the extraordinary dividend would potentially be paid out from available reserves, which is expected to have an impact on, among other things, Belfius Bank's CET 1 ratio. Exceptional dividends paid out of retained earnings or distributable reserves (both already included in the institution's available CET1 items) reduce the available capital and the institution's capacity to build up future capital buffers. They are therefore subject to all the attention required from a prudential point of view, including the prior approval of the competent authority if required. It cannot be excluded that an additional contribution could also be requested in 2026.

On 5 May 2025, Belfius Bank, Belfius Asset Management and Candriam announced the reinforcement of their long-term strategic partnership, having been privileged partners in Belgium for more than 30 years. This renewed partnership includes Belfius Bank becoming a 33% minority shareholder in Candriam and extends the preferred partnership between Belfius and Candriam. The transaction remains subject to regulatory approval and customary closing conditions.

Other than as stated above and in the section entitled “Post-balance sheet events”, as at the date of this Base Prospectus there are no recent events particular to Belfius Bank which are, to a material extent, relevant to the evaluation of its solvency.

7.11. Litigation

Belfius Bank and its consolidated subsidiaries are involved in a number of litigations in Belgium, arising in the ordinary course of their business activities, including those where they act as insurer, capital and credit provider, employer, investor and taxpayer.

Belfius recognises provisions for such litigations when, in the opinion of its management taking into account all available information, including an analysis by its in-house and external legal advisors, as the case may be:

- a present obligation has arisen as a result of past events;
- it is probable that Belfius will have to make a payment; and
- the amount of such payment can be estimated reliably.

With respect to certain other litigations against Belfius, of which management is aware, no provision has been made according to the principles outlined above. Management believes that, after due consideration of appropriate advice and while it is often not feasible to predict or determine the ultimate outcome of all pending litigations, such litigations are without legal merit, can be successfully defended or that the outcome of these actions is not expected to result in a significant loss.

In the opinion of Belfius, the most important cases are listed below, regardless of whether a provision has been made or not¹⁹. Their descriptions do not deal with elements or evolutions that do not have an impact on the position of Belfius. If the cases listed below were to be successful for the opposing parties, they could eventually result in monetary consequences for Belfius. For litigations for which no provision has been made, such impact remains unquantifiable at this stage.

Arco – Cooperative shareholders

Various parties, including Belfius Bank, have been summoned by Arco - Cooperative shareholders in three separate procedures, i.e.:

- a procedure before the Dutch speaking Commercial Court of Brussels (Procedure C.C. Deminor);
- a procedure before the Court of First Instance of Brussels (Procedure C.F.I. ArcoClaim 2018); and
- a procedure before the Court of First Instance of Brussels (Procedure C.F.I. Deminor 2022).

Procedure C.C. Deminor

On 30 September 2014, 737 shareholders from three companies of the Arco Group (Arcopar, Arcoplus and Arcofin) initiated (with support of Deminor) proceedings against the Arco entities and Belfius Bank before the Dutch-speaking Commercial Court of Brussels (the “**Deminor Proceedings**”). On 19 December 2014, 1,027 additional shareholders of the Arco entities joined in the Deminor Proceedings. On 15 January 2016, 405 additional shareholders of the Arco entities joined the Deminor Proceedings, resulting in a total of 2,169 plaintiffs. On 16 November 2020, a further “Deminor” procedure was initiated, in which all plaintiffs except one joined, to anticipate a possible nullity of the original summons. The content of the two proceedings is identical. As a result, they are treated together.

The plaintiffs have requested that the Brussels Court rules, among other things:

- in first order, that the agreements by virtue of which they became shareholders of the relevant Arco entities are null and void as a consequence of an alleged defect in consent;

¹⁹ Please note that, where relevant, Article 92 of IAS37 may apply to this section.

- that the defendants should therefore, in solidum, reimburse the plaintiffs for their financial contribution in these entities plus interest;
- in the alternative, a compensation is asked of Belfius Bank for an alleged violation of the information duty; and
- that the defendants are liable for certain additional damages to the plaintiffs.

The historical financial contribution of the 2,169 plaintiffs to the Arco Group entities, for which reimbursement is claimed, amounted to approximately EUR 6.5 million (principal amount). The plaintiffs' claims in the Deminor Proceedings are based on allegations of fraud and/or error on the part of the Arco entities and Belfius Bank. In the alternative, the plaintiffs have argued that Belfius Bank breached its general duty of care as a normal and prudent banker. In relation to Belfius Bank, the plaintiffs have referred to certain letters and brochures allegedly containing misleading information issued by the predecessors of Belfius Bank. The Belgian State, DRS Belgium (Deminor) and the Chairman of the Management Board of the Arco entities are also defendants in the proceedings before the Commercial Court of Brussels. In the meantime, the VZW ArcoClaim also intervened in this litigation procedure (on grounds of an alleged transfer of claim by one of the plaintiffs/Arco shareholders). The case was pleaded during several pleading sessions in June 2021. In its decision announced on 3 November 2021, the Dutch-speaking Commercial Court of Brussels rejected all the claims of the Arco shareholders.

The Arco shareholders have launched an appeal against this judgment. The case is pending before the Court of Appeal in Brussels. A pleading calendar has been determined and a hearing is expected to take place at the earliest in the second half of 2028.

Procedure C.F.I. ArcoClaim 2018

On 7 February 2018, two Arco shareholders summoned the Belgian State before the Court of First Instance of Brussels because they state that the Belgian State has made a fault by promising and introducing a guarantee scheme for shareholders of financial cooperative companies (like the Arco shareholders) which has been considered illicit state aid by the European Commission. These two plaintiffs also summoned Belfius Bank on 8 February 2018 to intervene in this procedure and claim compensation from Belfius Bank because they consider that Belfius Bank erred in the sale of the Arco shares. Groups of Arco shareholders organised themselves via social media to mobilise other Arco shareholders to become claimant in this procedure. The VZW ArcoClaim also intervenes in this litigation procedure.

In this procedure VZW ArcoClaim had requested the initiation of a mediation procedure before the court, but this request has been dropped in May 2023. To date, ArcoClaim has declared that 7,258 Arco shareholders have joined ArcoClaim, in addition to 5,334 Arco shareholders already being part of ArcoClaim.

No pleading calendar has been fixed yet.

Procedure C.F.I. Deminor 2022

On 14 December 2022, ten Arco shareholders launched a new judicial procedure with the assistance of Deminor against the Arco companies, the Belgian State and Belfius before the Court of First Instance in Brussels, in which they ask the defending parties to be condemned to indemnification based on extra-contractual liability, equal to claimant's financial contribution including interest, dividends, and possible bonus reserves, as well as a supplementary indemnification for moral damages. To date, a total of 13,678 Arco shareholders have joined this procedure. ArcoClaim VZW also joined the procedure for one of its members.

During a hearing held on 21 March 2024, the parties agreed on a procedural calendar that will first focus on the admissibility of the claims. A relay hearing is scheduled for 10 December 2027. As at the date of this Base Prospectus, no provision has been booked for these claims.

Investigation into Panama Papers

These paragraphs are mentioned for completeness only, although the matters below do not comprise a litigation. On 5 December 2017, a police search under the lead of an examining magistrate of Brussels (*onderzoeksrechter/juge d'instruction*) took place at Belfius Bank's head office in the framework of the Belgian "Panama Papers" Parliamentary Commission. Belfius Bank was investigated as a witness and has not been accused of any wrongdoing. The scope of the investigation is to establish whether there are any violations of anti-money laundering obligations and to investigate the link between Belfius Bank (or its predecessors), and, among others, Experta and Dexia Banque Internationale à Luxembourg (i.e., former entities of the Dexia Group).

As at the date of this Base Prospectus, Belfius Bank has not received further information since the above-mentioned police search.

Investigation by public prosecutor into the activities of an independent bank agency

On 12 November 2020, public prosecution was initiated against Belfius Bank, among others, for its alleged role in potential fraudulent activities allegedly carried out with the assistance of a director of an independent bank agency of Belfius Bank in violation of several (banking) regulations. After consultation of the criminal file, Belfius continues to believe that it has sufficient valid arguments to result in these claims being declared inadmissible and/or without merit. No provision has been booked for this case.

7.12. Management and Supervision of Belfius Bank

7.12.1. Composition of the Management Board and the Board of Directors

A. Management Board

As at the date of this Base Prospectus, the Management Board consists of the following seven members, all of whom have acquired experience in the banking and financial sector:

Name	Position	Significant other functions performed outside Belfius Bank
Marc Raisière	Chair	none
Olivier Onclin	Vice-Chair	none
Hedi Ben Mahmoud	Member	none
Marianne Collin	Member	none
Camille Gillon	Member	none
Dirk Gyselinck	Member	none
Bram Somers	Member	none

Olivier Onclin has been Vice-Chair of the Management Board since 15 October 2024. From 1 January 2025, he oversees the business lines Wholesale & Public Banking, as well as People, Brand, Communications & ESG.

The legal department has been reporting to the Chair of the Management Board since 1 January 2025.

Dirk Gyselinck took charge of the business lines Private, Wealth & Retail Banking and has served as chairman of the Board of Directors of Belfius Asset Management since 1 January 2025.

On 1 April 2025, Hedi Ben Mahmoud joined the Management Board as Chief Risk Officer, succeeding Marianne Collin, who became Chief Financial Officer on that day.

In January 2025, an Executive Committee was formed to assist the Management Board to implement its strategy and policy. As at the date of this Base Prospectus, the Executive Committee comprises the Deputy Director Wholesale & Public Banking, the Head of People, Brand and Communications & ESG and the Head of Legal.

The members of the Management Board have their business address at 1210 Brussels, Place Charles Rogier 11, Belgium.

The Management Board is responsible for the effective management of Belfius Bank, for directing and coordinating the activities of the various business lines and for supporting departments within the framework of the objectives and general policy set by the Board of Directors. These powers do not include determining Belfius Bank's overall policy, nor actions reserved for the Board of Directors by the provisions of the Belgian Companies and Associations Code or the Banking Law.

The Management Board ensures that Belfius Bank's business activities are in line with the strategy, risk management and general policy set by the Board of Directors. It communicates relevant information to the Board of Directors to enable it to take informed decisions. It formulates proposals and advice to the Board of Directors for defining or improving Belfius Bank's general policy and strategy.

The members of the Management Board form a collegial body. They are required to carry out their duties in complete objectivity and independence.

Under the supervision of the Board of Directors, the Management Board takes the necessary measures to ensure that Belfius Bank has a robust and sustainable organisational structure suited to Belfius Bank's organisation to guarantee the effective and prudent management of Belfius Bank in accordance with the Banking Law.

There are no potential conflicts of interest between the duties of the Management Board members to Belfius Bank and their private interests or other duties.

B. Board of Directors

The Board of Directors defines, on proposal or recommendation of the Management Board, and, inter alia, supervises:

- the institution's strategy and objectives;
- the risk policy, including the risk tolerance level;
- the organisation of the institution for the provision of investment services, the exercise of investment activities, the provision of ancillary services, the marketing of structured deposits and the provision of advice to clients on such products, including the organisational arrangements, as well as the skills, knowledge and expertise required of the staff, the resources, procedures and mechanisms with or by which the institution provides those services and exercises those activities; and
- the integrity policy.

In the context of this responsibility, the Board of Directors is actively involved in the general policy, particularly regarding the supervision of the risk policy, organisation and financial stability of Belfius Bank and its governance, including the definition of the credit institution's objectives and values.

Additionally, as Belfius Bank is the head of the Belfius financial group, Belfius Bank's Board of Directors is responsible for the general policy, risk appetite and strategy of Belfius and ensuring compliance of the subsidiaries with these policies.

The Board of Directors also approves Belfius Bank's governance memorandum.

Pursuant to the articles of association of Belfius Bank, the Board of Directors is composed of a minimum of ten members, each appointed for a maximum term of four years. The table below includes the names of the directors, their position within Belfius Bank and the other significant functions they perform externally.

The business address for the members of the Board of Directors is 1210 Brussels, Place Charles Rogier 11, Belgium.

As at the date of this Base Prospectus, the Board of Directors consists of seventeen members, of whom seven sit on the Management Board.

The Board of Directors, which is made up of professionals from a variety of industries, including the financial sector, has the expertise and experience required associated with Belfius Bank's various operating businesses.

Rudi Vander Venet	Member of the Board of Directors of Belfius Bank (Non-Executive Director)	Full Professor in Financial Economics and Banking at the University of Ghent (UG)

There are no potential conflicts of interest between the duties of the members of the Board of Directors to Belfius Bank and their private interests or other duties.

7.12.2. Advisory committees set up by the Board of Directors

The Board of Directors of Belfius Bank established various advisory committees to assist in its responsibilities, i.e., a Nomination Committee, a Remuneration Committee, an Audit Committee and a Risk Committee. These committees are exclusively composed of non-executive directors. These directors are members of a maximum of three of these advisory committees. An Intra-Group Committee, a Technology Committee and a Belfius Art Committee have also been established within the governance of the Belfius group.

There are no potential conflicts of interest between the duties of any of the advisory committees to Belfius Bank and their private interests or other duties.

A. Nomination Committee

As of the date of this Base Prospectus, the Nomination Committee of Belfius Bank consists of the following members:

Name	Position
Lutgart Van Den Berghe	Chair – Director of Belfius Bank

Name	Position
Chris Sunt	Member – Chair of the Board of Directors of Belfius Bank
Daniel Falque	Member – Director of Belfius Bank and Belfius Insurance
Lieve Mostrey	Member – Director of Belfius Bank

The members of the Nomination Committee have the required skills, based on their education and diverse professional experience, to give a competent and independent judgment on the composition and operation of Belfius Bank's management bodies, in particular with respect to the individual and collective skills of their members and their integrity, reputation, independence of spirit and availability.

The Nomination Committee:

- identifies and recommends, for approval by the annual shareholders' meeting or the Board of Directors, as the case may be, candidates suitable to fill vacancies within the Board of Directors, evaluates the balance of knowledge, skills, diversity and experience within the Board of Directors, prepares a description of the roles and capabilities for particular appointments and assesses the expected time commitment. Additionally, it draws up policies relating to suitability, diversity, induction and training of directors. The Nomination Committee also sets a target for the representation of the underrepresented gender within the Board of Directors and formulates a policy on how to increase the number of members from the underrepresented gender to meet that target;
- gives an opinion on suitable candidate(s) to fill vacancies for independent control functions;
- periodically, and at least annually, assesses the structure, size, composition and performance of the Board of Directors and makes recommendations to it with regard to any changes;
- periodically assesses the knowledge, skills, experience, degree of involvement and in particular the attendance of members of the Board of Directors and advisory committees, both individually and collectively, and reports to the Board of Directors accordingly;
- periodically reviews the policies of the Board of Directors for selection and appointment of members of the Management Board, and makes recommendations to the Board of Directors;
- as the case may be, gives an opinion or recommendation on reputational issues related to directors;
- plans the renewal and orderly succession of directors and persons responsible for independent control functions;
- prepares proposals for the appointment or mandate renewal, as the case may be, of directors, members of the Management Board, the Chair of the Board of Directors and the Chair of the Management Board;
- assesses the aptitude of a director or a candidate director to meet the criteria set forth for being considered as an independent director;
- examines questions relating to the matter of succession;
- establishes a general and specific profile for directors and members of the Management Board;
- periodically, and at least annually, assesses the size and composition of the Board of Directors and makes recommendations to the Board of Directors for changes, particularly, to ensure the complementarity of profiles;
- ensures the application of provisions with regard to corporate governance and ensures observance of the procedures and transparency;

- prepares proposals for amendments to the internal rules of the Board of Directors and the Management Board;
- discusses the internal rules for the evaluation of the suitability of members of the Management Board, non-executive directors and the heads of independent control functions;
- discusses (the internal rules for) the recruitment, assessment and training of the members of the Management Board, non-executive directors and the heads of independent control functions suited to the needs of the Belfius group.
- assesses the governance memorandum and, if necessary, proposes amendments;
- discusses general human resources topics;
- discusses and analyses the quantitative statement and qualitative analysis of communications regarding stress, burn-out and inappropriate behaviour at work and actions taken to remedy situations.

In performing its duties, the Nomination Committee ensures that decision-taking within the Board of Directors is not dominated by one person or a small group of persons in a manner that might be prejudicial to the interests of Belfius Bank as a whole.

The Nomination Committee may use any type of resources that it considers appropriate for the performance of its tasks, including external advice, and receives appropriate funding to that end.

The Nomination Committee acts for Belfius Bank, Belfius Insurance and Belfius Asset Management.

B. Remuneration Committee

As of the date of this Base Prospectus, the Remuneration Committee of Belfius Bank consists of the following members:

Name	Position
Lutgart Van Den Berghe	Chair – Director of Belfius Bank
Chris Sunt	Member – Chair of the Board of Directors of Belfius Bank
Daniel Falque	Member – Director of Belfius Bank and of Belfius Insurance
Olivier Gillerot	Member – Director of Belfius Bank

The members of the Remuneration Committee have the required skills, on the basis of their educational and professional experience, to give a competent and independent judgment on remuneration policies and practices and on the incentives created for managing risks, capital and liquidity of Belfius Bank.

In order to perform its tasks correctly, the Remuneration Committee interacts regularly with the Risk Committee and the Audit Committee.

The Risk Committee ensures that Belfius' risk management, capital requirements and liquidity position, as well as the probability and the spread of profits over time are correctly taken into consideration in decisions relating to the remuneration policy.

Within Belfius Bank, this is reflected in the formulation of an opinion on a global 'Risk Gateway' and the establishment and assessment of 'Key Risk Indicators' on an annual basis. Their preparation is undertaken by the risk divisions, in collaboration with the human resources division.

The Audit Committee contributes to the establishment of objectives for the Auditor General and the Audit and Risk Committee contribute the objectives for the Compliance Officer.

The audit department at Belfius Bank provides an independent and regular analysis of the remuneration policy and its practical implementation. The latest follow-up study was conducted in 2022.

The Remuneration Committee prepares the decisions of the Board of Directors by *inter alia*:

- developing the remuneration policy, as well as making practical remuneration proposals for the Chair, the non-executive members of the Board of Directors and the members of the advisory committees of the Board of Directors. The Board of Directors submits these remuneration proposals to the general shareholders’ meeting for approval;
- developing the remuneration policy, as well as making practical proposals for the remuneration of the Chair of the Management Board and, on his proposal, for the remuneration of the members of the Management Board. The Board of Directors then determines the remuneration of the Chair and the members of the Management Board;
- providing advice on the proposals made by the Chair of the Management Board of Belfius Bank in relation to the severance remuneration for members of Belfius Bank’s Management Board. On the proposal of the Remuneration Committee, the Board of Directors of Belfius Bank determines the severance remuneration of the Chair and the members of Belfius Bank’s Management Board;
- advising the Board of Directors in relation to the remuneration policy for staff members whose activity has a material impact on the risk profile of Belfius Bank (known as “Identified Staff”) and in relation to the compliance of the allocation of remuneration to Identified Staff with regard to the remuneration policy put in place for them;
- preparing the remuneration report approved by the Board of Directors and published in the annual report;
- periodically checking to ensure that the remuneration programmes are achieving their objective and are in line with applicable conditions;
- annually assessing the performance and objectives of the members of the Management Board;
- providing an opinion on the elaboration of a global ‘Risk Gateway’, in consultation with the Risk Committee, containing various levers applied at various points in the performance management cycle, with an impact on determination of the variable remuneration.

The Remuneration Committee exercises direct supervision over the determination of objectives and remuneration of the individuals responsible for the independent control functions (Chief Risk Officer, General Auditor & Compliance Officer).

The Remuneration Committee acts for Belfius Bank, Belfius Insurance and Belfius Asset Management.

C. Audit Committee

As at the date of this Base Prospectus, the Audit Committee of Belfius Bank consists of the following members:

Name	Position
Georges Hübner	Chair Director of Belfius Bank
Colette Dierick	Member Director of Belfius Bank
Lieve Mostrey	Member Director of Belfius Bank

The members of the Audit Committee are independent directors. Members of the Audit Committee have collective expertise in the fields of banking, accountancy and auditing. At least one independent director on the Audit Committee is an expert in the field of accounting and/or audit.

The Audit Committee assists the Board of Directors in its task of carrying out prudential controls and exercising general supervision. The Audit Committee of Belfius Bank operates independently of the Audit Committee at Belfius Insurance. However, the respective Audit Committees of Belfius Bank and Belfius Insurance hold joint meetings.

D. Risk Committee

As at the date of this Base Prospectus, the Risk Committee consists of the following members:

Name	Position
Colette Dierick	Chair Director of Belfius Bank
Estelle Cantillon	Member Director of Belfius Bank
Georges Hübner	Member Director of Belfius Bank
Rudi Vander Venet	Member Director of Belfius Bank

The members of the Risk Committee have the individual expertise and professional experience required to define strategy regarding risk and the level of risk appetite of an institution. They have acquired the specialisation necessary in particular as directors with other institutions and/or in their university training. Consequently, the Risk Committee has the required individual knowledge and expertise.

The Risk Committee has advisory powers and responsibilities with regard to the Board of Directors in the following areas:

- appetite and strategy regarding Belfius Bank’s current and future risks (including ESG risks), more particularly the effectiveness of the risk management function and the governance structure to support them;
- monitoring implementation of risk appetite and strategy by the Management Board;
- allocating the risk appetite to various categories of risks and defining the extent and limits of risk in order to manage and restrict major risks;
- considering the risks run by Belfius Bank with its customer tariffs;
- assessing activities which expose Belfius Bank to real risks;
- supervising requirements in terms of capital and liquidity, the capital base and Belfius Bank’s liquidity situation;
- guaranteeing that risks are proportional to Belfius Bank’s capital;
- formulating an opinion with regard to major transactions and new proposals for strategy activities that have a significant impact on Belfius Bank’s risk appetite;
- obtaining information and analysing management reports as to the extent and nature of the risks facing Belfius Bank and the conglomerate (e.g. conglomerate reporting);

- monitoring the Internal Capital Adequacy Assessment Process (ICAAP), the Internal Liquidity Adequacy Assessment Process (ILAAP) and the Recovery Plan;
- overseeing the alignment between all material financial products and services offered to clients and the business model and risk strategy of the institution;
- reviewing a number of possible scenarios, including stressed scenarios, to assess how the institution's risk profile would react to external and internal events;
- assessing the recommendations of internal and external auditors and following up on the appropriate implementation of measures taken.

The Risk Committee operates independently of the Risk & Underwriting Committee of Belfius Insurance. At the request of the Chair of Belfius Bank's Risk Committee, a joint Risk Committee of Belfius Bank and Belfius Insurance may be held. To promote sound remuneration policy and practices, without prejudice to the tasks of the Nomination Committee and the Remuneration Committee, the Risk Committee examines whether incentives in the remuneration system take proper account of the institution's risk management, equity requirements and liquidity position, as well as the probability and distribution of profit over time.

The Risk Committee and the Audit Committee periodically exchange information in particular concerning the quarterly risk report, the senior management report on the assessment of internal control and the risk analyses performed by the Legal, Compliance and Audit Departments. The aim of this exchange of information is to enable the two committees to perform their tasks properly and it can take the form of a joint meeting.

E. Intra-Group Committee

An Intra-Group Committee has been established within the Belfius group.

As at the date of this Base Prospectus, the Intra-Group Committee consists of the following members:

Name	Position
Chris Sunt	Chair Chair of the Board of Directors of Belfius Bank
Colette Dierick	Member Director of Belfius Bank
Olivier Gillerot	Member Director of Belfius Bank
Jean-Michel Kupper	Member Director of Belfius Insurance
Stephan Slits	Member Director of Belfius Insurance

The Intra-group Committee's competencies comprise the following:

- monitoring and reporting on significant intra-group transactions;
- monitoring and reporting on intra-group transactions with an important reputational impact; and
- advising on material conflicts of interest between companies belonging to the Belfius group when they fail to reach an agreement in a relatively short period of time.

F. Technology Committee

A Technology Committee has been established within the Belfius group.

As at the date of this Base Prospectus, the Technology Committee consists of the following members:

Name	Position
Olivier Gillerot	Chair Director of Belfius Bank
Daniel Falque	Member Director of Belfius Bank and Belfius Insurance
Lieve Mostrey	Member Director of Belfius Bank
Peter Hinssen	Member (Peter Hinssen continues to serve as a member of the Technology Committee, despite no longer being a director at Belfius Bank as of 1 May 2025.)
Jean-Michel Kupper	Member Director of Belfius Insurance

The Technology Committee, which is responsible for Belfius Bank and its subsidiaries, advises the Board of Directors on its technology strategy and important technology investment decisions. Technology includes, i.a., IT, digital and artificial intelligence.

The Technology Committee:

- advises the Board of Directors on, and proposes/recommends, decisions regarding technology strategy and material technology investment choices;
- monitors, evaluates and advises the Board of Directors on existing and future technology, digital, data and AI trends, regulation and competition / FinTech developments that may affect Belfius' strategic plans including the monitoring of overall industry trends and future trends concerning enterprise data management and the financial industry's use of data to maximise the customer experience value;
- assesses, measures and advises the Board of Directors on Belfius' technological strategic milestones and transformational developments, such as customer experience and potential partnerships;
- monitors and reports to the Board of Directors on progress made with respect to the implementation of the technology, digital, data and AI decisions taken by the Board of Directors, including but not limited to, technology performance and security. This includes, i.a., monitoring and challenging of (timing, pace, risk mitigation, hybrid models and talents), IT infrastructure, cloud foundations and platforms;
- reviews and discusses reports from management on technology related activities, strategies and metrics, including corporate data project performance and reports to the Board of Directors on the same.

Responsibility for the oversight of risks associated with technology, including risk assessment and risk management, remains with the Risk Committee and the Audit Committee.

G. Belfius Art Committee

A Belfius Art Committee has been established since 2015.

As at the date of this Base Prospectus, the Belfius Art Committee consists of the following members:

Name	Position
Chris Sunt	Chair Chair of the Board of Directors of Belfius Bank

Name	Position
Marc Raisière	Member Chair of the Management Board of Belfius Bank
Julie Uytterhaegen	Member Head of People, Brand, Communication & ESG
Bénédicte Bouton	Member Head of Culture at Belfius and Curator of the Belfius Art Collection

The Belfius Art Committee has been mandated by the Board of Directors of Belfius Bank to manage the Belfius Art Collection as defined in Article 10 of Belfius Bank's Articles of Association. Within the context of this mandate, the Belfius Art Committee takes decisions with respect to the management, the conservation, the preservation, the use, the development and the evolution of the Belfius Art Collection.

8. TERMS AND CONDITIONS OF THE NOTES

(Annex 14.4 of Commission Delegated Regulation (EU) 2019/980)

The following is the text of the terms and conditions (the “**Terms and Conditions**”, each chapter or subchapter individually referred to as “**Condition**”) of the Notes, subject to completion and amendment and as supplemented or varied in accordance with the relevant provisions of the Final Terms. In the event of any inconsistency between the provisions of the Final Terms and the other provisions of this Programme, the Final Terms will prevail. All capitalised terms that are not defined in these Terms and Conditions will have the meanings given to them in the applicable Final Terms.

References in the Terms and Conditions to the Notes are to the Notes of one Series only, not to all Notes that may be issued under the Programme.

Bearer Notes are issued under an agency agreement dated the date of this Base Prospectus (as amended or supplemented as at the date of issue of the Notes (the “**Issue Date**”), referred to as the “**Agency Agreement**”, see Annex 4), between Belfius Financing Company as Issuer, Belfius Bank and Banque Internationale à Luxembourg, where relevant.

The Notes will be issued in series (each a “**Series**”) having one or more issue dates and on terms otherwise identical (or identical other than in respect of the first payment of interest), the Notes of each Series being intended to be interchangeable with all other Notes of that Series. Each Series may be issued in tranches (each a “**Tranche**”) on the same or different issue dates. The specific terms of each Tranche (which will be supplemented, where necessary, with supplemental terms and conditions and, save in respect of the issue date, issue price, first payment of interest and principal amount of the Tranche will be identical to the terms of other Tranches of the same Series) will be set out in the Final Terms.

To the extent applicable, the Issuers and the Calculation Agent undertake to comply with Book VI of the Belgian Code of Economic Law in respect of Notes issued under the Programme and placed in the framework of a public offer in Belgium. For this purpose, a public offer has the meaning set forth in Article 2 of the Prospectus Regulation.

In accordance with Articles VI.82 to VI.84 of the Belgian Code of Economic Law, the Issuers or the Calculation Agent may only make a unilateral modification of a product if the following four cumulative conditions are met:

- (i) it is limited to events of force majeure or other events which significantly modify the economy of the contract and for which the Issuer is not responsible (see the events listed under “Potential Adjustment Events” and “Extraordinary Events”);
- (ii) the modification itself is not significant, so that it does not create an imbalance between the rights and obligations of the parties, to the detriment of the Noteholders. The Issuer must take all measures and make every effort to continue the product under similar circumstances;
- (iii) no costs are charged to the Noteholder; and
- (iv) the contract term must be drawn up in a plain and intelligible manner.

Furthermore, the redemption features provided by section 8.5.3. (“Redemption at the option of the Issuer”) of this Base Prospectus, which will be further specified in the Final Terms of each Series, are deemed to be the principal object of the contract within the meaning of Article VI.82 of the Belgian Code of Economic Law. The other early redemption features of the Notes provided by this Section 8 (as described under sections 8.7.3.3. *Potential Adjustment Events*, 8.7.3.4. *Extraordinary Events*, 8.7.4.1. *Terms applicable irrespective of whether an Index is*

Multiple Exchange or not, 8.7.5.2. *Potential Adjustment Events*, 8.7.5.3. *Extraordinary Events*, 8.7.6.2. *Market Disruption*, 8.7.7.2. *Commodity Index Event*, and 8.7.8.2. *Events affecting the Index*) are only possible (i) as a consequence of events of force majeure or other events which significantly modify the economy of the Note and for which the Issuer is not responsible (the repayment will then, (a) in the case of force majeure or in the case of Notes without capital protection, be at least at market value without charging additional costs to the consumer or (b) in the case of capital protected Note, Monetization (as defined below) or buy back at market value) (ii), except in the case of force majeure, the Issuer is required to indemnify the Noteholder for the loss suffered by the Noteholder because of the early redemption; (iii) no costs are charged to the noteholder and (iv) no deduction of any costs whatsoever is allowed and a *pro rata* refund of the costs already borne by the investor (in the proportion (total initial term minus elapsed period)/total initial term), must be provided for. The Terms and Conditions allow for the substitution of the Issuer provided that the conditions listed in section 8.16 are met.

Besides these early redemption features, the following sections relate to situations in which certain features of the Notes may be modified: 8.7.3.3. *Potential Adjustment Events*, 8.7.3.4. *Extraordinary Events*, 8.7.4.1. *Terms applicable irrespective of whether an Index is Multiple Exchange or not*, 8.7.4.2. *Terms applicable to an Index that is not Multiple Exchange*, 8.7.5.2. *Potential Adjustment Events*, 8.7.5.3. *Extraordinary Events*, 8.7.6.2. *Market Disruption*, 8.7.7.2. *Commodity Index Event*, and 8.7.8.2. *Events affecting the Index*.

In the case of a Note without capital protection, the Issuer shall pay in accordance with the indemnification-principle laid down in Article VI.83. 10° CEL, at least the Fair Market Value of the Note. “**Fair Market Value**” means the valuation using (i) the most relevant available market data or market quotation, or, (ii) if no such relevant data or quotation may be found at the relevant time, a valuation mathematical model generally accepted in the financial sector.

In the case of a capital protected Note, the Issuer opts for the Monetization of the relevant Notes. “**Monetization**” means that the underlying financial structure (derivative component) of a capital protected Note will be unwound at its market value and added to the bond component. The Fair Market Value of the Note, consisting of the Fair Market Value of both the bond and the derivative component, will be capitalized at least up to the protected level (Fair Market Value means the valuation using (i) the most relevant available market data or market quotation, or, (ii) if no such relevant data or quotation may be found at the relevant time, a valuation mathematical model generally accepted in the financial sector). In case of such Monetization of the Note, the Noteholders will always have the right, as an alternative to the Monetization, to sell the Note to the Issuer or to an agent appointed by the Issuer at market value. In any case of early redemption (for capital protected Notes as well as for Notes without capital protection), but not in the case of Monetization, no deduction of any costs will be applied and the costs already borne by the Noteholders will be refunded *pro rata temporis* to the Noteholders.

In these Terms and Conditions, the “**Noteholder**” means the person who has the Notes on his or her securities account in case of Notes in dematerialised or bearer form or the person who is included in the register of registered notes of Belfius Financing Company in case of Belfius Financing Company Notes in registered form.

Where these Terms and Conditions refer to any computation of a term or period of time, Article 1.7 of the Belgian Civil Code (*Burgerlijk Wetboek/Code Civil*) of 13 April 2019 (the “**Belgian Civil Code**”) shall not apply to the extent inconsistent with these Terms and Conditions.

In these Terms and Conditions, any reference to any code, law, decree, regulation, directive or any implementing or other legislative measure shall be construed as a reference to such code, law, decree, regulation, directive or implementing or other legislative measure as the same may be amended, supplemented, restated and/or replaced from time to time.

Any Condition may derogate either expressly or implicitly from applicable legal provisions. Even if there is no express derogation from a specific legal provision, the relevant Condition may still implicitly derogate from legal provisions (for instance by providing for a different contractual regime).

8.1. Form, Denomination and Title

8.1.1. Denomination

The Notes will be issued in the Denomination(s) as specified in the applicable Final Terms and will require a Minimum Subscription Amount if so specified in the applicable Final Terms.

8.1.2. Belfius Bank Notes

The Belfius Bank Notes are issued in dematerialised form via a book-entry system maintained in the records of the NBB as operator of the Securities Settlement System in accordance with Article 7:35 and following of the Belgian Code of Companies and Associations and will be credited to the accounts held with the Securities Settlement System by Belfius Bank, Euroclear, Euroclear France, Clearstream Banking Frankfurt, Clearstream Banking S.A., SIX SIS, Euronext Securities Milan, Euronext Securities Porto, LuxCSD, Iberclear, OeKB or other direct or indirect participants in the Securities Settlement System (the “**Participants**”) for credit by Belfius Bank, Euroclear, Euroclear France, Clearstream Banking Frankfurt, Clearstream Banking S.A., SIX SIS, Euronext Securities Milan, Euronext Securities Porto, LuxCSD, Iberclear, OeKB or other Participants to the securities accounts of their subscribers.

Transfers of Belfius Bank Notes will be effected only through records maintained by the Securities Settlement System, Belfius Bank, Euroclear, Euroclear France, Clearstream Banking Frankfurt, Clearstream Banking S.A., SIX SIS, Euronext Securities Milan, Euronext Securities Porto, LuxCSD, Iberclear and OeKB or other Participants and in accordance with the applicable procedures of the Securities Settlement System, Euroclear, Euroclear France, Clearstream Banking Frankfurt, Clearstream Banking S.A., SIX SIS, Euronext Securities Milan, Euronext Securities Porto, LuxCSD, Iberclear and OeKB or other Participants.

The Belfius Bank Notes will not be physically delivered. They will be held in a securities account.

8.1.3. Belfius Financing Company Notes

The Belfius Financing Company Notes will be issued in dematerialised form, in registered form (*obligations nominatives/obligaties op naam*) or in bearer form, as specified in the applicable Final Terms, and will be governed by Belgian law.

The Belfius Financing Company Notes which are issued in dematerialised form will be represented by a book-entry in the records of the Securities Settlement System. Transfers of Belfius Financing Company Notes which are issued in dematerialised form will be effected only through records maintained by the Securities Settlement System, Belfius Bank, Euroclear, Euroclear France, Clearstream Banking Frankfurt, Clearstream Banking S.A., SIX SIS, Euronext Securities Milan, Euronext Securities Porto, LuxCSD, Iberclear and OeKB or other Participants and in accordance with the applicable procedures of the Securities Settlement System, Euroclear, Euroclear France, Clearstream Banking Frankfurt, Clearstream Banking S.A., SIX SIS, Euronext Securities Milan, Euronext Securities Porto, LuxCSD, Iberclear and OeKB or other Participants. The Belfius Financing Company Notes which are issued in dematerialised form will not be physically delivered. They will be held in a securities account.

The Belfius Financing Company Notes which are issued in registered form (*obligations nominatives/obligaties op naam*) will be issued pursuant to the applicable provisions of Articles 7:27 to 7:34 of the Belgian Code of Companies and Associations to the extent not deviated from by the Terms and Conditions of the Belfius Financing Company Notes.

The Belfius Financing Company Notes which are issued in bearer form will be represented by a Permanent Global Note, deposited with the common depository for Euroclear and Clearstream Banking S.A. and will not be exchangeable for definitive notes.

8.2. Pay-Offs

Introduction

The pay-offs allowed in the Programme can be divided into six main categories in function of the calculation and payment of Interest (periodic or not), the calculation methodology of the amount paid at redemption of the Notes (the “**Redemption Amount**”) (one calculation and payment at maturity, or a sum of periodic calculations paid at maturity) and the settlement of the Redemption Amount (cash or physical). These categories are:

- A. Structures with a periodic payment;
- B. Structures with one payment at maturity with cap;
- C. Structures with one payment at maturity without cap;
- D. Structures with a sum of periodic calculations and payment at maturity;
- E. Structures with a periodic payment and physical settlement; and
- F. Structures with an amortising redemption.

The formulas proposed below try to be general formulas meant to be used for a lot of different types of products. In accordance with the Prospectus Regulation, the Issuer can decide not to use some components of the formula by setting these components on 0 or 1 or not applicable. The Final Terms will specify which formula(s) will be used for a specific product issued and which specific parameters go into the formula. If a component of the formula is 0 or 1 or not applicable, and the respective component is not used for a specific issue of Notes, it is possible to render the formula in the Final Terms without the unapplied component(s).

The examples set out in this Condition 8.2 reference certain specified reference items as an “Underlying”. These references are included for illustrative purposes only and are not intended to be exhaustive of what may constitute an “Underlying” in respect of a Series of Notes. This will be determined by reference to the relevant Market Rate, the OLO Reference Rate, Share or Basket of Shares, Share Index or Basket of Share Indexes, Commodity Index or Basket of Commodity Indexes, Inflation Index, Fund or Basket of Funds, as specified in the applicable Final Terms.

A. Structures with a periodic payment

The first category includes the products generating a periodic payment of Interest (fixed or variable) (the “**Periodic Payment**”) and a Redemption Amount which can be equal or not to 100% of the capital invested less fees.

Definition

The Periodic Payments can be calculated applying the next formula(s) [for n periods]:

$$Formula\ i = (Participation\ Rate_i \times \max(X\%_i, \min(Performance_i, Y\%_i)) + Bonus_i)$$

The Redemption Amount at Maturity (period n) can be calculated applying the next formula:

$$Formulai = Denomination + [Denomination \times (Participation\ Rate_i \times \max(X\%_i, \min(Performance_i, Y\%_i)) + Bonus_i)]$$

The Final Terms will specify the parameters (Participation Rate, X%, Y%) of the specific issue of Notes (see introduction). The Final Terms will also specify if a combination of more than one of these formulas is used. The Final Terms will furthermore specify:

- 1) How many periods (n) will be used and what formula relates to what period.
 - 2) Which underlying (the “**Underlying**”) will be used to calculate the Performance (Market Rate, OLO Reference Rate, Share or Basket of Shares, Share Index or Basket of Share Indexes, Commodity Index or Basket of Commodity Indexes, Inflation Index, Fund or Basket of Funds) (as defined in the Final Terms).
 - 3) Which sub formula will apply to calculate the Performance. This Performance can be:
 - a) a single fixing
 - b) a difference between 2 Underlyings: Underlying₁ – Underlying₂
 - c) $\frac{Final\ Price - Initial\ Price}{Initial\ Price}$, with or without reset of the Initial Price
 - d) $\frac{Initial\ Price - Final\ Price}{Initial\ Price}$, with or without reset of the Initial Price
 - e) $\frac{Final\ Price - Initial\ Price}{Final\ Price}$, with or without reset of Initial Price
 - f) $\frac{Initial\ Price - Final\ Price}{Initial\ Price}$, with or without reset of Initial Price
 - g) $\frac{Final\ Price}{Initial\ Price}$
- $\sum_{j=1}^y w_{i,j} \times \max\left(U\%, \min\left(\left(\frac{FinalPrice_j - InitialPrice_j}{InitialPrice_j}\right), Z\%\right)\right)$, with or without reset of the Initial Price.

W means the weight of the Underlying. Y can be the number of Underlyings, or can be the number of periods.

The Final Terms will also determine how the Final Price and Initial Price are defined. These can be one observation, an average of X observations, with a look-back feature (lowest/highest during a certain period).

- 4) If the structure can be called either by the Issuer at certain dates, or when the Underlying reaches a certain level at a certain date or during a certain period.
- 5) If the value of some parameters depends on the level of the Underlying at a certain date or during a certain period (=condition).
- 6) How the Bonus_i is defined. The Bonus_i can be
 - a. a fixed rate
 - b. a fixed rate subject to a condition on the Underlying
 - c. a rate which is the result of a formula such as the formulas above.
 - d. A rate which is the result of a sum of formulas such as the formulas above.
- 7) What the Participation Rate will be.
- 8) What the floor X% will be.
- 9) What the cap Y% will be.
- 10) What daycount convention has to be applied.

Examples

1. Collared Floater (5 years, payment every 3 months)

Definition:

In a Collared Floater, the Noteholder receives periodically a variable interest rate (linked to an Underlying). This rate is capped at a certain percentage (Y%) and floored at another level (X%). The Noteholder receives 100% of his invested capital at Maturity.

Product:

Periodic payments:

1. Periods: 20
2. Underlying: EURIBOR3months
3. Performance will be a single fixing (subformula 3.a) is applicable). Fixing in advance (2 Business Days before start of the Interest Period)
4. Not applicable
5. Not applicable
6. Bonus = 0%
7. Participation Rate = 100%
8. X% = 2.20% (annualized)
9. Y% = 5.00% (annualized)
10. Daycount: Act/360, mod fol, adjusted

The formula for the Periodic Payments will be

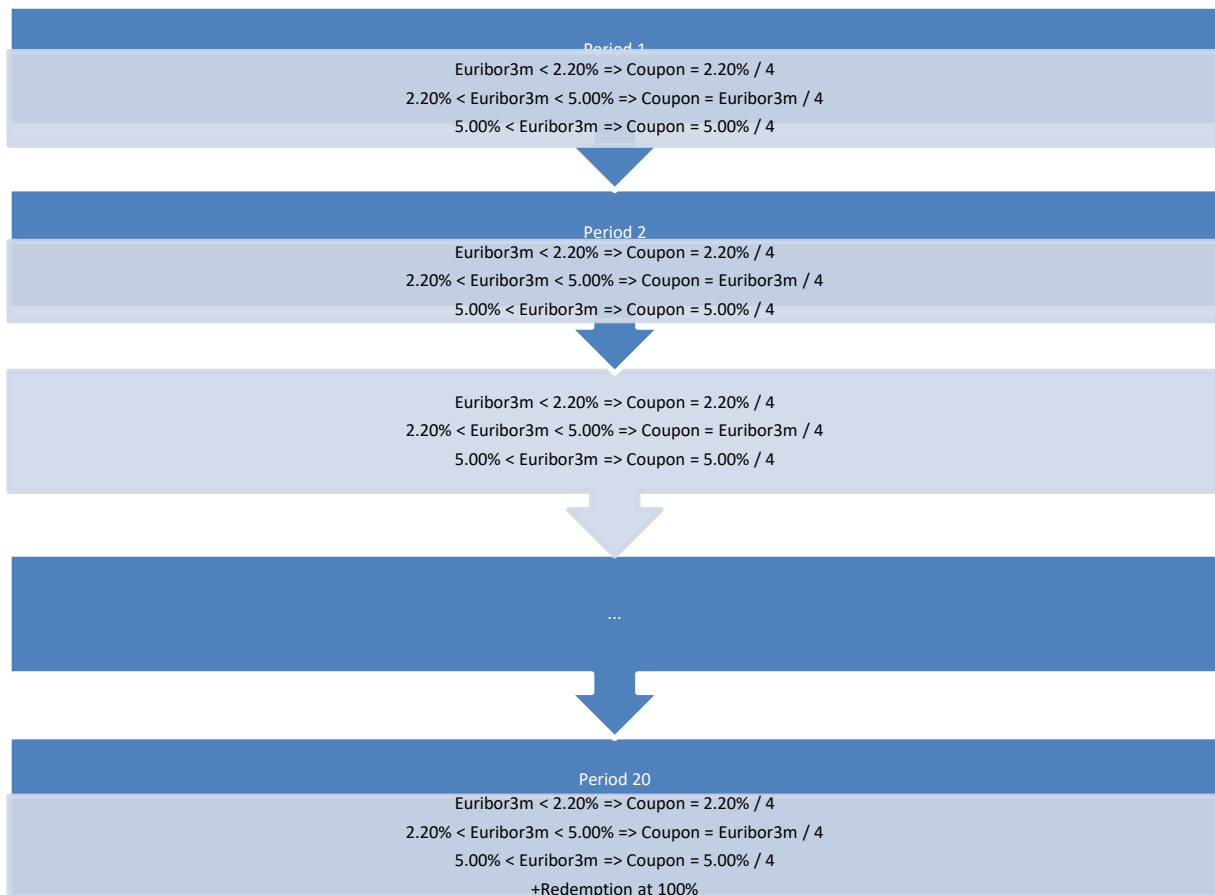

$$\begin{aligned} & (\text{Participation Rate}_i \times \max(X\%_i, \min(\text{Performance}_i, Y\%_i)) + \text{Bonus}_i) \\ & = (100\% \times \max(2.20\%, \min(\text{Performance}, 5.00\%)) + 0\%) \end{aligned}$$

Redemption Amount:

1. Not Applicable
2. Underlying: EURIBOR3months
3. Single fixing 2 Business Days before start of the Interest Period (subformula 3.a) is applicable).
4. Not applicable
5. Not applicable
6. Bonus = 0%
7. Participation Rate = 0%
8. X% = 0%
9. Y% = 0%
10. No Daycount

The formula for the Redemption Amount will be

$$\begin{aligned} & \text{Denomination} + [\text{Denomination} \times (\text{Participation Rate}_i \times \max(X\%_i, \min(\text{Performance}_i, Y\%_i)) + \text{Bonus}_i)] \\ & = \text{Denomination} + [\text{Denomination} \times (0\% \times \max(0\%, \min(\text{Performance}_i, 0\%)) + 0\%)] \\ & = \text{Denomination} \end{aligned}$$

Note: In the example above the amounts are divided by 4, but the daycount convention is Act/360. This division is done for simplification purposes.

For the purposes of this example, the terms “**EURIBOR3months**” and “**Euribor3m**” shall each be construed to mean “EUR-EURIBOR” with a Designated Maturity of 3 months, within the meaning of the 2021 ISDA Definitions (as defined in Condition 8.3.2).

2. Target Memory Autocall

Definition:

In a Target Memory Autocall, there is no right to receive 100% of the invested capital less fees at Maturity.

-> If, on an Interest Payment Date, the Underlying (typically an index) has lost more than a certain percentage of its initial value (for example -30%), no Interests are paid and the Interests (for example, 7.50%) are recorded in the Memory which starts at zero.

-> If the Underlying has not lost more than a certain percentage of its initial value (for example, -30%), the Interests and the memory are paid.

-> If the Underlying is above a predefined level (typically its initial value), the Interests and the memory are paid and the Note is redeemed at par (autocallable).

At Maturity, if the Underlying is below a third predefined level (for example, -50%), the Redemption Amount is linked to the evolution of the Underlying, which means that investors will receive less than the invested capital, less fees. Otherwise, the Note is redeemed at par

Product:

Periodic payments (i = 1 to 4):

1. Periods: 5

2. Underlying: SX5E
3. Performance will be $\frac{Final\ Price - Initial\ Price}{Initial\ Price}$ (Subdivision 3.c) is applicable), no reset for the Initial Price
4. Callable is applicable (Subdivision 4) is applicable) if $Performance_i \geq 0\%$
5. Condition is applicable (Subdivision 5))
6. Bonus_i = $-\sum_{w=1}^{i-1} Formula_w$ if $Performance_i \geq -30\%$
= 0% if $Performance_i < -30\%$
7. Participation Rate = period i (i = 1 to 4) if $Performance_i \geq -30$
= 0% if $Performance_i < -30\%$
8. X% = 7.50% if $Performance_i \geq -30\%$
= 0% if $Performance_i < -30\%$
9. Y% = 7.50% if $Performance_i \geq -30\%$
= 0% if $Performance_i < -30\%$
10. Daycount: 30/360, following, unadjusted

➡ If $Performance_i \geq -30\%$ and $< 0\%$

The formula for the Periodic Payments will be

$$\begin{aligned} & (Participation\ Rate_i \times \max(X\%_i, \min(Performance_i, Y\%_i)) + Bonus_i) \\ & = (i \times \max(7.50\%, \min(Performance, 7.50\%))) - \sum_{w=1}^{i-1} Formula_w \end{aligned}$$

➡ If $Performance_i \geq 0\%$, then the transaction terminates automatically (autocallable).

Formula_i for Redemption Amount will be:

$$\begin{aligned} & Denomination + [Denomination \times (Participation\ Rate_i \times \max(X\%_i, \min(Performance_i, Y\%_i)) + Bonus_i)] \\ & = Denomination + \left[Denomination \times \left(i \times \max(7.50\%_i, \min(Performance_i, 7.50\%_i)) - \sum_{w=1}^{i-1} Formula_w \right) \right] \\ & = Denomination + \left[Denomination \times \left(i \times 7.50\% - \sum_{w=1}^{i-1} Formula_w \right) \right] \end{aligned}$$

Redemption Amount:

1. Periods: 5
2. Underlying: SX5E
3. Performance will be $\frac{Final\ Price - Initial\ Price}{Initial\ Price}$ (Subdivision 3.c) is applicable), no reset for the Initial Price
4. Call is activated if $Performance_i \geq 0\%$
5. Conditions are activated

6. $Bonus_i = -\sum_{w=1}^{i-1} Formula_w$ if $Performance_i \geq -30\%$; = 0% if $Performance_i < -30\%$
7. Participation Rate = 5 if $Performance_i \geq -30\%$; = 0% if $Performance_i < -30\%$ and $\geq -50\%$; = 100% if $Performance_i < -50\%$

3. Light Reverse

Definition:

In a Light Reverse, one single barrier needs to be observed at Maturity. There is no right to receive 100% of the invested capital less fees at maturity

The Noteholder receives periodically (typically every year) a fixed Interest rate (for example 5.50%).

At Maturity, the Noteholder receives 100% of its investment if the Underlying (typically an Index) has not lost more than a pre-defined percentage (for example -40%) of its initial value. Otherwise the index performance is paid and there is a loss of capital.

B. Structures with one payment at maturity with cap

The second category includes the products which do not generate any Periodic Payments but one global payment at Maturity. This last payment can be fixed (in a so-called “zero coupon product”) or variable. The formulas as stipulated below will specify if the Notes have a Redemption Amount at 100% of the capital invested less fees or not.

Definition

The Variable Linked Redemption Amount can be constituted out of the next formula(s):

$$\text{Formula } i = \text{Denomination} + [\text{Denomination} \times (\text{Participation Rate}_i \times \max(X\%_i, \min(\text{Performance}_i, Y\%_i)) + \text{Bonus}_i)]$$

The Final Terms will specify the parameters (Participation Rate, X%, Y%) of the specific issue of Notes (see introduction). The Final Terms will also specify if a combination of more than one of these formulas is used. The Final Terms will furthermore specify:

- 1) Which Underlying will be used to calculate the Performance (Market Rate, OLO Reference Rate, Share or Basket of Shares, Share Index or Basket of Share Indexes, Commodity Index or Basket of Commodity Indexes, Inflation Index, Fund or Basket of Funds).
- 2) Which sub formula will apply to calculate the Performance. This Performance can be:
 - a) a single fixing
 - b) a difference between 2 Underlyings: $\text{Underlying}_1 - \text{Underlying}_2$
 - c) $\frac{\text{Final Price} - \text{Initial Price}}{\text{Initial Price}}$, with or without reset of the Initial Price
 - d) $\frac{\text{Initial Price}}{\text{Initial Price} - \text{Final Price}}$, with or without reset of the Initial Price
 - e) $\frac{\text{Final Price} - \text{Initial Price}}{\text{Initial Price}}$, with or without reset of Initial Price
 - f) $\frac{\text{Initial Price} - \text{Final Price}}{\text{Initial Price}}$, with or without reset of Initial Price
 - g) $\frac{\text{Final Price}}{\text{Initial Price}}$

$$\sum_{j=1}^Y w_{i,j} \times \max \left(U\%, \min \left(\left(\frac{\text{Final Price}_j - \text{Initial Price}_j}{\text{Initial Price}_j} \right), Z\% \right) \right), \text{ with or without reset of the Initial Price.}$$

W means the weight of the Underlying. Y can be the number of Underlyings, or can be the number of periods.

The Final Terms will also determine how the Final Price and Initial Price are defined. These can be one observation, an average of X observations, with a look-back feature (lowest/highest during a certain period).

- 3) If the structure can be called either by the Issuer at certain dates, or when the Underlying reaches a certain level at a certain date or during a certain period.
- 4) If the value of some parameters depends on the level of the Underlying at a certain date or during a certain period (=condition).
- 5) How the Bonus_i is defined. The Bonus_i can be:
 - a. a fixed rate;
 - b. a fixed rate subject to a condition on the Underlying;
 - c. a rate which is the result of a formula such as the formulas above; or
 - d. a rate which is the result of a sum of Formulas such as the Formulas above.
- 6) What the Participation Rate will be.
- 7) What the floor X% will be.
- 8) What the cap Y% will be.
- 9) What daycount convention has to be applied.

Examples

1. Call spread

Definition:

In a Call spread, there is no Periodic Payment. At Maturity, the Redemption Amount will be equal to 100% of the capital invested less fees plus any positive evolution of the Underlying capped at a defined level.

Product:

Redemption Amount:

1. Underlying: Eurostoxx 50 (SX5E)
2. Performance is $\frac{\text{Final Price} - \text{Initial Price}}{\text{Initial Price}}$ (Subdivision 2.c) is applicable) where Initial Price is closing level of the Index observed at 24/09/2012 and the Final Price is the arithmetic average of the closing levels observed at 10/09/2017, 11/09/2017 and 12/09/2017.
3. Not applicable
4. Not applicable
5. Bonus = 0%
6. Participation Rate = 100%
7. X% = 0%
8. Y% = 45%
9. No daycount

The formula for the Redemption Amount will be:

$$\text{Denomination} + [\text{Denomination} \times (\text{Participation Rate}_i \times \max(X\%_i, \min(\text{Performance}_i, Y\%_i)) + \text{Bonus}_i)]$$

$$\text{Denomination} + [\text{Denomination} \times (100\% \times \max(0\%, \min(\text{Performance}, 45\%)) + 0\%)] =$$

Optimistic Scenario:

$$\text{Performance} = 30\% \Rightarrow \text{Denomination} + [\text{Denomination} \times (100\% \times \max(0\%, \min(30\%, 45\%)) + 0\%)] = 130\%$$

Pessimistic Scenario:

$$\text{Performance} = -30\% \Rightarrow \text{Denomination} + [\text{Denomination} \times (100\% \times \max(0\%, \min(-30\%, 45\%)) + 0\%)] = 100\%$$

2. Digital on CMS

Definition:

The Digital on CMS product is the combination of a typical Zero Coupon bond (with a predefined interest payment at maturity) and a potential additional payment (the digital feature) if the Underlying (in this case the CMS rate) is above a certain level at maturity.

Product:

Redemption Amount:

1. Underlying: CMS10y
2. Performance is a single fixing ((Subdivision 2.a) is applicable)
3. Not applicable
4. Condition is applicable ((Subdivision 4) is applicable) -> at observation date, if CMS10y is at or above 2.10%
5. Bonus = 25.20 %
6. Participation Rate = 0% if CMS10y < 2.10%
100% if CMS10y ≥ 2.10%
7. X% = 0% if CMS10y < 2.10%
10.40 % if CMS10y ≥ 2.10%
8. Y% = 0% if CMS10y < 2.10%
10.40 % if CMS10y ≥ 2.10%
9. No daycount

→ If CMS10y < 2.10%, then

Formula for the Redemption Amount will be

$$\begin{aligned} & \text{Denomination} + [\text{Denomination} \times (\text{Participation Rate}_i \times \max(X\%_i, \min(\text{Performance}_i, Y\%_i)) + \text{Bonus}_i)] \\ & \text{Denomination} + [\text{Denomination} \times (0\% \times \max(0\%, \min(\text{Performance}_i, 0\%)) + 25.20\%)] \\ & = \text{Denomination} + [\text{Denomination} \times (25.20\%)] \end{aligned}$$

→ If CMS10y ≥ 2.10%, then

Formula for the Redemption Amount will be

$$\begin{aligned} & \text{Denomination} + [\text{Denomination} \times (\text{Participation Rate}_i \times \max(X\%_i, \min(\text{Performance}_i, Y\%_i)) + \text{Bonus}_i)] \\ & \text{Denomination} + [\text{Denomination} \times (100\% \times \max(10.40\%, \min(10.40\%)) + 25.20\%)] \\ & = \text{Denomination} + [\text{Denomination} \times (10.40\% + 25.20\%)] \end{aligned}$$

Period 1

- CMS10y < 2.10% => Redemption Price = 100% + 25.20% + 0%
- CMS10y > 2.10% => 100% + 25.20% + 10.40%

For the purposes of this example, the term “CMS10y” shall be construed to mean “EUR-EURIBOR ICE Swap Rate-11.00” with a Designated Maturity of 10 years, within the meaning of the 2021 ISDA Definitions (as defined in Condition 8.3.2).

C. Structures with one payment at maturity without cap

The third category includes the Notes which do not generate any Periodic Payments but one global payment at Maturity. This last payment can be fixed (in a so-called “zero coupon product”) or variable. The formulas as stipulated below will specify if the Notes are with redemption at 100% of the capital invested less fees or not.

Definition

The Variable Linked Redemption Amount can be constituted out of the next formula(s):

$$\text{Formula } i = \text{Denomination} + [\text{Denomination} \times (\text{Participation Rate}_i \times \max(X\%_i, \text{Performance}_i) + \text{Bonus}_i)]$$

The Final Terms will specify the parameters (Participation Rate, X%) of the specific issue of Notes (see introduction). The Final Terms will also specify if a combination of more than one of these formulas is used. The Final Terms will furthermore specify:

- 1) Which Underlying will be used to calculate the Performance (Market Rate, OLO Reference Rate, Share or Basket of Shares, Share Index or Basket of Share Indexes, Commodity Index or Basket of Commodity Indexes, Inflation Index, Fund or Basket of Funds).
- 2) Which sub formula will apply to calculate the Performance. This Performance can be:
 - a) a single fixing
 - b) a difference between 2 Underlyings: $\text{Underlying}_1 - \text{Underlying}_2$
 - c) $\frac{\text{Final Price} - \text{Initial Price}}{\text{Initial Price}}$, with or without reset of the Initial Price
 - d) $\frac{\text{Initial Price} - \text{Final Price}}{\text{Initial Price}}$, with or without reset of the Initial Price
 - e) $\frac{\text{Final Price} - \text{Initial Price}}{\text{Final Price}}$, with or without reset of Initial Price
 - f) $\frac{\text{Initial Price} - \text{Final Price}}{\text{Final Price}}$, with or without reset of Initial Price
 - g) $\frac{\text{Final Price}}{\text{Initial Price}}$
 - h) $\sum_{j=1}^Y w_{i,j} \times \max\left(U\%, \min\left(\left(\frac{\text{Final Price}_j - \text{Initial Price}_j}{\text{Initial Price}_j}\right), Z\%\right)\right)$, with or without reset of the Initial Price. W means the weight of the Underlying. Y can be the number of Underlyings, or can be the number of periods.

The Final Terms will also determine how the Final Price and Initial Price are defined. These can be one observation, an average of X observations, with a look-back feature (lowest/highest during a certain period).

- 3) If the structure can be called either by the Issuer at certain dates, or when the Underlying reaches a certain level at a certain date or during a certain period.
- 4) If the value of some parameters depends on the level of the Underlying at a certain date or during a certain period (=condition).
- 5) How the Bonus_i is defined. The Bonus_i can be:
 - a. a fixed rate;
 - b. a fixed rate subject to a condition on the Underlying;
 - c. a rate which is the result of a Formula such as the Formulas above; and
 - d. A rate which is the result of a sum of Formulas such as the Formulas above.
- 6) What the Participation Rate will be.
- 7) What the floor X% will be.
- 8) What daycount convention has to be applied.

1. Optimal Performance

Definition:

In an Optimal Performance, there is no right to receive 100% of the invested capital less fees at Maturity. At Maturity, if the Underlying (typically an equity index or equity share) is at or above its initial level, but below a defined threshold (for example 150%) investors receive 100 % of the invested capital plus a fixed amount (50% in this example).

If the Underlying is above this defined threshold of 150%, Noteholders will receive the performance of the Underlying.

If the Underlying is strictly below its initial level, Noteholders will receive 150 % of the performance. Below a certain level of the Underlying, Noteholders will suffer a capital loss.

Product:

Redemption Amount:

1. Underlying: Eurostoxx 50 (SX5E)
2. Performance = $\frac{\text{Final Price} - \text{Initial Price}}{\text{Initial Price}}$ if Final Price is \geq Initial Price (Subdivision 2.c) is applicable), no Reset for the Initial Price
 $= \frac{\text{Final Price}}{\text{Initial Price}}$ if Final Price is $<$ Initial Price (Subdivision 2.e) is applicable), no Reset for the Initial Price
3. Not applicable
4. Digitals are activated (Subdivision 4) is applicable)
5. Bonus = 0% if Final Price is \geq Initial Price
 - 100% if Final Price is $<$ Initial Price
6. Participation Rate = 100% if Final Price is \geq Initial Price
 150% if Final Price is $<$ Initial Price
7. X% = 50% if Final Price is \geq Initial Price
 Not applicable if Final Price is $<$ Initial Price
8. Y% = not applicable
9. No daycount

➡ If Final Price is \geq Initial Price:

Formula for the Redemption Amount will be

$$\begin{aligned} & \text{Denomination} + [\text{Denomination} \times (\text{Participation Rate}_i \times \max(X\%_i, \min(\text{Performance}_i, Y\%_i)) + \text{Bonus}_i)] \\ & = \text{Denomination} + [\text{Denomination} \times (100\% \times \max(50\%, \min(\text{Performance})) + 0\%)] \end{aligned}$$

➡ If Final Price is $<$ Initial Price then:

Formula for the Redemption Amount will be

$$\begin{aligned} & \text{Denomination} + [\text{Denomination} \times (\text{Participation Rate}_i \times \max(X\%_i, \min(\text{Performance}_i, Y\%_i)) + \text{Bonus}_i)] \\ & = \text{Denomination} + [\text{Denomination} \times (150\% \times \max(\min(\text{Performance})) - 100\%)] \end{aligned}$$

Optimistic Scenario

Final Price = 135% x Initial Price =>
 $Denomination + [Denomination \times (100\% \times \max(50\%, \min(35\%)) + 0\%)] = 150\%$

Pessimistic Scenario

Final Price = 40% x Initial Price =>
 $Denomination + [Denomination \times (150\% \times \max(\min(40\%)) - 100\%)] = 60\%$

D. Structures with a sum of periodic calculation and payment at maturity

The fourth category includes the products which do not generate any Periodic Payments but one global payment at Maturity. This last payment can be seen as the sum of different periodical components.

The formulas as stipulated below will specify if the Notes will have a Redemption Amount of 100% of the capital invested less fees or not.

Definition

The Variable Linked Redemption Amount can be constituted out of the next formula(s):

$$Formula\ i = Denomination +$$

$$\left[Denomination \times \max \left(V\%, \sum_{i=1}^n (Participation\ Rate_i \times \max(X\%_i, \min(Performance_i, Y\%_i)) + Bonus_i) \right) \right]$$

The Final Terms will specify the parameters (Participation Rate, X%, Y%) of the specific issue of Notes (see introduction). The Final Terms will also specify if a combination of more than one of these formulas is used. The Final Terms will furthermore specify:

- 1) How many periods (n) will be used and what formula relates to what period.
- 2) Which Underlying will be used to calculate the Performance (Market Rate, OLO Reference Rate, Share or Basket of Shares, Share Index or Basket of Share Indexes, Commodity Index or Basket of Commodity Indexes, Inflation Index, Fund or Basket of Funds).
- 3) Which sub formula will apply to calculate the Performance. This Performance can be:
 - a) a single fixing
 - b) a difference between 2 Underlyings: $Underlying_1 - Underlying_2$
 - c) $\frac{Final\ Price - Initial\ Price}{Initial\ Price}$, with or without reset of the Initial Price

- d) $\frac{Initial\ Price - Final\ Price}{Initial\ Price}$, with or without reset of the Initial Price
- e) $\frac{Final\ Price - Initial\ Price}{Initial\ Price}$, with or without reset of Initial Price
- f) $\frac{Final\ Price}{Initial\ Price - Final\ Price}$, with or without reset of Initial Price
- g) $\frac{Final\ Price}{Initial\ Price}$
- h) $\sum_{j=1}^Y w_{i,j} \times \max\left(U\%, \min\left(\left(\frac{Final\ Price_j - Initial\ Price_j}{Initial\ Price_j}\right), Z\%\right)\right)$, with or without reset of the Initial Price. W means the weight of the Underlying. Y can be the number of Underlyings, or can be the number of periods.

The Final Terms will also determine how the Final Price and Initial Price are defined. These can be one observation, an average of X observations, with a look-back feature (lowest/highest during a certain period).

- 4) If the Note can be called either by the Issuer at certain dates, or when the Underlying reaches a certain level at a certain date or during a certain period.
- 5) If the value of some parameters depends on the level of the Underlying at a certain date or during a certain period (=condition).
- 6) How the Bonus_i is defined. The Bonus_i can be:
 - a. a fixed rate
 - b. a fixed rate subject to a condition on the Underlying
 - c. a rate which is the result of a Formula such as the Formulas above.
 - d. A rate which is the result of a sum of Formulas such as the Formulas above.
- 7) What the Participation Rate will be.
- 8) What the floor X% will be.
- 9) What the cap Y% will be.
- 10) What the global floor of V% will be.
- 11) What daycount convention has to be applied.

Examples

1. Cliquet

Definition:

The Cliquet will pay at maturity the sum of the yearly performances of the Underlying, where yearly performances are floored at X % (for example, -3%) and capped at Y % (for example, 7%).

Global payout is floored at V % (for example, 0%) to have a right to receive 100% of the invested capital less fees at Maturity.

Product:

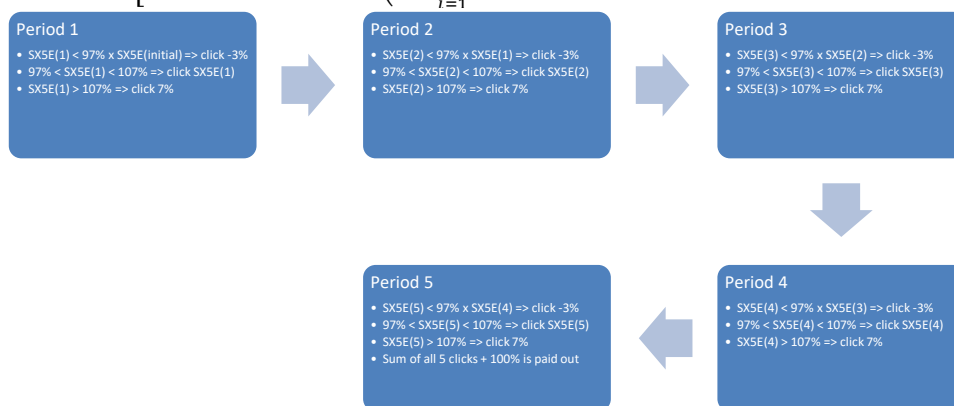

Redemption Amount:

1. Periods (n): 5
2. Underlying: SX5E
3. Performance is $\frac{\text{Final Price} - \text{Initial Price}}{\text{Initial Price}}$ (subformula 3.c)) with annual reset.
4. Not applicable
5. Not applicable
6. Bonus = 0 %
7. Participation Rate = 100%
8. X% = - 3%
9. Y% = 7%
10. V% = 0%
11. No daycount

The Variable Linked Redemption Amount is equal to:

$$\text{Denomination} + \left[\text{Denomination} \times \max \left(V\%, \sum_{i=1}^n (\text{Participation Rate}_i \times \max(X\%_i, \min(\text{Performance}_i, Y\%_i))) + \text{Bonus}_i \right) \right]$$

$$= \text{Denomination} + \left[\text{Denomination} \times \max \left(0\%, \sum_{i=1}^5 (100\% \times \max(-3\%, \min(\text{Performance}_i, 7\%)) + 0\%) \right) \right]$$

E. Structures with periodic payments and physical settlement

Typically, this category refers to Notes called reverse convertible for which the Redemption Amount is not equal to 100% of the capital invested less fees and can be done in physical instruments (shares for instance) depending on the final value of these shares instead of cash.

Definition

The Periodic Payments can be constituted out of the next formula(s) (for n periods):

$$\text{Formula } i = (\text{Participation Rate}_i \times \max(X\%_i, \min(\text{Performance}_i, Y\%_i)) + \text{Bonus}_i)$$

The Redemption Amount at the end of period n can be constituted out of the next formula's.

If the Performance is at or above a certain barrier, the Redemption Amount is in cash at par.

If the Performance is below a certain barrier, then physical settlement will apply.

Number of shares to be delivered

$$\frac{\text{Denomination}}{\text{Specified Denomination}} \times \left[\frac{\text{Specified Denomination}}{\text{Initial Price}} - \left(\text{Non - integer amount of } \frac{\text{Specified Denomination}}{\text{Initial Price}} \right) \right]$$

Fractional Share Amount

$$\frac{\text{Denomination}}{\text{Specified Denomination}} \times \text{Final Price} \times \left(\text{non - integer amount of } \frac{\text{Specified Denomination}}{\text{Initial Price}} \right)$$

These formulas stipulate how many shares will be delivered per Specified Denomination of the Notes. The number of shares has to be an integer amount. The non-integer amount will then be paid in cash (= Fractional Share Amount).

The Final Terms will specify the parameters (Participation Rate, X%, Y%) of the specific issue of Notes (see introduction). The Final Terms will also specify if a combination of more than one of these formulas is used. The Final Terms will furthermore specify:

- 1) How many periods (n) will be used and what formula relates to what period.
- 2) Which Underlying will be used to calculate the Performance (Market Rate, OLO Reference Rate, Share or Basket of Shares, Share Index or Basket of Share Indexes, Commodity Index or Basket of Commodity Indexes, Inflation Index, Fund or Basket of Funds).
- 3) Which sub formula will apply to calculate the Performance. This Performance can be:
 - a) a single fixing
 - b) a difference between 2 Underlyings: Underlying₁ – Underlying₂
 - c) $\frac{\text{Final Price} - \text{Initial Price}}{\text{Initial Price}}$, with or without reset of the Initial Price
 - d) $\frac{\text{Initial Price} - \text{Final Price}}{\text{Initial Price}}$, with or without reset of the Initial Price
 - e) $\frac{\text{Final Price}}{\text{Initial Price}}$, with or without reset of Initial Price
 - f) $\frac{\text{Initial Price} - \text{Final Price}}{\text{Final Price}}$, with or without reset of Initial Price
 - g) $\frac{\text{Final Price}}{\text{Initial Price}}$
 - h) $\sum_{j=1}^y w_{i,j} \times \max \left(U\%, \min \left(\left(\frac{\text{Final Price}_j - \text{Initial Price}_j}{\text{Initial Price}_j} \right), Z\% \right) \right)$, with or without reset of the Initial Price. W means the weight of the Underlying. Y can be the number of Underlyings, or can be the number of periods.

The Final Terms will also determine how the Final Price and Initial Price are defined. These can be one observation, an average of X observations, with a look-back feature (lowest/highest during a certain period).

- 4) If the structure can be called either by the Issuer at certain dates, or when the Underlying reaches a certain level at a certain date or during a certain period.
- 5) If the value of some parameters depends on the level of the Underlying at a certain date or during a certain period (=condition).
- 6) How the Bonus_i is defined. The Bonus_i can be:
 - a. a fixed rate;
 - b. a fixed rate subject to a condition on the Underlying;
 - c. a rate which is the result of a Formula such as the Formulas above; and
 - d. a rate which is the result of a sum of Formulas such as the Formulas above.

- 7) What the Participation Rate will be.
- 8) What the floor X% will be.
- 9) What the cap Y% will be.
- 10) What daycount convention has to be applied.

Example

1. Reverse Convertible on Total shares

Definition:

The Reverse Convertible will pay a high fixed Interest Rate during the lifetime of the Note. The Redemption Amount will depend on the evolution of the Underlying. Is the Underlying at or above a certain barrier, the Redemption Amount will be at 100%. Is the Underlying below the barrier, the Redemption will be in a number of shares of the Underlying

Product:

Periodic payments:

1. Periods (n): 5
2. Underlying: Total
3. Performance is $\frac{Final\ Price - Initial\ Price}{Initial\ Price}$ (subformula 3.c))
4. Not applicable
5. Not applicable
6. Bonus = 8 %
7. Participation Rate = 0%
8. X% = 0 %
9. Y% = 0%
10. Daycount: 30/360, unadjusted, following

$$\begin{aligned} & (Participation\ Rate_i \times \max(X\%_i, \min(Performance_i, Y\%_i)) + Bonus_i) \\ & = (0\% \times \max(0\%_i, \min(Performance_i, 0\%_i)) + 8\%) \end{aligned}$$

Variable Linked Redemption Amount:

1. Periods (n): 5
2. Underlying: Total
3. Performance is $\frac{Final\ Price - Initial\ Price}{Initial\ Price}$ (subformula 3.c))
4. Not applicable
5. Applicable: Condition = 70% x Initial Price
6. Bonus = 8 %
7. Participation Rate = 0%
8. X% = 0 %
9. Y% = 0%
10. Daycount: 30/360, following, unadjusted

➡ If Final Price is at or above 70% of Initial Price, then 100%,

Denomination

➡ Otherwise number of shares (Subdivision 5) is applicable)

Number of shares to be delivered

$$\frac{\text{Denomination}}{\text{Specified Denomination}} \times \left[\frac{\text{Specified Denomination}}{\text{Initial Price}} - \left(\text{Non - integer amount of } \frac{\text{Specified Denomination}}{\text{Initial Price}} \right) \right]$$

Fractional Share Amount

$$\frac{\text{Denomination}}{\text{Specified Denomination}} \times \text{Final Price} \times \left(\text{non - integer amount of } \frac{\text{Specified Denomination}}{\text{Initial Price}} \right)$$

Optimistic scenario

Final Price > 70% x Initial Price, then Coupon of 8% + 100% Redemption

Pessimistic scenario

For instance, if Final Price of Total = 22.90, which is below 70% x 38.20 (Initial Price of Total), then

Per Specified Denomination of € 1000,

$$\left[\frac{1000}{38.20} - \left(\text{Non - integer amount of } \frac{1000}{38.20} \right) \right] = 26 \text{ shares of Total.}$$

And

$$22.90 \times \left(\text{non - integer amount of } \frac{1000}{38.20} \right) = 4.08 \text{ euro in cash}$$

F Structures with a periodic payment of interest and an amortising redemption

Typically, this category refers to Notes generating a periodic payment of Interest (fixed or variable) (the “**Periodic Payment**”) and for which the Redemption Amount at maturity is not equal to 100% of the capital invested less fees but for which the Redemption will be made in parts during the life of the Notes (several Partial Redemption Dates).

Definition

The Periodic Payments of Interest can be calculated by applying the next formula(s) [for n periods]:

$$\text{Formula } i = \text{Denomination} * \text{Pool Factor}_i \times \text{Interest Rate}_i$$

The Partial Redemption Amount_i on Partial Redemption Date_i (for i = 1 to period n-1) can be calculated by applying the next formula:

$$\text{Formula } i = [\text{Denomination} \times (\text{Pool Factor}_i - \text{Pool Factor}_{i+1})]$$

Save for the period i = n for which the Partial Redemption Amount_n on Partial Redemption Date_n can be calculated by applying the next formula:

$$\text{Formula } n = [\text{Denomination} \times (\text{Pool Factor}_n)]$$

The Final Terms will specify the parameters (Pool Factor_i, Interest Rate_i, Partial Redemption Amount_i, Partial Redemption Date_i) of the specific issue of Notes. The Final Terms will also specify if a combination of more than one of these formulas is used. The Final Terms will furthermore specify:

- 1) How many periods (n) will be used and what formula relates to what period.
- 2) In case of Floating Rate Notes, which underlying (the “**Underlying**”) will be used to calculate the Interest Rate_i (Market Rate, OLO Reference Rate, Share or Basket of Shares, Share Index or Basket of Share Indexes, Commodity Index or Basket of Commodity Indexes, Inflation Index, Fund or Basket of Funds) (as defined in the Final Terms).

In case of Fixed Rate Note, the Interest Rate_i determined for each period.

- 3) Which sub formula will apply to calculate the Performance. This Performance can be:
 - a) a single fixing
 - b) a difference between 2 Underlyings: Underlying₁ – Underlying₂
 - c) $\frac{\text{Final Price} - \text{Initial Price}}{\text{Initial Price}}$, with or without reset of the Initial Price
 - d) $\frac{\text{Initial Price} - \text{Final Price}}{\text{Initial Price}}$, with or without reset of the Initial Price
 - e) $\frac{\text{Final Price} - \text{Initial Price}}{\text{Final Price}}$, with or without reset of Initial Price
 - f) $\frac{\text{Initial Price} - \text{Final Price}}{\text{Final Price}}$, with or without reset of Initial Price
 - g) $\frac{\text{Final Price}}{\text{Initial Price}}$
 - h) $\sum_{j=1}^y w_{i,j} \times \max \left(U\%, \min \left(\left(\frac{\text{Final Price}_j - \text{Initial Price}_j}{\text{Initial Price}_j} \right), Z\% \right) \right)$, with or without reset of the Initial Price. W means the weight of the Underlying. Y can be the number of Underlyings, or can be the number of periods.

The Final Terms will also determine how the Final Price and Initial Price are defined. These can be one observation, an average of X observations, with a look-back feature (lowest/highest during a certain period).

- 4) The Partial Redemption Date(s)_i.
- 5) What the Pool Factor_i will be.
- 6) What daycount convention has to be applied.

Example

1. Liquidity

Definition:

The Liquidity issue will pay a step-up Interest Rate during the lifetime of the Notes (1.00% the first year, 1.00% the second year, 1.10% the third year, 1.30% the fourth year, 1.60% the fifth year and 2.00% the sixth year). The Redemption Amount will be spread over time, with partial redemptions of the invested capital (less fees) starting from year 3. The Interest Amount is paid on the outstanding nominal of the Notes, which means that we must apply a pool factor to the Denominations in order to compute the Interest Amount received on each Denomination. The cumulative Redemption Amounts will be at 100%.

8.3. Interest on the Notes

The interest to be paid on the Notes (the “**Interest**”) can be based on a fixed rate (“**Fixed Rate**”, such Notes to be referred to as “**Fixed Rate Notes**”), a floating rate (“**Floating Rate**”, such Notes referred to as “**Floating Rate Notes**”) or linked to any other variable, formula and/or underlying (“**Variable Linked Rate**”, such Notes to be referred to as “**Variable Linked Rate Notes**”) (Fixed Rate, Floating Rate and Variable Linked Rate are together referred to as “**Interest Rate**”). The Interest Rate is expressed as a percentage per annum.

The Notes can also be Zero Coupon Notes, in which case no Interest is paid periodically.

The Interest is calculated per Note for each Interest Period as the product of the Calculation Amount, the Interest Rate and the Day Count Fraction, unless an Interest Amount is specified in the applicable Final Terms, in which case the Interest payable in respect of such Note for such Interest Period shall be equal to such Interest Amount specified in the applicable Final Terms.

Interest shall cease to accrue on each Note from the due date for redemption thereof unless payment of the principal thereof or delivery of the Redemption Amount to be delivered in respect thereof is improperly withheld or refused or unless default is otherwise made in respect of such payment. In such event, interest shall only cease to accrue from the date on which payment of such Redemption Amount in respect thereof is made or, if earlier and if applicable, from the seventh day after notice is given to the Noteholders in accordance with these Terms and Conditions that payment of the Redemption Amount will be made, provided that, upon such presentation, payment is in fact made.

8.3.1. Fixed Rate Notes

Each Fixed Rate Note bears interest on its outstanding principal amount from and including the Interest Commencement Date at the rate per annum (expressed as a percentage) equal to the Interest Rate specified in the applicable Final Terms, such interest being payable in arrear on each Interest Payment Date.

8.3.2. Floating Rate Notes

Floating Rate Notes bear Interest at the Floating Rate specified in the applicable Final Terms, as fixed on the Interest Determination Date applicable to the relevant Interest Payment Date and payable in arrear. The Floating Rate will be determined by the Calculation Agent in accordance with the provisions below relating to either ISDA Determination or Screen Rate Determination, in each case, as specified in the applicable Final Terms.

If however a Maximum Rate is specified in the Final Terms and the Floating Rate (determined as described above) is equal to or higher than the Maximum Rate, the Floating Rate will be such Maximum Rate.

If however a Minimum Rate is specified in the Final Terms and the Floating Rate (determined as described above) is equal to or lower than the Minimum Rate, the Floating Rate will be such Minimum Rate.

- (i) **ISDA Determination.** Where ISDA Determination is specified in the applicable Final Terms as the manner in which the Floating Rate is to be determined, the Floating Rate for each Interest Accrual Period shall be determined by the Calculation Agent as a rate equal to the relevant ISDA Rate. For the purposes of this sub-paragraph (i), “**ISDA Rate**” for an Interest Accrual Period means a rate equal to the Floating Rate that would be determined by the Calculation Agent under a Swap Transaction under the terms of an agreement incorporating the ISDA Definitions and under which:
 - (A) if the applicable Final Terms specify either “2006 ISDA Definitions” or “2021 ISDA Definitions” as the applicable ISDA Definitions:
 - (1) the Floating Rate Option (as defined in the relevant ISDA Definitions) is as specified in the applicable Final Terms;
 - (2) the Designated Maturity (as defined in the relevant ISDA Definitions), if applicable, is a period as specified in the applicable Final Terms;

- (3) the relevant Reset Date (as defined in the relevant ISDA Definitions) is as specified in the applicable Final Terms;
 - (4) if the specified Floating Rate Option is an Overnight Floating Rate Option (as defined in the relevant ISDA Definitions), Compounding is specified to be applicable in the applicable Final Terms and:
 - (I) Compounding with Lookback is specified as the Compounding Method in the applicable Final Terms, then (a) Compounding with Lookback is the Overnight Rate Compounding Method and (b) Lookback is the number of Applicable Business Days (as defined in the relevant ISDA Definitions) specified in the applicable Final Terms;
 - (II) Compounding with Observation Period Shift is specified as the Compounding Method in the applicable Final Terms, then (a) Compounding with Observation Period Shift is the Overnight Rate Compounding Method, (b) Observation Period Shift is the number of Observation Period Shift Business Days (as defined in the relevant ISDA Definitions) specified in the applicable Final Terms and (c) Observation Period Shift Additional Business Days (as defined in the relevant ISDA Definitions), if applicable, are the days specified in the applicable Final Terms; or
 - (III) Compounding with Lockout is specified as the Compounding Method in the applicable Final Terms, then (a) Compounding with Lockout is the Overnight Rate Compounding Method, (b) Lockout is the number of Lockout Period Business Days (as defined in the relevant ISDA Definitions) specified in the Final Terms and (c) Lockout Period Business Days, if applicable, are the days specified in the applicable Final Terms; and
 - (5) if the specified Floating Rate Option is an Index Floating Rate Option (as defined in the relevant ISDA Definitions) and Index Provisions are specified to be applicable in the applicable Final Terms, the Compounded Index Method with Observation Period Shift shall be applicable and, (a) Observation Period Shift is the number of Observation Period Shift Business Days (as defined in the relevant ISDA Definitions) specified in the applicable Final Terms and (b) Observation Period Shift Additional Business Days (as defined in the relevant ISDA Definitions) are the days, if applicable, specified in the applicable Final Terms);
 - (6) references in the relevant ISDA Definitions to:
 - (I) “Confirmation” shall be deemed to be references to the applicable Final Terms;
 - (II) “Calculation Period” shall be deemed to be references to the relevant Interest Accrual Period;
 - (III) “Termination Date” shall be deemed to be references to the Maturity Date; and
 - (IV) “Effective Date” shall be deemed to be references to the Interest Commencement Date; and
- (B) if the Final Terms specify “2021 ISDA Definitions” as the applicable ISDA Definitions:
- (1) Administrator/Benchmark Event shall be disappplied; and
 - (2) if the Temporary Non-Publication Fallback for any specified Floating Rate Option is specified to be “Temporary Non-Publication Fallback – Alternative Rate” in the Floating Rate Matrix of the 2021 ISDA Definitions, the reference to “Calculation Agent Alternative Rate Determination” in the definition of “Temporary Non-Publication Fallback – Alternative Rate” shall be replaced by “Temporary Non-Publication Fallback – Previous Day’s Rate”.

- (ii) **Screen Rate Determination.** Where Screen Rate Determination is specified in the applicable Final Terms as the manner in which the Floating Rate is to be determined by the Calculation Agent, the Floating Rate for each Interest Accrual Period will, subject as provided in Condition 8.3.6 and Condition 8.8 below, be either:
 - (A) the offered quotation; or
 - (B) the arithmetic mean of the offered quotations,

(expressed as a percentage rate per annum) for the Reference Rate which appears or appear, as the case may be, on the Relevant Screen Page as at the Relevant Time on the Interest Determination Date in question as determined by the Calculation Agent. If five or more of such offered quotations are available on the Relevant Screen Page, the highest (or, if there is more than one such highest quotation, one only of such quotations) and the lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the Calculation Agent for the purpose of determining the arithmetic mean of such offered quotations.

For the purposes of the foregoing:

- (1) if the Relevant Screen Page is not available or if sub-paragraph (ii)(A) above applies and no such offered quotation appears on the Relevant Screen Page or if sub-paragraph (ii)(B) above applies and fewer than three such offered quotations appear on the Relevant Screen Page in each case as at the Relevant Time, subject as provided below, the Calculation Agent shall request the principal Eurozone office of each of the Reference Banks to provide the Calculation Agent with its offered quotation (expressed as a percentage rate per annum) for the Reference Rate at the Relevant Time on the Interest Determination Date in question. If two or more of the Reference Banks provide the Calculation Agent with such offered quotations, the Floating Rate for such Interest Accrual Period shall be the arithmetic mean of such offered quotations as determined by the Calculation Agent; and
- (2) if paragraph (1) above applies and the Calculation Agent determines that fewer than two Reference Banks are providing offered quotations, subject as provided below, the Floating Rate shall be the arithmetic mean of the rates per annum (expressed as a percentage) as communicated to (and at the request of) the Calculation Agent by the Reference Banks or any two or more of them, at which such banks were offered, at the Relevant Time on the relevant Interest Determination Date, deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate by leading banks in the Eurozone inter-bank market or, if fewer than two of the Reference Banks provide the Calculation Agent with such offered rates, the offered rate for deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate, or the arithmetic mean of the offered rates for deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate, at which, at the Relevant Time on the relevant Interest Determination Date, any one or more banks (which bank or banks is or are, in the opinion of the Issuer, suitable for such purpose) informs the Calculation Agent it is quoting to leading banks in the Eurozone inter-bank market, provided that, if the Floating Rate cannot be determined in accordance with the foregoing provisions of this paragraph, the Floating Rate shall be determined as at the last preceding Interest Determination Date or (if there is no such preceding Interest Determination Date, the initial Floating Rate applicable to such Notes on the Interest Commencement Date), though substituting, in any such case, where a different Margin or Maximum Rate or Minimum Rate is to be applied to the relevant Interest Accrual Period from that which applied to the last preceding Interest Accrual Period, the Margin or Maximum Rate or Minimum Rate relating to the relevant Interest Accrual Period, in place of the Margin or Maximum Rate or Minimum Rate relating to that last preceding Interest Accrual Period.
- (3) Screen Rate Determination for Floating Rate Notes referencing Compounded SONIA

Where the Screen Rate Determination is specified in the applicable Final Terms as the manner in which the Floating Rate is to be determined, and the Reference Rate is specified in the applicable Final Terms as being SONIA, the Floating Rate for an Interest Accrual Period will, subject as provided in Condition 8.3.6, be Compounded Daily SONIA with respect to such an Interest Accrual Period, plus or minus (as indicated in the applicable Final Terms) the Margin (if any), as determined by the Calculation Agent.

If the relevant Series of Notes become due and payable in accordance with Condition 8.11, the final Interest Determination Date shall, notwithstanding any Interest Determination Date specified in the applicable Final Terms, be deemed to be the date on which such Notes became due and payable and the Floating Rate on such Notes shall, for so long as any such Notes remains outstanding, be that determined on such date.

“**Compounded Daily SONIA**” means, with respect to an Interest Accrual Period, the rate of return of a daily compound interest investment (with the daily Sterling overnight reference rate as reference rate for the calculation of interest) and will be calculated by the Calculation Agent (or such other party responsible for the calculation of the Floating Rate, as specified in the applicable Final Terms) on the Interest Determination Date, as follows, and the resulting percentage will be rounded if necessary to the fifth decimal place, with 0.000005 being rounded upwards:

$$\left[\prod_{i=1}^{d_o} \left(1 + \frac{SONIA_{i-pLBD} \times n_i}{365} \right) - 1 \right] \times \frac{365}{d}$$

where:

“**d**” is the number of calendar days in the relevant Interest Accrual Period;

“**d_o**” is the number of London Banking Days in the relevant Interest Accrual Period;

“**i**” is a series of whole numbers from one to d_o, each representing the relevant London Banking Day in chronological order from, and including, the first London Banking Day in the relevant Interest Accrual Period;

“**London Banking Day**” or “**LBD**” means any day on which commercial banks are open for general business (including dealing in foreign exchange and foreign currency deposits) in London;

“**n_i**”, for any London Banking Day “**i**”, means the number of calendar days from and including such London Banking Day “**i**” up to but excluding the following London Banking Day;

“**Observation Look-back Period**” is as specified in the applicable Final Terms;

“**p**” means, in relation to any Interest Accrual Period, the number of London Banking Days included in the Observation Look-back Period, as specified in the applicable Final Terms;

the “**SONIA reference rate**”, in respect of any London Banking Day, is a reference rate equal to the daily Sterling Overnight Index Average (“**SONIA**”) rate for such London Banking Day as provided by the administrator of SONIA to authorised distributors and as then published on the Relevant Screen Page or, if the Relevant Screen Page is unavailable, as otherwise published by such authorised distributors, in each case on the London Banking Day immediately following such London Banking Day; and

“**SONIA_{i-pLBD}**” means, in respect of any London Banking Day “**i**” falling in the relevant Interest Accrual Period, the SONIA reference rate for the London Banking Day falling “**p**” London Banking Days prior to the relevant London Banking Day “**i**”.

If, in respect of any London Banking Day, the Calculation Agent determines that the SONIA Reference Rate is not available on the Relevant Screen Page or has not otherwise been published by the relevant authorised distributors, such SONIA Reference Rate shall be: (i) the Bank of England’s Bank Rate (the “**Bank Rate**”) prevailing at close of business on the relevant London Banking Day; plus (ii) the mean of the spread of the SONIA Reference Rate to the Bank Rate over the previous five days on which a SONIA Reference Rate has been published, excluding the highest spread (or, if there is more than one highest spread, one only of those highest spreads) and lowest spread (or, if there is more than one lowest spread, one only of those lowest spreads) to the Bank Rate.

Notwithstanding the paragraph above, in the event the Bank of England publishes guidance as to (i) how the SONIA Reference Rate is to be determined or (ii) any rate that is to replace the SONIA Reference Rate, the Calculation Agent shall, to the extent that it is reasonably practicable, follow such guidance in order to determine the SONIA Reference Rate for purposes of the relevant Series of Notes for so long as the SONIA Reference Rate is not available or has not been published by the authorised distributors.

If, on any Interest Determination Date, the Floating Rate cannot be determined in accordance with the foregoing provisions by the Calculation Agent, the Floating Rate for the relevant Interest Accrual Period shall be (i) that determined as at the last preceding Interest Determination Date (though substituting, where a different Margin or Maximum Rate or Minimum Rate is to be applied to the relevant Interest Accrual Period from that which applied to the last preceding Interest Accrual Period, the Margin or Maximum Rate or Minimum Rate relating to the relevant Interest Accrual Period in place of the Margin or Maximum Rate or Minimum Rate relating to that last preceding Interest Accrual Period) or (ii) if there is no such preceding Interest Determination Date, the initial Floating Rate which would have been applicable to such Series of Notes for the first Interest Accrual Period had the Notes been in issue for a period equal in duration to the scheduled first Interest Accrual Period but ending on (and excluding) the Interest Commencement Date (but applying the Margin and any Maximum Rate or Minimum Rate applicable to the first Interest Accrual Period).

(4) Screen Rate Determination for Floating Rate Notes referencing Compounded Daily €STR

Where Screen Rate Determination is specified in the applicable Final Terms as the manner in which the Floating Rate is to be determined and the Reference Rate is specified in the applicable Final Terms as being Compounded Daily €STR, the Floating Rate for an Interest Accrual Period will, subject as provided in Condition 8.3.6, be Compounded Daily €STR with respect to such Interest Accrual Period plus or minus (as indicated in the applicable Final Terms) the applicable Margin (if any), as determined by the Calculation Agent.

“**Compounded Daily €STR**” means, with respect to an Interest Accrual Period, the rate of return of a daily compound interest investment during the Observation Period corresponding to such Interest Accrual Period (with the daily euro short-term rate as the reference rate of the calculation of interest) and will be calculated by the Calculation Agent on the Interest Determination Date, as follows, and the resulting percentage will be rounded if necessary to the fifth decimal place, with 0.000005 being rounded upwards:

$$\left[\prod_{i=1}^{d_0} \left(1 + \frac{\text{€STR}_{i-pTBD} \times n_i}{360} \right) - 1 \right] \times \frac{360}{d}$$

where:

“**d**” is the number of calendar days in the relevant Interest Accrual Period;

“**d_o**” is the number of TARGET Settlement Days in the relevant Interest Accrual Period;

“**ECB**” means the European Central Bank or any successor or substituting authority thereto;

“**i**” is a series of whole numbers from one to “**d_o**”, each representing the relevant TARGET Settlement Day in chronological order from, and including, the first TARGET Settlement Day in the relevant Interest Accrual Period;

“**n_i**”, for any TARGET Settlement Day “**i**”, means the number of calendar days from and including such TARGET Settlement Day “**i**” up to but excluding the following TARGET Settlement Day;

“**Observation Period**” means, in respect of each Interest Accrual Period, the period from and including the date falling “**p**” TARGET Settlement Days prior to the first day of the relevant Interest Accrual Period and ending on, but excluding, the date falling “**p**” TARGET Settlement Days prior to the Interest Payment Date for such Interest Accrual Period (or the date falling “**p**” TARGET Settlement Days prior to such earlier date, if any, on which the Notes become due and payable);

“**p**” means, for any Interest Accrual Period, the whole number of TARGET Settlement Days included in the Observation Look-back Period, as specified in the applicable Final Terms, being no less than two TARGET Settlement Days;

“**€STR Reference Rate**” means, in respect of any TARGET Settlement Day, a reference rate equal to the daily euro short-term rate (“**€STR**”) for such TARGET Settlement Day as published by the ECB, as administrator of such rate (or any successor administrator of such rate), on the website of the ECB initially at <http://www.ecb.europa.eu> or any successor website officially designated by the ECB (the “**ECB’s Website**”) (in each case, on or before 9:00 a.m., Central European Time, on the TARGET Settlement Day immediately following such TARGET Settlement Day); and

“**€STR_{i-pTBD}**” means, in respect of any TARGET Settlement Day “**i**” falling in the relevant Interest Accrual Period, the €STR Reference Rate for the TARGET Settlement Day falling “**p**” TARGET Settlement Days prior to the relevant TARGET Settlement Day “**i**”.

If the €STR Reference Rate is not published in respect of a TARGET Settlement Day as specified above, and unless both an €STR Index Cessation Event and an €STR Index Cessation Effective Date (each, as defined below) have occurred, the €STR Reference Rate shall be a rate equal to €STR for the last TARGET Settlement Day for which such rate was published on the ECB’s Website.

If the €STR Reference Rate is not published in respect of a TARGET Settlement Day as specified above, and both an €STR Index Cessation Event and an €STR Index Cessation Effective Date have occurred, the rate for each TARGET Settlement Day in the relevant Observation Period occurring from and including such €STR Index Cessation Effective Date will be determined as if references to €STR were references to the rate (inclusive of any spreads or adjustments) that was recommended as the replacement for €STR by the ECB (or any successor administrator of €STR) and/or by a committee officially endorsed or convened by the ECB (or any successor administrator of €STR) for the purpose of recommending a replacement for €STR (which rate may be produced by the ECB or another administrator) (the “**ECB Recommended Rate**”), provided that, if no such rate has been recommended before the end of the first TARGET Settlement Day following the date on which the €STR Index Cessation Effective Date occurs, then the rate for each TARGET Settlement Day in the relevant Observation Period occurring from and including such €STR Index Cessation Effective Date will be determined as if references to “€STR” were references to the Eurosystem Deposit Facility Rate, the rate on the deposit facility, which banks may use to make overnight deposits with the Eurosystem, as published on the ECB’s Website (the “**EDFR**”) on such TARGET Settlement Day plus the arithmetic mean of the daily difference between the €STR Reference Rate and the

EDFR for each of the 30 TARGET Settlement Days immediately preceding the date on which the €STR Index Cessation Event occurs (the “**EDFR Spread**”).

Provided further that, if both an ECB Recommended Rate Index Cessation Event and an ECB Recommended Rate Index Cessation Effective Date subsequently occur, then the rate for each TARGET Settlement Day in the relevant Observation Period occurring from and including that ECB Recommended Rate Index Cessation Effective Date will be determined as if references to “€STR” were references to the EDFR on such TARGET Settlement Day plus the arithmetic mean of the daily difference between the ECB Recommended Rate and the EDFR for each of the 30 TARGET Settlement Days immediately preceding the date on which the ECB Recommended Rate Index Cessation Event occurs.

If the Floating Rate cannot be determined in accordance with the foregoing provisions, the Floating Rate shall be (i) that determined as at the last preceding Interest Determination Date (through substituting, where a different Margin, Maximum Rate and/or Minimum Rate (as the case may be) is to be applied to the relevant Interest Accrual Period from that which applied to the last preceding Interest Accrual Period, the Margin or Maximum Rate and/or Minimum Rate (as the case may be) relating to the last preceding Interest Accrual Period); or (ii) if there is no such preceding Interest Determination Date, the initial Floating Rate which would have been applicable to such Series of Notes for the first Interest Accrual Period had the Notes been in issue for a period equal in duration to the scheduled first interest Accrual Period but ending on (and excluding) the Interest Commencement Date (including applying the Margin and any Maximum Rate or Minimum Rate applicable to the first Interest Accrual Period).

If the relevant Series of Notes becomes due and payable in accordance with Condition 8.11, the final Floating Rate shall be calculated for the Interest Accrual Period to (but excluding) the date on which the Notes become so due and payable, and such Floating Rate shall continue to apply to the Notes for so long as interest continues to accrue thereon as provided in this Condition 8.3.

“**€STR Index Cessation Event**” means the occurrence of one or more of the following events:

- (I) a public statement or publication of information by or on behalf of the ECB (or any successor administrator of €STR) announcing that it has ceased or will cease to provide €STR permanently or indefinitely, provided that, at the time of the statement or the publication, there is no successor administrator that will continue to provide €STR; or
- (II) a public statement or publication of information by the regulatory supervisor for the administrator of €STR, the central bank for the currency of €STR, an insolvency official with jurisdiction over the administrator of €STR, a resolution authority with jurisdiction over the administrator of €STR or a court or an entity with similar insolvency or resolution authority over the administrator of €STR, which states that the administrator of €STR has ceased or will cease to provide €STR permanently or indefinitely, provided that, at the time of the statement or publication, there is no successor administrator that will continue to provide €STR;

“**€STR Index Cessation Effective Date**” means, in respect of an €STR Index Cessation Event, the first date for which €STR is no longer provided by the ECB (or any successor administrator of €STR);

“**ECB Recommended Rate Index Cessation Event**” means the occurrence of one or more of the following events:

- (I) a public statement or publication of information by or on behalf of the administrator of the ECB Recommended Rate announcing that it has ceased or will cease to provide the ECB Recommended Rate permanently or indefinitely, provided that, at the time of the statement

or the publication, there is no successor administrator that will continue to provide the ECB Recommended Rate; or

- (II) a public statement or publication of information by the regulatory supervisor for the administrator of the ECB Recommended Rate, the central bank for the currency of the ECB Recommended Rate, an insolvency official with jurisdiction over the administrator of the ECB Recommended Rate, a resolution authority with jurisdiction over the administrator of the ECB Recommended Rate or a court or an entity with similar insolvency or resolution authority over the administrator of the ECB Recommended Rate, which states that the administrator of the ECB Recommended Rate has ceased or will cease to provide the ECB Recommended Rate permanently or indefinitely, provided that, at the time of the statement or publication, there is no successor administrator that will continue to provide the ECB Recommended Rate; and

“**ECB Recommended Rate Index Cessation Effective Date**” means, in respect of an ECB Recommended Rate Index Cessation Event, the first date for which the ECB Recommended Rate is no longer provided by the administrator thereof.

- (5) Screen Rate Determination for Floating Rate Notes referencing Compounded Daily SOFR

Where Screen Rate Determination is specified in the applicable Final Terms as the manner in which the Floating Rate is to be determined and the Reference Rate in respect of the relevant Series of Floating Rate Notes is specified in the applicable Final Terms as being Compounded Daily SOFR, the Floating Rate for an Interest Accrual Period will, subject as provided in Condition 8.3.6, be Compounded Daily SOFR plus or minus (as indicated in the applicable Final Terms) the applicable Margin (if any), as determined by the Calculation Agent.

“**Compounded Daily SOFR**” means, with respect to an Interest Accrual Period, the rate of return of a daily compound interest investment (with the Secured Overnight Financing Rate as the reference rate for the calculation of interest) and will be calculated by the Calculation Agent on the Interest Determination Date, as follows, and the resulting percentage will be rounded if necessary to the fifth decimal place, with 0.00005 being rounded upwards:

$$\left[\prod_{i=1}^{d_o} \left(1 + \frac{SOFR_{i-PUSBD} \times n_i}{360} \right) - 1 \right] \times \frac{360}{d}$$

where:

“**d**” is the number of calendar days in (where in the applicable Final Terms “Lag” or “Lock-out” is specified as the Observation Method) the relevant Interest Accrual Period or (where in the applicable Final Terms “Shift” is specified as the Observation Method) the relevant Observation Period;

“**d_o**” is (where in the applicable Final Terms “Lag” or “Lock-out” is specified as the Observation Method) for any Interest Accrual Period, the number of U.S. Government Securities Business Days in the relevant Interest Accrual Period or (where in the applicable Final Terms “Shift” is specified as the Observation Method) for any Observation Period, the number of U.S. Government Securities Business Days in the relevant Observation Period;

“**i**” is a series of whole numbers from one to “**d_o**”, each representing the relevant U.S. Government Securities Business Day in chronological order from, and including, the first U.S. Government Securities Business Day (where in the applicable Final Terms “Lag” or “Lock-out” is specified as the Observation Method) in the relevant Interest Accrual Period or (where in the applicable Final Terms “Shift” is specified as the Observation Method) in relevant the Observation Period;

“Observation Period” means, in respect of each Interest Accrual Period, the period from and including the date falling “p” U.S. Government Securities Business Days preceding the first date in such Interest Accrual Period to but excluding the date “p” U.S. Government Securities Business Days preceding the Interest Payment Date for such Interest Accrual Period;

“p” means:

- (I) where in the applicable Final Terms “Lag” is specified as the Observation Method, the number of U.S. Government Securities Business Days included in the Observation Look-back Period specified in the applicable Final Terms (or, if no such number is specified, five U.S. Government Securities Business Days); and
- (II) where in the applicable Final Terms “Lock-out” is specified as the Observation Method, zero;

“USBD” means U.S. Government Securities Business Day;

“n_i” means, for any U.S. Government Securities Business Day “i”, the number of calendar days from and including such U.S. Government Securities Business Day “i” up to but excluding the following U.S. Government Securities Business Day;

“SOFR_{i-pUSBD}” means:

- (I) where in the applicable Final Terms “Lag” is specified as the Observation Method, in respect of any U.S. Government Securities Business Day falling in the relevant Interest Period, the SOFR for the U.S. Government Securities Business Day falling “p” U.S. Government Securities Business Days prior to the relevant U.S. Government Securities Business Day “i”;
or
- (II) where in the applicable Final Terms “Lock-out” is specified as the Observation Method, during each relevant Interest Accrual Period, the SOFR determined in accordance with paragraph (1) above, except that in respect of each U.S. Government Securities Business Day i falling on or after the “Lock-out date” specified in the applicable Final Terms (or, where no “Lock-out date” is specified, five U.S. Government Securities Business Days prior to each relevant Interest Payment Date) until the end of each relevant Interest Accrual Period, the SOFR determined in accordance with paragraph (1) above in respect of such “Lock-out date”;
or
- (III) where in the applicable Final Terms “Shift” is specified as the Observation Method, SOFR_i, where SOFR_i is, in respect of any U.S. Government Securities Business Day i falling in the relevant SOFR Observation Period, the SOFR for such day.

Unless otherwise defined in these Terms and Conditions or unless the context otherwise requires, in these Terms and Conditions the following words shall have the following meanings:

“New York City Banking Day” means any day on which commercial banks are open for general business (including dealings in foreign exchange and foreign currency deposits) in New York City;

“OBFR Index Cessation Date” means, following the occurrence of an OBFR Index Cessation Event, the date on which the Federal Reserve Bank of New York (“FRBNY”) (or any successor administrator of the Overnight Bank Funding Rate), ceases to publish the Overnight Bank Funding Rate, or the date as of which the Overnight Bank Funding Rate may no longer be used, in each case as certified in writing by the Issuer to the Calculation Agent;

“OBFR Index Cessation Event” means the occurrence of one or more of the following events:

- (I) a public statement by the FRBNY (or a successor administrator of the Overnight Bank Funding Rate) announcing that it has ceased or will cease to publish or provide the Overnight

Bank Funding Rate permanently or indefinitely, provided that, at that time, there is no successor administrator that will continue to publish or provide the Overnight Bank Funding Rate;

- (II) the publication of information which reasonably confirms that the FRBNY (or a successor administrator of the Overnight Bank Funding Rate) has ceased or will cease to provide the Overnight Bank Funding Rate permanently or indefinitely, provided that, at that time, there is no successor administrator that will continue to publish or provide the Overnight Bank Funding Rate; or
- (III) a public statement by a regulator or other official sector entity prohibiting the use of the Overnight Bank Funding Rate that applies to, but need not be limited to, fixed income securities and derivatives, to the extent that such public statement has been acknowledged in writing by ISDA as an “OBFR Index Cessation Event” under the 2006 ISDA Definitions as published by ISDA;

“**SOFR**” means the rate determined in accordance with the following provisions:

- (I) the Secured Overnight Financing Rate that appears on the FRBNY’s website at 5:00 p.m. (New York time) on a U.S. Government Securities Business Day;
- (II) if the rate specified in (1) above does not so appear, and a SOFR Index Cessation Date has not occurred, then the Calculation Agent shall use the Secured Overnight Financing Rate published on the FRBNY’s website for the first preceding U.S. Government Securities Business Day on which the Secured Overnight Financing Rate was published on the FRBNY’s website;
- (III) if a SOFR Index Cessation Date has occurred, the Calculation Agent shall calculate SOFR as if references to SOFR were references to the rate that was recommended as (and notified by the Issuer to the Calculation Agent) as being the replacement for the Secured Overnight Financing Rate by the Federal Reserve and/or the FRBNY or a committee officially endorsed or convened by the Federal Reserve and/or the FRBNY for the purpose of recommending a replacement for the Secured Overnight Financing Rate (which rate may be produced by a Federal Reserve Bank or other designated administrator, and which rate may include any adjustments or spreads). If no such rate has been recommended within one U.S. Government Securities Business Day of the SOFR Index Cessation Date, then the rate for any such U.S. Government Securities Business Day falling on or after the SOFR Index Cessation Date will be determined as if (i) references to the Secured Overnight Financing Rate were references to the Overnight Bank Funding Rate (published on the FRBNY’s website at or around 5:00 p.m. (New York time) on the relevant New York City Banking Day); (ii) references to U.S. Government Securities Business Day were references to New York City Banking Day, (iii) references to SOFR Index Cessation Event were references to the OBFR Index Cessation Event and (iv) references to SOFR Index Cessation Date were references to OBFR Index Cessation Date; and
- (IV) if the Calculation Agent is required to use the Overnight Bank Funding Rate in paragraph (3) above and an OBFR Index Cessation Date has occurred, then for any Interest Payment Date after such OBFR Index Cessation Date, the Calculation Agent shall use the short-term interest rate target set by the Federal Open Market Committee and published on the Federal Reserve’s website, or if the Federal Open Market Committee does not target a single rate, the mid-point of the short-term interest rate target range set by the Federal Open Market Committee and published on the Federal Reserve’s website (calculated as the arithmetic average of the upper bound of the target range and the lower bound of the target range);

“**SOFR Index Cessation Date**” means following the occurrence of a SOFR Index Cessation Event, the date on which the FRBNY (or any successor administrator of the Secured Overnight Financing Rate), ceases to publish the Secured Overnight Financing Rate, or the date as of which the Secured Overnight Financing Rate may no longer be used, in each case as certified in writing by the Issuer to the Calculation Agent;

“**SOFR Index Cessation Event**” means the occurrence of one or more of the following events:

- (I) a public statement by the FRBNY (or a successor administrator of the Secured Overnight Financing Rate) announcing that it has ceased or will cease to publish or provide the Secured Overnight Financing Rate permanently or indefinitely, provided that, at that time, there is no successor administrator that will continue to publish or provide the Secured Overnight Financing Rate;
- (II) the publication of information which reasonably confirms that the FRBNY (or a successor administrator of the Secured Overnight Financing Rate) has ceased or will cease to provide the Secured Overnight Financing Rate permanently or indefinitely, provided that, at that time, there is no successor administrator that will continue to publish or provide the Secured Overnight Financing Rate; or
- (III) a public statement by a regulator or other official sector entity prohibiting the use of the Secured Overnight Financing Rate that applies to, but need not be limited to, fixed income securities and derivatives, to the extent that such public statement has been acknowledged in writing by ISDA as an “SOFR Index Cessation Event” under the 2006 ISDA Definitions as published by ISDA; and

“**U.S. Government Securities Business Day**” means any day except for a Saturday, Sunday or a day on which the Securities Industry and Financial Markets Association (or any successor thereto) recommends that the fixed income departments of its members be closed for the entire day for purposes of trading in U.S. government securities.

- (6) Screen Rate Determination for Floating Rate Notes referencing Weighted Average SOFR

Where Screen Rate Determination is specified in the applicable Final Terms as the manner in which the Floating Rate is to be determined and the Reference Rate is specified in the applicable Final Terms as being Weighted Average SOFR, the Floating Rate for an Interest Accrual Period will, subject as provided in Condition 8.3.6, be Weighted Average SOFR with respect to such Interest Accrual Period plus or minus (as indicated in the applicable Final Terms) the applicable Margin (if any), as determined by the Calculation Agent.

“**Weighted Average SOFR**” means, in relation to any Interest Accrual Period, the arithmetic mean of “SOFR_{*i*}” in effect during such Interest Accrual Period and will be calculated by the Calculation Agent on each Interest Determination Date as follows, and the resulting percentage will be rounded if necessary to the fifth decimal place, with 0.000005 being rounded upwards:

$$\left[\frac{\sum_{i=1}^{d_0} SOFR_i \times n}{d} \right] \times \frac{360}{d}$$

where:

“**d**”, “**d₀**”, “**i**” and “**p**” have the meanings set out under Condition 8.3.2(ii)(5) above;

“**ni**” means, for any U.S. Government Securities Business Day the number of calendar days from and including such U.S. Government Securities Business Day up to but excluding the following U.S. Government Securities Business Day; and

“**SOFR_i**” means, for any U.S. Government Securities Business Day i:

- (I) where in the applicable Final Terms “Lag” is specified as the Observation Method, the SOFR in respect of the U.S. Government Securities Business Day i falling p U.S. Government Securities Business Days prior to such day;
- (II) where in the applicable Final Terms “Lock-out” is specified as the Observation Method, during each relevant Interest Period, the SOFR determined in accordance with paragraph (1) above, except that in respect of each U.S. Government Securities Business Day i falling on or after the “Lock-out date” specified in the applicable Final Terms (or, where no “Lock-out date” is specified, five U.S. Government Securities Business Days prior to each relevant Interest Payment Date) until the end of each relevant Interest Period, the SOFR determined in accordance with paragraph (1) above in respect of such “Lock-out date”; or

where in the applicable Final Terms “Shift” is specified as the Observation Method, the SOFR on the U.S. Government Securities Business Day i.

(7) Screen Rate Determination for Floating Rate Notes referencing OLO Reference Rate

Where Screen Rate Determination is specified in the applicable Final Terms as the manner in which the Floating Rate is to be determined and the Reference Rate is specified in the applicable Final Terms as being the OLO Reference Rate, the Floating Rate for an Interest Accrual Period will, subject as provided in Condition 8.3.6, be the OLO Reference Rate with respect to such Interest Accrual Period plus or minus (as indicated in the applicable Final Terms) the applicable Margin (if any), as determined by the Calculation Agent. If the relevant series of Notes becomes due and payable in accordance with Condition 8.11, the final Interest Determination Date shall, notwithstanding any Interest Determination Date specified in the applicable Final Terms, be deemed to be the date on which such Notes became due and payable and the Floating Rate on such Notes shall, for so long as any such Notes remains outstanding, be that determined on such date.

“**OLO Reference Rate**” means, with respect to an Interest Accrual Period, the rate determined by the Calculation Agent on the Interest Determination Date taking into account the rate published by the National Bank of Belgium on stat.nbb.be as of 3 p.m. Brussels time for the relevant constant maturity on that Interest Determination Date, provided it is a TARGET Settlement Day and a Brussels Business Day. If the Interest Determination Date is not a TARGET Settlement Day and a Brussels Business Day, then the rate to be taken into account will be the rate last published on stat.nbb.be for the relevant constant maturity prior to the relevant Interest Determination Date.

“**Brussels Business Day**” means a day (other than a Saturday or Sunday) on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealings in foreign exchange and foreign currency deposits) in Brussels.

8.3.3. Variable Linked Rate Notes

Variable Linked Rate Notes bear Interest at the Variable Linked Rate specified in the applicable Final Terms, as fixed in the way specified in the Final Terms, and payable in arrear. The Variable Linked Provisions below will apply.

8.3.4. Zero Coupon Notes

Zero Coupon Notes may be issued at their principal amount or at a discount to it, applying an Amortisation Yield, and will not bear Interest. Zero Coupon Notes that are also Bearer Notes may be subject to certain formalities on transfer under the laws of Belgium.

8.3.5. Payment of the Interest

Interest on the Notes will be payable in arrear on the applicable Interest Payment Date. The first payment of Interest will be on the first Interest Payment Date following the Issue Date. The last payment will be on the Maturity Date.

8.3.6. Benchmark Replacement

Notwithstanding the other provisions in this Condition 8.3, if the Issuer determines that a Benchmark Event occurs in relation to the relevant Reference Rate when any Interest Rate (or the relevant component part thereof) remains to be determined by reference to such Reference Rate, then the following provisions shall apply to the relevant Notes:

- (i) the Issuer shall use reasonable endeavours, as soon as reasonably practicable, to appoint and consult with a Reference Rate Determination Agent (which may or may not be the same entity as the Calculation Agent) with a view to the Issuer determining (without any requirement for the consent or approval of the Noteholders) (A) a Successor Rate (as defined below) or, failing which, an Alternative Reference Rate (as defined below), for purposes of determining the Interest Rate (or the relevant component part thereof) applicable to the Notes and (B) in either case, an Adjustment Spread (as defined below);
- (ii) if the Issuer is unable to appoint a Reference Rate Determination Agent prior to the Determination Cut-Off Date (as defined below), the Issuer (acting in good faith and in a commercially reasonable manner) may still determine (A) a Successor Rate or, failing which, an Alternative Reference Rate and (B) in either case, an Adjustment Spread (as defined below) in accordance with this Condition 8.3.6;
- (iii) if a Successor Rate or, failing which, an Alternative Reference Rate (as applicable) is determined in accordance with paragraphs (i) or (ii) above, such Successor Rate or, failing which, Alternative Reference Rate (as applicable) shall be the Reference Rate for each of the future Interest Periods (as applicable) (subject to the subsequent operation of, and to adjustment as provided in, this Condition 8.3.6);
- (iv) if the Issuer, following consultation with the Reference Rate Determination Agent (if any) and acting in good faith, determines a Successor Rate or, failing which, an Alternative Reference Rate (as applicable) in accordance with the above provisions, the Issuer may (without any requirement for the consent or approval of the Noteholders) also specify changes to these Terms and Conditions, including but not limited to (A) the Day Count Fraction, Business Day Convention, Business Days, Interest Determination Date and/or the definition of Floating Rate Notes or Variable Linked Notes applicable to the Notes and (B) the method for determining the fall-back rate in relation to such Notes, in any such case in order to ensure the proper operation of such Successor Rate or Alternative Reference Rate or any Adjustment Spread (as applicable). If the Issuer, following consultation with the Reference Rate Determination Agent (if any) and acting in good faith, determines that an Adjustment Spread is required to be applied to the Successor Rate or the Alternative Reference Rate (as applicable) and determines the quantum of, or a formula or methodology for determining, such Adjustment Spread, then such Adjustment Spread shall be applied to the Successor Rate or the Alternative Reference Rate (as applicable). If the Issuer is unable to determine the quantum of, or a formula or methodology for determining, such Adjustment Spread, then the Successor Rate or Alternative Reference Rate (as applicable) will apply without an Adjustment Spread. For the avoidance of doubt, the Fiscal Agent and any other agents party to the Agency Agreement shall, at

the direction and expense of the Issuer, effect such consequential amendments to the Agency Agreement and these Terms and Conditions as may be required in order to give effect to the application of this Condition 8.3.6. No consent shall be required from the Noteholders in connection with determining or giving effect to the Successor Rate or Alternative Reference Rate (as applicable) or such other changes, including for the execution of any documents or other steps to be taken by the Fiscal Agent and any other agents party to the Agency Agreement (if required or useful); and

- (v) the Issuer shall promptly, following the determination of any Successor Rate, Alternative Reference Rate or Adjustment Spread (as applicable), give notice thereof to the Calculation Agent, the Fiscal Agent and, in accordance with Condition 8.17, the Noteholders. Such notice shall specify the effective date(s) for such Successor Rate or Alternative Reference Rate (as applicable), the Adjustment Spread (if any) and any consequential changes made to the Agency Agreement and these Terms and Conditions (if any).

A Reference Rate Determination Agent (which may be or may not be the same entity as the Calculation Agent) appointed pursuant to this Condition 8.3.6 shall act in good faith as an expert and (in the absence of gross negligence, bad faith, intentional fault or fraud) shall have no liability whatsoever to the Calculation Agent, the Fiscal Agent or the Noteholders for any advice given to the Issuer in connection with any determination made by the Issuer pursuant to this Condition 8.3.6.

Without prejudice to the obligations of the Issuer under this Condition 8.3.6, the Reference Rate and the other provisions in this Condition 8.3.6 will continue to apply unless and until the Calculation Agent has been notified of the Successor Rate or Alternative Reference Rate (as applicable), the Adjustment Spread (if any) and any consequential changes made to the Agency Agreement and these Terms and Conditions (if any).

For the purposes of this Condition 8.3.6:

“Adjustment Spread” means a spread (which may be positive or negative) or formula or methodology for calculating a spread, which the Issuer, following consultation with the Reference Rate Determination Agent (if any) and acting in good faith, determines is required to be applied to the Successor Rate or the Alternative Reference Rate (as applicable) in order to reduce or eliminate, to the extent reasonably practicable in the relevant circumstances, any economic prejudice or benefit (as applicable) to the Noteholders as a result of the replacement of the Reference Rate with the Successor Rate or the Alternative Reference Rate (as applicable) and is the spread, formula or methodology which:

- (i) in the case of a Successor Rate, is formally recommended in relation to the replacement of the Reference Rate with the Successor Rate by any Relevant Nominating Body; or
- (ii) in the case of a Successor Rate for which no such recommendation has been made or in the case of an Alternative Reference Rate, the Issuer, following consultation with the Reference Rate Determination Agent (if any) and acting in good faith, determines is recognised or acknowledged as being in customary market usage in international debt capital markets transactions which reference the Reference Rate, where such rate has been replaced by the Successor Rate or the Alternative Reference Rate (as applicable); or
- (iii) if no such customary market usage is recognised or acknowledged, the Issuer, following consultation with the Reference Rate Determination Agent (if any) and acting in good faith, determines is recognised or acknowledged as being the industry standard for over-the-counter derivative transactions which reference the Reference Rate, where such rate has been replaced by the Successor Rate or the Alternative Reference Rate (as applicable); or
- (iv) if no such industry standard is recognised or acknowledged, the Issuer, in its discretion, following consultation with the Reference Rate Determination Agent (if any) and acting in good faith, determines to be appropriate.

“Alternative Reference Rate” means the rate that the Issuer determines has replaced the relevant Reference Rate in customary market usage in the international debt capital markets for the purposes of determining rates of interest (or the relevant component part thereof) in respect of bonds denominated in the Specified Currency and of a comparable duration to the relevant Interest Period, or, if the Issuer determines that there is no such rate, such other rate as the Issuer determines in its discretion is most comparable to the relevant Reference Rate.

“Benchmark Event” means:

- (i) the relevant Reference Rate ceasing to be published for a period of at least five Business Days or ceasing to exist; or
- (ii) a public statement by the administrator of the relevant Reference Rate stating that it will, by a specified date within the following six months, cease to publish the relevant Reference Rate, permanently or indefinitely (in circumstances where no successor administrator has been appointed that will continue publication of the relevant Reference Rate); or
- (iii) a public statement by the supervisor of the administrator of the relevant Reference Rate stating that the relevant Reference Rate has been or will be, by a specified date within the following six months, permanently or indefinitely discontinued; or
- (iv) a public statement by the supervisor or the administrator of the relevant Reference Rate that means that the relevant Reference Rate will be prohibited from being used within the following six months; or
- (v) it has become unlawful for the Calculation Agent, the Fiscal Agent or any other agents party to the Agency Agreement to calculate any payments due to be made to any Noteholders using the relevant Reference Rate.

“Determination Cut-Off Date” means no later than five Business Days prior to the relevant Interest Determination Date (as applicable) relating to the next succeeding Interest Period.

“Reference Rate” means (i) the applicable reference rate specified in the Floating Rate Note Provisions of the Final Terms in respect of the Floating Rate applicable to the Floating Rate Notes or, as the case may be, (ii) the applicable reference rate specified in the Variable Linked Rate Note Provisions of the Final Terms in respect of the Market Rate or OLO Reference Rate applicable to the Variable Linked Rate Notes.

“Reference Rate Determination Agent” means either (i) an independent financial institution of international repute or other independent financial adviser experienced in the international debt capital markets, in each case selected and appointed by the Issuer at its own expense, (ii) the Calculation Agent or (iii) any affiliate of the Issuer or the Calculation Agent.

“Relevant Nominating Body” means, in respect of a Reference Rate:

- (i) the central bank for the currency to which the Reference Rate relates, or any central bank or other supervisory authority which is responsible for supervising the administrator of the Reference Rate; or
- (ii) any working group or committee sponsored by, chaired or co-chaired by or constituted at the request of (A) the central bank for the currency to which the Reference Rate relates, (B) any central bank or other supervisory authority which is responsible for supervising the administrator of the Reference Rate, (C) a group of the aforementioned central banks or other supervisory authorities or (D) the Financial Stability Board or any part thereof.

“Successor Rate” means the rate that the Issuer determines is a successor to, or replacement of, the Reference Rate (as applicable) which is formally recommended by any Relevant Nominating Body.

8.4. Definitions

“Averaging Dates”:

Means the dates specified as such in the applicable Final Terms.

If an Averaging Date in respect of the Underlying is not a Scheduled Trading Day, then, the Averaging Date for such Underlying shall be the first succeeding Valid Date. If the first succeeding Valid Date has not occurred as of the Valuation Time on the eighth Scheduled Trading Day immediately following the original date that, but for the occurrence of another Initial Averaging Date or Disrupted Day, would have been the final Averaging Date in relation to the relevant Scheduled Valuation Date, then (1) that eighth Scheduled Trading Day shall be deemed the Averaging Date (irrespective of whether that eighth Scheduled Trading Day is already an Averaging Date) in respect of such Underlying and, (2) the Calculation Agent shall determine its good faith estimate of the value for the Underlying as of the Valuation Time on that Averaging Date.

If an Averaging Date for the Underlying is affected by the occurrence of a Disrupted Day, then, the Averaging Date for such Underlying shall be the first succeeding Valid Date. If the first succeeding Valid Date in respect of such Underlying has not occurred as of the Valuation Time on the eighth Scheduled Trading Day immediately following the original date that, but for the occurrence of another Averaging Date or Disrupted Day, would have been the final Averaging Date in relation to the relevant Scheduled Valuation Date, then (1) that eighth Scheduled Trading Day shall be deemed the Averaging Date (irrespective of whether that eighth Scheduled Trading Day is already an Averaging Date) in respect of such Underlying and, (2) the Calculation Agent shall determine its good faith estimate of the value for the Underlying as of the Valuation Time on that Averaging Date.

“Business Day”:

“Business Day” means:

Regarding the Notes issued outside the Securities Settlement System,

a day (other than a Saturday or a Sunday) on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealings in foreign exchange and foreign currency deposits) in the place(s) and on the days specified for that purpose in the related Final Terms, a TARGET Settlement Day, if “TARGET”, “TARGET2” or “TARGET Settlement Day” is specified for that purpose in the related Final Terms or if place(s) and days, or such terms, are not so specified in the related Final Terms.

Regarding the Notes that will be issued through the Securities Settlement System, **“Business Day”** means:

- (i) if a payment is to be made through the Securities Settlement System and is to be settled in a T2S settlement-currency on that day, a day (other than a Saturday or Sunday) on which the Securities Settlement System and TARGET2 are operating;
- (ii) if a payment is to be made through the Securities Settlement System and is to be settled in a non T2S settlement-currency on that day, a day (other than a Saturday or Sunday) on which the Securities Settlement System is operating; or
- (iii) if a payment is to be made outside the Securities Settlement System, (a) a day (other than a Saturday or a Sunday) on which commercial banks

and foreign exchange markets settle payments in the principal financial centre for the relevant currency of the Notes or (b) in the case of one or more business centres (the “**Business Centre(s)**”), as specified in the applicable Final Terms, a day (other than a Saturday or a Sunday) on which commercial banks and foreign exchange markets settle payments in the relevant currency of the Notes in each of the Business Centres.

“**Business Day Convention**”: means the convention for adjusting any relevant date if it would otherwise fall on a day that is not a Business Day. The following terms, when used in conjunction with the term “Business Day Convention” and a date, shall mean that an adjustment will be made if that date would otherwise fall on a day that is not a Business Day so that:

- (i) if “**Following**” is specified, that date will be the first following day that is a Business Day;
- (ii) if “**Modified Following**” or “**Modified**” is specified, that date will be the first following day that is a Business Day unless that day falls in the next calendar month, in which case that date will be the first preceding day that is a Business Day; and
- (iii) if “**Preceding**” is specified, that date will be the first preceding day that is a Business Day.

In the event of Notes cleared to the Securities Settlement System, the Following Business Days Convention will always be applicable for Fixed Rate Notes (unless otherwise specified in the applicable Final Terms).

“**Calculation Agent**”: means Belfius Bank, unless specified otherwise in the applicable Final Terms. Whenever the Calculation Agent is required to act or to exercise judgment in any way, it will do so in good faith and in a commercially reasonable manner. The Calculation Agent shall have no responsibility to Noteholders for good faith errors or omissions in its calculations (without limitation, errors or omissions due to events which are not under the direct control of the Calculation Agent) and determinations as provided in the Terms and Conditions, except for those resulting from the gross negligence or intentional fault of the Calculation Agent. (see section 8.13 (*Responsibility of the Calculation Agent*) in this Base Prospectus).

“**Calculation Amount**”: means the Denomination or such other Amount as specified in the applicable Final Terms.

“**Day Count Fraction**”: means, in respect of the Notes and the calculation of the Interest:

- (i) if “1/1” is specified or nothing is specified, 1;
- (ii) if “**Actual/Actual-ICMA**” is specified in the applicable Final Terms:
 - (aa) if the Interest Period is equal to or shorter than the Determination Period during which it falls, the number of days in the Interest Period divided by the product of:
 - (x) the number of days in such Determination Period; and
 - (y) the number of Determination Periods normally ending in any year;

and

(bb) if the Interest Period is longer than one Determination Period, the sum of:

(x) the number of days in such Interest Period falling in the Determination Period in which it begins divided by the product of (1) the number of days in such Determination Period and (2) the number of Determination Periods normally ending in any year; and

(y) the number of days in such Interest Period falling in the next Determination Period divided by the product of (1) the number of days in such Determination Period and (2) the number of Determination Periods normally ending in any year

where:

“Determination Period” means the period from and including a Determination Date in any year to but excluding the next Determination Date; and

“Determination Dates” means the dates specified in the applicable Final Terms or, if none is so specified, the Interest Payment Date and, the Interest Commencement Date.

(iii) if **“Actual/Actual”** or **“Act/Act”** is specified, the actual number of days in the Interest Period in respect of which payment is being made divided by 365 (or, if any portion of that Interest Period falls in a leap year, the sum of:

(a) the actual number of days in that portion of the Interest Period falling in a leap year divided by 366; and

(b) the actual number of days in that portion of the Interest Period falling in a non-leap year divided by 365);

(iv) if **“Actual/365 (Fixed)”**, **“Act/365 (Fixed)”**, **“A/365 (Fixed)”** or **“A/365F”** is specified, the actual number of days in the Interest Period in respect of which payment is being made divided by 365;

(v) if **“Actual/360”**, **“Act/360”** or **“A/360”** is specified, the actual number of days in the Interest Period in respect of which payment is being made divided by 360;

(vi) if **“30/360”**, **“360/360”** or **“Bond Basis”** is specified, the number of days in the Interest Period in respect of which payment is being made divided by 360, calculated on a formula basis as follows:

$$\begin{aligned} & \text{Day Count Fraction} \\ & = \\ & \frac{[360x(Y_2 - Y_1)] + [30x(M_2 - M_1)] + (D_2 - D_1)}{360} \end{aligned}$$

Where:

“Y₁” is the year, expressed as a number, in which the first day of the Interest Period falls;

“Y₂” is the year, expressed as a number, in which the day immediately following the last day included in the Interest Period falls;

“M₁” is the calendar month, expressed as a number, in which the first day of the Interest Period falls;

“M₂” is the calendar month, expressed as a number, in which the day immediately following the last day included in the Interest Period falls;

“D₁” is the first calendar day, expressed as a number, of the Interest Period, unless such number would be 31, in which case D₁ will be 30;

“D₂” is the calendar day, expressed as a number, immediately following the last day included in the Interest Period, unless such number would be 31 and D₁ is greater than 29, in which case D₂ will be 30; and

- (vii) if “**30E/360**” or “**Eurobond Basis**” is specified, the number of days in the Interest Period in respect of which payment is being made divided by 360, calculated on a formula basis as follows:

$$\begin{aligned} & \text{Day Count Fraction} \\ & = \\ & \frac{[360x(Y_2 - Y_1)] + [30x(M_2 - M_1)] + (D_2 - D_1)}{360} \end{aligned}$$

Where:

“Y₁” is the year, expressed as a number, in which the first day of the Interest Period falls;

“Y₂” is the year, expressed as a number, in which the day immediately following the last day included in the Interest Period falls;

“M₁” is the calendar month, expressed as a number, in which the first day of the Interest Period falls;

“M₂” is the calendar month, expressed as a number, in which the day immediately following the last day included in the Interest Period falls;

“D₁” is the first calendar day, expressed as a number, of the Interest Period, unless such number would be 31, in which case D₁ will be 30; and

“D₂” is the calendar day, expressed as a number, immediately following the last day included in the Interest Period, unless such number would be 31, in which case D₂ will be 30.

“**EURIBOR**”:
means in respect of any Specified Currency and any specified period, the interest rate benchmark known as the Eurozone interbank offered rate which is calculated and published by a designated distributor (currently Thomson Reuters) in accordance with the requirements from time to time of the European Banking Federation based on estimated interbank borrowing rates for a number of designated currencies and maturities which are provided, in respect of each such currency, by a panel of contributor banks.

“**Eurozone**”:
means the region comprised of member states of the European Union that adopt the single currency in accordance with the Treaty establishing the European Community, as amended from time to time.

“**Hedge Positions**”:
means any purchase, sale, entry into or maintenance of one or more (i) positions or contracts in securities, options, futures, derivatives or foreign

exchange, (ii) stock loan transactions or (iii) other instruments or arrangements (howsoever described) by the Issuer or, in the case of Belfius Financing Company Notes, the Guarantor in order to hedge, individually or on a portfolio basis, the Notes.

“Interest Accrual Period”: means the period beginning on (and including) the Interest Commencement Date and ending on (but excluding) the first Interest Payment Date and each successive period beginning on (and including) an Interest Payment Date and ending on (but excluding) the next succeeding Interest Payment Date.

“Interest Commencement Date”: means the Issue Date or such other date specified in the applicable Final Terms.

“Interest Determination Date”: means each date specified as such in the applicable Final Terms.

“Interest Payment Date”: means each date, as specified in the applicable Final Terms, on which the Interest as determined by the Calculation Agent for the applicable Interest Period is payable in accordance with Condition 8.3.5. *Payment of the Interest*.
If such day is not a Business Day it will be adjusted by the Business Day Convention specified in the applicable Final Terms.

“Interest Period”: means each period from, and including, one Interest Period End Date to, but excluding, the next following applicable Interest Period End Date, except that the initial Interest Period will commence on, and include, the Interest Commencement Date.

“Interest Period End Date”: If **“Adjusted”** is specified in the applicable Final Terms, Interest Period End Date means the relevant Interest Payment Date.

If **“No Adjustment”** is specified in the applicable Final Terms, Interest Period End Date means the relevant Interest Payment Date, without however applying any adjustment in accordance with the Business Day Convention specified to be applicable to the Interest Payment Dates.

If **“Adjusted”** or **“No Adjustment”** is not specified in the applicable Final Terms, the Interest Period End Date(s) shall be as specified in those Final Terms.

“ISDA Definitions”: means (i) if **“2006 ISDA Definitions”** is specified in the applicable Final Terms, the 2006 ISDA Definitions, as published by the International Swaps and Derivatives Association, Inc. (**“ISDA”**), as amended and updated as at the Issue Date of the first Tranche of the Notes; or (ii) if **“2021 ISDA Definitions”** is specified in the applicable Final Terms, the latest version of the 2021 ISDA Interest Rate Derivatives Definitions, including any Matrices referred to therein, as published by ISDA as at the Issue Date of the first Tranche of the Notes.

“Issue Date”: means the date on which the Notes are issued as specified in the applicable Final Terms.

“Margin”: means the percentage rate specified as such in the applicable Final Terms, provided that (A) the Margin may be specified either (x) generally, or (y) in relation to one or more Interest Accrual Periods, (B) the Margin may be zero, and (C) if a Margin is specified, an adjustment shall be made (to all Floating Rates, in the case of sub-paragraph (x) of paragraph (A), or the Floating Rate for the specified Interest Accrual Periods, in the case of sub-paragraph (y) of

paragraph (A)), by adding (if the Margin is a positive number) or subtracting (if the Margin is a negative number) the absolute value of such Margin.

- “Maturity Date”:** means the date on which the Notes come to maturity as specified in the applicable Final Terms, unless such day is not a Business Day in which case it will be adjusted by the Following Business Day Convention, unless otherwise specified in the applicable Final Terms.
- “Maximum Rate”:** means the percentage value (if any) specified as such in the applicable Final Terms.
- “Minimum Rate”:** means the percentage value (if any) specified as such in the applicable Final Terms.
- “Reference Banks”:** means, in the case of a determination of EURIBOR, the principal Eurozone office of four major banks in the Eurozone inter-bank market, in each case selected by the Calculation Agent or as specified in the applicable Final Terms.
- “Relevant Screen Page”:** means such page, section, caption, column or other part of a particular information service as may be specified in the applicable Final Terms, or any successor thereto or replacement page commonly accepted in the market, as determined by the Calculation Agent.
- “Relevant Time”:** means the time as of which any rate is to be determined as specified in the applicable Final Terms or, if none is specified, at which it is customary to determine such rate, and for these purposes, the Relevant Time in the case of EURIBOR shall be 11:00 a.m. Brussels time.
- “Specified Currency”:** means the currency of the Notes as specified in the applicable Final Terms.
- “TARGET Settlement Day”:** means any day on which TARGET2 (the real time gross settlement system operated by the Eurosystem, or any successor system) is open.
- “Valid Date”:** means a Scheduled Trading Day that is not a Disrupted Day and on which another Averaging Date, or Initial Averaging Date as applicable, in respect of the relevant Valuation Date, or Initial Valuation Date as applicable, does not or is not deemed to occur.

8.5. Redemption and Purchase

8.5.1. Final Redemption

Unless previously entirely redeemed, purchased and cancelled or unless its maturity is extended pursuant to an Issuer’s or Noteholder’s Option the Notes shall be redeemed on the Maturity Date. The Notes may not be redeemed prior to that date, without prejudice to the other provisions of these Terms and Conditions.

The Redemption of the Notes can be Variable Linked (“**Variable Linked Redemption Amount**”), in which case the Variable Linked Provisions below will apply.

8.5.2. Partial Redemption

If Partial Redemption is provided to be applicable in the applicable Final Terms, the Notes shall be partially redeemed without giving notice to the Noteholders on the Partial Redemption Date(s) so provided in the applicable Final Terms. Any such partial redemption of Notes shall be at the relevant Partial Redemption Amount specified in the applicable Final Terms.

8.5.3. Redemption at the Option of the Issuer

If a Call Option is provided to be applicable in the applicable Final Terms, the Issuer may, on giving irrevocable notice to the Noteholders falling within the Issuer's Optional Redemption Period redeem all or, if so provided, some of the Notes in the principal amount or integral multiples thereof and on the date or dates so provided. Any such redemption of Notes shall be at their Redemption Amount together with interest accrued to the date fixed for redemption, unless otherwise specified in the applicable Final Terms. Any such redemption or exercise must relate to the Notes of a nominal amount at least equal to the Minimum Redemption Amount to be redeemed, as specified in the applicable Final Terms, and be no greater than the Maximum Redemption Amount to be redeemed, as specified in the applicable Final Terms.

All Notes in respect of which any such notice is given shall be redeemed, or the Issuer's option shall be exercised, on the date specified in such notice.

The above-described Redemption at the Option of the Issuer does not cover the situation of an early redemption upon the occurrence of a force majeure event or an Extraordinary Event, as specified in Section 8.

8.5.4. Mandatory Early Redemption

If Mandatory Early Redemption is provided to be applicable in the applicable Final Terms and one or more Trigger Events (as defined in the Final Terms), the Issuer shall without giving notice to the Noteholders automatically redeem all or, if so provided, some of the Notes in the principal amount or integral multiples thereof on the Mandatory Early Redemption Date(s) so provided in the applicable Final Terms once the Calculation Agent determines that a Trigger Event has occurred. Any such redemption of Notes shall be at the Mandatory Early Redemption Amount specified in the applicable Final Terms.

The Trigger Events mentioned above can relate to the following (without however being exhaustive, these are merely examples):

- in case a Variable Linked Redemption Amount depends on the evolution of one or more Underlyings, a Trigger Event applies, for example, if the level of the relevant Underlying exceeds on a specified date a certain pre-defined value as specified in the applicable Final Terms;
- in case the relevant Notes bear interest, a Trigger Event applies, for example, if the sum of the Interest Amounts paid together with the Interest Amount payable on the next following Interest Payment Date exceeds an amount specified in the applicable Final Terms. As a consequence, the Interest Amount payable in respect of such Note for the relevant Interest Period may be capped in order not to exceed the amount specified in the applicable Final Terms.

8.5.5. Repurchase

The Issuer or, as applicable, the Guarantor and any of their subsidiaries may at any time purchase Notes in the open market or otherwise at any price. The price will be determined by the Issuer, the Guarantor or any of their subsidiaries at the relevant time. They will determine the price in accordance with market practice and at their discretion, but the investors will remain free to accept the proposed price, or to continue to hold their Notes.

8.5.6. Cancellation

All Notes purchased by or on behalf of the Issuer, as applicable, the Guarantor or any of their subsidiaries may thereafter be cancelled by the Fiscal Agent or by the Domiciliary Agent by a reduction of the principal amount of such notes. Any Notes so redeemed or purchased and cancelled in accordance with this Condition may not be reissued or resold and the obligations of the Issuer and, as applicable, the Guarantor in respect of any such Notes shall be discharged.

8.6. Payment

Noteholders shall pay the Denominations on the subscribed Notes in cash at the time of subscription or by debit of the cash account linked to the securities account, in which Notes are to be held, on the Issue Date.

If the Issue Date is a day, which is not a Business Day in the place of payment of the Denominations, payment will be due on that day as adjusted by the Following Business Day Convention, unless otherwise specified in the applicable Final Terms.

Any amounts payable by the Issuer in respect of the Notes, be they Interests, Redemption Amounts or other, shall be made by transfer to the cash account communicated by the Noteholder to the Issuer or linked to the securities account in which the Notes are held, subject to all applicable laws and regulations.

If the date for payment of Interest, Redemption Amount or any other amount due to the Noteholders is a day which is not a Business Day in the place of payment, the Noteholders shall not be entitled to payment until the day as adjusted by the Following Business Day Convention, unless otherwise specified in the applicable Final Terms.

8.7. Variable Linked Provisions

A Variable Linked Rate or a Variable Linked Redemption Amount can depend on the evolution of one or more Underlyings. If it is specified in the Final Terms that the Underlying is either (i) one or more Market Rates, (ii) the OLO Reference Rate, (iii) a Share or a Basket of Shares, (iv) a Share Index or a Basket of Share Indices, (v) a Fund or a Basket of Funds, (vi) a Commodity or a Basket of Commodities, (vii) a Commodity Index or a Basket of Commodity Indices, or (viii) an Inflation Index, the applicable provisions below in relating to the respective Underlying will apply.

More information on the relevant index can be found via the channel(s) as specified in the Final Terms (as applicable).

8.7.1. Market Rate

The Underlying can be a Market Rate, such as, for example, EUR-EURIBOR, EUR-EURIBOR ICE Swap Rate-11.00, USD-SOFR ICE Swap Rate or USD-SOFR-OIS Compound (each within the meaning of the 2021 ISDA Definitions) or any other Market Rate, as specified in the applicable Final Terms.

Please also refer to the provisions of Condition 8.3.6 (*Benchmark Replacement*).

8.7.2. OLO Reference Rate

The Underlying can be the OLO Reference Rate.

Please also refer to the provisions of Condition 8.3.6 (*Benchmark Replacement*).

“**OLO Reference Rate**” means, with respect to an Interest Accrual Period, the rate determined by the Calculation Agent on the Interest Determination Date taking into account the rate published by the National Bank of Belgium on stat.nbb.be as of 3 p.m. Brussels time for the relevant constant maturity on that Interest Determination Date, provided it is a TARGET Settlement Day and a Brussels Business Day. If the Interest Determination Date is not a TARGET Settlement Day and a Brussels Business Day, then the rate to be taken into account will be the rate last published on stat.nbb.be for the relevant constant maturity prior to the relevant Interest Determination Date.

“**Brussels Business Day**” means a day (other than a Saturday or Sunday) on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealings in foreign exchange and foreign currency deposits) in Brussels.

8.7.3. Share or Basket of Shares

8.7.3.1. Definitions

Share: Means the share specified as such in the applicable Final Terms.

Share Basket:	Means a basket of shares as specified in the applicable Final Terms.
i:	The addition of the letter i in subscript to any term indicates that this term is meant to apply to each Share in the Share Basket separately.
w:	Means the weight of a certain Share in the Share Basket.
Exchange:	Means each exchange or quotation system specified as such for such Share in the applicable Final Terms, any successor to such exchange or quotation system or any substitute exchange or quotation system to which trading in the Share has temporarily relocated (provided that the Calculation Agent has determined that there is comparable liquidity relative to such Share on such temporary substitute exchange or quotation system as on the original Exchange).
Related Exchange:	Means, each exchange or quotation system specified as such for the relevant Share in the applicable Final Terms, any successor to such exchange or quotation system or any substitute exchange or quotation system to which trading in futures or options contracts relating to such Share has temporarily relocated (provided that the Calculation Agent has determined that there is comparable liquidity relative to the futures or options contracts relating to such Share on such temporary substitute exchange or quotation system as on the original Related Exchange), provided, however, that where “All Exchanges” is specified as the Related Exchange in the applicable Final Terms, “Related Exchange” shall mean each exchange or quotation system where trading has a material effect (as determined by the Calculation Agent) on the overall market for futures or options contracts relating to such Share.
Initial Price:	Means the price specified as such or otherwise determined in the applicable Final Terms or, if no means for determining the Initial Price are so provided: in respect of the Initial Valuation Date, the Relevant Price of the relevant Share at the Valuation Time on the Initial Valuation Date, as determined by the Calculation Agent, and in respect of each subsequent Valuation Date, the Final Price for the Valuation Date immediately preceding such Valuation Date, or, if Initial Averaging is specified as applicable under the applicable Final Terms, means the arithmetic mean, as determined by the Calculation Agent on the Initial Valuation Date, of the prices of the relevant Share or Share Basket as of the Valuation Time on each Initial Averaging Date.
Final Price:	Means the Relevant Price of the relevant Share on the relevant Valuation Date, as determined by the Calculation Agent, or, if Averaging is specified as applicable under the applicable Final Terms, means the arithmetic mean, as determined by the Calculation Agent on the Valuation Date, of the prices of the relevant Share or Share Basket as of the Valuation Time on each Averaging Date.
Initial Valuation Date:	Means the Issue Date or such other date as specified in the applicable Final Terms, and if such date is not a Scheduled Trading Day in respect of the relevant Share, the Initial Price of such Share shall be determined on the basis of the Relevant Price of such Share as calculated on the immediately following Scheduled Trading Day, subject to Market Disruption, or, if Initial Averaging is specified as applicable, means the final Initial Averaging Date.
Valuation Date:	Means any date specified as such in the applicable Final Terms, and if such date is not a Scheduled Trading Day in respect of the relevant Share, the Final Price of such Share shall be determined on the basis of the Relevant Price of such Share as calculated on the immediately following Scheduled Trading Day, subject to Market Disruption, or, if Averaging is specified as applicable, means the final Averaging Date.
Relevant Price:	Means the price of the relevant Share determined by the Calculation Agent at the Valuation Time on the Exchange.
Valuation Time:	Means the time on the relevant Valuation Date, specified as such in the related Final Terms or, if no such time is specified, the Scheduled Closing

Time on the relevant Exchange on the relevant Valuation Date, in relation to each Share to be valued. If the relevant Exchange closes prior to its Scheduled Closing Time and the specified Valuation Time is after the actual closing time for its regular trading session, then the Valuation Time shall be such actual closing time.

Scheduled Closing Time: Means in respect of an Exchange or Related Exchange and a Scheduled Trading Day, the scheduled weekday closing time of such Exchange or Related Exchange on such Scheduled Trading Day, without regard to after hours or any other trading outside of the regular trading session hours.

Scheduled Trading Day: Means any day on which the Exchange and each Related Exchange are scheduled to be open for trading for their respective regular trading sessions.

Exchange Business Day: Means any Scheduled Trading Day on which each Exchange and each Related Exchange are open for trading during their respective regular trading sessions, notwithstanding any such Exchange or Related Exchange closing prior to its Scheduled Closing Time.

8.7.3.2. Market Disruption

“**Market Disruption Event**” means in respect of a Share, the occurrence or existence of (i) a Trading Disruption, (ii) an Exchange Disruption, which in either case the Calculation Agent determines is material, at any time during the one hour period that ends at the relevant Valuation Time or (iii) an Early Closure.

In that respect, “**Trading Disruption**” means any suspension of or limitation imposed on trading by the relevant Exchange or Related Exchange or otherwise and whether by reason of movements in price exceeding limits permitted by the relevant Exchange or Related Exchange or otherwise (i) relating to the Share on the Exchange, or (ii) in futures or options contracts relating to the Share on any relevant Related Exchange.

In that respect, “**Exchange Disruption**” means any event (other than an Early Closure) that disrupts or impairs (as determined by the Calculation Agent) the ability of market participants in general to effect transactions in, or obtain market values for, (i) the Shares on the Exchange, or (ii) in futures or options contracts relating to the Share on any relevant Related Exchange.

In that respect, “**Early Closure**” means the closure on any Exchange Business Day of the relevant Exchange or any Related Exchange(s) prior to its Scheduled Closing Time unless such earlier closing time is announced by such Exchange(s) or Related Exchange(s) at least one hour prior to the earlier of (i) the actual closing time for the regular trading session on such Exchange(s) or Related Exchange(s) on such Exchange Business Day and (ii) the submission deadline for orders to be entered into the Exchange or Related Exchange system for execution at the Valuation Time on such Exchange Business Day.

In addition, in that respect “**Disrupted Day**” means any Scheduled Trading Day on which a relevant Exchange or any Related Exchange fails to open for trading during its regular trading session or on which a Market Disruption Event has occurred.

If any Valuation Date is a Disrupted Day, then:

- if the Underlying is a Share, the Valuation Date shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day, unless each of the eight Scheduled Trading Days immediately following the scheduled Valuation Date is a Disrupted Day. In that case, (i) that eighth Scheduled Trading Day shall be deemed to be the Valuation Date, notwithstanding the fact that such day is a Disrupted Day and (ii) the Calculation Agent shall determine its good faith estimate of the value of the Share as of the Valuation Time on that eighth Scheduled Trading Day; and
- if the Underlying is a Basket of Shares, the Valuation Date for each Share not affected by the occurrence of a Disrupted Day shall be the scheduled Valuation Date, and the Valuation Date for each Share affected by the occurrence of a Disrupted Day shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day relating to that Share, unless each of the eight Scheduled Trading Days immediately

following the Scheduled Valuation Date is a Disrupted Day relating to that Share. In that case, (i) that eighth Scheduled Trading Day shall be deemed to be the Valuation Date for the relevant Share, notwithstanding the fact that such day is a Disrupted Day and (ii) the Calculation Agent shall determine its good faith estimate of the value for that Share as of the Valuation Time on that eighth Scheduled Trading Day.

8.7.3.3. Potential Adjustment Events

Upon the occurrence on or after the Issue Date up to and including the last Valuation Date of a Potential Adjustment Event (as defined below), the Calculation Agent will determine whether such Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the relevant Shares and if so will:

- make the corresponding adjustment(s), if any, to any relevant variable in the Variable Linked formulae of the Notes, which may include the Initial Price or the Final Price, used to calculate any Variable Linked Rate or Variable Linked Redemption Amount as the Calculation Agent determines appropriate to account for that diluting or concentrative effect (provided that no adjustments will be made to account solely for changes in volatility, expected dividends, stock loan rate or liquidity relative to the relevant Share); and
- determine the effective date(s) of the adjustment(s).

The Calculation Agent may (but need not) determine the appropriate adjustment(s) by reference to the adjustment(s) in respect of such Potential Adjustment Event made by an options exchange to options on the relevant Shares traded on such options exchange.

For the purpose hereof, “**Potential Adjustment Event**” shall mean any of the following:

- a subdivision, consolidation or reclassification of relevant Shares (unless resulting in a Merger Event), or, a free distribution or dividend of any such Shares to existing holders by way of bonus, capitalisation or similar issue;
- a distribution, issue or dividend to existing holders of the relevant Shares of (a) such Shares, or (b) other share capital or securities granting the right to payment of dividends and/or the proceeds of liquidation of the issuer of such Shares equally or proportionately with such payments to holders of such Shares, or (c) share capital or other securities of another issuer acquired or owned (directly or indirectly) by the issuer of the Shares as a result of a spin-off or other similar transaction or (d) any other type of securities, rights or warrants or other assets, in any case for payment (cash or other consideration) at less than the prevailing market price as determined by the Calculation Agent;
- an extraordinary dividend as determined by the Calculation Agent;
- a call by the issuer of the relevant Shares in respect of such Shares that are not fully paid;
- a repurchase by the issuer of the relevant Shares or any of its subsidiaries of such Shares whether out of profits or capital and whether the consideration for such repurchase is cash, securities or otherwise;
- in respect of the issuer of the relevant Shares, an event that results in any shareholder rights being distributed or becoming separated from shares of common stock or other shares of the capital stock of the issuer of the relevant Shares pursuant to a shareholder rights plan or arrangement directed against hostile takeovers that provides upon the occurrence of certain events for a distribution of preferred stock, warrants, debt instruments or stock rights at a price below their market value, as determined by the Calculation Agent, provided that any adjustment effected as a result of such an event shall be readjusted upon any redemption of such rights; or
- any other event that may have a diluting or concentrative effect on the theoretical value of the relevant Shares.

If the Calculation Agent determines that the event significantly modifies the economy of the Note regardless of any adjustment the Calculation Agent could make, the Calculation Agent may notify the Noteholders, in accordance with Condition 8.17 (*Notices*), that the relevant consequence of the Potential Adjustment Event shall be either in the case of a capital protected Note (i) the Monetization of the Notes, with the right for the Noteholders, as an alternative to the Monetization, to sell the Note to the Issuer at market value, or in other cases than of a capital protected Note (ii) the early redemption of the Notes at their Fair Market Value and in accordance with the principles and conditions explained under Section 8.

8.7.3.4. Extraordinary Events

“Extraordinary Event” means any of Merger Event, Tender Offer, Nationalisation, Insolvency, Delisting, De-merger Event, or Insolvency Filing, as the case may be.

“Merger Event” means in respect of any relevant Shares:

- any reclassification or change of such Shares that results in a transfer of or an irrevocable commitment to transfer all of such Shares outstanding to another entity or person; or
- any consolidation, amalgamation, merger or binding share exchange of the issuer of the relevant Shares with or into another entity or person (other than a consolidation, amalgamation, merger or binding share exchange in which such issuer is the continuing entity and which does not result in a reclassification or change of all of such Shares outstanding);
- any takeover offer, tender offer, exchange offer, solicitation, proposal or other event by any entity or person to purchase or otherwise obtain 100% of the outstanding Shares of the issuer of the relevant Shares that results in a transfer of or an irrevocable commitment to transfer all such Shares (other than such Shares owned or controlled by such other entity or person); or
- any consolidation, amalgamation, merger or binding share exchange of the issuer of the relevant Shares or its subsidiaries with or into another entity in which the issuer of the relevant Shares is the continuing entity and which does not result in a reclassification or change of all such Shares outstanding but results in the outstanding Shares (other than Shares owned or controlled by such other entity) immediately prior to such event collectively representing less than 50% of the outstanding Shares immediately following such event (a “Reverse Merger”) in each case if the effective date of the Merger Event is on or before the final Valuation Date.

“Tender Offer” means a takeover offer, tender offer, exchange offer, solicitation, proposal or other event by any entity or person that results in such entity or person purchasing, or otherwise obtaining or having the right to obtain, by conversion or other means, greater than 10% and less than 100% of the outstanding voting shares of the issuer of the relevant Shares, as determined by the Calculation Agent, based upon the making of filings with governmental or self-regulatory agencies or such other information as the Calculation Agent deems relevant.

“Nationalisation” means that all the Shares or all the assets or substantially all the assets of the issuer of the relevant Shares are nationalised, expropriated or are otherwise required to be transferred to any governmental agency, authority, entity or instrumentality thereof.

“Insolvency” means that by reason of the voluntary or involuntary liquidation, bankruptcy, insolvency, dissolution or winding-up of or any analogous proceeding affecting the issuer of the relevant Shares, (A) all the Shares of that issuer are required to be transferred to a trustee, liquidator or other similar official or (B) holders of the Shares of that issuer become legally prohibited from transferring them (each time as determined in good faith by the Calculation Agent).

“Delisting” means that the Exchange announces that pursuant to the rules of such Exchange, the Shares cease (or will cease) to be listed, traded or publicly quoted on the Exchange for any reason (other than a Merger Event or Tender Offer) and are not immediately re-listed, re-traded or re-quoted on an exchange or quotation system located

in the same country as the Exchange (or where the Exchange is within the European Union, in any member state of the European Union).

“De-merger Event” means that the issuer of the relevant Shares is affected by a de-merger (such as, but not limited to, spin off, scission or any operation of a similar nature) leading to the attribution of a basket comprising New Shares and/ or Other Consideration and/ or the relevant Share affected by the de-merger (as the case may be), such basket resulting from such de-merger.

In that respect, **“New Shares”** means ordinary or common shares, whether of the entity or person involved or a third party, that are promptly scheduled to be (i) publicly quoted, traded or listed on an exchange or quotation system located in the same country as the Exchange (or where the Exchange is within the European Union, in any member state of the European Union) and (ii) not subject to any currency exchange controls, trading restrictions or other trading limitations. Other Consideration means cash and/or any securities (other than New Shares) or assets whether of the entity or person involved or a third party.

“Insolvency Filing” means that the issuer of the relevant Shares institutes or has instituted against it by a regulator, supervisor, or any similar official with primary insolvency, rehabilitative or regulatory jurisdiction over it in the jurisdiction of its incorporation or organization or the jurisdiction of its head or home office, or it consents to a proceeding seeking a judgment of insolvency or bankruptcy or any other relief under any bankruptcy or insolvency law or other similar law affecting creditors’ rights, or a petition is presented for its winding-up or liquidation by it or such regulator, supervisor or similar official or it consents to such a petition, provided that proceedings instituted or petitions presented by creditors and not consented to by the issuer of the relevant Shares shall not be deemed an Insolvency Filing.

Upon the occurrence on or after the Issue Date up to and including the last Valuation Date, in the determination of the Calculation Agent, of an Extraordinary Event in respect of any Share, the Calculation Agent, on or after the effective date of such Extraordinary Event, may make such adjustments as it, acting in good faith, deems appropriate (including substitution of any affected Share). Such adjustments to be effective as of the date determined by the Calculation Agent, to account for the effect of the relevant Extraordinary Event to protect the theoretical value of the Notes to the Noteholders immediately prior to such Extraordinary Event.

For the avoidance of doubt, if the Calculation Agent determines that the event significantly modifies the economy of the Note regardless of any adjustment the Calculation Agent could make, the Calculation Agent will notify the Noteholders, in accordance with Condition 8.17 (*Notices*), that the relevant consequence of the Extraordinary Event shall be either in the case of a capital protected Note (i) the Monetization of the Notes, or in other cases (ii) the early redemption of the Notes at their Fair Market Value and in accordance with the principles explained under Section 8.

8.7.4. Share Index or Basket of Share Indices

The terms applicable to an Index will differ, depending on whether the Index is specified in the applicable Final Terms to be Multiple Exchange or not. The applicable provisions below will apply.

8.7.4.1. Terms applicable irrespective of whether an Index is Multiple Exchange or not

Definitions

- Index:** Means the index specified as such in the applicable Final Terms.
- Index Basket:** Means a basket of indices as specified in the applicable Final Terms.
- i:** The addition of the letter i in subscript to any term indicates that this term is meant to apply to each Index in the Index Basket separately.
- w:** Means the weight of a certain Index in the Index Basket.
- Index Sponsor:** Means the corporation or other entity that (a) is responsible for setting and reviewing the rules and procedures and the methods of calculation and

adjustments, if any, related to the relevant Index and (b) announces (directly or through an agent) the level for the relevant Index on a regular basis during each Scheduled Trading Day.

Initial Price: Means the price specified as such or otherwise determined in the applicable Final Terms or, if no means for determining the Initial Price are so provided: in respect of the Initial Valuation Date, the level of the relevant Index at the Valuation Time on the Initial Valuation Date, as determined by the Calculation Agent, and in respect of the each subsequent Valuation Date, the Final Price for the Valuation Date immediately preceding such Valuation Date, or, if Initial Averaging is specified as applicable under the applicable Final Terms, means the arithmetic mean, as determined by the Calculation Agent on the Initial Valuation Date, of the levels of the relevant Index as of the Valuation Time on each Initial Averaging Date.

Final Price: Means the level of the relevant Index at the Valuation Time on the relevant Valuation Date, as determined by the Calculation Agent or, if Averaging is specified as applicable under the applicable Final Terms, means the arithmetic mean, as determined by the Calculation Agent on the Valuation Date, of the levels of the relevant Index as of the Valuation Time on each Averaging Date.

Initial Valuation Date: Means the Issue Date or such other date as specified in the applicable Final Terms, and if such date is not a Scheduled Trading Day in respect of the relevant Index, the Initial Price of such Index shall be determined on the basis of the level of such Index as calculated on the immediately following Scheduled Trading Day, subject to Market Disruption, or, if Initial Averaging is specified as applicable, means the final Initial Averaging Date.

Valuation Date: Means any date specified as such in the applicable Final Terms, and if such date is not a Scheduled Trading Day in respect of the relevant Index, the Final Price of such Index shall be determined on the basis of the level of such Index as calculated on the immediately following Scheduled Trading Day, subject to Market Disruption, or, if Averaging is specified as applicable, means the final Averaging Date.

Relevant Price Means the level of the relevant Index determined by the Calculation Agent at the Valuation Time on the relevant Valuation Date.

Scheduled Closing Time: Means in respect of an Exchange or Related Exchange and a Scheduled Trading Day, the scheduled weekday closing time of such Exchange or Related Exchange on such Scheduled Trading Day, without regard to after hours or any other trading outside of the regular trading session hours.

Consequences of Disrupted Days

If any Valuation Date is a Disrupted Day, then:

- if the Underlying is an Index, the Valuation Date shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day, unless each of the eight Scheduled Trading Days immediately following the scheduled Valuation Date is a Disrupted Day. In that case, (i) that eighth Scheduled Trading Day shall be deemed to be the Valuation Date, notwithstanding the fact that such day is a Disrupted Day and (ii) the Calculation Agent shall determine the level of the Index as of the Valuation Time on that eighth Scheduled Trading Day in accordance with the formula for and method of calculating the Index last in effect prior to the occurrence of the first Disrupted Day using the Exchange traded or quoted price as of the Valuation Time on that eighth Scheduled Trading Day of each security comprised in the Index (or, if an event giving rise to a Disrupted Day has occurred in respect of the relevant security on that eighth Scheduled Trading Day, its good faith estimate of the value for the relevant security as of the Valuation Time on that eighth Scheduled Trading Day); and
- if the Underlying is a Basket of Indices, the Valuation Date for each Index not affected by the occurrence of a Disrupted Day shall be the scheduled Valuation Date, and the Valuation Date for each Index affected

by the occurrence of a Disrupted Day shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day relating to that Index, unless each of the eight Scheduled Trading Days immediately following the Scheduled Valuation Date is a Disrupted Day relating to that Index. In that case, (i) that eighth Scheduled Trading Day shall be deemed to be the Valuation Date for the relevant Index, notwithstanding the fact that such day is a Disrupted Day, and (ii) the Calculation Agent shall determine the level of that Index as of the Valuation Time on that eighth Scheduled Trading Day in accordance with the formula for and method of calculating that Index last in effect prior to the occurrence of the first Disrupted Day using the Exchange traded or quoted price as of the Valuation Time on that eighth Scheduled Trading Day of each security comprised in that Index (or, if an event giving rise to a Disrupted Day has occurred in respect of the relevant security on that eighth Scheduled Trading Day, its good faith estimate of the value for the relevant security as of the Valuation Time on that eighth Scheduled Trading Day).

Adjustment to Indices

- If a relevant Index is (i) not calculated and announced by the Index Sponsor but is calculated and announced by a successor sponsor acceptable to the Calculation Agent, or (ii) replaced by a successor index using, in the determination of the Calculation Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of that Index, then that index (the “**Successor Index**”) will be deemed to be the Index.
- If (i) on or prior to any Valuation Date in respect of an Index, the relevant Index Sponsor announces that it will make a material change in the formula for or the method of calculating that Index or in any other way materially modifies that Index (other than a modification prescribed in that formula or method to maintain that Index in the event of changes in constituent stock and capitalization and other routine events) (an “**Index Modification**”) or permanently cancels the Index and no Successor Index exists (an “**Index Cancellation**”) or (ii) on any Valuation Date, the Index Sponsor fails to calculate and announce a relevant Index (an “**Index Disruption**” and together with an Index Modification and an Index Cancellation, each an “**Index Adjustment Event**”), the Calculation Agent shall determine if such Index Adjustment Event has a material effect on the Notes and if so, shall calculate the level of the Index, using, in lieu of a published level for that Index, the level for that Index as at that Valuation Date as determined by the Calculation Agent in accordance with the formula for and the method of calculating that Index last in effect prior to the change, failure or cancellation, but using only those securities that comprised that Index immediately prior to that Index Adjustment Event.

For the purpose hereof “**Index Sponsor**” means the corporation or other entity that (a) is responsible for setting and reviewing the rules and procedures and the methods of calculation and adjustments, if any, related to the Index and (b) announces (directly or through an agent) the level of the Index on a regular basis during each Scheduled Trading Day.

For the avoidance of doubt, if the Calculation Agent determines that the event significantly modifies the economy of the Note regardless of any adjustment the Calculation Agent could make, the Calculation Agent will notify the Noteholders, in accordance with Condition 8.17 (*Notices*), that the relevant consequence of the Extraordinary Event shall be either in the case of a capital protected Note (i) the Monetization of the Notes, or in other cases (ii) the early redemption of the Notes at their Fair Market Value and in accordance with the principles explained under Section 8.

8.7.4.2. Terms applicable to an Index that is not Multiple Exchange

Exchange: Means each exchange or quotation system specified as such for such Index in the applicable Final Terms, any successor to such exchange or quotation system or any substitute exchange or quotation system to which trading in the Shares underlying such Index has temporarily relocated (provided that the Calculation Agent has determined that there is comparable liquidity relative to

such Share on such temporary substitute exchange or quotation system as on the original Exchange).

- Related Exchange:** Means, each exchange or quotation system specified as such for the relevant Index in the applicable Final Terms, any successor to such exchange or quotation system or any substitute exchange or quotation system to which trading in futures or options contracts relating to such Index has temporarily relocated (provided that the Calculation Agent has determined that there is comparable liquidity relative to the futures or options contracts relating to such Index on such temporary substitute exchange or quotation system as on the original Related Exchange), provided, however, that where “All Exchanges” is specified as the Related Exchange in the applicable Final Terms, “Related Exchange” shall mean each exchange or quotation system where trading has a material effect (as determined by the Calculation Agent) on the overall market for futures or options contracts relating to such Index.
- Valuation Time:** Means the time on the relevant Valuation Date, specified as such in the related Final Terms or, if no such time is specified, the Scheduled Closing Time on the relevant Exchange on the relevant Valuation Date, in relation to each Index to be valued. If the relevant Exchange closes prior to its Scheduled Closing Time and the specified Valuation Time is after the actual closing time for its regular trading session, then the Valuation Time shall be such actual closing time.
- Scheduled Trading Day:** Means any day on which the Exchange and each Related Exchange are scheduled to be open for trading for their respective regular trading sessions.
- Exchange Business Day:** Means any Scheduled Trading Day on which each Exchange and each Related Exchange are open for trading during their respective regular trading sessions, notwithstanding any such Exchange or Related Exchange closing prior to its Scheduled Closing Time.

Market Disruption

“**Market Disruption Event**” means in respect of an Index, the occurrence or existence of (i) a Trading Disruption, (ii) an Exchange Disruption, which in either case the Calculation Agent determines is material, at any time during the one hour period that ends at the relevant Valuation Time or (iii) an Early Closure. For the purposes of determining whether a Market Disruption Event exists at any time, if a Market Disruption Event occurs in respect of a security included in the relevant Index at any time, then the relevant percentage contribution of that security to the level of the Index shall be based on a comparison of (x) the portion of the level of the Index attributable to that security and (y) the overall level of the Index, in each case immediately before the occurrence of such Market Disruption Event.

In that respect, “**Trading Disruption**” means any suspension of or limitation imposed on trading by the relevant Exchange or Related Exchange or otherwise and whether by reason of movements in price exceeding limits permitted by the relevant Exchange or Related Exchange or otherwise (i) relating to securities that comprise 20 percent or more of the level of the relevant Index, or (ii) in futures or options contracts relating to the relevant Index on any relevant Related Exchange.

In that respect, “**Exchange Disruption**” means any event (other than an Early Closure) that disrupts or impairs (as determined by the Calculation Agent) the ability of market participants in general to effect transactions in, or obtain market values for, (i) securities that comprise 20 percent or more of the level of the relevant Index, or (ii) in futures or options contracts relating to the relevant Index on any relevant Related Exchange.

In that respect, “**Early Closure**” means the closure on any Exchange Business Day of any relevant Exchange(s) relating to securities that comprise 20 per cent or more of the level of the relevant Index or any Related Exchange(s) prior to its Scheduled Closing Time unless such earlier closing time is announced by such Exchange(s) or Related Exchange(s) at least one hour prior to the earlier of (i) the actual closing time for the regular trading session on such Exchange(s) or Related Exchange(s) on such Exchange Business Day and (ii) the submission deadline for

orders to be entered into the Exchange or Related Exchange system for execution at the Valuation Time on such Exchange Business Day.

In addition, in that respect “**Disrupted Day**” means any Scheduled Trading Day on which a relevant Exchange or any Related Exchange fails to open for trading during its regular trading session or on which a Market Disruption Event has occurred.

8.7.4.3. Terms applicable to an Index that is Multiple Exchange

Exchange: Means in respect of each component security of the Index (each, a “Component Security”), the principal stock exchange on which such Component Security is principally traded, as determined by the Calculation Agent.

Related Exchange: Means, each exchange or quotation system specified as such for the relevant Index in the applicable Final Terms, any successor to such exchange or quotation system or any substitute exchange or quotation system to which trading in futures or options contracts relating to such Index has temporarily relocated (provided that the Calculation Agent has determined that there is comparable liquidity relative to the futures or options contracts relating to such Index on such temporary substitute exchange or quotation system as on the original Related Exchange), provided, however, that where “All Exchanges” is specified as the Related Exchange in the applicable Final Terms, “Related Exchange” shall mean each exchange or quotation system where trading has a material effect (as determined by the Calculation Agent) on the overall market for futures or options contracts relating to such Index.

Valuation Time: Means: (i) for the purposes of determining whether a Market Disruption Event has occurred: (a) in respect of any Component Security, the Scheduled Closing Time on the Exchange in respect of such Component Security, and (b) in respect of any options contracts or future contracts on the Index, the close of trading on the Related Exchange; and (ii) in all other circumstances, the time at which the official level of the Index is calculated and published by the Index Sponsor.

Scheduled Trading Day: Means any day on which: (i) the Index Sponsor is scheduled to publish the level of the Index and (ii) the Related Exchange is scheduled to be open for trading for its regular trading session.

Exchange Business Day: Means any Scheduled Trading Day on which (i) the Index Sponsor publishes the level of the Index; and (ii) the Related Exchange is open for trading during its respective regular trading session, notwithstanding any Exchange or the Related Exchange closing prior to its Scheduled Closing Time.

“**Market Disruption Event**” means either

- (i) (a) the occurrence or existence, in respect of any Component Security of:
 - (1) a Trading Disruption in respect of such Component Security, which the Calculation Agent determines is material, at any time during the one hour period that ends at the relevant Valuation Time in respect of the Exchange on which such Component Security is principally traded;
 - (2) an Exchange Disruption in respect of such Component Security, which the Calculation Agent determines is material, at any time during the one hour period that ends at the relevant Valuation Time in respect of the Exchange on which such Component Security is principally traded; or
 - (3) an Early Closure in respect of such Component Security; and
 - (b) the aggregate of all Component Security in respect of which a Trading Disruption, an Exchange Disruption or an Early Closure occurs or exists comprises 20 per cent. or more of the level of the Index; or
- (ii) the occurrence or existence, in respect of futures or options contracts relating to the Index, of: (a) a Trading Disruption; (b) an Exchange Disruption, which in either case the Calculation Agent determines

is material, at any time during the one hour period that ends at the relevant Valuation Time in respect of the Related Exchange; or (c) an Early Closure, in each case in respect of such futures or options contracts.

For the purposes of determining whether a Market Disruption Event in respect of any Index exists at any time, if a Market Disruption Event occurs in respect of a Component Security at any time, then the relevant percentage contribution of that Component Security to the level of the Index shall be based on a comparison of (x) the portion of the level of the Index attributable to that Component Security and (y) the overall level of the Index, in each case using the official opening weightings as published by the Index Sponsor as part of the market “opening data”.

In that respect, “**Trading Disruption**” means any suspension of or limitation imposed on trading by the relevant Exchange or Related Exchange or otherwise and whether by reason of movements in price exceeding limits permitted by the relevant Exchange or Related Exchange or otherwise (i) relating to any Component Security on the Exchange in respect of such Component Security; or (ii) in futures or options contracts relating to the Index on the Related Exchange.

In that respect, “**Exchange Disruption**” means any event (other than an Early Closure) that disrupts or impairs (as determined by the Calculation Agent) the ability of market participants in general to effect transactions in, or obtain market values for: (i) any Component Security on the Exchange, in respect of such Component Security; or (ii) in futures or options contracts relating to the Index on the Related Exchange.

In that respect, “**Early Closure**” means the closure on any Exchange Business Day of the Exchange in respect of any Component Security or the Related Exchange prior to its Scheduled Closing Time unless such earlier closing time is announced by such Exchange or Related Exchange (as the case may be) at least one hour prior to the earlier of (i) the actual closing time for the regular trading session on such Exchange or Related Exchange (as the case may be) on such Exchange Business Day and (ii) the submission deadline for orders to be entered into the Exchange or Related Exchange system for execution at the relevant Valuation Time on such Exchange Business Day.

In addition, in that respect “**Disrupted Day**” means any Scheduled Trading Day on which: (i) the Index Sponsor fails to publish the level of the Index; (ii) the Related Exchange fails to open for trading during its regular trading session; or (iii) a Market Disruption Event has occurred.

8.7.5. Fund or Basket of Funds

8.7.5.1. Definitions

Reference Fund:	Means the Reference Fund specified as such in the applicable Final Terms.
Fund Basket:	Means a basket of Reference Funds as specified in the applicable Final Terms.
i:	The addition of the letter i in subscript to any term indicates that this term is meant to apply to each Reference Fund in the Fund Basket separately.
w:	Means the weight of a certain Reference Fund in the Fund Basket.
Fund Interest Unit:	Means a notional unit of account of ownership in a Reference Fund, whether a share or another type of unit.
Initial Price:	Means the price specified as such or otherwise determined in the applicable Final Terms or, if no means for determining the Initial Price are so provided: in respect of the Initial Valuation Date, the Relevant Price of a Fund Interest Unit in the relevant Reference Fund for the Initial Valuation Date, as determined by the Calculation Agent, and in respect of the each subsequent Valuation Date, the Final Price for the Valuation Date immediately preceding such Valuation Date, or, if Initial Averaging is specified as applicable under the applicable Final Terms, means the arithmetic mean, as determined by the Calculation Agent on the Initial Valuation Date, of the prices of the relevant Fund Interest Unit in the relevant Reference Fund as of the Valuation Time on each Initial Averaging Date.

Final Price:	Means the Relevant Price of a Fund Interest Unit in the relevant Reference Fund for the relevant Valuation Date, as determined by the Calculation Agent or, if Averaging is specified as applicable under the applicable Final Terms, means the arithmetic mean, as determined by the Calculation Agent on the Valuation Date, of the prices of the relevant Fund Interest Unit in the relevant Reference Fund as of the Valuation Time on each Averaging Date.
Initial Valuation Date:	Means the Issue Date or such other date as specified in the applicable Final Terms, and if such date is not a Scheduled Fund Valuation Date in respect of the relevant Reference Fund, the Initial Price of a Fund Interest Unit in such Reference Fund shall be determined on the basis of the Relevant Price of such Fund Interest Unit as calculated on the immediately following Scheduled Fund Valuation Date, or, if Initial Averaging is specified as applicable, means the final Initial Averaging Date.
Valuation Date:	Means any date specified as such in the applicable Final Terms, and if such date is not a Scheduled Fund Valuation Date in respect of the relevant Reference Fund, the Final Price of a Fund Interest Unit in such Reference Fund shall be determined on the basis of the Relevant Price of such Fund Interest Unit as calculated on the immediately following Scheduled Fund Valuation Date, or, if Averaging is specified as applicable, means the final Averaging Date.
Relevant Price:	Means the price of the relevant Fund Interest Unit as published by the Fund Administrator. In case a price in respect of any Valuation Date is not published by the fourth Scheduled Fund Valuation Date, the Calculation Agent may determine such price taking into account prevailing market conditions.
Scheduled Fund Valuation Date:	Means any date in respect of which the relevant Reference Fund (or its service provider that generally determines such value) is scheduled, according to its Fund Documents (without giving effect to any gating, deferral, suspension or other provisions permitting the Reference Fund to delay or refuse redemption of Fund Interest Units); to determine the value of such Fund Interest Unit or, if the relevant Reference Fund only reports its aggregate net asset value, the date in respect of which such Reference Fund is scheduled to determine its aggregate net asset value.
Fund Documents:	Means, with respect to any Fund Interest Unit, the constitutive and governing documents, subscription agreements and other agreements of the related Reference Fund specifying the terms and conditions relating to such Fund Interest Unit, as amended from time to time.

8.7.5.2. Potential Adjustment Events

Upon the occurrence on or after the Issue Date up to and including the last Valuation Date of a Potential Adjustment Event (as defined below), the Calculation Agent will determine whether such Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the relevant Fund Interest Units and if so will:

- (i) make the corresponding adjustment(s), if any, to any relevant variable in the Variable Linked formulae of the Notes, which may include the Initial Price or the Final Price, used to calculate any Variable Linked Rate or Variable Linked Redemption Amount as the Calculation Agent determines appropriate to account for that diluting or concentrative effect (provided that no adjustments will be made to account solely for changes in volatility, expected dividends or liquidity relative to the relevant Fund Interest Unit); and
- (ii) determine the effective date(s) of the adjustment(s).

For the purpose hereof, “**Potential Adjustment Event**” shall mean any of the following:

- a subdivision, consolidation or reclassification of the relevant Fund Interest Units or a free distribution or dividend of any such Fund Interest Units to existing holders by way of bonus, capitalisation or similar issue;

- a distribution, issue or dividend to existing holders of the relevant Fund Interest Units of (a) an additional amount of such Fund Interest Units, or (b) other share capital or securities granting the right to payment of dividends and/or the proceeds of liquidation of the Reference Fund equally or proportionately with such payments to holders of such Fund Interest Units, or (c) share capital or other securities of another issuer acquired or owned (directly or indirectly) by the Reference Fund as a result of a spin-off or other similar transaction or (d) any other type of securities, rights or warrants or other assets, in any case for payment (cash or other consideration) at less than the prevailing market price as determined by the Calculation Agent;
- an extraordinary dividend as determined by the Calculation Agent;
- a repurchase by the Reference Fund of relevant Fund Interest Units whether the consideration for such repurchase is cash, securities or otherwise, other than in respect of a redemption of Fund Interest Units initiated by a Noteholder in such Fund Interest Units initiated by a Noteholder in such Fund Interest Units that is consistent with the Fund Documents; or
- any other event that may have a diluting or concentrative effect on the theoretical value of the relevant Fund Interest Units.

If the Calculation Agent determines that the event significantly modifies the economy of the Note regardless of any adjustment the Calculation Agent could make, the Calculation Agent may notify the Noteholders, in accordance with Condition 8.17 (*Notices*), that the relevant consequence of the Potential Adjustment Event shall be either in the case of a capital protected Note (i) the Monetization of the Notes, with the right for the Noteholders, as an alternative to the Monetization, to sell the Note to the Issuer at market value, or in other cases than the capital protected Note (ii) the early redemption of the Notes at their Fair Market Value and in accordance with the principles and conditions explained under Section 8.

8.7.5.3. Extraordinary Events

Means any of Nationalisation, Insolvency, Fund Insolvency Event, Fund Modification, Strategy Breach, Regulatory Action and Reporting Disruption.

“**Nationalisation**” means that all the Fund Interest Units or all or substantially all the assets of a Reference Fund are nationalised, expropriated or are otherwise required to be transferred to any governmental agency, authority, entity or instrumentality thereof.

“**Insolvency**” means that by reason of voluntary or involuntary liquidation, bankruptcy, insolvency, dissolution or winding-up of or any analogous proceeding affecting a Reference Fund, (i) all the Fund Interest Units of that Reference Fund are required to be transferred to a trustee, liquidator or other similar official or (ii) holders of the Fund Interest Units of that Reference Fund become legally prohibited from transferring or redeeming them.

“**Fund Insolvency Event**” means, in respect of any Fund Interest Unit, that the related Reference Fund (i) is dissolved or has a resolution passed for its dissolution, winding-up, official liquidation (other than pursuant to a consolidation, amalgamation or merger); (ii) makes a general assignment or arrangement with or for the benefit of its creditors; (iii) (A) institutes or has instituted against it, by a regulator, supervisor or any similar official with primary insolvency, rehabilitative or regulatory jurisdiction over it in the jurisdiction of its incorporation or organization or the jurisdiction of its head or home office, a proceeding seeking a judgment of insolvency or bankruptcy or any other relief under any bankruptcy or insolvency law or other similar law affecting creditors’ rights, or a petition is presented for its winding-up or liquidation by it or such regulator, supervisor or similar official, or (B) has instituted against it a proceeding seeking a judgment of insolvency or bankruptcy or any other relief under any bankruptcy or insolvency law or other similar law affecting creditors’ rights, or a petition is presented for its winding-up or liquidation, and such proceeding or petition is instituted or presented by a person or entity not described in clause (A) above and either (x) results in a judgment of insolvency or bankruptcy or the entry of an order for relief or the making of an order for its winding-up or liquidation or (y) is not dismissed, discharged, stayed or restrained in each case within fifteen days of the institution or presentation thereof; (iv) seeks or becomes subject to the appointment of an administrator, provisional liquidator, conservator, receiver, trustee,

custodian or other similar official for it or for all or substantially all its assets; (v) has a secured party take possession of all or substantially all its assets or has a distress, execution, attachment, sequestration or other legal process levied, enforced or sued on or against all or substantially all of its assets and such secured party maintains possession, or any such process is not dismissed, discharged, stayed or restrained, in each case within fifteen days thereafter; or (vi) causes or is subject to any event with respect to it which, under the applicable laws of any jurisdiction, has an analogous effect to any of the events specified in clauses (v) through (vi) above.

“**Fund Modification**” means (i) any change or modification of the related Fund Documents that could reasonably be expected to affect the value of such Fund Interest or the rights or remedies of any holders thereof, in each case, as determined by the Calculation Agent, or (ii) the Reference Fund Investment Manager imposes fees or dealing rules that increase the effective dealing costs relating to any Reference Fund.

“**Strategy Breach**” means any breach or violation of any strategy or investment guidelines stated in the related Fund Documents that is reasonably likely to affect the value of such Fund Interest or the rights or remedies of any holders thereof, in each case, as determined by the Calculation Agent.

“**Regulatory Action**” means, with respect to any Fund Interest Unit, (i) cancellation, suspension or revocation of the registration or approval of such Fund Interest Unit or the related Reference Fund by any governmental, legal or regulatory entity with authority over such Fund Interest Unit or Reference Fund, (ii) any change in the legal, tax, accounting, or regulatory treatments of the relevant Reference Fund that is reasonably likely to have an adverse impact on the value of such Fund Interest Unit or on any investor therein (as determined by the Calculation Agent), or (iii) the related Reference Fund or its Fund Investment Manager becoming subject to any investigation, proceeding or litigation by any relevant governmental, legal or regulatory authority involving the alleged violation of applicable law for any activities relating to or resulting from the operation of such Reference Fund or Fund Investment Manager.

“**Reporting Disruption**” means, in respect of any Fund Interest Unit, the occurrence of any event affecting such Fund Interest Unit that, in the determination of the Calculation Agent, would make it impossible or impracticable for the Calculation Agent to determine the value of such Fund Interest Unit, and such event is expected to continue for the foreseeable future.

Upon the occurrence on or after the Issue Date up to and including the last Valuation Date, in the determination of the Calculation Agent, of an Extraordinary Event in respect of any Reference Fund, the Calculation Agent, on or after the effective date of such Extraordinary Event, may make such adjustments as it, acting in good faith, deems appropriate (including substitution of any affected Reference Fund). Such adjustments to be effective as of the date determined by the Calculation Agent, to account for the effect of the relevant Extraordinary Event to protect the theoretical value of the Notes to the Noteholders immediately prior to such Extraordinary Event.

For the avoidance of doubt, if the Calculation Agent determines that the event significantly modifies the economy of the Note regardless of any adjustment the Calculation Agent could make, the Calculation Agent will notify the Noteholders, in accordance with Condition 8.17 (*Notices*), that the relevant consequence of the Extraordinary Event shall be either in the case of a capital protected Note (i) the Monetization of the Notes, with the right for the Noteholders, as an alternative to the Monetization, to sell the Note to the Issuer at market value, or in other cases than the capital protected Note (ii) the early redemption of the Notes at their Fair Market Value and in accordance with the principles and conditions explained under Section 8.

8.7.6. Commodity or Basket of Commodities

8.7.6.1. Definitions

- | | |
|--------------------------|--|
| Commodity: | Means the Commodity specified as such in the applicable Final Terms. |
| Commodity Basket: | Means a basket of Commodities as specified in the applicable Final Terms. |
| i: | The addition of the letter i in subscript to any term indicates that this term is meant to apply to each Commodity in the Commodity Basket separately. |

w:	Means the weight of a certain Commodity in the Commodity Basket.
Initial Price:	Means the price specified as such or otherwise determined in the applicable Final Terms or, if no means for determining the Initial Price are so provided: in respect of the Initial Valuation Date, the price of the relevant Commodity on the Initial Valuation Date, as determined by the Calculation Agent, and in respect of the each subsequent Valuation Date, the Final Price for the Valuation Date immediately preceding such Valuation Date or, if Initial Averaging is specified as applicable under the applicable Final Terms, means the arithmetic mean, as determined by the Calculation Agent on the Initial Valuation Date, of the prices of the relevant Commodity or Commodity Basket as of the Valuation Time on each Initial Averaging Date.
Final Price:	Means the price of the relevant Commodity at the Valuation Time on the relevant Valuation Date, as determined by the Calculation Agent or, if Averaging is specified as applicable under the applicable Final Terms, means the arithmetic mean, as determined by the Calculation Agent on the Valuation Date, of the prices of the relevant Commodity or Commodity Basket as of the Valuation Time on each Averaging Date.
Initial Valuation Date:	Means the Issue Date or such other date as specified in the applicable Final Terms, and if such date is not a Commodity Business Day in respect of the relevant Commodity, the Initial Price of such Commodity shall be determined on the basis of the price of such Commodity as calculated on the immediately following Commodity Business Day, subject to Market Disruption, or, if Initial Averaging is specified as applicable, means the final Initial Averaging Date.
Valuation Date:	Means any date specified as such in the applicable Final Terms, and if such date is not a Commodity Business Day in respect of the relevant Commodity, the Final Price of such Commodity shall be determined on the basis of the Relevant Price of such Commodity as calculated on the immediately following Commodity Business Day, subject to Market Disruption, or, if Averaging is specified as applicable, means the final Averaging Date.
Relevant Price	Means the price of the relevant Commodity determined by the Calculation Agent at the Valuation Time on the relevant Valuation Date.
Commodity Business Day:	Means for the relevant Commodity a day that is (or, but for the occurrence of a Market Disruption Event, would have been) a day on which the relevant Exchange is open for trading during its regular trading session, notwithstanding any such Exchange closing prior to its scheduled closing time.
Exchange:	Means the exchange or principal trading market specified in the applicable Final Terms.

8.7.6.2. Market Disruption

“**Market Disruption Event**” means any of (i) Price Source Disruption, (ii) Trading Disruption, (iii) Disappearance of Commodity, (iv) Material Change in Formula, (v) Material Change in Content or (vi) Tax Disruption, as defined below, except that for a Commodity that is Bullion, (iv) Material Change in Formula and (v) Material Change in Content will not apply.

“**Price Source Disruption**” means (A) the failure of the Price Source to announce or publish the price (or the information necessary for determining the price) for the relevant Commodity; or (B) the temporary or permanent discontinuance or unavailability of the Price Source.

“**Trading Disruption**” means the material suspension of, or the material limitation imposed on, trading in the futures contract on the Commodity or the Commodity on the Exchange. For these purposes:

a suspension of the trading in the futures contract on the Commodity or the Commodity on any Commodity Business Day shall be deemed to be material only if:

all trading in the futures contract on the Commodity or the Commodity is suspended for the entire day; or

all trading in the futures contract on the Commodity or the Commodity is suspended subsequent to the opening of trading on that day, trading does not recommence prior to the regularly scheduled close of trading in such futures contract on the Commodity or Commodity on such day and such suspension is announced less than one hour preceding its commencement; and

a limitation of trading in the futures contract on the Commodity or the Commodity on any Commodity Business Day shall be deemed to be material only if the relevant Exchange establishes limits on the range within which the price of the futures contract on the Commodity or the Commodity may fluctuate and the closing or settlement price of the futures contract on the Commodity or the Commodity on such day is at the upper or lower limit of that range.

“Disappearance of Commodity” means:

the permanent discontinuation of trading, in the relevant futures contract on the Commodity; or

the disappearance of, or of trading in, the relevant Commodity; or

the disappearance or permanent discontinuance or unavailability of a price for the Commodity, notwithstanding the availability of the related Price Source or the status of trading in the relevant futures contract on the Commodity or the relevant Commodity.

“Material Change in Formula” means the occurrence of a material change in the formula for or the method of calculating the relevant price of the Commodity.

“Material Change in Content” means the occurrence of a material change in the content, composition or constitution of the Commodity or relevant futures contract on the Commodity.

“Tax Disruption” means the imposition of, change in or removal of an excise, severance, sales, use, value-added, transfer, stamp, documentary, recording or similar tax on, or measured by reference to, the relevant Commodity (other than a tax on, or measured by reference to overall gross or net income) by any government or taxation authority, if the direct effect of such imposition, change or removal is to raise or lower the Relevant Price on the day that would otherwise be a Pricing Date from what it would have been without that imposition, change or removal.

“Bullion” means Gold, Silver, Platinum or Palladium, as the case may be.

In case a Market Disruption Event occurs the Calculation Agent will determine in good faith and in a commercially reasonable manner the Final Price of the relevant Commodity (or a method for determining the Final Price of the relevant Commodity).

If the Calculation Agent determines that the event significantly modifies the economy of the Note regardless of any adjustment the Calculation Agent could make, the Calculation Agent may notify the Noteholders, in accordance with Condition 8.17 (*Notices*), that the relevant consequence of the Potential Adjustment Event shall be either in the case of a capital protected Note (i) the Monetization of the Notes, with the right for the Noteholders, as an alternative to the Monetization, to sell the Note to the Issuer at market value, or in other cases than the capital protected Note (ii) the early redemption of the Notes at their Fair Market Value and in accordance with the principles and conditions explained under Section 8.

8.7.7. Commodity Index or Basket of Commodity Indices

8.7.7.1. Definitions

Commodity Index: Means the Commodity Index specified as such in the applicable Final Terms.

Commodity Index Basket:	Means a basket of Commodities Indices as specified in the applicable Final Terms.
i:	The addition of the letter i in subscript to any term indicates that this term is meant to apply to each Commodity Index in the Commodity Index Basket separately.
w:	Means the weight of a certain Commodity Index in the Commodity Index Basket.
Initial Price:	Means the price specified as such or otherwise determined in the applicable Final Terms or, if no means for determining the Initial Price are so provided: in respect of the Initial Valuation Date, the level of the relevant Commodity Index or Basket on the Initial Valuation Date, as determined by the Calculation Agent, and in respect of each subsequent Valuation Date, the Final Price for the Valuation Date immediately preceding such Valuation Date or, if Initial Averaging is specified as applicable under the applicable Final Terms, means the arithmetic mean, as determined by the Calculation Agent on the Initial Valuation Date, of the levels of the relevant Commodity Index or Commodity Index Basket as of the Valuation Time on each Initial Averaging Date.
Final Price:	Means the level of the relevant Commodity Index at the Valuation Time on the relevant Valuation Date, as determined by the Calculation Agent or, if Averaging is specified as applicable under the applicable Final Terms, means the arithmetic mean, as determined by the Calculation Agent on the Valuation Date, of the levels of the relevant Commodity Index or Commodity Index Basket as of the Valuation Time on each Averaging Date.
Initial Valuation Date:	Means the Issue Date or such other date as specified in the applicable Final Terms, and if such date is not a Scheduled Publication Day in respect of the relevant Commodity Index, the Initial Price of such Commodity Index shall be determined on the basis of the price of such Commodity Index as calculated on the immediately following Scheduled Publication Day, subject to the occurrence of any Commodity Index Event, or, if Initial Averaging is specified as applicable, means the final Initial Averaging Date.
Valuation Date:	Means any date specified as such in the applicable Final Terms, and if such date is not a Scheduled Publication Day in respect of the relevant Commodity Index, the Final Price of such Commodity Index shall be determined on the basis of the Relevant Price of such Commodity Index as calculated on the immediately following Scheduled Publication Day, subject to the occurrence of any Commodity Index Event, or, if Averaging is specified as applicable, means the final Averaging Date.
Relevant Price	Means the level of the relevant Commodity Index or Commodity Index Basket determined by the Calculation Agent at the Valuation Time on the relevant Valuation Date.
Scheduled Publication Day:	Means any day on which the Commodity Index Sponsor is scheduled to publish the level of the relevant Commodity Index.
Commodity Index Sponsor:	Means the corporation or other entity that (a) is responsible for setting and reviewing the rules and procedures and the methods of calculation and adjustments, if any, related to the relevant Commodity Index and (b) announces (directly or through an agent) the level of the Commodity Index on a regular basis.

8.7.7.2. Commodity Index Event

If, in the opinion of the Calculation Agent, any Commodity Index is modified by the Commodity Index Sponsor, cancelled by the Commodity Index Sponsor, replaced by a successor commodity index or remains unpublished by the Commodity Index Sponsor, or if, in the opinion of the Calculation Agent, a Commodity Index Market Disruption Event occurs (any of the above events, a “**Commodity Index Event**”), the Calculation Agent shall

determine in its sole discretion, but in good faith and in a commercially reasonable manner, how such Commodity Index Event affects the Notes and what its consequences should be.

For the avoidance of doubt, if the Calculation Agent determines that the event significantly modifies the economy of the Note regardless of any adjustment the Calculation Agent could make, the Calculation Agent will notify the Noteholders, in accordance with Condition 8.17 (*Notices*), that the relevant consequence of the Commodity Index Event shall be either in the case of a capital protected Note (i) the Monetization of the Notes, with the right for the Noteholders, as an alternative to the Monetization, to sell the Note to the Issuer at market value, or in other cases than the capital protected Note (ii) the early redemption of the Notes at their Fair Market Value and in accordance with the principles and conditions explained under Section 8.

A “**Commodity Index Market Disruption Event**” means any of (a) the termination or suspension of, or material limitation or disruption in, the trading of any exchange-traded futures contract included in a relevant Commodity Index, and (b) the settlement price of any such contract has increased or decreased by an amount equal to the maximum permitted price change from the previous day’s settlement price, or (c) the exchange fails to publish official settlement prices for any such contract.

8.7.8. Inflation Index

8.7.7.1. Definitions

Index:	Means the index specified as such in the applicable Final Terms.
Initial Index:	Means the level of the index determined by the Calculation Agent in accordance with the applicable Final Terms.
Final Index:	Means the level of the index determined by the Calculation Agent in accordance with the applicable Final Terms.
Index Sponsor:	Means the sponsor of the Index as specified in the Final Terms.
Reference Month:	Means the calendar month for which the level of the Index was reported, regardless of when this information is published or announced.

8.7.8.2. Events affecting the Index

(i) Delay of Publication

If any level of the Index for a Reference Month has not been published or announced by the day that is five Business Days prior to the next Interest Payment Date, the Calculation Agent may either determine the level of the Index based on its own calculations or make any adjustment to the Notes as it may deem appropriate.

If the Calculation Agent determines that the event significantly modifies the economy of the Note regardless of any adjustment the Calculation Agent could make, the Calculation Agent may notify the Noteholders, in accordance with Condition 8.17 (*Notices*), that the Notes will be redeemed early. In case of such early redemption, the Calculation Agent shall give its good faith estimate of the value of the Notes.

(ii) Cessation of Publication

If a level for the Index has not been published or announced for two consecutive months or the Index Sponsor announces that it will no longer continue to publish or announce the Index then the Calculation Agent may determine a successor Index or make any adjustment to the Notes as it may deem appropriate.

If the Calculation Agent determines that no appropriate successor Index exists, or that the event significantly modifies the economy of the Note regardless of any adjustment the Calculation Agent could make, the Calculation Agent may notify the Noteholders, in accordance with Condition 8.17 (*Notices*), that the Notes will be redeemed early. In case of such early redemption, the Calculation Agent shall give its good faith estimate of the value of the Notes.

(iii) Rebasing of the Index

If the Calculation Agent determines that the Index has been or will be rebased at any time, the Index as so rebased will be used for purposes of determining the level of the Index from the date of such rebasing; provided, however, that the Calculation Agent may make such adjustments to the Notes as it may deem appropriate.

If the Calculation Agent determines that the event significantly modifies the economy of the Note regardless of any adjustment the Calculation Agent could make, the Calculation Agent may notify the Noteholders, in accordance with Condition 8.17 (*Notices*), that the Notes will be redeemed early. In case of such early redemption, the Calculation Agent shall give its good faith estimate of the value of the Notes.

(iv) Material Modification

If, on or prior to the day that is five Business Days before an Interest Payment Date, the Index Sponsor announces that it will make a material change to the Index, then the Calculation Agent may make any such adjustment to the Index or to the Notes as it may deem appropriate.

If the Calculation Agent determines that the event significantly modifies the economy of the Note regardless of any adjustment the Calculation Agent could make, the Calculation Agent may notify the Noteholders, in

accordance with Condition 8.17 (*Notices*), that the Notes will be redeemed early. In case of such early redemption, the Calculation Agent shall give its good faith estimate of the value of the Notes.

If the Calculation Agent determines that the event significantly modifies the economy of the Note regardless of any adjustment the Calculation Agent could make, the Calculation Agent will notify the Noteholders, in accordance with Condition 8.17 (*Notices*), that the relevant consequence shall be either in the case of a capital protected Note (i) the Monetization of the Notes, with the right for the Noteholders, as an alternative to the Monetization, to sell the Note to the Issuer at market value, or in other cases than the capital protected Note (ii) the early redemption of the Notes at their Fair Market Value and in accordance with the principles and conditions explained under Section 8.

8.8. Rounding

For the purposes of any calculations required pursuant to these Terms and Conditions (unless otherwise specified in the applicable Final Terms), (i) all percentages resulting from such calculations shall be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point (with halves being rounded up), and (ii) all currency amounts that fall due and payable shall be rounded to the nearest unit of such currency (with halves being rounded down). For these purposes “unit” means, the lowest amount of such currency that is available as legal tender in the country of such currency.

8.9. Status of the Notes and waiver of set-off

8.9.1. Status of the Notes

1. Belfius Bank Notes

On 31 July 2017, Belgium adopted a legislation establishing a new category of debt securities available to credit institutions. The law provides for a new Article 389/1 into the Banking Law. In particular, Article 389/1 aims at increasing the effectiveness of the bail-in tool and introduces a new category of claims in the statutory creditor hierarchy in the case of a liquidation procedure (*procédure de liquidation/liquidatieprocedure*) of a credit institution. Article 389/1 of the Banking Law now divides senior notes into: (i) senior preferred notes, retaining the same ranking as the previous senior notes; and (ii) senior non-preferred notes. Senior non-preferred notes are direct, unconditional, senior, and unsecured (*chirographaires/chirografair*) obligations. In the case of liquidation, they will rank senior to subordinated notes but junior to both ordinary senior preferred notes and to claims benefiting from legal or statutory preferences. Furthermore, senior non-preferred notes must have the following characteristics: they may not contain embedded derivatives or be derivatives themselves (it being understood that floating rate debt instruments which are derived from a commonly used reference rate and debt instruments which are not denominated in the national currency of the issuer, provided that principal, repayment and interest are denominated in the same currency, may not solely on the basis of these characteristics be considered as debt instruments containing embedded derivatives); their maturity may not be less than one year; and their terms must expressly provide that the claim is unsecured (*chirographaire/chirografair*) and that their ranking is as set forth in Article 389/1, 2° of the Banking Law.

The Belfius Bank Notes are senior preferred notes and the payments of principal and interest relating to them are direct, unconditional and unsecured obligations of Belfius Bank and rank at all times:

- (i) *pari passu*, without any preference among themselves, with all other outstanding unsecured and unsubordinated obligations of Belfius Bank, present and future, which will fall or are expressed to fall within the category of obligations as referred under Article 389/1, 1° of the Banking Law, but, in the event of insolvency, only to the extent permitted by laws relating to creditors' rights;
- (ii) senior to (a) any obligations or other instruments issued by Belfius Bank which fall or are expressed to fall within the category of obligations as referred under Article 389/1, 2° of the Banking Law and (b) any obligations ranking *pari passu* with or junior to obligations mentioned under (a); and

(iii) junior to all present and future claims as may be preferred by laws of general application.

2. Belfius Financing Company Notes

The Belfius Financing Company Notes are senior preferred notes and the payments of principal and interest relating to them are direct, unconditional and unsecured obligations of Belfius Financing Company and rank at all times *pari passu*, without any preference among themselves, with all other outstanding unsecured and unsubordinated obligations of Belfius Financing Company, present and future (other than in respect of statutorily preferred creditors).

8.9.2. Waiver of set-off

Subject to applicable law, no Noteholder may exercise or claim any right of set-off, netting, compensation or retention in respect of any amount owed to it by the Issuers arising under or in connection with the Notes and each Noteholder shall, by virtue of its subscription, purchase or holding of a Note (or a beneficial interest therein), be deemed to have waived all such rights of set-off, netting, compensation or retention. Notwithstanding the preceding sentence, if any amounts owing to any Noteholder by the relevant Issuer is discharged by set-off, netting, compensation or retention, such Noteholder shall, unless payment is prohibited by law, immediately pay an amount equal to the amount of such discharge to the relevant Issuer or, in the event of its winding-up or administration, the liquidator or administrator, as appropriate, of the relevant Issuer for the payment to creditors of the relevant Issuer in respect of amounts owing to them by the relevant Issuer and accordingly any such discharge shall be deemed not to have taken place.

8.10. Clearing Systems

For any Notes issued in dematerialised or bearer form, the clearing systems operated by Euroclear, Clearstream Banking S.A., the Securities Settlement System, and such other clearing system as may be agreed between the Issuer and the Fiscal Agent or Domiciliary Agent and as specified in the applicable Final Terms.

8.11. Events of Default

If and only if any of the following events occurs and is continuing (each an “**Events of Default**”), any Noteholder may by written notice to the Issuer and, in the case of Belfius Financing Company Notes, the Guarantor at its or their specified office declare his Note or Notes immediately due and payable with the following consequences (unless, such Event of Default shall have been remedied prior to the receipt of such notice):

- (a) if default is made by the Issuer for a period of 30 calendar days or more in the payment of interest on the Notes when and as the same shall become due and payable; or
- (b) in the event of default by the Issuer or, in the case of Belfius Financing Company Notes, the Guarantor, as the case may be, in the due performance of any other obligation under the terms and conditions of the Notes, unless remedied within 45 days after receipt of a written notice thereof given by any Noteholder; or
- (c) in the event of a merger, consolidation or other reorganisation of the Issuer or, as applicable, the Guarantor with, or a sale or other transfer by the Issuer or, as applicable, the Guarantor of all or a substantial part of its assets to, any other incorporated or unincorporated person or legal entity, unless, in each case not involving or arising out of insolvency, the person or entity surviving such merger, consolidation or other reorganisation or to which such assets shall have been sold or transferred shall have assumed expressly and effectively or by law all obligations of the Issuer or, as applicable, the Guarantor, as the case may be, with respect to the Notes and, the interests of the holders of Notes are not materially prejudiced thereby; or
- (d) in the event that the Issuer or, as applicable, the Guarantor is adjudicated bankrupt or insolvent, or admits in writing its inability to pay its debts as they mature, or makes an assignment for the benefit of its

creditors, or enters into a composition with its creditors, or applies for a moratorium, or institutes or has instituted any proceedings under any applicable bankruptcy law, insolvency law, composition law or any law governing the appointment of a receiver, administrator, trustee or other similar official for the whole or any substantial part of its assets or property or any other similar law, or in the event that any such proceedings are instituted against the Issuer or, as applicable, the Guarantor and remain undismissed for a period of 30 days, or

- (e) if, for any reason, the Guarantee ceases to be in full force and effect.

Notice of any Event of Default shall be given to the Noteholders in accordance with Condition 8.17 (*Notices*).

8.12. Modifications

The Issuers and, as applicable, the Guarantor may, without the consent of the Noteholders, make any modification to the Terms and Conditions of the Notes (including the terms set out in the Final Terms for any Tranche of Notes) which in the relevant Issuer's and, as applicable, the Guarantor's opinion is of a formal, minor or technical nature or is made to correct a manifest error, provided that such modification could not reasonably be expected to be materially prejudicial to the interests of the Noteholders. Any such modification shall be binding on the Noteholders and shall be notified to the Noteholders in accordance with Condition 8.17 (*Notices*) as soon as practicable thereafter.

The Issuers and, as applicable, the Guarantor shall only permit any modification of, or any waiver or authorisation of any breach or proposed breach of or any failure to comply with, the Agency Agreement, if to do so could not reasonably be expected to be prejudicial to the interests of the Noteholders.

8.13. Responsibility of the Calculation Agent

All calculations shall be made in a commercially reasonable manner. The Calculation Agent shall have no responsibility to Noteholders for good faith errors or omissions in its calculations (without limitation, errors or omissions due to events which are not under the direct control of the Calculation Agent) and determinations as provided in the Terms and Conditions, except for those resulting from the gross negligence or intentional fault of the Calculation Agent. The calculations and determinations of the Calculation Agent shall be made in accordance with the Terms and Conditions (having regard in each case to the criteria stipulated herein and where relevant on the basis of information provided to or obtained by employees or officers of the Calculation Agent responsible for making the relevant calculation or determination) and shall, in the absence of manifest error, be final, conclusive and binding on the Issuer and the Noteholders. The Calculation Agent acts solely as agent of the Issuer and does not assume any obligations or duty to, or any relationship of agency or trust for or with, the Noteholders. The Calculation Agent will make its determinations in a reasonable manner, taking into account the Terms and Conditions. The Calculation Agent will not act in an entirely discretionary manner, but will instead act in a reasonable manner, taking into account market practices and the economics of the product represented by the Notes.

8.14. Prescription

Claims against the Issuer or, in the case of Belfius Financing Company Notes, the Guarantor for payment in respect of any Note shall be prescribed in accordance with Article 2262 and following of the old Belgian Civil Code (*oud Burgerlijk Wetboek/ancien Code Civil*) of 21 March 1804 and become void unless made within five years from the date on which such payment first becomes due (in respect of interest) and within ten years from the date on which such payment become due (in respect of capital).

8.15. Currency Indemnity

Any amount received or recovered in a currency other than the currency in which payment under the relevant Note is due (whether as a result of, or the enforcement of, a judgment or order of a court of any jurisdiction, in the

winding-up or dissolution of the Issuer or, in the case of Belfius Financing Company Notes, the Guarantor or otherwise) by any Noteholder in respect of any sum expressed to be due to it from the Issuer or, in the case of Belfius Financing Company Notes, the Guarantor shall only constitute a discharge to the Issuer or, in the case of Belfius Financing Company Notes, the Guarantor, as the case may be, to the extent of the amount in the currency of payment under the relevant Note that the recipient is able to purchase with the amount so received or recovered in that other currency on the date of that receipt or recovery (or, if it is not practicable to make that purchase on that date, on the first date on which it is practicable to do so). If the amount received or recovered is less than the amount expressed to be due to the recipient under any Note, the Issuer, failing whom, in the case of Belfius Financing Company Notes, the Guarantor, shall indemnify it against any loss sustained by it as a result. In any event, the Issuer, failing whom, in the case of Belfius Financing Company Notes, the Guarantor, shall indemnify the recipient against the cost of making any such purchase. For the purposes of this Condition, it shall be sufficient for the Noteholder, as the case may be, to demonstrate that it would have suffered a loss had an actual purchase been made. These indemnities constitute a separate and independent obligation from the Issuer's and, in the case of Belfius Financing Company Notes, the Guarantor's other obligations, shall give rise to a separate and independent cause of action, shall apply irrespective of any indulgence granted by any Noteholder and shall continue in full force and effect despite any other judgment, order, claim or proof for a liquidated amount in respect of any sum due under any Note or any other judgment or order.

8.16. Substitution

- (i) In case of dissolution, liquidation, reconstruction, merger, amalgamation or any other kind of reorganisation, the Issuer and, in the case of Belfius Financing Company Notes, the Guarantor may, without any further consent or cooperation from the Noteholders, at any time, procure that any affiliated or associated corporation of the Issuer or, in the case of Belfius Financing Company Notes, the Guarantor is substituted for the Issuer as the debtor under the Terms and Conditions to be offered by assigning all its rights and obligations to such other corporation (the “**Substituted Issuer**”), whether by way of transfer of contract (on the basis of Article 5.193 of the Belgian Civil Code), novation (on the basis of Article 5.245 and following of the Belgian Civil Code) or otherwise. For the avoidance of doubt, any other kind of reorganisation to which reference is made in the preceding sentence also encompasses the situation where the Guarantor decides, based on a decision of the Board of Directors of Belfius Bank, to substitute itself for Belfius Financing Company. The Substituted Issuer must have a long-term debt rating of at least the same level as the one of the relevant Issuer at the time of substitution, if any, and provided that:
 - (a) no payment of any Redemption Amount or of interest on any Note is overdue and no other circumstances exist capable of causing the acceleration or redemption of the Notes;
 - (b) the Substituted Issuer shall agree to indemnify the holders of each Note against: all tax, duty, fee or governmental charge which is imposed on such holder by the jurisdiction of the country of the Substituted Issuer's residence for tax purposes and, if different, of its incorporation or any political subdivision or taxing authority thereof or therein with respect to such Note and which would not have been so imposed had such substitution not been made; and any costs or expenses incurred in connection with any such substitution; and
 - (c) in the case of Belfius Financing Company Notes, the Guarantor agrees on the provisions of such substitution as described herein, undertakes that the provisions in the Guarantee with respect to the relevant Issuer will apply to the Substituted Issuer in the event of such substitution and shall be bound by all the obligations to be fulfilled by it under the Guarantee and the Terms and Conditions of the Notes as a result of such substitution and such obligations shall be legal, valid and enforceable; if the Issuer is substituted by the Guarantor, there is no requirement for an additional and separate guarantee of the obligations under the Notes.

- (ii) The Issuer hereby irrevocably and unconditionally guarantees that the Substituted Issuer shall pay all amounts of Redemption Amount of and interest on the Notes when due. In the event of substitution, this guarantee ceasing to be the valid and binding obligation of the Issuer, enforceable against the Issuer in accordance with its terms, shall constitute an Event of Default.
- (iii) In the event of substitution all references in these Terms and Conditions to the Issuer shall from then on be deemed to refer to the Substituted Issuer and, in the event of substitution of Belfius Financing Company as Issuer, the references in Condition 8.19 (*Taxation*) to Luxembourg shall be deemed to be to the country where the Substituted Issuer has its domicile or tax residence.
- (iv) The Substituted Issuer obtains all necessary governmental and regulatory approvals and consents.
- (v) Any potential compensation due by Belfius shall be limited to the net incremental tax cost borne by the investor. For example, if a withholding tax would become due further to the Substitution, but this withholding tax comes in lieu of a taxation (at the same tax rate) otherwise due further to an obligation to report (part of) the income in the personal income tax return, then no additional compensation is due (on this part). Similarly, no compensation is due if i) the investor is entitled to a tax credit for this withholding tax through the tax return or ii) for the part of the withholding tax for which the investor is entitled to claim a reduction based on the applicable income tax treaty.

Notice of any substitution shall be given to the Noteholders in accordance with Condition 8.17 (*Notices*).

8.17. Notices

All notices to holders of Notes (including notices to convene a meeting of Noteholders) will be deemed to have been validly given if given (i) through the Securities Settlement System (in case of Belfius Bank Notes and Belfius Financing Company Notes which are held in the Securities Settlement System), (ii) through the systems of Euroclear and Clearstream Banking S.A. (in case of Belfius Financing Company Notes which are held in the systems of Euroclear and Clearstream Banking S.A.) or (iii) by ordinary mail (with acknowledgement of receipt) to the postal address or by email (with acknowledgement of receipt) to the email address, each as communicated by the Noteholder to the Issuer (in case of Belfius Financing Company Notes issued in registered form), in accordance with the procedures of the relevant clearing system, if applicable, and the relevant company law rules, if mandatorily applicable.

If the Notes are held in a securities account, all notices to the Noteholders shall be validly given by a direct notification, in the case of Belfius Financing Company Notes from the Paying Agent to the Noteholders and, in the case of Belfius Bank Notes from Belfius Bank to the Noteholders, each time as the Issuer in his discretionary opinion shall deem necessary to give fair and reasonable notice to the Noteholders. Any such notice shall be deemed to have been given on the date immediately following the date of notification from the Paying Agent in case of Belfius Financing Company Notes, and from Belfius Bank in case of Belfius Bank Notes.

Any notice by ordinary mail or by email in case of Belfius Financing Company Notes issued in registered form shall be deemed to have been given on the date of acknowledgement of receipt.

8.18. Meeting of Noteholders

8.18.1. Definitions

1. references to a “**meeting**” are to a meeting of Noteholders of a single Series of Notes and include, unless the context otherwise requires, any adjournment
2. references to “**Notes**” and “**Noteholders**” are only to the Notes of the Series in respect of which a meeting has been, or is to be, called and to the holders of those Notes, respectively
3. “**agent**” means a holder of a voting certificate or a proxy for, or representative of, a Noteholder

4. “**block voting instruction**” means an instruction issued in accordance with clause 8.18.4. paragraphs 4 to 8
5. “**Extraordinary Resolution**” means a resolution passed at a meeting duly convened and held in accordance with this Condition 8.18 by a majority of at least 75 per cent of the votes cast
6. “**voting certificate**” means a certificate issued in accordance with clause 8.18.4 paragraphs 1, 2, and 3 and
7. references to persons representing a proportion of the Notes are to Noteholders or agents holding or representing in the aggregate at least that proportion in principal amount of the Notes for the time being outstanding.

8.18.2. Powers of meetings

A meeting shall, subject to the Terms and Conditions and without prejudice to any powers conferred on other persons by the Agency Agreement, have power by Extraordinary Resolution:

1. to sanction any proposal by the relevant Issuer or the Guarantor or any modification, abrogation, variation or compromise of, or arrangement in respect of, the rights of the Noteholders against the Issuer or the Guarantor, whether or not those rights arise under the Notes
2. to sanction the exchange or substitution for the Notes of, or the conversion of the Notes into, shares, bonds or other obligations or securities of the Issuer, the Guarantor or any other entity
3. to assent to any modification of the Agency Agreement, the Notes proposed by the Issuer, the Guarantor, the Fiscal Agent or the Domiciliary Agent
4. to authorise anyone to concur in and do anything necessary to carry out and give effect to an Extraordinary Resolution
5. to give any authority, direction or sanction required to be given by Extraordinary Resolution
6. to appoint any persons (whether Noteholders or not) as a committee or committees to represent the Noteholders’ interests and to confer on them any powers or discretions which the Noteholders could themselves exercise by Extraordinary Resolution and
7. to approve the substitution of any entity for the relevant Issuer or the Guarantor (or any previous substitute) as principal debtor or guarantor in circumstances not provided for in the Terms and Conditions
8. provided that the special quorum provisions in clause 8.18.7. paragraph 4 shall apply to any Extraordinary Resolution (a “special quorum resolution”) for the purpose of sub-paragraph 2 or 7.

8.18.3. Convening a meeting

1. The relevant Issuer or the Guarantor may at any time convene a meeting. If it receives a written request by Noteholders holding at least 10 per cent in principal amount of the Notes of any Series for the time being outstanding and is indemnified to its satisfaction against all costs and expenses, the Issuer shall convene a meeting of the Noteholders of that Series. The meeting shall be held at a time and place as determined by the Issuer or, where applicable, the Guarantor, subject to, in the case of Belfius Financing Company Notes, approval by the Fiscal Agent or the Domiciliary Agent.
2. At least 21 calendar days’ notice (exclusive of the day on which the notice is given and of the day of the meeting) shall be given to the Noteholders. A copy of the notice shall be given by the party convening the meeting to the other parties. The notice shall specify the day, time and place of meeting and the nature of the resolutions to be proposed and shall explain how Noteholders may appoint proxies or representatives, obtain voting certificates and use block voting instructions and the details of the time limits applicable.

8.18.4. Arrangements for voting

1. If a Noteholder Note wishes to obtain a voting certificate in respect of it for a meeting, he must notify the Paying Agent at least 48 hours before the time fixed for the meeting. The Paying Agent shall then issue a voting certificate in respect of it.

2. A voting certificate shall:

- be a document in the English language;
- be dated;
- specify the meeting concerned and the serial numbers of the Notes; and
- entitle, and state that it entitles, its bearer to attend and vote at that meeting in respect of those Notes.

3. Once a Paying Agent has issued a voting certificate for a meeting in respect of a Note, it shall, in relation to Notes issued in dematerialised or global form, not release the Note until either:

- the meeting has been concluded; or
- the voting certificate has been surrendered to the Paying Agent.

In relation to Notes issued in registered form, the Noteholder will not be able to transfer the Note until either:

- the meeting has been concluded; or
- the voting certificate has been surrendered to the Paying Agent.

4. If a Noteholder wishes the votes attributable to it to be included in a block voting instruction for a meeting, then, at least 48 hours before the time fixed for the meeting, (i) he must notify for that purpose the Paying Agent and (ii) he or a duly authorised person on his behalf must direct the Paying Agent how those votes are to be cast. The Paying Agent shall issue a block voting instruction in respect of the votes attributable to all Notes for which it has received such notification.

5. A block voting instruction shall:

- be a document in the English language
- be dated
- specify the meeting concerned
- list the total number and serial numbers of the Notes, distinguishing with regard to each resolution between those voting for and those voting against it
- certify that such list is in accordance with directions received as provided in paragraphs 8, 10 and 13 and
- appoint a named person (a “proxy”) to vote at that meeting in respect of those Notes and in accordance with that list. A proxy need not be a Noteholder.

6. Once a Paying Agent has issued a block voting instruction for a meeting in respect of the votes attributable to any Notes the directions to which it gives effect may not be revoked or altered during the 48 hours before the time fixed for the meeting.

7. Each block voting instruction shall be deposited at least 24 hours before the time fixed for the meeting at the specified office of the relevant Issuer or the Guarantor or such other place as the Issuer shall designate or approve, and in default it shall not be valid unless the chairperson of the meeting decides otherwise before the meeting proceeds to business. If the Issuer requires, a notarial certified copy of each block voting instruction shall be produced by the proxy at the meeting but the Issuer need not investigate or be concerned with the validity of the proxy’s appointment.

8. A vote cast in accordance with a block voting instruction shall be valid even if it or any of the Noteholders’ instructions pursuant to which it was executed has previously been revoked or amended, unless written intimation of such revocation or amendment is received from the relevant Issuer by the chairperson of the meeting in each case at least 24 hours before the time fixed for the meeting.

9. No instructions may be giving by the Noteholder to the Paying Agent at the same time for the purposes of both paragraph 3 and paragraph 5 for the same meeting.

8.18.5. Chairperson

The chairperson of a meeting shall be such person as the Issuer may nominate in writing, but if no such nomination is made or if the person nominated is not present within 15 minutes after the time fixed for the meeting the Noteholders or agents present shall choose one of their number to be chairperson, failing which the Issuer may appoint a chairperson. The chairperson need not be a Noteholder or agent. The chairperson of an adjourned meeting need not be the same person as the chairperson of the original meeting. The chairperson may, in its sole discretion, decide to appoint a secretary (but is not obliged to do so).

8.18.6. Attendance

The following may attend, participate in and speak at a meeting of Noteholders:

- 1. Noteholders and agents
- 2. the chairperson
- 3. the Issuer, the Guarantor and the Fiscal Agent or Domiciliary Agent as applicable (through their respective representatives) and their respective financial and legal advisers.

8.18.7. Quorum and Adjournment

1. No business (except choosing a chairperson) shall be transacted at a meeting unless a quorum is present at the commencement of business. If a quorum is not present within 15 minutes from the time initially fixed for the meeting, it shall, if convened on the requisition of Noteholders, be dissolved. In any other case it shall be adjourned until such date, not less than 14 nor more than 42 calendar days later, and time and place as the chairperson may decide. If a quorum is not present within 15 minutes from the time fixed for a meeting so adjourned, it shall be adjourned until such date, not less than 14 nor more than 42 calendar days later, and time and place as the chairperson may decide. If a quorum is not present within 15 minutes from the time fixed for a meeting so adjourned, the meeting shall be dissolved.

2. Two or more Noteholders or agents present in person shall be a quorum:

(i) in the cases marked “No minimum proportion” in the table below, whatever the proportion of the Notes which they represent; and

(ii) in any other case, only if they represent the proportion of the Notes shown by the table below.

COLUMN 1	COLUMN 2	COLUMN 3	COLUMN 4
Purpose of Meeting	Any meeting except one referred to in column 3	Meeting previously once adjourned through want of a quorum	Meeting previously twice adjourned through want of a quorum
	Required proportion	Required Proportion	Required Proportion
To pass a special quorum resolution	two thirds of the principal amount of the Notes	one third of the principal amount of the Notes	No minimum proportion
To pass any other Extraordinary Resolution	A clear majority of the principal amount of the Notes	No minimum proportion	No minimum proportion

COLUMN 1	COLUMN 2	COLUMN 3	COLUMN 4
Any other purpose	10 per cent of the principal amount of the Notes	No minimum proportion	No minimum proportion

3. The chairperson may (and shall if directed by a meeting) adjourn the meeting “from time to time and from place to place”. Only business which could have been transacted at the original meeting may be transacted at a meeting adjourned in accordance with this clause.

4. At least 10 calendar days’ notice (exclusive of the day on which notice is given and of the day of the adjourned meeting) of a meeting adjourned for want of a quorum shall be given in the same manner as for an original meeting and that notice shall state the quorum required at the adjourned meeting. No notice need, however, otherwise be given of an adjourned meeting.

8.18.8. Voting

1. Each question submitted to a meeting shall be decided by a show of hands unless a poll is (before, or on the declaration of the result of, the show of hands) demanded by the chairperson, the Issuer, the Guarantor or one or more persons representing not less than 2 per cent. of the Notes.

2. Unless a poll is demanded a declaration by the chairperson that a resolution has or has not been passed shall be conclusive evidence of the fact without proof of the number or proportion of the votes cast in favour of or against it.

3. If a poll is demanded, it shall be taken in such manner and (subject as provided below) either at once or after such adjournment as the chairperson directs. The result of the poll shall be deemed to be the resolution of the meeting at which it was demanded as at the date it was taken. A demand for a poll shall not prevent the meeting continuing for the transaction of business other than the question on which it has been demanded.

4. A poll demanded on the election of a chairperson or on a question of adjournment shall be taken at once.

5. On a show of hands every person who is present in person and who produces a voting certificate or is a proxy or representative has one vote. On a poll every such person has one vote in respect of each principal amount equal to the minimum denomination of such Series of Notes so produced or represented by the voting certificate so produced or for which he is a proxy or representative. Without prejudice to the obligations of proxies, a person entitled to more than one vote need not use them all or cast them all in the same way.

6. In case of equality of votes the chairperson shall both on a show of hands and on a poll have a casting vote in addition to any other votes which he may have.

8.18.9. Effect and Publication of an Extraordinary Resolution

An Extraordinary Resolution shall be binding on all the Noteholders, whether or not present at the meeting and each of them shall be bound to give effect to it accordingly. The passing of such a resolution shall be conclusive evidence that the circumstances justify its being passed. The Issuer shall give notice of the passing of an Extraordinary Resolution to Noteholders within 15 calendar days but failure to do so shall not invalidate the resolution.

8.18.10. Minutes

Minutes shall be made of all resolutions and proceedings at every meeting and, if purporting to be signed by the chairperson of that meeting or of the next succeeding meeting, shall be conclusive evidence of the matters in them. Until the contrary is proved every meeting for which minutes have been so made and signed shall be deemed to have been duly convened and held and all resolutions passed or proceedings transacted at it to have been duly passed and transacted.

8.19. Taxation

All payments of principal and interest by or on behalf of the Issuers and/or the Guarantor in respect of the Notes shall be made free and clear of, and without withholding or deduction for, any taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by or within the Kingdom of Belgium, including any political subdivision or any authority therein or thereof having power to tax, unless such withholding or deduction of taxes is required by law in respect of the Notes.

The Issuers and the Guarantor will not be required to pay any additional or further amounts in respect of any withholding or deduction.

Investors should take into account that the tax aspects of the Notes could differ depending on, amongst others:

1. the Issuer: Belfius Bank or Belfius Financing Company;
2. the clearing of the Notes: i) Notes issued in the Securities Settlement System (ISIN codes starting with “BE”, hereafter referred to as “**BE**’ Notes”) or, ii) for Notes which are non-eligible for the Securities Settlement System, Notes issued outside the Securities Settlement System (ISIN codes starting with “XS”, hereafter referred to as “**XS**’ Notes”);
3. the Issue Date of the Notes; and
4. the form of the Notes (i.e., dematerialised form, registered form or bearer form).

The below description is limited to some income tax aspects of the ‘BE’ Notes and the ‘XS’ Notes in dematerialised form or bearer form only and should not be regarded by investors as being comprehensive. The income tax treatment of the Belfius Financing Company Notes to be issued in registered form (*obligations nominatives/obligaties op naam*) is thus not included in the below description.

Investors should note that the new Belgian federal government has announced several tax measures in its governmental agreement, which include a 10% capital gains tax on financial assets. These measures may impact the tax overview provided below. As at the date of this Base Prospectus, this new tax has not been adopted yet.

In any event, investors should consult their professional advisers on the possible tax consequences of subscribing for, purchasing, holding, selling or converting the Notes issued by Belfius Bank and/or Belfius Financing Company under the laws of their countries of citizenship, residence, ordinary residence or domicile, for reasons that, among others, the tax legislation of the investor’s country and of the Issuer’s country of incorporation may have an impact on the income received from the Notes.

Interest payments (including any amounts repaid on maturity date in excess of the issue price):

‘BE’ Notes:

- Exempt “X” investors (including but not limited to Belgian companies subject to the corporate income tax regime and non-residents (whose holding of the Notes is not connected to a professional activity in Belgium)) qualify for a Belgian withholding tax exemption provided that they hold the Notes in an exempt securities account (X-Account) opened with a participant to the Securities Settlement System (which requires, amongst others, the fulfilment of certain formalities).
- Non-exempt “N” investors (including but not limited to Belgian private persons and most entities subject to the Belgian legal entities tax regime (*rechtspersonenbelasting/impôt des personnes morales*)) are subject to a Belgian withholding tax of currently 30%.

‘XS’ Notes:

- Interest payments on Notes issued by Belfius Financing Company are not subject to Luxembourg withholding tax. A Belgian withholding tax of currently 30% will be due for interest paid to a.o. Belgian individual investors and investors subject to the legal entities tax regime who hold the Notes on a

securities account opened with a Belgian financial intermediary. If no Belgian withholding tax is levied (e.g. because the interest is paid outside of Belgium without the intervention of a Belgian financial intermediary), then the Belgian individual investors and the investors subject to the legal entities tax are obliged to spontaneously declare the related interest income in the applicable Belgian tax return. Belgian companies (subject to corporate income tax) and Belgian permanent establishments of non-resident companies (whose holding of the Notes is connected to a professional activity in Belgium) benefit from a withholding tax exemption (subject to an attestation requirement) but are taxable on the interest at the standard income tax rate of in principle 25%.

- Interest payments on Notes issued by Belfius Bank are subject to Belgian withholding tax of currently 30%. Certain investors may qualify for a reduced withholding tax rate, an exemption at source or a full or partial recovery of the Belgian withholding tax:
 - investors subject to the Belgian corporate income tax regime or Belgian permanent establishments of foreign companies subject to the Belgian non-resident income tax regime may claim a credit for the Belgian withholding tax through their tax return, provided they meet the applicable conditions;
 - investors subject to the personal income tax regime may elect to declare the interest in their personal income tax return. In this case, the interest will in principle be taxed at a flat rate of 30% (or at the progressive personal income tax rate taking into account the taxpayer's other declared income, whichever is more beneficial). If so, the withholding tax deducted may be credited against the taxpayer's personal income tax liability and any excess amount will be refundable, all in accordance with the applicable legal provisions; and
 - Belgian non-residents eligible for reduced rates under the tax treaty concluded between their country of residence and Belgium can file either a claim at source or a request for a refund with the Belgian tax authorities.

Taxation upon sale of the Notes to Belfius Bank before maturity:

i. Notes issued by Belfius Financing Company under a Public Offer:

- Notes issued as from April 2026: a sale of the Notes to Belfius Bank before maturity will qualify as an early redemption of the Notes for income tax purposes since Belfius Bank will purchase the Notes in the name and for the account of Belfius Financing Company. As a result, the positive difference between the redemption price and the initial issue price will qualify as "interest" from a Belgian tax perspective. For investors holding the Notes on a Belfius securities account, a Belgian withholding tax of currently 30% will be levied on this amount (except if an exemption would apply). Belgian individual investors and the investors subject to the legal entities tax not holding the Notes on a securities account held with Belfius Bank will, if no Belgian withholding tax is levied by a Belgian financial intermediary, need to spontaneously declare this income in the applicable income tax return. Belgian companies are taxable on this interest income at the corporate income tax rate of in principle 25%.
- Notes issued before April 2026: a sale of the Notes to Belfius Bank before maturity constitutes a true sale of the Notes for income tax purposes as Belfius Bank will purchase the Notes in its own name and for its own account. A difference should be made between the following categories, noting that the tax treatment may change under the tax reform as announced by the Belgian federal government:
 - 'XS' Notes: Belgian private investors and investors subject to the legal entities tax will need to spontaneously declare the accrued interest amount in their own tax return.
 - 'BE' Notes: investors holding the Notes through an exempt securities account (X-Account) opened with a participant to the Securities Settlement System enables eligible investors referred to in Article 4 of the Belgian Royal Decree of 26 May 1994 to transfer Notes without the application of Belgian withholding tax. Non-exempt "N" investors will be subject to a Belgian

withholding tax of currently 30% on the accrued interest amount. This withholding tax is (in principle) the final tax on the accrued interest. Transfers of Notes between an X-Account and an N-Account give rise to certain adjustment payments on account of withholding tax.

ii. Notes issued by Belfius Financing Company outside a Public Offer:

A sale of the Notes to Belfius Bank before maturity will qualify as an early redemption of the Notes for income tax purposes as Belfius Bank will purchase the Notes in the name and for the account of Belfius Financing Company. As a result, the positive difference between the redemption price and the initial issue price will qualify as “interest” from a Belgian tax perspective. For investors holding the Notes on a securities account held with Belfius, a Belgian withholding tax of currently 30% will be levied on this amount (except if an exemption would apply). Belgian individual investors and the investors subject to the legal entities tax not holding the Notes on a Belfius securities account will, if no Belgian withholding tax is levied by a Belgian financial intermediary, need to spontaneously declare this interest income in their income tax return. Belgian companies are taxable on this interest income at the corporate income tax rate of in principle 25%.

iii. Notes issued by Belfius Bank:

A sale of the Notes to Belfius Bank before maturity will qualify as an early redemption of the Notes for income tax purposes. As a result, the positive difference between the redemption price and the initial issue price will qualify as “interest” from a Belgian tax perspective which will be subject to a Belgian withholding tax of currently 30%. Certain investors may qualify for a reduced withholding tax rate, an exemption at source or a full or partial recovery of the Belgian withholding tax:

- investors subject to the Belgian corporate income tax regime or Belgian permanent establishments of foreign companies subject to the Belgian non-resident income tax regime may claim a credit for the Belgian withholding tax through their tax return, provided they meet the applicable conditions;
- investors subject to the personal income tax regime may elect to declare the interest in their personal income tax return. In this case, the interest will in principle be taxed at a flat rate of 30% (or at the progressive personal income tax rate taking into account the taxpayer’s other declared income, whichever is more beneficial). If so, the withholding tax deducted may be credited against the taxpayer’s personal income tax liability and any excess amount will be refundable, all in accordance with the applicable legal provisions; and
- Belgian non-residents eligible for reduced rates under the tax treaty concluded between their country of residence and Belgium can file either a claim at source or a request for a refund with the Belgian tax authorities.

8.20. Governing Law and Jurisdiction

8.20.1. Governing law

The Notes and the Guarantee are governed by Belgian law.

The Agency Agreement is (or would be, once established) governed by Luxembourg law with respect of the Belfius Financing Company Notes and by Belgian law with respect of the Belfius Bank Notes.

Where the Issuer is Belfius Financing Company, the provisions of articles 470-1 to 470-19 of the Luxembourg law of 10 August 1915 on commercial companies shall not apply in respect of the Notes.

8.20.2. Jurisdiction

All disputes arising out of or in connection with the Notes or the Guarantee shall be submitted to the jurisdiction of the competent courts in Belgium.

8.21. Acknowledgment and Consent of the Bail-in Power with regards to the Guarantee

Under the Guarantee, the Guarantor has guaranteed the obligations owed by Belfius Financing Company to the holders of Notes issued by Belfius Financing Company. Each Noteholder (which includes any current or future holder of a beneficial interest in the Notes) hereby acknowledges and agrees the Guarantee may be subject to the exercise of the Bail-in Power by the Relevant Resolution Authority and acknowledges and accepts to be bound by (i) the variation of the terms and conditions of the Notes, as deemed necessary by the Relevant Resolution Authority, to give effect to the exercise of any Bail-in Power by the Relevant Resolution Authority and (ii) the effect of the exercise of the Bail-in Power by the Relevant Resolution Authority. For the avoidance of doubt, as a result of the foregoing, the Bail-in Power, if applied to the Notes or to liabilities of the Guarantor, could effectively limit the extent of a recovery under the Guarantee.

In these Conditions,

“**Bail-in Power**” means any write-down, conversion, transfer, modification or suspension power existing from time to time under, and exercised in compliance with, any laws, regulations (including delegated or implementing measures such as regulatory technical standards), requirements, guidelines, rules, standards and policies relating to the resolution of credit institutions, investment firms and their parent undertakings, and minimum requirements for own funds and eligible liabilities and/or loss absorbing capacity instruments of the Kingdom of Belgium, the NBB (or any successor or replacement entity having primary responsibility for the prudential oversight and supervision of the Issuer), the Relevant Resolution Authority, the Financial Stability Board and/or of the European Parliament or of the Council of the European Union then in effect in the Kingdom of Belgium, pursuant to which obligations of the Issuer or the Guarantor can be reduced (in part or in whole), modified, cancelled, suspended, transferred, varied or otherwise varied in any way, or securities of the Issuer or the Guarantor can be written down and/or converted into shares, other securities or other obligations of the Issuer or the Guarantor or any other person, whether in connection with the implementation of a bail-in power following placement in resolution or otherwise.

“**Relevant Resolution Authority**” means the Single Resolution Board established by Regulation (EU) No 806/2014 of the European Parliament and of the Council of 15 July 2014, as amended, and/or any other authority entitled to exercise or participate in the exercise of the bail-in power from time to time (including the Council of the European Union and the European Commission when acting pursuant to Article 18 of the Single Resolution Mechanism Regulation).

8.22. Acknowledgment and Consent of the Bail-in Power with regards to the Notes

Each Noteholder (which includes any current or future holder of a beneficial interest in the Notes) acknowledges and accepts that any liability arising under the Notes may be subject to the exercise of the Bail-in Power by the Relevant Resolution Authority and acknowledges and accepts to be bound by (i) the variation of the terms and conditions of the Notes, as deemed necessary by the Relevant Resolution Authority, to give effect to the exercise of any Bail-in Power by the Relevant Resolution Authority and (ii) the effect of the exercise of the Bail-in Power by the Relevant Resolution Authority. Such exercise may, among others, include and result in any of the following, or a combination thereof:

- (i) all, or part of the Relevant Amounts in respect of the Notes being reduced or cancelled;
- (ii) all or part of the Relevant Amounts in respect of the Notes being converted into shares, other securities or other obligations of the Issuer or another person and such shares, securities or obligations being issued to or conferred on the Noteholder, including by means of a variation, modification or amendment of the terms and conditions of the Notes;
- (iii) the Notes or the Relevant Amount in respect of the Notes being cancelled; and

- (iv) the maturity of the Notes being amended or altered, or the amount of interest payable on the notes, or date on which interest becomes payable; including by suspending payment for a temporary period, being amended.

In this Condition,

“**Bail-in Power**” has the same meaning as provided under Condition 8.21 (*Acknowledgment and Consent of the Bail-in Power with regards to the Guarantee*).

“**Relevant Amounts**” means the principal amount of, and/or interest on, the Notes. These amounts include amounts that have become due and payable but which have prior to the exercise of the Bail-in Power by the Relevant Resolution Authority not yet been paid.

8.23. Financial Service

The financial service will be performed by Belfius Bank (in Belgium) and BIL (in Luxembourg).

8.24. Representation of Noteholders

There is no representation of the holders of the Notes in relation to any offer of Notes.

8.25. Guarantee

The Condition 8.25 only applies to Belfius Financing Company Notes.

The Guarantor has, by a senior preferred guarantee (the “**Guarantee**”, see Annex 2 of the Base Prospectus), unconditionally and irrevocably guaranteed on a senior preferred unsubordinated basis the due and punctual payment of the principal of and interest on the Notes issued by Belfius Financing Company as well as of any additional amounts which may be required to be paid by Belfius Financing Company (as described under *Condition 8.19. Taxation*) subject to the exercise by the Relevant Resolution Authority of the Bail-in Powers, which may apply to the Guarantee.

The obligations of the Guarantor under the Guarantee are direct, unconditional and unsecured obligations of the Guarantor and rank *pari passu* with all other outstanding unsecured and senior preferred obligations of the Guarantor, present and future, but, in the event of insolvency, only to the extent permitted by laws relating to creditors’ rights.

8.26. No Hardship

For the avoidance of doubt, the Issuer hereby acknowledges that the provisions of Article 5.74 of the Belgian Civil Code shall not apply with respect to its obligations under the Terms and Conditions and that it shall not be entitled to make any claim under Article 5.74 of the Belgian Civil Code.

8.27 Extra-contractual Liability

Each Noteholder hereby agrees that the provisions of Article 6.3 of the Belgian Civil Code shall, to the maximum extent permitted by law, not apply under or in connection with the Notes and the Guarantee and that it shall not be entitled to make any extra-contractual liability claim against any Issuer, the Guarantor or any auxiliary (*hulpvoorn/auxiliaire*) within the meaning of Article 6.3 of the Belgian Civil Code of (any affiliate of) any Issuer or the Guarantor with respect to a breach of a contractual obligation under or in connection with the Notes and the Guarantee, even if such breach of obligation also constitutes an extra-contractual liability. For the avoidance of any doubt, this is without prejudice to any extra-contractual liability claim for damages arising purely out of a breach of an extra-contractual obligation, including, without limitation, pursuant to any pre-contractual disclosure in connection with the Notes.

9. TERMS AND CONDITIONS OF THE OFFER

(Annex 14.5 of Commission Delegated Regulation (EU) 2019/980)

The Notes will be offered for subscription during the Offering Period (specified in the applicable Final Terms) at the relevant Issue Price. Any applicable fees or commissions will be specified in the applicable Final Terms. The relevant Issuer has the right to cancel any issue of Notes under the Programme during their Offering Period until the fifth Business Day before their Issue Date, either (i) when it reasonably believes that investors will not subscribe to the offer for an amount of at least the Minimum Amount specified in the applicable Final Terms or (ii) in case it considers there is a material adverse change in market conditions. Investors that have subscribed to these Notes will be notified pursuant to Condition 8.17 of such cancellation. The relevant Issuer has the right to anticipatively terminate the Offering Period.

The cash account of the Noteholder will be debited on the Issue Date. At the same date, the Notes will be transferred on the securities accounts of the Noteholders or Belfius Financing Company will, in case of an issue of Belfius Financing Company Notes in registered form, register the issuance in its register of registered notes.

If Notes are deposited in a securities account with Belfius Bank, Belfius Bank will not charge any fees for this service, nor for the opening of such securities account. If a Noteholder chooses to deposit his or her securities with another financial institution, he or she must inquire the fees charged by this institution.

As described in this section, the distribution of this Base Prospectus and the offering or sale of Notes in certain jurisdictions may be restricted by law. Persons into whose possession this Base Prospectus comes are required by the Issuers to inform themselves about and to observe any such restriction. The Notes have not been offered or sold and will not be offered or sold directly or indirectly and this Base Prospectus has not been distributed and will not be distributed, except in such circumstances that will result in compliance with all applicable laws and regulations.

There are no restrictions to the distribution of this Base Prospectus and the offering and sale of Notes in Belgium, except as set out below.

The Notes issued in dematerialised form within the Securities Settlement System where the Reference Rate (as defined in “Terms and Conditions of the Notes”) is SONIA, SOFR, €STR or the OLO Reference Rate may only be held by, and may only be transferred to, eligible investors referred to in Article 4 of the Belgian Royal Decree of 26 May 1994, as amended, holding their Notes in an exempt securities accounts that has been opened with a financial institution that is a direct or indirect participant in the Securities Settlement System operated by the National Bank of Belgium.

The Notes issued in bearer form shall not be physically delivered, except to a clearing system, a depositary or other institution for the purpose of their immobilisation in accordance with Article 4 of the Belgian law of 14 December 2005.

The Notes and the Guarantee have not been and will not be registered under the U.S. Securities Act of 1933, as amended (the “**Securities Act**”), or the securities laws of any state or other jurisdiction in the United States and are subject to U.S. tax law requirements and, except in certain transactions exempt from, or not subject to, the registration requirements of the Securities Act and the applicable securities laws of any state or other jurisdiction of the United States, the Notes and the Guarantee may not be offered, sold or delivered in the United States, including its territories and possessions, or to, or for the account or the benefit of, U.S. persons. Terms used in this paragraph have the meanings given to them by Regulation S under the Securities Act.

The Notes and the Guarantee have not been offered, sold or delivered and will not be offered, sold or delivered, as part of their distribution at any time, or otherwise until 40 days after the commencement of the offering in the United States or to, or for the account or the benefit of, U.S. persons and a dealer to which the Notes and the Guarantee are sold during the restricted period will receive a confirmation or other notice setting forth the restrictions on offers and sales of the Notes and the Guarantee in the United States or to, or for the account or benefit of, U.S. persons.

Until 40 days after the commencement of the offering, an offer or sale of the Notes and the Guarantee in the United States by any dealer (whether or not participating in the offering) may violate the registration requirements imposed by the Securities Act.

Any document connected with the issue of the Notes has only been issued or passed on and will only be issued and passed on in the United Kingdom to persons whose ordinary activities involve them in acquiring, holding, managing or disposing of investments (as principal or agent) for the purposes of their businesses or who it is reasonable to expect will acquire, hold, manage or dispose of investments (as principal or agent) for the purposes of their businesses or otherwise in circumstances which have not resulted and will not result in an offer to the public in the United Kingdom.

Any invitation or inducement to engage in investment activity (within the meaning of section 21 of the Financial Services and Markets Act 2000 (the “**UK FSMA**”)) in connection with the issue or sale of any Notes, has only been communicated or caused to be communicated and will only be communicated or caused to be communicated in circumstances in which section 21(1) of the UK FSMA does not apply to the Issuer and all applicable provisions of the UK FSMA with respect to anything done in relation to such Notes in, from or otherwise involving the United Kingdom have been complied with and will be complied with.

10. ADMISSION TO TRADING AND DEALING ARRANGEMENTS

(Annex 14.6 of Commission Delegated Regulation (EU) 2019/980)

The Notes will not be the subject of an application for admission to trading on a regulated or non-regulated market, nor have any Notes previously issued under the Programme ever been the subject of an application for admission to trading on a regulated market or equivalent market.

If the “Secondary Market” section is provided to be “Applicable” in the applicable Final Terms for any Notes, the price of the Notes is available on demand in the offices of Belfius Bank or on the website www.belfius.be, and this on each Business Day during the term of such Notes in every office of Belfius Bank until 28 calendar days preceding their Maturity Date and 56 calendar days for equity linked notes, unless in Belfius Bank’s determination, market conditions preclude it from quoting a price. If Belfius Bank quotes a price, it can be considered market maker for the Notes and will organise the secondary market, thereby providing liquidity through bid and offer rates. The main terms of the commitment of Belfius Bank will be specified in the applicable Final Terms and (i) “**Maximum Additional Cost**” means at any given moment the maximum cost based on the midpoint of the bid-ask spread between the then applicable bid and offer rates; (ii) “**Maximum Commission**” means the maximum commission on the bid and offer rates; and (iii) “**Maximum Exit Penalty**” means the maximum exit penalty applicable to the nominal amount of the Notes. The bid and offer rates of the Notes on any given moment are subject to the market conditions, interest rates, forward rates; credit spreads of the relevant Issuer or, in the case of Belfius Financing Company Notes, the Guarantor, etc.

In case of sale of the Notes before maturity, the sale proceeds can be lower than the invested amount.

11. USE OF PROCEEDS

Unless otherwise specified in the applicable Final Terms, the net proceeds of Notes, i.e., the Nominal Amount less any expenses and fees, will be used for general corporate purposes of Belfius Bank.

If, in respect of any particular issuance, there is a particular identified use of proceeds, this will be stated in the applicable Final Terms. In particular, each Issuer may provide in the applicable Final Terms that (i) in the case of “green notes”, Belfius will apply an amount equivalent to the net proceeds of the issue of the relevant Notes exclusively to finance and/or refinance, in whole or in part, Eligible Green Assets, as described in the applicable Final Terms and in Belfius’ Green Bond Framework, such Notes being referred to as Green Notes or (ii) in the case of “social notes”, Belfius will apply an amount equivalent to the net proceeds of the issue of the relevant Notes exclusively to finance and/or refinance, in whole or in part, Eligible Social Assets, as described in the applicable Final Terms and in Belfius’ Social Bond Framework, such Notes being referred to as Social Notes. See “*Green Bond Framework*” and “*Social Bond Framework*” for further information.

In the case of Belfius Financing Company Notes, the proceeds of the issued notes are fully transferred to Belfius Bank. This will also be the case for any Green Notes and Social Notes.

12. GREEN BOND FRAMEWORK

12.1. Introduction

Belfius has developed a green bond framework (such framework as amended from time to time, the “**Green Bond Framework**”) under which Belfius intends to attract funding to finance and/or refinance, in whole or in part, loans and investments realised by any member of the Belfius group to finance projects and/or assets which enable the transition to a low carbon and climate resilient economy (the “**Eligible Green Assets**”). The Green Bond Framework is publicly available on Belfius’ website (<https://www.belfius.be/about-us/en/investors/debt-issuance/green-social-bonds>). The Green Bond Framework does not form part of, and is not incorporated by reference into, this Base Prospectus and has not been scrutinised nor approved by the FSMA. Notes issued under this Base Prospectus for which the applicable Final Terms indicate that Belfius will apply an amount equivalent to the net proceeds of the issue exclusively to finance and/or refinance, in whole or in part, Eligible Green Assets are referred to as “**Green Notes**”.

The Green Bond Framework has been prepared taking into account the voluntary guidelines of the Green Bond Principles (2018 edition) published by the International Capital Markets Association (the “**Green Bond Principles**”).

This section contains a short summary of the Green Bond Framework as at the date of this Base Prospectus which does not purport to be complete and is taken from, and is qualified in its entirety by, the information in the Green Bond Framework. The Green Bond Framework may be further updated or amended, among other things to reflect updates to the EU Taxonomy Regulation and the European Green Bond Standard and evolutions in the activities of Belfius.

In case of an issuance of Green Notes, (i) the use of proceeds, (ii) the process for green assets evaluation and selection, (iii) the management of proceeds, (iv) the reporting on allocation and impact and (v) the external review will be carried out in accordance with the Green Bond Framework.

12.2. Use of proceeds

In case of an issuance of Green Notes, Belfius will apply an amount equivalent to the net proceeds of Green Notes exclusively to finance and/or refinance, in whole or in part, Eligible Green Assets in the following categories (“**Eligible Categories**”):

- renewable energy;
- energy efficiency;
- clean transportation;
- green real estate; and
- waste & water management.

In alignment with Belfius’ sustainability strategy, the eligibility criteria (“**Eligibility Criteria**”) contemplated under the Green Bond Framework are intended to directly contribute to the achievement of specific UN Sustainable Development Goals and related sub-targets²⁰.

Eligible Green Assets are required to meet the following Eligibility Criteria:

Eligible Category	Eligibility Criteria
-------------------	----------------------

²⁰ Based on mapping between ICMA Eligible Categories and UN Sustainable Development Goals.

Renewable energy	<p>Loans or investments to finance/refinance the equipment, development, construction, operation, distribution, infrastructure and maintenance of renewable energy projects such as:</p> <ul style="list-style-type: none"> - Offshore and onshore wind - Solar photovoltaic power - Hydropower (with lifecycle GHG emissions < 100gCO₂/kWh or power density > 5W/m²)²¹ - Geothermal projects (with lifecycle GHG emissions < 100gCO₂/kWh) - Energy from biomass (such as forest residues, or municipal waste but excluding biomass from sources competing with food production, depleting carbon pools or grown on land with high biodiversity), (with lifecycle GHG emissions < 100gCO₂/kWh)

--------------------------	---

12.3. Process for green assets evaluation and selection

Underlying Eligible Green Assets are expected to comply with local laws and regulations, including any applicable regulatory environmental and social requirements. Potential Eligible Green Assets are assessed against Belfius' regular credit policies. The qualification for green criteria does not override credit risks.

The process for evaluation and selection of Eligible Green Assets, based on the Eligibility Criteria, receives a final approval by the Green & Social Bond Committee of Belfius.

The Green & Social Bond Committee currently consists of the following representatives of Belfius:

- the head of Sustainability – ESG;
- representatives of the commercial business lines (private, business & retail (PBR) and/or wealth, enterprises & public (WEP));
- the head of long term funding; and
- the head of structured finance

12.4. Management of proceeds

Belfius will strive, over time, to maintain an aggregate amount of Eligible Green Assets in a portfolio (the “**Green Portfolio**”) that matches or exceeds the balance of net proceeds of all outstanding Green Notes issued under the Green Bond Framework.

The Eligible Green Assets will be selected in line with the Eligibility Criteria and the evaluation and selection process described above.

Belfius will individually label all allocated Eligible Green Assets in its internal information systems and will monitor the Green Portfolio. If an asset is matured, redeemed or no longer meets the Eligibility Criteria, Belfius will do its best effort to replace it with an Eligible Green Asset. On a quarterly basis, the Green & Social Bond Committee will verify the availability of sufficient Eligible Green Assets in the Green Portfolio to match the outstanding Green Notes.

Pending the allocation of an amount equal to the net proceeds of Green Notes and while the Green Portfolio has a positive balance, such amounts will be invested within the treasury portfolios, in money market products, cash and/or cash equivalent, in accordance with Belfius' general internal policies.

12.5. Reporting

Belfius expects to publish annually a report that will detail the allocation of amounts equal to the net proceeds of Green Notes (including those issued by Belfius Financing Company) and the environmental impact of the Eligible Green Assets included in its Green Portfolio. Any report will not form part of, and will not be incorporated by reference into, this Base Prospectus.

²⁴ The treatment of wastewater from fossil fuel operations is excluded

Allocation of proceeds reporting

As long as any Green Note is outstanding, Belfius will report annually on the use of the amounts equal to the net proceeds of the Green Notes. This report is expected to detail:

- the total amount of Green Notes issued;
- the Green Portfolio, including a breakdown by Eligible Category; and
- the balance of unallocated amounts, if any.

Impact reporting

Belfius intends to report annually on the environmental impact of the Green Portfolio at an aggregated level.

12.6. External review

Second Party Opinion

Belfius has appointed Sustainalytics to provide a second party opinion (the “**Green Bond Framework Second Party Opinion**”) on the Green Bond Framework who has verified and confirmed the sustainability of the Green Bond Framework and its alignment with the Green Bond Principles. The Green Bond Framework Second Party Opinion does not form part of, and is not incorporated by reference into, this Base Prospectus.

Verification

Belfius will request on an annual basis, starting one year after the issuance of the first Green Notes and until maturity, a limited assurance report of the allocation of the amounts equal to the net proceeds of the Green Notes to its Green Portfolio, provided by an independent external auditor. Any limited assurance report will not form part of, and will not be incorporated by reference into, this Base Prospectus.

12.7. General

Prior to any investment in Green Notes, investors should have regard to the factors described under the section headed “Risk Factors” in this Base Prospectus, in particular the risk factor entitled “*Risks related to Notes which qualify as “Green Notes” or “Social Notes” which have a particular use of proceeds identified in the applicable Final Terms*”.

Notwithstanding any use of the net proceeds of the Green Notes identified in the applicable Final Terms, investors should note that, in respect of Belfius Bank Notes, (i) such Green Notes will be fully subject to the CRR eligibility criteria and BRRD requirements for own funds and eligible liabilities instruments, as applicable, (ii) the Green Notes can be subject to bail-in and write-down or conversion powers and (iii) this will not affect the particular status of such Green Notes as identified in the applicable Final Terms, including, as applicable, in terms of subordination, loss absorbency features and regulatory treatment.

13. SOCIAL BOND FRAMEWORK

13.1. Introduction

Belfius has developed a social bond framework (such framework as amended from time to time, the “**Social Bond Framework**”) under which Belfius intends to attract funding to finance and/or refinance, in whole or in part, loans and investments realised by any member of the Belfius group to projects and/or assets (the “**Eligible Social Assets**”) in the categories of (i) access to essential services – education, (ii) access to essential services – healthcare, (iii) affordable housing and (iv) socioeconomic advancement & empowerment. The Social Bond Framework is publicly available on Belfius’ website (<https://www.belfius.be/about-us/en/investors/debt-issuance/green-social-bonds>). The Social Bond Framework does not form part of, and is not incorporated by reference into, this Base Prospectus and has not been scrutinised nor approved by the FSMA. Notes issued under this Base Prospectus for which the applicable Final Terms indicate that Belfius will apply an amount equivalent to the net proceeds of the issue exclusively to finance and/or refinance, in whole or in part, Eligible Social Assets are referred to as “**Social Notes**”.

The Social Bond Framework has been prepared taking into account the voluntary guidelines of the Social Bond Principles (2023 edition) published by the International Capital Markets Association (the “**Social Bond Principles**”).

This section contains a short summary of the Social Bond Framework as at the date of this Base Prospectus which does not purport to be complete and is taken from, and is qualified in its entirety by, the information in the Social Bond Framework. The Social Bond Framework may be further updated or amended, among other things to further harmonise with evolving regulations and evolutions in the activities of Belfius.

In case of an issuance of Social Notes, (i) the use of proceeds, (ii) the process for social assets evaluation and selection, (iii) the management of proceeds, (iv) the reporting on allocation and impact and (v) the external review will be carried out in accordance with the Social Bond Framework.

13.2. Use of proceeds

In case of an issuance of Social Notes, Belfius will apply an amount equivalent to the net proceeds of Social Notes exclusively to finance and/or refinance, in whole or in part, Eligible Social Assets in the following categories (“**Eligible Categories**”):

- access to essential services – education;
- access to essential services – healthcare;
- affordable housing; and
- socioeconomic advancement & empowerment.

In alignment with Belfius’ sustainability strategy, the eligibility criteria (“**Eligibility Criteria**”) contemplated under the Social Bond Framework are intended to directly contribute to the achievement of specific UN Sustainable Development Goals and related sub-targets²⁵.

Eligible Social Assets are required to meet the following Eligibility Criteria:

Eligible Category	Eligibility Criteria
Access to essential services – education	<ul style="list-style-type: none">- (Re)financing of activities for state/public schools and free private schools, including colleges and universities.- Construction, extension or refurbishment of equipment and infrastructures.

²⁵ Based on mapping between ICMA Eligible Categories and UN Sustainable Development Goals.

Access to essential services – healthcare	<ul style="list-style-type: none"> - (Re)financing the construction, extension or refurbishment and general corporate purposes of hospitals and healthcare facilities. - (Re)financing the construction, extension or refurbishment and general corporate purposes of elderly care centres, supporting housing for people with disabilities.
Affordable housing	<ul style="list-style-type: none"> - (Re)financing of social housing (both for rental and/or purchase): development, construction, renovation and maintenance of social housing projects.
Socioeconomic advancement & empowerment	<ul style="list-style-type: none"> - (Re)financing of loans granted to or guaranteed by CPAS (<i>Centre Public d'Action Sociale</i>) / OCMW (<i>Openbaar Centrum voor Maatschappelijk Welzijn</i>).

13.3. Process for social assets evaluation and selection

Underlying Eligible Social Assets are expected to comply with local laws and regulations, including any applicable regulatory social requirements. Potential Eligible Social Assets are assessed against Belfius' regular credit policies. The qualification for social criteria does not override credit risks.

The process for evaluation and selection of Eligible Social Assets, based on the Eligibility Criteria, receives a final approval by the Green & Social Bond Committee of Belfius.

The Green & Social Bond Committee currently consists of the following representatives of Belfius:

- the head of Sustainability – ESG;
- representatives of the commercial business lines (private, business & retail (PBR) and enterprises, entrepreneurs & public (E&E&P));
- the head of long term funding; and
- the head of structured finance.

13.4. Management of proceeds

Belfius will strive, over time, to maintain an aggregate amount of Eligible Social Assets in a portfolio (the “**Social Portfolio**”) that matches or exceeds the balance of net proceeds of all outstanding Social Notes issued under the Social Bond Framework.

The Eligible Social Assets will be selected in line with the Eligibility Criteria and the evaluation and selection process described above.

Belfius will individually label all allocated Eligible Social Assets in its internal information systems and will monitor the Social Portfolio. If an asset is matured, is redeemed or no longer meets the Eligibility Criteria, Belfius will do its best effort to replace it with an Eligible Social Asset. On a quarterly basis, the Green & Social Bond Committee will verify the availability of sufficient Eligible Social Assets in the Social Portfolio to match the outstanding Social Notes.

Pending the allocation of an amount equal to the net proceeds of Social Notes and while the Social Portfolio has a positive balance, such amounts will be invested within the treasury portfolios, in money market products, cash and/or cash equivalent, in accordance with Belfius' general internal policies.

13.5. Reporting

Belfius expects to publish annually a report that will detail the allocation of amounts equal to the net proceeds of Social Notes (including those issued by Belfius Financing Company) and the social impact of the Eligible Social

Assets included in its Social Portfolio. Any report will not form part of, and will not be incorporated by reference into, this Base Prospectus.

Allocation of proceeds reporting

As long as any Social Note is outstanding, Belfius will report annually on the use of the amounts equal to the net proceeds of the Social Notes. This report is expected to detail:

- the total amount of Social Notes issued;
- the Social Portfolio, including a breakdown by Eligible Category; and
- the balance of unallocated amounts, if any.

Impact reporting

Belfius intends to report annually on the environmental impact of the Social Portfolio at an aggregated level.

13.6. External review

Second Party Opinion

Belfius has appointed Sustainalytics to provide a second party opinion (the “**Social Bond Framework Second Party Opinion**”) on the Social Bond Framework who has verified and confirmed the sustainability of the Social Bond Framework and its alignment with the Social Bond Principles. The Social Bond Framework Second Party Opinion does not form part of, and is not incorporated by reference into, this Base Prospectus.

Verification

Belfius will request on an annual basis, starting one year after the issuance of the first Social Notes and until maturity, a limited assurance report of the allocation of the amounts equal to the net proceeds of the Social Notes to its Social Portfolio, provided by an independent external auditor. Any limited assurance report will not form part of, and will not be incorporated by reference into, this Base Prospectus.

13.7. General

Prior to any investment in Social Notes, investors should have regard to the factors described under the section headed “Risk Factors” in this Base Prospectus, in particular the risk factor entitled “*Risks related to Notes which qualify as “Green Notes” or “Social Notes” which have a particular use of proceeds identified in the applicable Final Terms*”.

Notwithstanding any use of the net proceeds of the Social Notes identified in the applicable Final Terms, investors should note that, in respect of Belfius Bank Notes, (i) such Social Notes will be fully subject to the CRR eligibility criteria and BRRD requirements for own funds and eligible liabilities instruments, as applicable, (ii) the Social Notes can be subject to bail-in and write-down or conversion powers and (iii) this will not affect the particular status of such Social Notes as identified in the applicable Final Terms, including, as applicable, in terms of subordination, loss absorbency features and regulatory treatment.

14. THIRD PARTY INFORMATION, EXPERT STATEMENTS AND DECLARATIONS

(Annex 6.14 of Commission Delegated Regulation (EU) 2019/980)

There has not been any statement or report attributed to a person as an expert which is included in this Base Prospectus.

15. DOCUMENTS ON DISPLAY

(Annex 6.14 of Commission Delegated Regulation (EU) 2019/980)

Annex 2: Guarantee

A form of the Guarantee is reproduced here below:

BELFIUS FINANCING COMPANY
And
BELFIUS BANK SA/NV
Notes Issuance Programme
GUARANTEE
by
Belfius Bank SA/NV
IN RELATION TO NOTES ISSUED BY Belfius Financing Company

19 May 2025

WHEREAS the Board of Directors of Belfius Financing Company (the “**Issuer**” or “**Belfius Financing Company**”) has decided on 28 February 2025 to update the Notes Issuance Programme (the “**Programme**”) under which it may from time to time issue Notes (the “**Belfius Financing Company Notes**”), which may be linked to various underlyings (the “**Underlying**”), that rank as senior preferred obligations of the Issuer according to the terms and conditions enumerated in such decision. Belfius Financing Company Notes will be guaranteed by Belfius Bank SA/NV (also named Belfius Banque SA/Belfius Bank NV) (the “**Guarantor**” or “**Belfius Bank**”) pursuant to this senior preferred guarantee (the “**Guarantee**”);

WHEREAS the Management Board of Belfius Bank has approved to guarantee the issuance by Belfius Financing Company of Belfius Financing Company Notes under the Programme by its decision of 15 January 2025;

WHEREAS the Management Board of Belfius Bank in its decision of 15 January 2025 has delegated all powers to execute such Guarantee to any two members of the Management Board, acting jointly, with the power of subdelegation.

The Guarantor hereby unconditionally and irrevocably guarantees as and for its own debt to each holder of each Belfius Financing Company Note (each a “**Noteholder**” and together the “**Noteholders**”) to pay or procure to pay such amounts to the Noteholders who have not obtained due payment from the Issuer if and when such amounts fall due under the Terms and Conditions. The Terms and Conditions are those enumerated in the Base Prospectus dated 19 May 2025 in relation to the Programme and the applicable Final Terms of the Belfius Financing Company Notes, and which are included by reference in the present Guarantee. This Guarantee is enforceable against the Guarantor upon first demand sent by the holder by registered mail to the statutory seat of the Guarantor.

The Base Prospectus dated 19 May 2025 in relation to the Programme has been approved by the Financial Services and Markets Authority in its decision of 19 May 2025.

It is understood that any payments to be made under this Guarantee shall be made in the currency of the underlying Notes.

This Guarantee is a continuing guarantee and nothing but payment in full of the amounts due by the Issuer in application of the Notes hereby guaranteed shall discharge the Guarantor of its obligations hereunder in respect of such Notes.

This Guarantee shall be governed by, and interpreted in accordance with, the laws of Belgium.

This Guarantee may be executed in any number of counterparts.

All actions arising out of or based upon this Guarantee are to be brought before the competent Courts in Brussels.

In witness whereof, the Guarantor has authorised and caused this Guarantee to be duly executed and delivered as of 19 May 2025.

On behalf of Belfius Bank SA/NV

Annex 3: Articles of Association

A. Belfius Bank

Copies of the articles of Association (in English, French and Dutch) of Belfius Bank may be obtained without charge from the offices of Belfius Bank and are also available on the website of Belfius Bank (<https://www.belfius.be>) in the Company profile, section “Corporate governance” (link <https://www.belfius.be/about-us/en/corporate-governance/governance/articles-of-association>).

B. Belfius Financing Company

BELFIUS FINANCING COMPANY

Société anonyme
R.C.S. Luxembourg B 156.767

Articles of Association Dated 7 May 2014

Title I. - Denomination, Registered office, Object, Duration

Art. 1. There is hereby established a *société anonyme* under the name of “Belfius Financing Company”.

Art. 2. The registered office of the company is established in the municipality of Koerich.

It may be transferred to any other place in the municipality of Koerich by a decision of the board of directors. If extraordinary political or economic events occur or are imminent, which might interfere with the normal activity at the registered office, or with easy communication between this office and abroad, the registered office may be declared to have been transferred abroad provisionally until the complete cessation of these abnormal circumstances.

Such decision, however, shall have no effect on the nationality of the company. Such declaration of the transfer of the registered office shall be made and brought to the attention of third parties by the organ of the corporation, which is best situated for this purpose under such circumstances.

Art. 3. The company is established for an unlimited period.

Art. 4. The purpose of the Company is: (a) to hold shareholdings and stakes, in any form whatsoever, in any commercial, industrial, financial or other Luxembourg or foreign company or undertakings, as well as to manage and optimise these stakes, (b) to acquire by way of participations, contributions, guarantees, acquisitions or options, negotiation or any other means, securities, rights, patents, licenses and other assets, provided the Company considers it appropriate to do so, and in general to hold, manage, optimise, sell or transfer the aforementioned, in whole or in part; (c) to take part in commercial, financial or other transactions and to grant to any holding company, subsidiary, associated or affiliated company or any other company belonging to the same corporate group as the Company any financial assistance, loan, advance or guarantee; (d) to borrow, raise funds by any means whatsoever (including without limitation the issuance of preferred equity certificates (PECs) (nonconvertible or convertible into shares), loans, bonds, acknowledgements of debt and any other form of debt or type of instrument) and to ensure the reimbursement of any borrowed amount; to perform all operations directly or indirectly related to this purpose.

The Company may grant pledges, guarantees, liens, mortgages and any other type of security (surety), as well as any form of compensation, to Luxembourg or foreign entity(ies) in relation to its own obligations and debts, or in relation to the obligations and debts of subsidiaries, associated or affiliated companies or any company belonging to the same corporate group.

The Company may acquire immovable property located abroad or in Luxembourg.

The Company may moreover perform any commercial, technical or financial transactions, involving movable or immovable property, which are directly or indirectly related to the abovementioned purpose.

Title II. - Capital, Shares

Art. 5. The share capital of the Company is set at three million ninety-four thousand four euro (EUR 3,094,004) divided into two hundred and fifty-one (251) shares, without nominal value.

The shares are in registered form.

The company may, to the extent and under the terms permitted by law, purchase its own shares.

The corporate capital may be increased or reduced in compliance with the legal requirements.

The company recognises only one single owner per share. If one or more shares are jointly owned or if the ownership of such share(s) is disputed, all persons claiming a right to such share(s) have to appoint one single attorney to represent such share(s) towards the company.

The failure to appoint such attorney implies a suspension of all rights attached to such share(s).

Title III. – Management

Art. 6. The Company shall be managed by a board of directors composed of at least three (3) directors, who need not be shareholders of the Company. The directors shall be elected by the shareholders at a general meeting, which shall determine their number, remuneration and term of office. The term of office of a director may not exceed six (6) years and the directors shall hold office until their successors are elected. The directors may be re-elected for consecutive terms of office. The directors are split in two (2) categories, directors of category A and directors of category B.

In case the company is incorporated by a sole shareholder, or if, at a general meeting of shareholders, it is noted that the company only has one shareholder, the composition of the board of directors may be limited to one sole director until the next annual general meeting at which it is noted that the company has (again) more than one shareholder.

In this case, the sole director exercises the powers devolving on the board of directors.

The directors are elected by a simple majority vote of the shares present or represented. Any director may be removed at any time with or without cause by the general meeting of shareholders.

In the event of a vacancy in the office of a director because of death, retirement or otherwise, this vacancy may be filled out on a temporary basis until the next meeting of shareholders, in compliance with the applicable legal provisions.

Art. 7. The board of directors will elect from among its members a chairman. When he is prevented, he is replaced by the eldest director. The first chairman may be appointed by the extraordinary general shareholders meeting following the incorporation of the company.

The board of directors convenes upon call by the chairman or by the eldest director, when the chairman is prevented, as often as the interest of the corporation so requires. It must be convened each time two directors so request.

Any director may act at any meeting of the board of directors by appointing in writing or by telegram, telex or facsimile another director as his proxy. A director may represent one or more of his colleagues.

The board of directors can deliberate and/or act validly only if all the directors are present or represented at a meeting of the board of directors. If the required presence quorum is not attained, the meeting shall be adjourned and a second meeting shall be convened at the same hour, five business days later, which will deliberate and/or act validly only if a majority of the directors is present or represented at such meeting.

Decisions shall be taken by a majority vote of the directors present or represented at such meeting. In case of a tie in votes, the vote of the chairman of the meeting will be decisive.

Board resolutions can also be taken by circular letter, the signatures of the different board members may be apposed on several exemplars of the board resolution in writing.

Any director may also participate in any meeting of the board of directors by conference call, videoconference or by other similar means of communication allowing all the persons taking part in the meeting to hear one another. The participation in a meeting by these means is equivalent to a participation in person at such meeting.

Art. 8. The board of directors is vested with the broadest powers do perform all acts of administration and disposition in compliance with the corporate object.

All powers not expressly reserved by law or by the present articles of association to the general meeting of shareholders fall within the competence of the board of directors. The board of directors may pay interim dividends, in compliance with the legal requirements.

Art. 9. The Company will only be bound by the joint signature of any A director together with any B director or by the single signature to whom such signatory power has been validly delegated by the board of directors or by a decision signed by a director A and by a director B jointly

Art. 10. The board of directors may delegate its powers to conduct the daily management of the company to one or more directors, officers, managers or other agents, shareholder or not, acting alone or jointly.

The board of directors may also commit the management of all the affairs of the corporation or of a special branch to one or more managers, and give special powers for determined matters to one or more proxy holders, selected from its own members or not, either shareholders or not.

Art. 11. Any litigations involving the company either as plaintiff or as defendant, will be handled in the name of the company by the board of directors, represented by its chairman or by the director delegated for this purpose.

Title IV. - Supervision

Art. 12. The company is supervised by one or several statutory auditors, appointed by the general meeting of shareholders which will fix their number and their remuneration, as well as the term of their office, which must not exceed six years.

Whenever required by law the company is supervised by one or several independent auditors in lieu of the statutory auditor(s).

The independent auditors are appointed, pursuant to the related legal provisions, either by the general meeting of shareholders or by the board of directors. The independent auditors shall fulfil all the duties set forth by the related law.

Title V. - General meeting

Art. 13. The general meeting of shareholders of the company represents all the shareholders of the company. It has the broadest powers to order, carry out or ratify acts relating to the operations of the company, unless the present articles of association provide otherwise.

The annual general meeting will be held in the city of Luxembourg at the place specified in the convening notices on the third Wednesday of March at 10.00 a.m.

If such day is a legal holiday, the general meeting will be held on the next following business day.
Other general meetings of shareholders may be held at such places and dates as may be specified in the respective notices of meeting.

Each share entitles one vote. Each shareholder may participate to the meetings of the shareholders by appointing in writing, by telecopy, email or any other similar means of communication, another person as his proxy-holder. If all shareholders are present or represented at a meeting of the shareholders, and if they declare knowing the agenda, the meeting may be held without convening notice or prior publication.

If the company only has one sole shareholder, the latter exercises the powers devolving on the general meeting,

Title VI. - Accounting year, Allocation of profits

Art. 14. The accounting year of the company shall begin on January 1 and shall terminate on December 31 of each year.

Art. 15. After deduction of any and all of the expenses of the company and the amortizations, the credit balance represents the net profits of the company. Of the net profits, five percent (5,00 %) shall be appropriated for the legal reserve; this deduction ceases to be compulsory when the reserve amounts to ten percent (10,00 %) of the capital of the company, but it must be resumed until the reserve is entirely reconstituted if, at any time, for any reason whatsoever, it has been touched.

The balance is at the disposal of the general meeting.

Title VII. - Dissolution, Liquidation

Art. 16. The company may be dissolved by a resolution of the general meeting of shareholders. The liquidation will be carried out by one or more liquidators, physical or legal persons, appointed by the general meeting of shareholders which will specify their powers and fix their remunerations.

Title VIII. - General provisions

Art. 17. All matters not governed by these articles of association are to be construed in accordance with the law of August 10th 1915 on commercial companies and the amendments hereto.

- (3) **BANQUE INTERNATIONALE A LUXEMBOURG, SOCIETE ANONYME** with its register office at 69, route d’Esch, L-2953, Luxembourg, Grand Duchy of Luxembourg (“**BIL**”, in its capacity as fiscal agent the “**Fiscal Agent**” and its capacity as principal paying agent the “**Principal Paying Agent**”).

WHEREAS

- (A) Belfius Financing Company, in accordance with the resolutions of the Board of Directors of Belfius Financing Company, passed on 28 February 2025, may from time to time issue Bearer Notes (the “**Belfius Financing Company Notes**”) under the updated Notes Issuance Programme to be dated on or around 19 May 2025 (the “**Programme**”), which may be linked to various underlyings (the “**Underlying**”), that rank as senior obligations of the Issuer (the “**Notes**”). The Notes will be guaranteed by the Guarantor pursuant to a senior guarantee (the “**Guarantee**”) in accordance with the resolutions of the Management Board of the Guarantor passed on 15 January 2025.
- (B) The Programme is described in the base prospectus (the “**Base Prospectus**”) dated 19 May 2025 that replaces and supersedes, as of such date, the base prospectus dated 21 May 2024.
- (C) For the purposes of the Programme the parties (or their predecessors) to this Agency Agreement entered into an agency agreement dated 21 May 2024 (the “**Original Agency Agreement**”) to be amended, restated and superseded by this Agency Agreement.
- (D) Any Bearer Notes issued on or after the date of this Agency Agreement shall be issued under the Programme pursuant to this Agency Agreement. The amendments to the Original Agency Agreement made by this Agency Agreement shall not apply in respect of any further Belfius Financing Company Notes issued pursuant to the Original Agency Agreement on or after the date hereof that are consolidated and form a single series with any Notes issued prior to the date hereof.

IT HAS BEEN AGREED AS FOLLOWS:

Article 1

The Issuer hereby warrants as follows:

- (i) That it is duly incorporated and validly existing under the laws of its country of incorporation and that it has corporate power and authority to conduct its business and to execute, deliver and comply with the provisions of this Agreement and the Notes, as the case may be;
- (ii) that all necessary consents, authorizations, notifications, registrations and filings have been obtained or made (and are in full force and effect) in connection with the compliance by the Issuer with the respective terms of this Agreement and the Notes including all payments to be made by the Issuer thereunder or in connection therewith;
- (iii) that this Agreement constitutes, and upon due execution, issue and/or delivery as aforesaid the Notes will constitute, valid and legally binding obligations of the Issuer in accordance with their respective terms;
- (iv) that the Base Prospectus is accurate in all material respects and does not contain any untrue statement of a material fact or omit to state any material fact necessary to make the statements contained therein, in the light of the circumstances under which they were made, not misleading;
- (v) that the financial statements and other financial information in the Base Prospectus present fairly its financial position and since the date of the most recent financial statements therein contained there has been no material adverse change, financial or otherwise in the condition, general affairs, results of operation or prospects other than as referred to in the Base Prospectus;
- (vi) that no events exist which, had any Notes been issued, would (or, with the giving of notice or lapse of time or both, could) constitute an event of default under the Notes;

- (vii) that no litigation, arbitration or administrative proceedings are presently current or pending or, to the knowledge of the Issuer threatening which would or might have a material adverse effect on the Issuer or on the ability of the Issuer to perform its obligations under this Agreement and the Notes;
- (viii) that under presently applicable rules, all payments to be made by the Issuer under this Agreement and the Notes are exempt from any taxes, by way of deduction or withholding, and the Issuer is not required by law to make any deduction or withholding therefrom;
- (ix) that the Issuer will pay all and any stamp and other similar taxes and duties payable in its country of incorporation in connection with the authorization, execution and delivery of the Notes, the initial delivery of the Notes and the execution and delivery of this Agreement.

Article 2

The Bearer Notes are issued in bearer form in the Denominations specified in the applicable Final Terms. They will be represented by a Permanent Global Note, deposited with the common depository for Euroclear Bank SA/NV and Clearstream Banking S.A. and will not be exchangeable for definitive notes.

The Bearer Notes will not be physically delivered. They will be held in a securities account.

Article 3

The Issuer appoints BIL as Principal Paying Agent and Fiscal Agent and Belfius Bank as Calculation Agent and Paying Agent (together referred to as the “**Agents**”) in respect of any Tranche of Bearer Notes issued under the Programme upon the terms and subject to the conditions herein set forth, unless otherwise specified in the applicable Final Terms.

Article 4

The Issuer or the Guarantor authorises and directs the Fiscal Agent, from the funds provided to it, to make payments of principal and interest on the Bearer Notes on the relevant due dates.

- (1) The Issuer will, before 10.00 a.m. (Central European Time), on each date on which any payment in respect of any Bearer Notes becomes due under the Conditions, transfer to an account specified by the Fiscal and Principal Paying Agent from time to time such amount in the relevant currency as shall be sufficient for the purposes of such payment in funds settled through such payment system as the Fiscal and Principal Paying Agent and the Issuer may from time to time agree.
- (2) Any funds paid by or by arrangement with the Issuer to the Fiscal and Principal Paying Agent pursuant to subclause (1) shall be held by the relevant Agent for payment to the Noteholders, until any payments under the Bearer Notes become prescribed under the Conditions.
- (3) The Issuer will ensure that no later than 10.00 a.m. (Central European Time) on the second Business Day (as defined below) immediately preceding the date on which any payment is to be made to the relevant Agent pursuant to subclause (1), the Fiscal and Principal Paying Agent shall receive an irrevocable payment confirmation by authenticated SWIFT from the paying bank of the Issuer. For the purposes of this subclause, “**Business Day**” means any day on which TARGET2 (the real time gross settlement system operated by the Eurosystem, or any successor system) is open and any other day so specified in the applicable Final Terms.
- (4) The Fiscal and Principal Paying Agent shall notify by facsimile or by e-mail the Issuer forthwith:
 - (a) if it has not by the relevant date specified in subclause (1) received unconditionally the full amount in the Specified Currency required for the payment; and
 - (b) if it received unconditionally the full amount of any sum payable in respect of the Bearer Notes after such date.
- (5) If for any reason the Fiscal and Principal Paying Agent considers in its sole discretion that the amounts to be received by it pursuant to subclause (1) will be, or the amounts actually received by it pursuant thereto are, insufficient to satisfy all claims in respect of all payments then falling due in respect of the Bearer Notes, the Agents shall not be obliged to pay any such claims until the Fiscal and Principal Paying Agent have received the full amount of all such payments.
- (6) Without prejudice to subclause (5), if the Fiscal and Principal Paying Agent pays any amounts to the holders of Bearer Notes or to any other Paying Agent at a time when it has not received payment in full in respect of the relevant Bearer Notes in accordance with subclause (1) (the excess of the amounts so paid over the amount so received being the “**Shortfall**”), the Issuer will, in addition to paying amounts due under subclause (1), pay to

the Fiscal and Principal Paying Agent on demand interest (at a rate which represents the Fiscal and Principal Paying Agent's cost of funding the Shortfall) on the Shortfall (or the unreimbursed portion thereof) until receipt in full by the Fiscal and Principal Paying Agent of the Shortfall.

(7) The Fiscal and Principal Paying Agent shall on demand promptly reimburse each other Paying Agent for payments in respect of Bearer Notes properly made by such Paying Agent in accordance with this Agreement and the Conditions unless the relevant Agent has notified the relevant Paying Agent that the Fiscal and Principal Paying Agent does not expect to receive on the due date of a payment in respect of the Bearer Notes sufficient funds to make payment of all amounts falling due in respect of such Bearer Notes.

(8) Whilst any Bearer Notes are represented by a Permanent Global Note, all payments due in respect of such Notes shall be made to, or to the order of, the holder of the Permanent Global Note, subject to and in accordance with the provisions of the Permanent Global Note. On the occasion of any such payment, the Paying Agent to which any Permanent Global Note was presented for the purpose of making such payment shall cause the appropriate Schedule to the relevant Permanent Global Note to be annotated in order to evidence the amounts and dates of such payments of principal and/or interest as applicable.

(9) If the amount or principal and/or interest then due for payment is not paid in full (otherwise than by reason of a deduction required by law to be made therefrom or a certification required by the terms of a Note not being received), the Paying Agent to which a Note is presented for the purpose of making such payment shall make a record of such shortfall on the relevant Note and such record shall, in the absence of manifest error, be *prima facie* evidence that the payment in question has not to that extent been made.

Article 5

The Calculation Agent shall in respect of the Notes:

- (a) obtain such quotes and rates and/or make such determinations, calculations, adjustments, notifications and publications as may be required to be made by it by the chapter Terms and Conditions of the Notes in the Base Prospectus (the "**Terms and Conditions**") at the times and otherwise in accordance with the Terms and Conditions;
- (b) maintain a record of all quotations obtained by it and of all amounts, rates and other items determined or calculated by it and make such record available for inspection at all reasonable times by the Issuer, the Guarantor and the Paying Agents;
- (c) promptly notify (and confirm in writing to) the Issuer, the other Paying Agents of each Interest Amount, Interest Rate and Interest Payment Date and all other amounts, rates and dates which it is obliged to determine or calculate under the Conditions as soon as practicable after their determination and of any subsequent amendments to them under the Conditions; and
- (d) use its best endeavours to cause each Interest Amount, Interest Rate and Interest Payment Date and all other amounts, rates and dates which it is obliged to determine or calculate under the Conditions to be published as required in accordance with the Conditions as soon as possible after their determination or calculation.

Article 6

The Issuer, or failing whom the Guarantor, will indemnify the Fiscal Agent against any loss, liability and reasonable expenses which may be incurred by it by reason of, or in connection with the exercise of its duties as Fiscal Agent, except such as may result from the Fiscal Agent's own negligence or intentional fault. The Fiscal Agent shall not be liable to pay interest on any moneys deposited with it by the Issuer and/or the Guarantor for the purpose of its functions as Fiscal Agent.

The indemnities contained in this Article 6 shall survive the termination or expiry of this Agreement.

Article 7

The Issuer, failing whom the Guarantor, shall pay the fees and expenses in respect of the Agents' services in relation to any Tranche of Notes to the Fiscal Agent as separately agreed with the Fiscal Agent.

The Issuer will also reimburse the Fiscal Agent all reasonable out-of-pocket expenses (including, *inter alia*, publication, cable and telex costs and postage) incurred by it in connection with the services rendered hereunder, upon its written request.

The Fiscal Agent shall be responsible for the remuneration of the Agents and for the reimbursement of the expenses incurred by them.

Article 8

(1) Each Agent shall be entitled to deal with money paid to it by the Issuer for the purpose of this Agreement in the same manner as other money paid to a banker by its customers except:

(a) that it shall not exercise any right of set-off, lien or similar claim in respect thereof except in the case of money due to the Issuer, and any amounts that are due but unpaid or are to be reimbursed by the Issuer under this Agreement; and

(b) that it shall not be liable to account to the Issuer for any interest thereon.

No monies held by any Agent need be segregated except as required by law.

(2) In acting hereunder and in connection with the Bearer Notes, each Agent shall act solely as an agent of the Issuer and will not thereby assume any obligations towards or relationship of agency or trust for or with any of the owners or holders of the Bearer Notes.

(3) Each Agent hereby undertakes to the Issuer to perform such obligations and duties, and shall be obliged to perform such duties and only such duties, as are herein specified and in the Conditions, and no implied duties or obligations shall be read into any such document against any Agent, other than the duty to act honestly and in good faith and to exercise the diligence of a reasonably prudent agent in comparable circumstances.

(4) The Fiscal and Principal Paying Agent may consult with legal and other professional advisers and the opinion of such advisers shall be full and complete protection in respect of any action taken, omitted or suffered hereunder in good faith and in accordance with the opinion of such advisers.

(5) Each Agent may rely upon and shall be protected and shall incur no liability for or in respect of any action taken, omitted or suffered in reliance upon any instruction, request or order from the Issuer or any notice, resolution, direction, consent, certificate, attestation, statement, cable, facsimile, telex or other paper or document which it reasonably believes to be genuine and to have been delivered, signed or sent by the proper party or parties or upon written instructions from the Issuer.

(6) Any Agent and its officers, directors and employees may become the owner of and/or acquire any interest in, any Notes with the same rights that it or they would have had if the Paying Agent concerned were not appointed hereunder, and may engage or be interested in any financial or other transaction with the Issuer and may act on, or as depositary, trustee or agent for, any committee or body of holders of Notes or in connection with any other obligations of the Issuer as freely as if the Agent were not appointed hereunder.

(7) The Issuer shall provide the Fiscal and Principal Paying Agent with a certified copy of the list of persons authorised to execute documents and take action on its behalf in connection with this Agreement and shall notify the Fiscal and Principal Paying Agent immediately in writing if any of such persons ceases to be so authorised or if any additional person becomes so authorised together, in the case of any additional authorised person, with evidence satisfactory to the Agent that such person has been so authorised.

(8) Except as ordered by a court of competent jurisdiction or as required by law or applicable regulations, the Issuer and each of the Agents shall be entitled to treat the bearer of any Note as the absolute owner thereof (whether or not overdue and notwithstanding any notice of ownership or writing thereon or notice of any previous loss or theft thereof).

Article 9

This Agreement may be amended by the parties hereto without the consent of the Noteholders, for the purpose of curing any ambiguity or in any manner which the parties may mutually deem necessary or desirable.

Article 10

The Issuer agrees that there shall at all times be a Fiscal Agent, until all the Notes shall have been redeemed and/or purchased and cancelled or shall have become void under the provisions of the prescription clause in the Terms and Conditions.

Each of the Agents may be removed at any time by the filing with it of at least 90 days written notice to that effect signed by or on behalf of the Issuer, specifying the date on which such removal shall become effective, and each of the Agents may at any time resign by giving at least 90 days written notice (unless the Issuer agrees to accept less notice) to that effect to the Issuer, specifying the date on which such resignation shall become effective, provided however that no such notice shall take effect less than 45 days prior to and 45 days after a payment date under the Notes in any year and that no such resignation or removal shall take effect until a new Fiscal Agent, Principal Paying Agent, Paying Agent or Calculation Agent has been appointed by the Issuer and such appointment

has been accepted by the Issuer. Upon its removal or resignation becoming effective, the successor Fiscal Agent shall be entitled to receive all funds and documents on deposit with or held by its predecessor as Fiscal Agent.

Article 11

The Issuer and the Guarantor undertake to deliver to the Principal Paying Agent during the term of the Notes, upon its request, copies of its annual report and interim report, if any.

Article 12

The Issuer and the Guarantor may at any time convene a meeting of Noteholders. The provisions for convening a meeting of Noteholders are detailed in the Base Prospectus.

Article 14

(1) No Paying Agent shall be responsible or accountable to anyone with respect to the validity of this Agreement or the Notes or for any act or omission by it in connection with this Agreement or any Note except for its own gross negligence, intentional fault, bad faith or fraud, including that of its officers, directors and employees.

(2) No Paying Agent shall have any duty or responsibility in case of any default by the Issuer in the performance of its obligations under the Terms and Conditions or, in the case of receipt of a written demand from a Noteholder, with respect to such default, provided however that forthwith upon receipt by the Agent of a notice given by a Noteholder in accordance with Condition "*Events of Default*", the Agent will notify the Issuer and the

Guarantor thereof and furnish them with a copy of such notice.

Whenever in the performance of its duties under this Agreement a Paying Agent shall deem it necessary or desirable that any fact or matter be proved or established by the Issuer prior to taking or suffering any action hereunder, such fact or matter (unless other evidence in respect thereof be herein specifically prescribed) may be deemed to be conclusively proved and established by a certificate signed by an authorised officer of the Issuer and delivered to such Paying Agent and such certificate shall be full authorisation to such Paying Agent, in its capacity as such, for any action taken or suffered in good faith by it under the provisions of this Agreement in reliance upon such certificate.

Article 15

This Agreement is governed by and construed in accordance with the laws of the Grand Duchy of Luxembourg. All disputes arising in connection herewith between the Issuer, the Guarantor, the Fiscal Agent, the Principal Paying Agent, the Calculation Agent shall be subject to the non-exclusive jurisdiction of the courts of Luxembourg.

The provisions of articles 470-1 to 470-19 of the Luxembourg law of 10 August 1915 on commercial companies, as amended, shall not apply to the Notes.

REPORT OF THE REVISEUR D'ENTREPRISES AGREE

Report on the audit of the annual accounts

Opinion

We have audited the annual accounts of Belfius Financing Company S.A. (the "Company"), which comprise the balance sheet as at 31 December 2023, and the profit and loss account for the year then ended, and notes to the annual accounts, including a summary of significant accounting policies.

In our opinion, the accompanying annual accounts give a true and fair view of the financial position of the Company as at 31 December 2023 and of the results of its operations for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the annual accounts.

Basis for opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession ("Law of 23 July 2016") and with International Standards on Auditing ("ISAs") as adopted for Luxembourg by the Commission de Surveillance du Secteur Financier ("CSSF"). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the « Responsibilities of "réviseur d'entreprises agréé" for the audit of the annual accounts » section of our report. We are also independent of the Company in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants ("IESBA Code") as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the annual accounts, and have fulfilled our other ethical responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of the Board of Directors for the annual accounts

The Board of Directors is responsible for the preparation and fair presentation of the annual accounts in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the annual accounts, and for such internal control as the Board of Directors determines is necessary to enable the preparation of annual accounts that are free from material misstatement, whether due to fraud or error.

In preparing the annual accounts, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the réviseur d'entreprises agréé for the audit of the annual accounts

The objectives of our audit are to obtain reasonable assurance about whether the annual accounts as a whole are free from material misstatement, whether due to fraud or error, and to issue a report of the "réviseur d'entreprises agréé" that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these annual accounts.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the annual accounts, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors.
- Conclude on the appropriateness of the Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report of the "réviseur d'entreprises agréé" to the related disclosures in the annual accounts or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our report of the "réviseur d'entreprises agréé". However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the annual accounts, including the disclosures, and whether the annual accounts represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

BELFIUS FINANCING COMPANY S.A.

Société Anonyme

NOTES TO THE ACCOUNTS

As at December 31, 2023

(expressed in EUR)

NOTE 1 - GENERAL

Belfius Financing Company S.A. (the "Company") was incorporated in Luxembourg on 29 October 2010 and is organized as "Société Anonyme" for an unlimited period. The Company is a wholly-owned subsidiary of Belfius Bank S.A./N.V..

Belfius Financing Company S.A. falls under the requirements of Luxembourg rules and regulations applicable to commercial companies under the law of 10 August 1915 as well as the Companies Register Act.

As the Company no longer has any transferable listed security admitted to trading on a regulated market in the Union and especially on the Luxembourg Stock Exchange since November 2022, the Company no longer falls within the scope of the law of January 11th, 2008, on transparency requirements for issuers (the "Transparency Act") and the provisions of this law do not apply to the Company anymore.

The current debt issuance programmes of the Company are:

a) Long Term: Notes Issuance Programme (NIP)

The limit of the Notes Issuance Programme amounts to EUR 20.000.000.000. The debt securities issued under this program are guaranteed by Belfius Bank S.A./N.V.. Notes may be issued on a preferred senior basis. The Notes are not listed and are governed by Belgian law and are mainly placed with retail investors.

b) Short Term: Euro-Commercial Paper Programme (ECP)

The Euro-Commercial Paper Programme amounts to maximum EUR 10.000.000.000. These debt securities issued under this programme are not listed and are guaranteed by Belfius Bank S.A./N.V. and have a minimum maturity of one day and a maximum maturity of 364 days.

According to Article 4 of its restated articles of association, the purpose of the Company is: "(a) to hold shareholdings and stakes, in any form whatsoever, in any commercial, industrial, financial or other Luxembourg or foreign company or undertakings, as well as to manage and optimize these stakes, (b) to acquire by way of participations, contributions, guarantees, acquisitions or options, negotiation or any other means, securities, rights, patents, licenses and other assets, provided the Company considers it appropriate to do so, and in general to hold, manage, optimize, sell or transfer the aforementioned, in whole or in part; (c) to take part in commercial, financial or other transactions and to grant to any holding company, subsidiary, associated or affiliated company or any other company belonging to the same corporate group as the Company any financial assistance, loan, advance or guarantee; (d) to borrow, raise funds by any means whatsoever (including without limitation the issuance of preferred equity certificates (PECs) (nonconvertible or convertible into shares), loans, bonds, acknowledgements of debt and any other form of debt or type of instrument) and to ensure the reimbursement of any borrowed amount; to perform all operations directly or indirectly related to this purpose.

The Company may grant pledges, guarantees, liens, mortgages and any other type of security (surety), as well as any form of compensation, to Luxembourg or foreign entity (ies) in relation to its own obligations and debts, or in relation to the obligations and debts of subsidiaries, associated or affiliated companies or any company belonging to the same corporate group.

The Company may acquire immovable property located abroad or in Luxembourg.

NOTE 1 – GENERAL (CONTINUED)

The Company may moreover perform any commercial, technical or financial transactions, involving movable or immovable property, which are directly or indirectly related to the abovementioned purpose."

The Company is registered with the Luxembourg Register of Commerce and Companies under number B 156 767.

The financial year of the Company runs from January 1 until December 31 of each year.

The Company is not required to draw up consolidated accounts in accordance with Article 1711-1 of the commercial Law of August 10, 1915, as amended.

Its registered office is established in the municipality of Koerich, at 20, rue de l'Industrie, L-8399 Windhof, Grand-Duchy of Luxembourg.

The Company's annual accounts are included in the consolidated accounts of Belfius Bank S.A./N.V., incorporated under the Law of Belgium. These can be obtained from Belfius Bank S.A./N.V., Place Charles Rogier 11, B-1210 Brussels, Belgium.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

General principles

These annual accounts are prepared in accordance with generally accepted accounting principles and in accordance with the laws and regulations in force in the Grand-Duchy of Luxembourg and on a going concern basis.

Translation of currencies

The Company maintains its accounting records in euro (EUR) and the annual accounts are prepared in this currency.

Assets and liabilities denominated in currencies other than EUR are translated at rates of exchange applicable at the balance sheet date. Transactions denominated in other currencies are translated at the approximate rates applicable at the time of the transactions. Exchange gains and losses are credited or charged to the profit and loss account. This, as well, applies to all current assets and liabilities considering the intrinsic economic link between these positions.

Tangible assets

Office Equipment is carried at its acquisition cost less any accumulated depreciation and any accumulated impairment losses. Office equipment is depreciated on a reducing balance basis over a period of 9 years.

IT materials are amortized linearly on a period of 5 years.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Debtors

Loans defined as debtors are stated in the balance sheet at their acquisition value. The carrying value of the loans includes the interest accrued. Incidental costs related to new loans are expensed in the financial year in which they are incurred.

Other debtors and receivables are stated at nominal value which includes interest which is due or accrued.

They are subject to value adjustments where their recovery is compromised or in case of durable depreciation in value according to the opinion of the Board of Directors.

Investments

Bonds are stated in the balance sheet at their acquisition value determined according to the principle of the individualized price or the average acquisition price. Incidental costs related are expensed in the financial period in which they are incurred.

The carrying value of the bonds includes the interest accrued.

The bonds do not expose the Company to market risk and therefore, value adjustments are made in respect of these investments in case of durable depreciation in value according to the opinion of the Board of Directors.

Provisions

At the end of each period, provisions are recorded to cover all foreseeable liabilities and charges related to events which occurred before period end.

Provisions relating to previous periods are regularly reviewed and released if the reasons for which the provisions were recorded have ceased to apply.

Creditors

Amounts payable represented by promissory notes are stated at their net proceeds corresponding to the repayment value. The carrying value includes the interests which are due or accrued.

Amounts payable represented by promissory notes for which the repayment value differs from the issue price are stated at their reimbursement value considering the application of the following rule: the positive difference (premium) or negative difference (discount) between the issue price and the reimbursement price is amortized over the period between issue date and maturity date.

Other interest receivable and similar income

Other interest receivable and similar income are recognised on an accrual basis.

Interest payable and similar expenses

Interest payable and similar expenses are recognised on the accrual basis.

Taxes

Taxes are accounted for on an accrual basis.

NOTE 3 - TANGIBLE ASSETS

This caption includes costs in relation with the acquisition of Office Equipment and IT materials. Office Equipment are depreciated over a period of nine years and on a reducing balance basis while IT materials are depreciated linearly on a period of five years.

	Cost	Amortization	Net book value
	EUR	EUR	EUR
Office Equipment	10.345	6.793	3.552
IT Materials	7.918	5.700	2.218
	18.263	12.493	5.770

NOTE 4 - DEBTORS

As of December 31, 2023, the main debtors include matured intercompany bonds from Belfius Bank amounting to EUR 47.406.000 at nominal value (2022: EUR 0), and matured coupons amounting to EUR 1.178.914 (2022: EUR 983.475) both related to the NIP program. A reference is made to note 11 for details regarding interest income owed by affiliated undertakings. Debtors also include a receivable from Belfius Bank concerning prescribed bearer securities, amounting to EUR 5.859.864 (2022: EUR 5.877.464), where Belfius Bank acts as the Paying Agent and prepayments made to the Tax Authorities amounting to EUR 92.592 (2022: EUR 110.386).

The carrying value of the debtors is as follows:

	2023	2022
	EUR	EUR
Within one year	54.157.069	6.971.325
After one year and within five years	380.302	-
More than five years	-	-
TOTAL	54.537.371	6.971.325

In the opinion of the Board of Directors, no durable depreciations exist to justify a value adjustment on the debtors.

NOTE 5 - INVESTMENTS

As at December 31, 2023, investments consist of bonds issued by Belfius Bank S.A./N.V. which are repayable at nominal value.

The carrying value of the investments includes the related accrued interest and is as follows:

	2023	2022
	EUR	EUR
Within one year	1.940.135.042	2.300.126.403

Subscribed capital and results brought forward

As at December 31, 2023, the share capital of the Company amounts to EUR 3.094.004, fully subscribed and paid up to the extent of the aggregate amount of EUR 2.113.004, represented by 251 shares without par value, held by its Sole Shareholder, Belfius Bank S.A./N.V..

Following the Annual General Meeting held on March 15, 2023, a dividend of EUR 255.000 was approved for distribution and subsequently paid out. The dividend payout is based on the audited financial statements of 2022.

NOTE 6 - CAPITAL AND RESERVES (CONTINUED)

Legal reserve

In accordance with Luxembourg Company Law, the Company is required to transfer a minimum of 5% of its net gain for each financial year to a legal reserve. This requirement ceases to be necessary once the balance of the legal reserve reaches 10% of the issued share capital and this threshold was reached in 2021. The legal reserve is not available for distribution to the Sole Shareholder.

Other reserves

For the year ended December 31, 2023, the Company reduced its wealth tax liability in accordance with tax legislation by setting up a special reserve (classified under “reserves”) in an amount equal to five times the amount of the payable wealth tax.

This reserve shall be maintained during the period of five years from the year following that during which the wealth tax was reduced.

As at December 31, 2023, the Company has allocated the amount of EUR 86.300 to the net wealth tax reserve and released an amount of EUR 89.725.

NOTE 7 - CREDITORS

As at December 31, 2023, creditors are mainly composed of long-term debts in relation with the NIP programme and of short-term debts in relation with the ECP programme fully and irrevocably guaranteed by Belfius Bank S.A./N.V., amounting to EUR 12.800.503.450 (2022: 10.854.245.600). Reference is made to note 12 in relation to the interest payable and similar expenses.

Additionally, the creditors include prescribed bearer securities amounting to EUR 5.859.864 (2022: 5.877.464) with a revised breakdown for the year 2022, trade creditors amounting to EUR 31.426 (2022: 6.542) and tax and social security debts amounting to EUR 292.689 (2022: 188.482).

The carrying value of creditors includes the related accrued interest and is as follows:

	2023	2022
	EUR	EUR
Within one year	1.947.035.219	2.268.277.427

REPORT OF THE REVISEUR D'ENTREPRISES AGREE

Report on the audit of the annual accounts

Opinion

We have audited the annual accounts of Belfius Financing Company S.A. (the "Company"), which comprise the balance sheet as at 31 December 2024, and the profit and loss account for the year then ended, and notes to the annual accounts, including a summary of significant accounting policies.

In our opinion, the accompanying annual accounts give a true and fair view of the financial position of the Company as at 31 December 2024 and of the results of its operations for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the annual accounts.

Basis for opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (the "Law of 23 July 2016") and with International Standards on Auditing ("ISAs") as adopted for Luxembourg by the Commission de Surveillance du Secteur Financier ("CSSF"). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the « Responsibilities of "réviseur d'entreprises agréé" for the audit of the annual accounts » section of our report. We are also independent of the Company in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants ("IESBA Code") as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the annual accounts, and have fulfilled our other ethical responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of the Board of Directors for the annual accounts

The Board of Directors is responsible for the preparation and fair presentation of the annual accounts in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the annual accounts, and for such internal control as the Board of Directors determines is necessary to enable the preparation of annual accounts that are free from material misstatement, whether due to fraud or error.

In preparing the annual accounts, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the "réviseur d'entreprises agréé" for the audit of the annual accounts

The objectives of our audit are to obtain reasonable assurance about whether the annual accounts as a whole are free from material misstatement, whether due to fraud or error, and to issue a report of the "réviseur d'entreprises agréé" that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these annual accounts.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the annual accounts, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors.
- Conclude on the appropriateness of the Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report of the "réviseur d'entreprises agréé" to the related disclosures in the annual accounts or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our report of the "réviseur d'entreprises agréé". However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the annual accounts, including the disclosures, and whether the annual accounts represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Société Anonyme

NOTES TO THE ACCOUNTS

As at December 31, 2024

(expressed in EUR)

NOTE 1 - GENERAL

Belfius Financing Company S.A. (the "Company") was incorporated in Luxembourg on 29 October 2010 and is organized as "Société Anonyme" for an unlimited period. The Company is a wholly-owned subsidiary of Belfius Bank S.A./N.V..

Belfius Financing Company S.A. falls under the requirements of Luxembourg rules and regulations applicable to commercial companies under the law of 10 August 1915 as well as the Companies Register Act.

As the Company no longer has any transferable listed security admitted to trading on a regulated market in the Union and especially on the Luxembourg Stock Exchange since November 2022, the Company no longer falls within the scope of the law of January 11th, 2008, on transparency requirements for issuers (the "Transparency Act") and the provisions of this law do not apply to the Company anymore.

The current debt issuance programmes of the Company are:

a) Long Term: Notes Issuance Programme (NIP)

The limit of the Notes Issuance Programme amounts to EUR 20.000.000.000. The debt securities issued under this program are guaranteed by Belfius Bank S.A./N.V.. Notes may be issued on a preferred senior basis. The Notes are not listed and are governed by Belgian law and are mainly placed with retail investors.

b) Short Term: Euro-Commercial Paper Programme (ECP)

The Euro-Commercial Paper Programme amounts to maximum EUR 10.000.000.000. These debt securities issued under this programme are not listed and are guaranteed by Belfius Bank S.A./N.V. and have a minimum maturity of one day and a maximum maturity of 364 days.

According to Article 4 of its restated articles of association, the purpose of the Company is: "(a) to hold shareholdings and stakes, in any form whatsoever, in any commercial, industrial, financial or other Luxembourg or foreign company or undertakings, as well as to manage and optimize these stakes, (b) to acquire by way of participations, contributions, guarantees, acquisitions or options, negotiation or any other means, securities, rights, patents, licenses and other assets, provided the Company considers it appropriate to do so, and in general to hold, manage, optimize, sell or transfer the aforementioned, in whole or in part; (c) to take part in commercial, financial or other transactions and to grant to any holding company, subsidiary, associated or affiliated company or any other company belonging to the same corporate group as the Company any financial assistance, loan, advance or guarantee; (d) to borrow, raise funds by any means whatsoever (including without limitation the issuance of preferred equity certificates (PECs) (nonconvertible or convertible into shares), loans, bonds, acknowledgements of debt and any other form of debt or type of instrument) and to ensure the reimbursement of any borrowed amount; to perform all operations directly or indirectly related to this purpose.

The Company may grant pledges, guarantees, liens, mortgages and any other type of security (surety), as well as any form of compensation, to Luxembourg or foreign entity (ies) in relation to its own obligations and debts, or in relation to the obligations and debts of subsidiaries, associated or affiliated companies or any company belonging to the same corporate group.

The Company may acquire immovable property located abroad or in Luxembourg.

NOTE 1 – GENERAL (CONTINUED)

The Company may moreover perform any commercial, technical or financial transactions, involving movable or immovable property, which are directly or indirectly related to the abovementioned purpose."

The Company is registered with the Luxembourg Register of Commerce and Companies under number B 156 767.

The financial year of the Company runs from January 1 until December 31 of each year.

The Company is not required to draw up consolidated accounts in accordance with Article 1711-1 of the commercial Law of August 10, 1915, as amended.

Its registered office is established in the municipality of Koerich, at 20, rue de l'Industrie, L-8399 Windhof, Grand-Duchy of Luxembourg.

The Company's annual accounts are included in the consolidated accounts of Belfius Bank S.A./N.V., incorporated under the Law of Belgium. These can be obtained from Belfius Bank S.A./N.V., Place Charles Rogier 11, B-1210 Brussels, Belgium.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

General principles

These annual accounts are prepared in accordance with generally accepted accounting principles and in accordance with the laws and regulations in force in the Grand-Duchy of Luxembourg and on a going concern basis.

Translation of currencies

The Company maintains its accounting records in euro (EUR) and the annual accounts are prepared in this currency.

Assets and liabilities denominated in currencies other than EUR are translated at rates of exchange applicable at the balance sheet date. Transactions denominated in other currencies are translated at the approximate rates applicable at the time of the transactions. Exchange gains and losses are credited or charged to the profit and loss account. This, as well, applies to all current assets and liabilities considering the intrinsic economic link between these positions.

Tangible assets

Office Equipment is carried at its acquisition cost less any accumulated depreciation and any accumulated impairment losses. Office equipment is depreciated on a reducing balance basis over a period of 9 years.

IT materials are amortized linearly on a period of 5 years.

Debtors

Loans defined as debtors are stated in the balance sheet at their acquisition value. The carrying value of the loans includes the interest accrued. Incidental costs related to new loans are expensed in the financial year in which they are incurred.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Debtors (continued)

Loans defined as debtors are stated in the balance sheet at their acquisition value. The carrying value of the loans includes the interest accrued. Incidental costs related to new loans are expensed in the financial year in which they are incurred.

Other debtors and receivables are stated at nominal value which includes interest which is due or accrued.

They are subject to value adjustments where their recovery is compromised or in case of durable depreciation in value according to the opinion of the Board of Directors, based on the situation, profitability or perspective of the debtor.

Investments

Bonds issued by Belfius Bank are stated in the balance sheet at their acquisition value determined according to the principle of the individualized price or the average acquisition price. Incidental costs related are expensed in the financial period in which they are incurred.

The carrying value of the bonds includes the interest accrued.

The bonds issued by Belfius Bank expose the Company to a very limited market risk and therefore, value adjustments are made in respect of these investments in case of durable depreciation in value according to the opinion of the Board of Directors. In this scenario, following the intra-group financing model and the full and irrevocable guarantee provided by Belfius Bank, the Board of Directors may consider a potential value adjustment of these bonds in the event that the rating of Belfius Bank is downgraded below "Investment Grade" by any of the rating agencies (Fitch, S&P, or Moody's).

Provisions

At the end of each period, provisions are recorded to cover all foreseeable liabilities and charges related to events which occurred before period end.

Provisions relating to previous periods are regularly reviewed and released if the reasons for which the provisions were recorded have ceased to apply.

Creditors

Amounts payable represented by promissory notes are stated at their net proceeds corresponding to the repayment value. The carrying value includes the interests which are due or accrued.

Amounts payable represented by promissory notes for which the repayment value differs from the issue price are stated at their reimbursement value considering the application of the following rule: the positive difference (premium) or negative difference (discount) between the issue price and the reimbursement price is amortized over the period between issue date and maturity date.

Other interest receivable and similar income

Other interest receivable and similar income are recognised on an accrual basis.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Interest payable and similar expenses

Interest payable and similar expenses are recognised on the accrual basis.

Taxes

Taxes are accounted for on an accrual basis.

NOTE 3 - TANGIBLE ASSETS

This caption includes costs in relation with the acquisition of Office Equipment and IT materials. Office Equipment are depreciated over a period of nine years and on a reducing balance basis while IT materials are depreciated linearly on a period of five years.

	Cost	Amortization	Net book value
	EUR	EUR	EUR
Office Equipment	10.345	7.827	2.518
IT Materials	8.408	7.300	1.108
	18.753	15.127	3.626

NOTE 4 - DEBTORS

As of December 31, 2024, the main debtors include straight deposits with Belfius Bank amounting to EUR 7.750.000 (2023: EUR 0). Debtors also include a receivable from Belfius Bank concerning prescribed bearer securities, amounting to EUR 317.141 (2023: EUR 5.859.864), where Belfius Bank acts as the Paying Agent and prepayments made to the Tax Authorities amounting to EUR 92.340 (2023: EUR 92.592).

The carrying value of the debtors is as follows:

	2024	2023
	EUR	EUR
Within one year	8.144.906	54.157.069
After one year and within five years	123.926	380.302
More than five years	-	-
TOTAL	8.268.832	54.537.371

In the opinion of the Board of Directors, no durable depreciations exist to justify a value adjustment on the debtors. As at December 31, 2023, the debtors included matured intercompany bonds from Belfius Bank amounting to EUR 47.406.000 at nominal value.

NOTE 5 - INVESTMENTS

As at December 31, 2024, investments consist of bonds issued by Belfius Bank S.A./N.V. which are repayable at nominal value.

The carrying value of the investments includes the related accrued interest and is as follows:

Following the Annual General Meeting held on March 20, 2024, a dividend of EUR 355.000 was approved for distribution and subsequently paid out. The dividend payout is based on the audited annual accounts as at December 31, 2023.

Legal reserve

In accordance with Luxembourg Company Law, the Company is required to transfer a minimum of 5% of its net gain for each financial year to a legal reserve. This requirement ceases to be necessary once the

balance of the legal reserve reaches 10% of the issued share capital and this threshold was reached in 2021. The legal reserve is not available for distribution to the Sole Shareholder.

NOTE 6 - CAPITAL AND RESERVES (CONTINUED)

Other reserves

For the year ended December 31, 2024, the Company reduced its wealth tax liability in accordance with tax legislation by setting up a special reserve (classified under “reserves”) in an amount equal to five times the amount of the payable wealth tax.

This reserve shall be maintained during the period of five years from the year following that during which the wealth tax was reduced.

As at December 31, 2024, the Company has allocated the amount of EUR 92.700 to the net wealth tax reserve and released an amount of EUR 87.000.

NOTE 7 - PROVISIONS

As at December 31, 2024, the Company accounted for a provision expense of EUR 5.473.476 and a provision reversal of EUR 2.445.858.

	Provisions at the beginning of the year	Increases: allocation for the year	Decreases: reversals for the year	Provisions at the end of the year
	EUR	EUR	EUR	EUR
Other provisions	-	5.473.476	(2.445.858)	3.027.618
TOTAL	-	5.473.476	(2.445.858)	3.027.618

These provisions are for prescribed bearer securities reimbursed by Belfius Bank. The Board of Directors approved a plan to gradually reverse these provisions in the P&L.

NOTE 8 - CREDITORS

As at December 31, 2024, creditors are mainly composed of long-term debts in relation with the NIP programme and of short-term debts in relation with the ECP programme fully and irrevocably guaranteed by Belfius Bank S.A./N.V., amounting to EUR 14.147.150.042 (2023: 12.800.503.450). Reference is made to note 13 in relation to the interest payable and similar expenses.

Additionally, the creditors include prescribed bearer securities amounting to EUR 317.141 (2023: 5.859.864), trade creditors amounting to EUR 61.636 (2023: 31.426) and tax and social security debts amounting to EUR 1.066.412 (2023: 292.689).

NOTE 8 – CREDITORS (CONTINUED)

The carrying value of creditors includes the related accrued interest and is as follows:

2024	2023
EUR	EUR

Within one year	4.854.184.661	1.947.035.219
After one year and within five years	8.288.281.164	9.462.987.543

TOTAL	14.148.595.231	12.806.687.430

The movements on debts occurring during the year ended December 31, 2024 are mainly attributable to new issues made under the ECP and NIP programmes net of repayments within this period.

During the year, the Company issued social bonds aligned with the strategy, vision, and ambitions of the Belfius Group in terms of corporate sustainability and social finance. These bonds aim to finance projects with a positive social impact by enabling access to essential services in education and healthcare, affordable housing, and socioeconomic advancement and empowerment. They are structured in compliance with the core components of the ICMA Social Bond Principles. The Social Bond Framework is available on the Belfius website under the "Green & Social Bond" section.

NOTES ISSUANCE PROGRAMME

EUR 20,000,000,000

(hereafter, the “**Programme**”)

This first supplement (the “**First Supplement**”) is supplemental to, and should be read in conjunction with, the Base Prospectus dated 19 May 2025 (the “**Base Prospectus**”) prepared in relation to the Programme and prepared in respect of the issuance of Belfius Bank Notes and Belfius Financing Company Notes. On 19 May 2025, the Belgian Financial Services and Markets Authority (the “**FSMA**”) approved the Base Prospectus as a base prospectus for the purposes of Article 8 of Regulation (EU) 2017/1129 (the “**Prospectus Regulation**”).

The FSMA approves this First Supplement on 29 July 2025 as supplement to the Base Prospectus for the purposes of Article 23 of the Prospectus Regulation.

The Issuers accept responsibility for the information contained in this First Supplement. The Issuers declare that, having taken all reasonable care to ensure that such is the case, the information contained in this First Supplement is, to the best of their knowledge, in accordance with the facts and does not omit anything likely to affect the import of such information.

Unless the context otherwise requires, terms defined in the Base Prospectus shall have the same meaning when used in this First Supplement. The Base Prospectus and the First Supplement are available on the internet site www.belfius.be and a copy can be obtained free of charge in the offices of Belfius Bank SA/NV.

In case of inconsistency between (a) statements in this First Supplement and (b) any other statement in or incorporated by reference in the Base Prospectus as supplemented, the First Supplement will prevail.

This First Supplement has been prepared for the purposes of updating the information about the request by the Belgian State for an additional dividend payment, as well as to include information regarding an administrative fine imposed on Belfius Bank by the European Central Bank.

Save as disclosed in this First Supplement, there has been no other significant new factor, material mistake or inaccuracy relating to information included in the Base Prospectus since the publication of the Base Prospectus.

In accordance with article 23 paragraph 2 of the Prospectus Regulation, investors who have, before the publication of this First Supplement, already agreed to purchase or subscribe notes related to an offering period that was still ongoing between 18 July and 29 July 2025 included, have the right to revoke their acceptance until 4 August 2025 (included). This right of revocation relates to the following Notes:

1. Risk Factors

In section 2.1.3. “Belfius’ activities are subject to non-financial risks, including operational, reputational, compliance and legal risks” on page 11, the following sentence shall be inserted after the penultimate paragraph:

In addition, on 6 June 2025, the ECB imposed an administrative fine on Belfius Bank in relation to the delayed IT implementation of new credit risk models used for the calculation of risk-weighted assets in 2024. In this respect, please also refer to the subsection “Other information – Recent events” within section 7. Belfius Bank SA/NV.

2. Recent Events

In section 7.10 “Other information” under “Recent events” on pages 63 and 64, the first paragraph is replaced by the following paragraphs:

Belfius pays an extraordinary dividend of EUR 250 million and an interim dividend of EUR 250 million to the Belgian State

The Belgian State, as sole shareholder of Belfius Bank through the Federal Holding and Investment Company and Certi-Fed, has requested Belfius Bank to pay an additional dividend in the second half of 2025 (in addition to the EUR 444.5 million dividend approved by the annual shareholders’ meeting of Belfius Bank on 30 April 2025 in respect of the 2024 year-end results).

The total additional amount of EUR 500 million will be split equally between an exceptional dividend distributed from available reserves (EUR 250 million) and an interim dividend based on the results as of Sept 30th, 2025 (EUR 250 million).

As interim dividends are an advance on future ordinary dividends (for which Belfius’ 40% dividend payout ratio on net income is already deducted from profit inclusion in the CET1 capital) their payment does not impact capital ratios. However, extraordinary dividends paid out of distributable reserves (which are already included in Belfius’ available CET1 capital) reduce the available capital and Belfius’ capacity to build up future capital buffers. As such, they are subject to appropriate prudential scrutiny, including the prior approval from the competent authority if required.

Belfius expects a decrease in capital ratios by approximately 35 basis points following this request. This impact will be included in the reported H1 figures that will be communicated on August 29th, 2025.

ECB Sanction Related to Credit Risk Model Implementation

On June 6, 2025, the ECB imposed an administrative fine of EUR 6.94 million on Belfius Bank. The fine is related to the late IT implementation of new credit risk models on risk-weighted assets for 2024. These new models, used to calculate the bank's regulatory equity capital ratios, concern certain non-retail segments.

Since March 2025, the new models have been operational at Belfius, ensuring that the calculation is fully compliant from the first quarter of 2025 onwards.

As provided by the regulation, Belfius had applied a correction to the calculation of risk-weighted assets during the four quarters of 2024 to compensate for the difference with the new calculation method.

It is important to note that, even when taking fully into account the impact of the new models, the bank's regulatory equity capital, expressed as a CET 1 ratio, remained consistently above 15% in 2024.

Belfius is a key driving force for Belgium's economy and society. Over 3.8 million customers rely on Belfius for their savings, property dreams, business and pension. And we have their trust, as 94% are satisfied to very satisfied with Belfius.

This 94% is the result of a strategy that Belfius has been implementing consistently for over ten years. Belfius' strategy is built on five key pillars: customer-centric decision-making; a diversified bank-insurer model; rigorous financial and risk management; a unique corporate culture driven by passionate employees; and a sustained focus on innovation.

This combination has once again generated solid results in 2025. An exceptional net result of **€1.160 billion**. A CET1 solvency ratio of **15.9%**. And, for the first time in Belfius' history, total outstanding savings and investments exceeded **€200 billion**, almost double the amount since Belfius was founded in 2012.

With the conclusion of the **Inspire 2025 strategy**, Belfius closes a chapter in which it evolved from challenger to leader in the Belgian bancassurance landscape. However, Belfius is firmly setting its sights on the future with its **Strategy 2030**. Its one constant conviction is to support the Belgian economy and society every day. More than ever, Belfius aims to be the driving force for those who want to start a business, buy a home, save money, invest, and contribute to a stronger, more sustainable and more beautiful Belgium.

Belfius, more than ever a reliable partner for Belgium's economy and society

The powerful driving force behind entrepreneurial Belgium

Belgian **entrepreneurs and businesses** rely on Belfius, which has responded to this trust with a record **€15.9 billion in new long-term loans**, an increase of 14.1% compared to 2024. This growth is mainly attributable to the Corporate segment, where production increased by 20.7%. The business segment remained stable, with smaller companies feeling the economic pressure more intensely.

Total outstanding loans to entrepreneurs and businesses increased to **€46.4 billion** (+4.2%). The **market share** calculated on the basis of the total outstanding loans remained almost stable, at 21.5% in the Corporate segment and 20.4% in the Business segment.

Belfius is once again the leader in **Debt Capital Markets** for Belgian issuers, with 45 transactions worth €7.4 billion. The bank supported the issuance of 1 **EU Green Bond**, 11 **ICMA Green Bonds**, 1 **ICMA Social Bond** and 1 **ICMA Sustainability Bond** for a total amount of €3.3 billion. Euronext Brussels recognised this expertise by awarding Belfius the “DCM ESG Finance House of the Year 2025” prize. In **Equity Capital Markets**, Belfius carried out 11 operations for a total of €2.8 billion and was also voted ‘Best Trade Finance Bank in Belgium’ by Global Finance for the sixth time.

And Belgian entrepreneurs and businesses can count on Belfius for much more than just financing. **Incoming and outgoing payment volumes** on Business and Corporate accounts rose by 5% and 10% respectively, while the Financial Markets team saw its income in the Corporate segment and the public & social sector increase by **€9 million** in a volatile market. Belfius helps entrepreneurs protect themselves against exchange rate fluctuations, hedge their interest rate risks and grow their surplus cash.

The strategic collaboration with **Kepler Cheuvreux** in the field of mergers and acquisitions demonstrates its added value. Euronext presented Kepler Cheuvreux with the “BELIR Award of the Year” in recognition of its work to provide Belgian companies with better access to the investor market.

All these factors translate into high satisfaction ratings, with **93%** of Business customers and **94%** of Corporate customers stating they are satisfied or very satisfied with Belfius.

Belfius and Alan: occupational health, from cost centre to strategic investment

For a company, the health of its employees is not a cost, but its most valuable asset. Driven by this conviction, in 2024 Belfius made a strategic investment in Alan, an innovative European player that combines health insurance and prevention within a single digital platform. No more reactive administration; make way for a proactive approach to health, with psychologists and doctors available 24/7 via the app, reimbursements in less than an hour and an average response time of less than two minutes. One year later, and the results have been impressive. Over **200 companies** - from SMEs to large groups, private companies to public institutions - have chosen the Alan offer by Belfius. Over **50,000 affiliated workers** now enjoy a modern, preventive approach to occupational health. Belfius has in-depth knowledge of the Belgian economic landscape, while Alan contributes its cutting-edge technology and resolutely preventive approach. This is a powerful alliance: together, Belfius and Alan are transforming healthcare, turning it into a genuine strategic investment rather than a cost centre.

Investing in a sustainable future for Belgian society as a whole

Following the 2024 elections, 2025 was a year of transition for many public administrations, for which Belfius remains a loyal and constant partner. With 57% of tenders won for new long-term loans, Belfius confirmed its undisputed position as leader in the **public and social sector** market.

In total, Belfius granted **€3.1 billion in new long-term loans** to this sector. **Total outstanding loans** amounted to **€24.3 billion** (+0.5% compared to the end of 2024). Belfius remains the financial pillar of Belgium's public infrastructure, from hospitals to schools, local authorities and social institutions. This is a sector to which it contributes much more than just funding. Thanks to tools such as the MAHA analysis of hospitals' financial health, the "Local Finances" study and the New Financial Scan tool, Belfius helps public administrations manage their budgets, control their debt ratios and better prepare for the financial challenges of tomorrow.

And this approach is paying off, as no fewer than **99% of customers in the public and social sector** say they are satisfied or very satisfied with Belfius.

Belfius helps a record number of Belgian customers make their dream properties a reality

With the property market fully revitalised in 2025, Belfius stepped up a gear, thanks to **exclusive partnerships with Immoweb and Batibouw**, as well as the launch of the protected variable rate in February 2025.

The result has been remarkable, with **the production of mortgage loans worth €8.3 billion**, up 46.1% compared to 2024. Belfius is therefore growing significantly faster than the market. **Market share** in mortgage production rose from 17.6% to 19.9%. **Total outstanding loans in the individuals segment** amounted to €52.7 billion.

Belfius also helps protect the real estate dream, as the value of the new credit-linked insurance increased by 36%.

Trust worth €200 billion

Belfius meets the needs of savers and investors with a diverse range of products, from savings and current accounts to investment insurance, funds and discretionary management.

The results speak for themselves. **Total outstanding savings and investments** increased by €10.2 billion (+5.2%) to reach **€207.7 billion**.

For the first time in its history, Belfius has therefore exceeded the €200 billion mark, which is almost double the figure for 2012. Of this €10.2 billion growth, **€3.5 billion** is attributable to favourable market conditions and **€6.7 billion** to **exceptionally strong organic growth**.

The **total volume on savings and payment accounts** increased by 8.9% to **€96.5 billion**. The new savings account launched by Belfius in April 2025 was an immediate success, with almost 90,000 new accounts opened. **Investment insurance products** are particularly popular, with the amounts invested rising by an exceptional 21.2% to **€3.6 billion in Branch 21** and by 19.2% to **€5.3 billion in Branch 23**.

Investors were not to be outdone, as **the amounts invested through discretionary management and investment funds** rose by 11.1% to €50 billion.

94% of individuals say they are satisfied or very satisfied with Belfius.

Belfius Private: Your Wealth. Your Voice.

In autumn 2025, Belfius took a bold strategic step with the creation of **Belfius Private**, a department entirely dedicated to private banking within Belfius. A new benchmark. Driven by a strong conviction: heritage deserves a voice. Your Wealth. Your Voice.

Belfius Private combines what other players often offer separately: investments that reflect personal convictions, loans backed by the full power of a bank-insurer, estate planning that goes beyond the numbers, insurance covering what really matters to the customer, and easy access to the trading room, the experts at Belfius Asset Management and Candriam, and the stockbroker Kepler Cheuvreux.

The launch was an immediate success. Belfius Private welcomed **14,000 new customers**, bringing its total number of Private customers to 158,000, with a growing **market share** of **15.6%**. The **total outstanding savings and investments of Private and Wealth customers** reached **€65.5 billion**. **Total assets under management** rose sharply, from €17.6 billion at the end of 2024 to **€20.1 billion**.

This growth is also clearly visible on the ground. Belfius Private now has **52 Private & Wealth Houses**, meeting places where key decisions and projects come to life. The jewel in the crown is the new Villalobar flagship in Woluwe-Saint-Pierre, a building listed as Belgian heritage dating from 1936, which has been given a new lease of life as the headquarters of Belfius Private.

The satisfaction ratings reflect this: **95%** of **Wealth customers** and **98%** of **Private Membership customers** state they are satisfied to very satisfied.

The ambition is clear: by 2030, Belfius aims to become Belgium's leader in private banking, with a market share of around 20% and €100 billion in assets under management.

Re=Bel: digital investment in full swing

In 2025, **Re=Bel** became one of the fastest-growing digital investment platforms in Belgium. A total of **168,000 investors** now use the platform, representing a 32% increase in one year. Together, they carried out more than **850,000 purchase and sale transactions**, with a total volume of €3.6 billion, 67% more than in 2024.

Re=Bel makes investing accessible, transparent and intuitive. And investors confirm this, as the satisfaction rating for savings and investment products among Re=Bel customers stands at **92%**.

Protecting, insuring, preparing for tomorrow

By combining banking and insurance, Belfius makes all the difference. It offers not only financing solutions, but also protection solutions. This enables families to look to the future with peace of mind, helps entrepreneurs protect themselves against the unexpected and encourages every Belgian to plan their retirement at the right time.

This can be seen in the numbers. The **collection of Life premiums** rose by 42.9% to exceed the €2 billion mark. After several years of stability, this is a significant leap, driven by an attractive interest rate environment and intelligent product innovation.

The driving force: the sharp increase in the collection of **Invest premiums**, with **Branches 21 and 23** reaching €1.3 billion, up 79% on the end of 2024.

Added to this a contribution of €458 million for **Pension** products and €185 million for **Protection** products.

Total Life reserves reached €16.5 billion (+10.2%), mainly driven by Invest (+18.3%) and Pension (+6.1%). This growth is logical, as planning pensions is one of Belfius Insurance's top priorities for 2025, with studies that provide an overview of the current situation, a practical simulation tool, innovative products and a 360° plan that brings together the private and professional assets of Private customers in a single plan.

Belfius is also making progress in terms of protection. The **collection of Non-Life premiums** (excluding Health) increased by 4.8% at group level to €910 million, with growth across all channels: **bancassurance** (+5.8%), **DW** (+3.0%) and **Belfius Direct Assurances** (+7.9%).

The **number of new policies taken out** follows the same trend: +7.5% via bancassurance thanks to exceptional mortgage loan production and the fact that 90.2% of new property buyers immediately took out home or family insurance. And +38.9% at Belfius Direct Insurance thanks to strong performance in pay-as-you-drive insurance and the launch of three new products for cycling, travel assistance and tenants.

This was confirmed by recognition from renowned consultancy firm SIA Partners, which has awarded **Belfius Direct Insurance** the prize for **the best digital customer experience globally**, due to its focus on product innovation, website optimisation and overall customer experience.

The **combined ratio for property and casualty insurance** stands at an excellent 88%, compared with 92% at the end of 2024, thanks to a decrease in claims and rigorous cost management.

The result of all this... A **record net profit** of **€289 million** for Belfius Insurance. This confirms more than ever that combining banking and insurance makes perfect sense.

Being there for the customer. Always, everywhere and on every channel

Belfius wants to be there when the customer needs us. Whether online, by telephone or in person. The results of the 'Always-on' action plan show that Belfius delivered on this promise once again in 2025.

The **Belfius app** is at the heart of customer relations, with 2.2 million active users who log in up to 41 times a month. Satisfaction rating: 98%. Since mid-2025, the app has been completely free, including abroad. Thanks to the partnership with Firsty, Belfius customers can use their app free of roaming charges in more than 160 countries.

More and more customers are combining the convenience of digital technology with personalised contact. In 2025, **298,888 customers** scheduled an appointment online, 20% more than the previous year. Branches are also open, with no appointment required.

All urban branches are freely accessible at least five half-days per week. The others are open at least two half-days per week. With 473 branches, Belfius still has one of the largest networks in Belgium.

Belfius Connect handled 925,000 calls in 2025, ensuring constant accessibility even though the number of calls and reports of fraud increased.

In addition to the callback feature, customers can now launch an asynchronous chat with an operator outside business hours. The **Belfius chatbot** answers an average of 59,000 questions per month.

92% of customers in the Retail and Personal Banking segments state that they are **satisfied to very satisfied** with the ease with which they manage their **banking transactions**.

Belfius also remains available to those with more limited resources. The bank offers a free current account and supports 164,543 **social accounts**. 64,500 customers can enjoy **basic banking services**. 64,500 reasons to keep going.

Satisfied customers, rigorous financial and risk management and thoughtful diversification form the pillars of our stability and solid results

Satisfied customers, a solid bank-insurer, excellent results. In 2025, Belfius came full circle once again.

Consolidated net profit amounted to **€1.160 billion**, up 3% on the end of 2024. With the exception of 2020 due to COVID, Belfius has recorded growth for the 14th consecutive year.

Belfius Bank has contributed €872 million to this total. **Belfius Insurance's** share rose sharply to €289 million, representing 25% of the total consolidated net profit. The importance of insurance in these results demonstrates the strength of the diversified bank-insurer model.

This result also benefits Belgium. In 2025, a total of 945 million euro was paid out in **dividends**: 445 million euro as a dividend on the result of the 2024 financial year, supplemented by an extraordinary dividend of 250 million euro from available reserves and an interim dividend of 250 million euro. For the 2025 financial year, Belfius will pay out a dividend of 454.6 million euro¹, of which an interim dividend of 250 million euro has already been paid. With a **tax contribution**² of €817 million, Belfius made a further significant contribution to the Belgian State.

Belfius continues to invest in talent and technology, even when inflation puts pressure on labour costs. Thanks to steadily rising incomes (+1%) and ongoing efficiency efforts, **costs** remain under control at €1.845 billion (+0.6%). The **cost-to-income ratio** stands at 43%, virtually unchanged from last year, despite the increase in bank taxes.

The quality of the loan portfolio remains a top priority. Despite a 5.4% increase in the number of bankruptcies, the **total cost of credit risk** fell by 40% to €80 million (net provision). However, Belfius anticipates possible impairments in certain high-risk sectors, such as construction and industry in Belgium. Provisions for non-performing loans (phase 3) amounted to €186.6 million (compared with €249.3 million in 2024), to which was added a net reversal of €106.3 million on substandard loans (phases 1 and 2).

Belfius is and remains a very solid bank-insurer. The **CET1 ratio** stands at 15.9%, up slightly from 2024, mainly due to a decrease in total risk exposure to €72.1 billion (compared to €75.2 billion at the end of 2024), due to the entry into force of CRR3³. **Shareholder equity** increased to €12.5 billion.

Liquidity confirms this solidity: an **LCR ratio** of 144% and **liquidity reserves** of €51.9 billion.

And Belfius Insurance's **Solvency II ratio** reached an excellent level of 201% (+5%), driven by strong Life production and good Non-Life performance.

¹ Subject to approval by the General Meeting

² Corporate tax, sectoral taxes, non-deductible VAT and others.

³ CRR3: the third revision of the European Regulation on capital requirements, in force since 1 January 2025.

When I embarked on this adventure in 2012, Belfius had everything to prove. At the time, I said that our future was in our own hands. Not everyone was convinced. But we dared to dream. Dream big. About a bank-insurer that would really make a difference. Today, 14 years later, I look at what we have built together... and it touches me deeply. A brand that is as solid as a rock. A unique connection with millions of customers: families who entrust us with their savings, entrepreneurs who come to us to make their dreams come true, hospitals, schools and municipalities who rely on us to finance their future. And that is the greatest success for a bank-insurer.

The exceptional results for 2025 confirm what I have always believed: putting the customer at the heart of business means choosing growth. Not the other way round. With a comprehensive offer, from savings and investments to loans and insurance, we remain a reliable partner, even in a complex world. Our employees demonstrate this every day, with passion, expertise and proximity. Driven by a corporate culture and values that I am incredibly proud of.

2025 was a very special year for me. I am preparing to take on a new role as Chairman of the Board of Directors, and I do so with immense pride in everything we have achieved together. With gratitude to every customer and every employee who has contributed to making Belfius what it is today. To every agent who remains close to the customers day after day. And with complete confidence in Olivier Onclin and his team to not only continue this momentum, but also to strengthen it.

For I am convinced that Belfius's best years are still ahead of us.

Marc Raisière | CEO

In a world where economic winds can sometimes blow strongly, Belfius has remained a solid anchor for the Belgian economy and society in recent years. The fact that we continued to fulfil this role with conviction in 2025 is the result of a clear long-term strategy, supported by a strict and prudent financial and risk management policy.

Thanks to these solid foundations, we were able to pay a record total dividend of €704.6 million for 2025. At the same time, we will continue to invest the remainder of our profits in a targeted manner to benefit all segments of the Belgian economy and society, in keeping with our tradition.

After five years at the head of this exceptional company, I can say that, as Chairman of the Board of Directors, I am particularly proud today. Not only of Belfius's ever-increasing ability to fulfil its societal role. But also of its policy, which creates value today and tomorrow, for Belfius and for Belgium as a whole.

I therefore look to the future of Belfius with complete confidence and deep gratitude. This future is in good hands: those of committed and talented employees, managers and directors. Their dedication is the real capital on which Belfius can continue to build.

Chris Sunt | CHAIRMAN OF THE BOARD OF DIRECTORS

1. 2030 Strategy of Belfius Bank SA/NV

In Section 7 'Belfius Bank SA/NV', subsection 7.10 'Other Information', paragraph 'Recent events', on page 63, the following paragraphs on the 2030 strategy of Belfius Bank SA/NV should be added before the last paragraph:

On 30 March 2026, Belfius Bank NV/SA presented its strategic plan for the period 2026–2030 ("Unlock 2030"), built around a new corporate purpose: "Unlocking potential with optimism."

Audited Financial results and targets. Belfius reported a net profit of €1.16 billion for financial year 2025, with a CET1 ratio of 15.9 %. The Bank targets a pre-tax result exceeding €2 billion by 2030. The insurance segment (net result of €289 million in 2025, representing approximately 25% of Group results) targets a pre-tax result exceeding €500 million by 2030.

Financial plan and investment. The 2026–2030 financial plan rests on three sequential pillars. First, resilience: risk management and capital buffers capable of absorbing shocks, solid capital and strengthened liquidity positions, active protection against extreme scenarios. Operational resilience will be also an important focus. Second, investment: €1.2 billion over five years in technology, cybersecurity — not a cost, but a lever for growth. Third, diversification: accelerated growth in Private Banking and insurance, and for the first time a selective international dimension, subject to the same capital discipline applied to domestic activities.

Capital opening. In support of the above strategy, Belfius' shareholder has announced its intention to sell a maximum of 20% of Belfius' capital via a private placement to one or more long-term strategic investors, selected on the basis of alignment with the Bank's strategy. This is not a purely financial transaction but a strategic choice, underpinned by three commitments: maintaining a solid capital position, investing to preserve the Bank's competitive advantage, and accelerating diversification.

International expansion. Belfius is expanding its activities beyond Belgium for the first time. In Corporate Banking, the Bank will establish a dedicated International Desk, operating from Belgium with local market expertise covering France, the Netherlands, Germany and Luxembourg — markets in which more than 80% of its internationally active corporate clients already operate. In the insurance segment, Belfius Direct Insurance intends to leverage its digital subscription model — ranked first worldwide for digital customer experience in underwriting by Sia Partners across a review of 110 insurers — to progressively export its model to neighbouring markets, where digital penetration in insurance remains significantly below Belgian levels (France: 10%, Germany: 11%, Netherlands: 30%).

Management changes. With effect from 29 April 2026, subject to approval of the general assembly, the following changes to the Management Board will take effect: Olivier Onclin appointed as Chief Executive Officer of Belfius Bank; Matthias Baillieul as Executive Director People & Corporate Affairs; Mario De Vry as Executive Director Wholesale & Public Banking; Bram Somers as Chief Technology & Operations Officer. The other members of the management team remain in their current functions. The Management Board will therefore be composed as from 29 April 2026 of Olivier Onclin, Hedi Ben Mahmoud, Matthias Baillieul, Mario De Vry, Marianne Collin, Dirk Gyselincx and Bram Somers.
