Features that are part of the standard service for BelfiusWeb

The applicant shall inform the User about this application and the features at his disposal:

The following features are part of this standard service:

1. **Consult Treasury and savings accounts**, and introduction of transactions (except social accounts)
2. **Detail overall entries** in history and account information (included the hide of the history of salaries – SALA)
3. **Overall statements**. This functionality displays the individual and overall balance of a certain group of accounts. Users who have access to this functionality are able to view contents of all overall statements, regardless of the account to which they have access.
4. **Debit Cards** : View summary of transactions
5. **Deposit Cards** : View summary of transactions
6. **Reporting PaPyRuS** : Account statements (separate PaPyRuS agreement required)
7. **Reporting Account information** : Detailed and extensive account information and producing personalized reports
8. **Requesting and consulting certificates**. The following certificates are at issue: "Name of the account", "Public tender", "Balance of an account" (for each of the accessible accounts via the User's subscription).
9. **Alerts and messages**: Creation and management of personalized alerts about banking products.
10. **BelfiusWeb App** : Access to BelfiusWeb App

For all other questions concerning BelfiusWeb (personalised access, extension or replacement of existing access), please refer to the extended version of the Configuration Form in BelfiusWeb.

You can consult Terms & Conditions of BelfiusWeb on www.belfius.be.
